CHARTER.

AN ACT

Incorporating the Woman's Hospital of Philadelphia.

SEC. 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met; and it is hereby enacted by the authority of the same,

That Thomas Brainerd, D. D., M. W. Baldwin, C. D. Cleveland, Ferdinand J. Dreer, Morris L. Hallowell, T. Morris Perot, Philip M. Price, Mrs. Anne D. Morrison, Mrs. Thomas L. Kane, Mrs. Richard G. Stotesbury, Mrs. Caroline R. Yarnall, Mrs. Maria W. Horton, Mrs. Emeline H. Cleveland, Mrs. Thomas Wood, Mrs. Rebecca L. Fussell, Miss Ann Preston, Miss Anna Wharton, Miss Anna Hallowell, Miss Elizabeth Dorsey, Joseph Jeanes, Marmaduke Moore, Wm. S. Pierce, Isaac Barton, Samuel Jeanes, Redwood F. Warner, Edwin Fussell, Mrs. John C. Cresson, Mrs. J. R. Price, Mrs. George H. Stuart, Mrs. Thomas Halloway, Mrs. David Milne, Mrs. Elizabeth W. Lippincott, Mrs. Martha G. Richardson, Mrs. Susan M. Parrish, Mrs. Martha A. Warner, Mrs. Jane Sill, Mrs. Thomas H. Powers, Mrs. Commodore Read, and their associates and successors be, and the same are hereby created and erected into one body, politic and corporate in deed and in law, by the name, style, and title of The Woman's Hospital of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to take, purchase, hold and receive

to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality; real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever, capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use and benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomer of said Corporation, or their successors, shall defeat or annul any gift, grant, devise or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of said Corporation shall be to establish in the City of Philadelphia a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses; the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars, or more, in one payment; or not less than one dollar, prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death, resignation, removal, or inattention to the duties as Managers; to make By-Laws for its government, and for the management of the Hospital, the safe keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a board of advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital. Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

SEC. 11. The following named persons shall be the Managers of the said corporation until their successors are appointed, and shall divide themselves into three classes, to serve respectively, until the first, second and third annual meetings of the said Corporation:—Mrs. Anne D. Morrison, Mrs. Thomas L. Kane, Mrs. Richard G. Stotesbury, Mrs. Caroline R. Yarnall, Mrs. John C. Cresson, Mrs. J. R. Price, Mrs. George H. Stuart, Mrs. Thos. Halloway, Mrs. David Milne, Mrs. Elizabeth W. Lippincott, Mrs. Martha G. Richardson, Mrs. Commodore Read, Mrs. Maria W. Horton, Mrs. Emeline H. Cleveland, Mrs. Thomas Wood, Mrs. Rebecca L. Fussell, Mrs. Susan M. Parrish, Mrs. Martha A. Warner, Mrs. Jane Sill, Mrs. Thomas H. Powers, Miss Ann Preston, Miss Anna Wharton, Miss Anna Hallowell, Miss Elizabeth Dorsey.

SEC. 12. And be it further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinbefore provided for, shall be regulated by the By-Laws and ordinances of the said Corporation,

hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with, the Constitution or Laws of the United States, or of this Commonwealth.

Signed, ELISHA W. DAVIS,
Speaker of the House of Representatives.
ROBERT M. PALMER,
Speaker of the Senate.

Approved the 22d day of March, A. D. 1861.

A. G. CURTIN.

OFFICE OF THE SECRETARY OF THE COMMONWEALTH,
Harrisburg, April 2nd, A. D., 1861.

I do hereby certify that the foregoing and annexed, is a full, true and correct copy of the original Act of the General Assembly entitled An act incorporating the Woman's Hospital of Philadelphia, as the same remains on file in this office.

In testimony whereof I have hereunto set my hand,
[SEAL.] and caused the seal of the Secretary's office to be affixed, the day and year above written.

SAMUEL B. MUNAS,
Deputy Secretary of the Commonwealth.

BY-LAWS.

ART. I.

Stated meetings of the Managers shall be held on the first Thursday of each month, at such place and hour as they may from time to time designate.

ART. II.

Special meetings of the Managers, shall be called by the Secretary, or, in her absence, by some other member of the Board at the request of the President or of any four Managers.

ART. III.

Five members shall constitute a quorum for transacting business.

ART. IV.

The order of business at the stated meetings shall be:

1. Minutes of the preceding meeting.
2. Reports of Committees and Officers.
3. Unfinished business, new business and adjournment.

ART. V.

The President, and in her absence one of the Vice-Presidents or President pro tem., shall preside at the meetings of the Board, preserve order, and see that the officers perform their duties; and all drafts upon the Treasurer, approved by the Managers, shall be signed by the presiding officer of the meeting at which they have been passed.

ART. VI.

The Secretary shall keep correct minutes of the proceedings of the Managers, and of the Corporation, give due notice of the time and place of all meetings, and countersign all drafts on the Treasurer.

ART. VII.

The Treasurer shall take charge of all moneys belonging to the Corporation not otherwise ordered by the Board, and shall deposit them in such Institutions, or invest them in such way as the Board may direct, and shall make no payments except by its order. She shall also keep a list of the contributors

and an accurate account of the income and disbursements of the Institution; shall exhibit a report to the Annual Meeting, and whenever desired by the Board, and give bond for the faithful performance of her trust.

ART. VIII.

Any Manager who shall absent herself from the meetings of the Board for four consecutive months without some satisfactory excuse, shall be considered as having resigned her place, and the Board shall proceed to elect a new member to fill the vacancy.

ART. IX.

The Managers shall appoint annually Committees on the House, on Purchases, on Collections, on the Admission of patients, and on such other subjects as may hereafter be found needful.

ART. X.

The Medical Department shall be under the direction of a Medical Board, consisting of the Chief Resident Physician, and of four or more consulting Physicians residing outside of the Institution, all of whom shall be appointed annually.

ART. XI.

It shall be the duty of the Resident Physician to keep or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient, the time of leaving, the effect of treatment, and other important details; also a record of Dispensary patients, and of those treated at their homes.

ART. XII.

The house is designed for respectable persons; those who are unable to pay will be received and treated gratuitously; while others will be charged such prices as may be agreed upon in each case—ranging from one to eight dollars per week.

ART. XIII.

Patients received free of charge shall be divided into five classes, as follows:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board, or an authorized Committee.

2. Obstetric patients, who shall be admitted not more than a week before the expected time of confinement, and whose time of residence shall be limited to three weeks afterwards, except in special cases.

3. If the beds are not all occupied by patients of the first or second classes, then, patients, women and children sick with ordinary non-contagious diseases, shall be admitted for a period not exceeding six weeks, except by special action in each case.

4. Dispensary patients, non-residents at the Hospital, who shall visit the Institution at specified times, and be treated there, and furnished with medicines.

5. Clinic Patients, unable to visit the Institution, to be treated at their own homes, and furnished with medicines from the Institution or otherwise. Attendance upon this class of patients to be optional with the Chief Resident Physician.

ART. XIV.

All patients will be required to comply strictly with the rules of the Institution.

ART. XV.

Contagious diseases shall be excluded from the Hospital.

ART. XVI.

Assistant Physicians and Students (*women*) may be admitted to board in the Institution, and shall perform such services as the Chief Resident Physician shall assign them. They shall pay $2.50 per week for board, (exclusive of washing) or be admitted by special agreement, upon such other conditions as may seem proper in particular cases.

ART. XVII.

Visiting Physicians and Students who shall not board in the Institution, may be permitted to visit it daily or less frequently, under such regulations as the Medical Board may establish. They shall be admitted by annual tickets, for which ten dollars shall be charged, or upon such other conditions as the Board in special cases may direct.

ART. XVIII.

Any alteration or amendment to these By-Laws may be made at any stated meeting, provided it shall have been proposed in writing at the previous meeting.

REPORT.

In accordance with their duties as indicated in the Charter, the Managers have proceeded in the organization of the Hospital.

A commodious building, in a healthy and beautiful location, on North College Avenue, opposite Girard College, was leased in October last, and it has been since partially furnished.

The first patient was admitted on the 16th of December.

There are as yet only five patients boarding in the House, but a daily Clinic and Dispensary are in operation, where from 9 to 10 A. M. patients unable to pay are prescribed for and furnished with medicines free of charge. About fifty persons have already availed themselves of this charity. In addition to this, under the direction of the Chief Resident Physician, a limited number of patients are visited and treated at their homes.

The funds for sustaining the Institution consist of individual donations and subscriptions; and while the amount at present secured will necessarily circumscribe this charity within narrow limits, the Board feel a conviction that the strong interest manifested in the enterprise will rapidly place additional means at their disposal.

They also hope to realize some income from such patients as may be able and willing to make pecuniary recompense for the benefits received from the Institution; and they believe that the accommodations and advantages are such as will furnish inducements to this class to enter.

The want of an appropriate retreat, where, without violence to their sensibilities, women suffering from curable diseases could be received and accommodated while under medical treatment, has long been painfully felt in this city. The intelligent ministrations of women are peculiarly needed in many of these cases, and the Managers trust that this Hospital will

furnish a desideratum which is not met by any other of our benevolent institutions.

Those even partially familiar with the scenes at many of our clinics are sadly aware that a large class of cases remains without any effectual remedy, solely because the sufferers cannot command rest, suitable food, and the soothing surroundings indispensable to the full success of medical appliances.

To all who are aware of these facts, and to those also who believe that educated and intelligent women are needed in relieving the sufferings and diseases of women, and that they are peculiarly fitted to aid in the task, the Managers appeal in confidence for the pecuniary aid needful to extend the benefactions of this Institution.

Donations and subscriptions may be sent directly to the Treasurer, Maria W. Horton, 320 South Fourth street, or through any of the Managers.

Contributions of household stores, delicacies for the sick, &c. may be left at the Hospital, or with any of the Managers.

The Board take this occasion to return their cordial thanks for donations of gas fixtures, furniture, bedding, clothing, household stores, books, medicines, &c. &c. to the following persons:

Redwood F. Warner,
Hannah W. Richardson,
Rebecca White,
Eliza Pennock,
Susan Boss,
Mrs. Capt. Turley,
Mrs. Crowell,
G. W. Taylor,
E. W. Lippincott,
Nathan Ellis,

MATRON,

REBECCA F. TRIMBLE.

REPORT.

The Managers of the Woman's Hospital of Philadelphia, in presenting their Second Annual Report, cannot but congratulate its friends upon the successful termination of the first year of the organized existence of the Institution.

At the issuing of their first Report, Jan. 1862, the Hospital had just been opened in a hired house on North College Avenue, in a retired but beautiful location. The same, and a similar adjoining house, situated upon lots one hundred and fifty feet deep, and measuring together two hundred and twenty-four feet in front, have since been purchased by the Board, and have been made to communicate upon their second and third floors, thus forming a large and very commodious building.

A year's experience has proved the situation not only delightful, but very healthful. No sickness has originated in the house, and the salubrity of the air, and the pleasant surroundings, have seemed to conduce in no small degree to the recovery of those who have become inmates of its wards.

The ground rent upon one of the lots has been cancelled, in part by subscriptions for the purpose, in part by a loan of the Philadelphia Savings Fund. The other ground rent has been purchased by a friend of the Hospital, who holds the Institution accountable but for the small sum of fifty dollars annually, only one-eighth of the former rent.

Certain rooms upon the first floor of the building last opened to the Hospital, have been rented to the Female Medical College of Pennsylvania, and arranged as lecture rooms, Museum and Laboratory for that Institution.

A course of lectures there is now in progress, and several members of the class are boarding in the Hospital, thus securing no inconsiderable opportunities for practical observation in connection with their instruction in the theory and art of medicine.

It was one of the important objects in the foundation of this Institution, to furnish improved facilities for the training of a superior class of *nurses*. Although but little has yet been done in this department, yet the need of such is so vital, and so deeply felt in the community, that we cannot but earnestly hope the time is near when many intelligent, benevolent, and conscientious women will be educated for this responsible office; as a profession scarcely second in importance to that of the physician.

Sixty-two patients have been received as inmates of the house during the year; twenty-five of these were obstetrical cases, twenty-four medical, and thirteen surgical. Forty-one have been discharged well, six improved, five not benefitted, and two not treated. Three have died, and five remain in the house.

The mean term of residence has been five weeks.

Ten patients, have paid in part or in full for their board and treatment.

The nativity of house-patients has been as follows:

American . . .	22
Irish	31
English . . .	4
German . . .	3
Colored	2

Their civil state:

Married	27
Widows	12
Single Women	16
Children	7

Eleven hundred and forty-two persons have been treated in the Dispensary and furnished with Medicines.

Besides these, two hundred and thirteen have been visited and treated gratuitously at their own homes.

Nativity of Clinic and Dispensary patients:

American	999
Irish	249
English	51
German	33
Colored	11
Welsh	6
Scotch	5
French	1

Their civil state:

Married	451
Widows	129
Single Women	175
Children	600

2933 Prescriptions have been furnished to Dispensary and out-door patients.

Thirty-three vaccinations have been performed.

Although a few patients have been able to make compensating returns for their accommodations, yet the Institution is still almost entirely dependent for its support upon the beneficence of its friends. A few only of our subscribers have been obliged to discontinue their aid in consequence of the pressure of the times, and a number of new subscriptions has been obtained.

We cannot but regard it as a proof of the strong conviction in the minds of good men and women, of the great necessity for this Institution, and as an evidence of a guiding Providence in the movement, that at a time when public sorrow and pecuniary embarrassment have rested so heavily upon the community, means have been so generously furnished to purchase our building, and initiate successfully the benevolent enterprise for which we are organized.

We close the year with feelings of deep gratitude to that divine Providence who, thus far, has so greatly blessed our efforts; and with increased confidence, we appeal to our fellow-citizens for the means of extending the usefulness, and accomplishing the beneficent objects of this Institution.

MARTHA ANN WARNER, *Treasurer, pro tem., in account with*
THE WOMAN'S HOSPITAL OF PHILADELPHIA.

REPORT.

THE Managers of the Woman's Hospital of Philadelphia, in making their Fourth Annual Report, are glad to be able to inform the contributors that the property of the Institution is no longer encumbered with debt.

The sum of twenty-seven hundred dollars, due at the date of last report, has been liquidated by special contributions for the purpose; and in addition to this, the title to one of the hospital lots which, at the beginning of the year, was held by a generous friend of the cause, has been presented to the Institution.

The available means, however, for meeting the current expenditures of the year have been limited, and the cost of living has compelled the Board, in some cases, to refuse the application of suitable objects of charity.

The proportion of persons paying for accommodations and treatment in the Institution has been increased.

Eighty-six patients have been received into the house during the year, to which should be added nine remaining at the date of last report, making ninety-five in all. Of these, fifty-eight have been discharged well, twenty-five improved, two not benefited, three were incurable, and one, an infant, with cholera infantum, died. Six remain in the hospital.

In addition to these, forty children born in the house have been discharged in good condition.

The nativity of house patients is—

American,	47
Irish,	30
English,	8
Scotch,	2
Welsh,	1
Canadian,	2
German,	5

Their civil state—

Married,	44
Unmarried,	27
Widows,	15
Children,	9

Besides the foregoing, twelve hundred and twenty-four persons have been prescribed for in the Dispensary and furnished with medicines free of charge,—and three hundred and twenty-one others have been gratuitously attended at their own homes.

The nativity of the patients treated in the Dispensary and at their homes is as follows:—

American,	1138
Irish,	281
German,	67
English,	49
Scotch,	5
Welsh,	1
French,	1
Swedish,	1
Canadian,	2

Their civil state—

Married,	510
Unmarried,	155
Widows,	141
Children,	739

3,390 gratuitous prescriptions have been given.

The garden and grounds, under the efficient care bestowed upon them, have increased in productiveness and beauty. A fine supply of excellent vegetables—enough of several kinds for household consumption, together with a considerable amount of small fruit, has been raised.

In the house, among other improvements, an excellent Range, with increased facilities for securing a supply of hot water, adds much to the effectiveness of the general arrangements.

Apparatus and facilities for systematic physical exercises, both passive and active, have been added to the remedial appliances of the Hospital during the year.

The Managers feel the importance of uniting with those in immediate charge of the house in endeavors to secure still further to the patients those sanitary improvements, and comfortable and pleasant surroundings, which enlightened experience has proved to be among the most important means of healing, and necessary to the full success of other therapeutical agencies.

The gratitude of some of the inmates of the Hospital, and their appreciation of the value of an Institution where they are skilfully treated and kindly attended by sympathizing women, have sometimes been very touching as well as cheering to those laboring for its success.

Eleven students of the Female Medical College of Pennsylvania are boarding in the Hospital and profiting by its clinical advantages; two of these have been residents of the house during the whole year. Students of the college boarding elsewhere are also admitted to the hospital clinics.

Only one thoroughly qualified nurse has left the Institution to follow her profession in the community, but several others have been in the house part of the year as novitiates in this department. That fine combination of qualities, however,—that union of judgment, kindliness, tact, and efficiency, which marks the accomplished nurse, is not always to be found in applicants for this position, nor is it certain that society, as yet, duly appreciates and honors this responsible calling. But while the Managers are not able to report the progress they could desire in this direction, they are yet so thoroughly impressed with its importance, that they feel bound to continue their own labors, and to strive to excite the efforts of others, to secure to the community the blessing of a band of high-toned and well-trained nurses.

In conclusion, the Managers would tender their grateful acknowledgments to all whose open hands and hearts have enabled them to prosecute their important work—to those whose names for the first time grace their subscription list, as well as to those who from the beginning have upborne the Institution and cause amid all difficulties.

Every gift of money, clothing, or little comfort for the sick, bears with it a blessing to some needy one; and for those who, single-hearted, give their offerings to suffering humanity, is pronounced that Divine benediction, "Inasmuch as ye have done it unto one of the least of these, ye have done it unto me."

M. A. WARNER, *Treasurer, in account with the* WOMAN'S HOSPITAL OF PHILADELPHIA. 1 month 19th, 1865.

Anna W. Maylin, "*Memoir of Joseph Curtis,*" "*Annals of the Poor.*"
Isaac Barton, "*Archives Générales de Médicine.*"
Sarah Pugh, furniture.
Friends, *Appliances for physical exercises, etc.*
Elizabeth Moore, corn husks for beds.
Rosanna Bruner, " "
Frederick Zaiss, matches.
Wm. Ellis, kindling-wood.
Thomas Cunningham, bottles for Dispensary use.
A lady, hall and stair carpeting.
Sarah Pearson, socks, etc.
Geo. W. Warner, corn meal.
Phebe D. Preston, butter.
Megarge & Co., paper.
John Felton, raspberry bushes.
A. L. Gray, currant bushes.
A. Haas, garden plants.
Ridge Avenue R. R. Co., complimentary tickets.

FORM OF A BEQUEST OF PERSONAL ESTATE.

I give and bequeath to the Woman's Hospital of Philadelphia, the sum of——— dollars, towards promoting the objects of said Institution.

FORM OF A BEQUEST OF REAL ESTATE.

I give and devise to the Woman's Hospital of Philadelphia, all that, (here describe the property,) together with the appurtenances, to hold to the said Woman's Hospital of Philadelphia, for ever, for them to dispose of and convey in any manner which will promote the objects of said Institution.

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

This Institution is located on elevated ground in the immediate vicinity of Girard College, and near to the Ridge Avenue Railway, which renders it of easy access from all parts of town.

Its Dispensary Department is open daily from 9 to 10 A.M., for the benefit of poor women and children, who are furnished with advice and medicines free of charge.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week—as may be agreed upon in each particular case.

Patients may also be accommodated with private and well furnished rooms, and provided with attendance and nursing, at prices varying from six to twelve dollars per week.

REPORT.

More than four years have elapsed since this Hospi.. was organized, and the Managers issue their Annual Report with clearer conceptions of the good it may accomplish, and also of the difficulties that must be met, than they have heretofore possessed.

The operations of the Institution, outside of the house, have been somewhat extended during the past year. Twenty-one hundred and twenty-seven patients have been treated in the various departments—a larger number than in any former period.

Seventy-eight patients have been received into the house, and six remained at the date of last Report, making eighty-four in all.

Of these, fifty-four have been discharged well, eighteen improved, two not benefited, and ten remained at the close of the year. The nativity of house patients is—

American,	49
Irish,	26
English,	5
German,	1
Scottish,	1
Welsh,	1
Norwegian,	1

Their civil state—

Married,	53
Unmarried,	16
Widows,	14
Children,	1

There have been forty-one births in the house during the year.

Fifteen hundred and thirty-eight patients have been prescribed for in the Dispensary, and furnished with medicines free of charge; and five hundred and five have been gratuitously attended at their own homes. The nativity of these patients is—

American,	1512
Irish,	396
English,	51
German,	68
Scotch,	11
Welsh,	2
Canadian,	2
French,	1
	2043

Their civil state—

Married,	699
Unmarried,	234
Widows,	218
Children,	892
	2043

The objects of the Hospital, as indicated in its charter, are—

1st. The treatment of diseases of women and children, and for obstetrical cases.

2d. To furnish facilities for clinical instruction to women engaged in the study of medicine, and—

3d. The practical training of nurses.

In the first department, the Managers have found much to cheer them in the working of the Institution. They have seen some women sick, and apparently sinking under fatal disorders, too poor to secure the comforts indispensable to recovery, and sensitively shrinking from the almshouse, restored to health and active duty through the fostering care of this Hospital; and although limited means have sometimes made it a painful necessity to discriminate in favor of applicants who could make compensation for the ad-

vantages received, yet the managers rejoice that the blessings of some who were ready to perish, have fallen upon this Institution.

In regard to the second object, the results have been truly gratifying. Three or four students of the Female Medical College of Pennsylvania, have resided in the house during the whole year, and since the commencement of the college lectures in October, ten students have boarded in the Hospital, and all the members of the class have had access to the Dispensary.

The clinic, in addition to the relief administered to the sick and suffering, affords invaluable opportunities to students to acquire familiarity with the symptoms of disease, mode of treatment and results; and in view of the fact that the Hospitals and clinics of this city have not yet afforded to medical women the facilities for observing practice which the student requires, and which enlightened corporations and practitioners in New York have accorded to them; and in view, also, of the wide-spread and extending demand for well educated and fully qualified ladies as practitioners, the Managers feel that this Institution meets, to a considerable extent, a great and imperative need.

A desire to place the Hospital upon such a pecuniary basis as shall give stability and greater efficiency to its operations, has induced efforts to secure to it an endowment. More than nine thousand dollars have already been received for this purpose; and looking at the importance of the objects of the Institution, and the fact that this is the only one of the kind in this city and state, the Managers earnestly hope that donations, commensurate with the requirements of the case, will be received.

In this advanced age, enlightened men and women are more and more realizing that the suffering and the needy have claims upon them, not as distant objects of a different class, but as members of a common Father's household to whom they owe protection; and that, in giving for these, they are not only lending to the Lord, but aiding that fraternal band, whose health and happiness shall be reflected upon their own lives.

M. A. WARNER, *Treasurer, in account with the* WOMAN'S HOSPITAL OF PHILADELPHIA. 1 month, 19th, 1866.

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

This institution is located on elevated ground in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the town.

Its Dispensary Department is open daily from 9 to 10 A.M., for the benefit of poor women and children, who are furnished with advice and medicines free of charge.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week—as may be agreed upon in each particular case.

Patients may also be accommodated with private and well furnished rooms, and provided with attendance and nursing, at prices varying from six to twelve dollars per week.

SIXTH ANNUAL REPORT

OF THE

Board of Managers

OF

THE WOMAN'S HOSPITAL
OF PHILADELPHIA,

NORTH-COLLEGE AVENUE AND TWENTY-SECOND STREET,
(NORTH OF GIRARD COLLEGE.)

JANUARY, 1867.

PHILADELPHIA:
THOMAS WILLIAM STUCKEY, PRINTER,
624 WEAVER STREET.

REPORT.

The accompanying Report of the resident Physician of the Hospital gives all needful information in regard to the Medical Department.

More than six years ago, without a house or capital, the Managers of the Hospital took the first steps for its organization, strong only in the conviction of its urgent necessity, and in the faith that an Institution so imperatively needed would commend itself to the sympathy of the benevolent and rightly-judging, and would secure the means for sustaining its operations. The result so far has more than justified these expectations.

Through the earnest and unwearied exertions of a few active workers, not only has the valuable property of the Hospital been paid for, but thirteen thousand dollars have been secured to the endowment fund, nearly four thousand of this since the date of last Report.

This generous opening of hearts and purses has not only enabled the Managers to continue their work, but it has also strengthened their spirits and

renewed their confidence in that Divine Power who permits no earnest effort for the good of humanity to be made in vain. Some have contributed of their abundance, and valuable donations of clothing and other articles have been given by generous co-workers who could not bestow large gifts of money.

A few hundred dollars have been received during the year from patients able to make remuneration for board in the house; but others without money, whose best claim has been their urgent necessities, have been received with as kind a welcome; and it is believed that the influence of the Institution tends to foster in the young lady students, and others connected with it, that reverence for humanity, irrespective of persons, which gives moral beauty to the character of the physician, and every where makes kindness and courtesy an easy and habitual manifestation.

The number of ladies, students of the Female Medical College of Pennsylvania, anxious to reside in the house, as a means of becoming familiar with diseases and the action of remedies, is greater than can be received; and in extending the resources of the Hospital, and increasing the number of the recipients of its bounty, larger opportunities for observation and experience are at the same time secured to these medical students.

In taking their annual retrospect, the Managers pause by the vacant chair which was filled a year

ago by their honored President, Anne D. Morrison; and they would do injustice to themselves if they did not here pay a passing tribute to her memory. Active in the first organization of the Hospital, and always interested in its success, her originality, directness, force, and nobleness of character made her a valued and influential member of the Board, and the distinctness of her individuality gave a peculiar interest to our meetings.

This lamented friend is not the only efficient supporter of the Institution, who, within the past year, has put off the body, and become to the members of the Board a fresh link with the invisible and spiritual world; and among these it seems proper to mention the name of one who at the first organization of the Hospital proffered a house for its uses, and whose broad sympathies and generous donations have since aided in its work—John P. Crozer, of Upland, Pennsylvania.

These, and others, have gone, but the work is still binding upon those who remain; and deeply grateful for all the aid which from time to time has been given, the Managers would renew their appeal for the means to extend the operations of the Institution, so as to make it in some degree commensurate with the important objects for which it was organized.

REPORT

OF THE

RESIDENT PHYSICIAN.

To the Managers of the Woman's Hospital:—

LADIES:—In submitting the following tabular statement, I would call your attention to the fact that the total number of patients, enjoying the care of the Hospital, has been increased during the year by three hundred and nineteen. The number received, as resident, has been less by two than during the twelve months preceding. The increase has been in the Dispensary department, which numbers four hundred and forty-eight in excess of last year. This has been in part at the expense of the out-door clinic, which we were obliged to limit during the summer, in consequence of insufficient assistance, by demanding the attendance at the Dispensary of all patients at all able to leave their homes.

In admitting patients, we have felt constrained in some instances to violate our rules in reference to incurable cases, and have received several with the hope only of making their lives for a few months or years more comfortable. This hope has generally been realized, while it has been sometimes our sorrow to return the patients to their friends without improvement. Notwithstanding this, we have in general felt satisfied with the results of treatment. In the lying-in department, especially, have we had repeated occasion to congratulate ourselves upon the successful warding-off of threatened complications. But one patient has been seriously ill in this department.

The number of obstetrical cases might have been greatly increased, but for our regulations excluding unmarried women. Frequent appeals have been made to us by such individuals or their friends,—appeals which have sometimes moved us to deepest sorrow. Members of respectable families, women not wholly lost to virtue, as well as many of a baser sort, have besought our pitying charity. All such have been refused, except in two or three instances, where the claims of immediate suffering have seemed paramount to prudential considerations.

The three deaths reported took place early in the year: the first, from pneumonia complicating phthisis; the second, from pyæmia following a grave operation; and the third, from pneumonia coming on after parturition, resulting from exposure preceding the admission of the patient into the hospital.

Among the out-door patients a few deaths have occurred, mainly from cholera infantum. This disease, however, as well as the more pestilential Asiatic cholera, did not prevail extensively in our section of the city.

Grateful acknowledgments are due to the Board of Consulting Physicians, for the promptness with which they have responded to our calls for assistance, and the efficient aid they have rendered us.

E. H. CLEVELAND.

REPORT.

By reference to the annexed tabular statement it will be seen, that 3278 patients have been treated in the different departments of the Hospital since the date of last report,—523 more than in any year preceding.

Many of the cases received into the wards have been of much interest. The operation of Ovariotomy has again been successfully performed, and a large multilocular tumor removed from an interesting girl only sixteen years of age. She was sent to the Institution from western New York, by her medical adviser, and she left it, after a stay of two months, rejoicing in renewed life.

In September last, Mrs. E. H. Cleveland, M.D., who since the opening of the Hospital had been its efficient resident physician, resigned the post and removed to her own residence. Although the demands of her private practice made it necessary

for her to make this change, yet she is still associated with us, and as a manager and a member of the board of attending physicians, she continues to give the Institution the benefit of her knowledge and experience. Mary J. Scarlett, M.D., an experienced physician, has been appointed to the vacant place.

The number of ladies, students of medicine, admitted into the house as residents, within the past year has been limited to five. These assist in the medical labors of the Hospital under the immediate direction of the resident physician, and the harmony with which they have worked together, and the fidelity, kindness, and efficiency shown in the discharge of their duties, merit our cordial acknowledgments.

The morning Clinics in the Dispensary have been open daily, and are accessible, under proper regulations, to all the students of the Woman's Medical College. In addition to these, during a part of the year there have been four weekly clinical lectures, conducted by different members of the board of attending physicians.

In looking over the list of our "Advisers," we miss one who has been associated with us from the beginning, and whose zeal and faithfulness have been a strength to the Institution in all the strug-

gles of the past. The name of Isaac Barton needs no eulogium from us; but, when we recur to his simple, truthful character, and sit amid the mementos of his deep interest in this Institution, feelings reverent and tender are stirred, and claim a word of expression. His Library of more than 1100 volumes is now in our parlors, the books classified, and, in accordance with his will, made available to the students of the Woman's Medical College. The legacy of one thousand dollars, which he bequeathed to the Endowment Fund of the Hospital, has been added to its investments.

A few books have been purchased and added to the Medical Library since last report.

In starting on the work of another year, while we gratefully acknowledge that the Divine blessing has attended our efforts, and that there is cause for thankful rejoicing that so much has been accomplished, we yet feel that much remains to be done. It is our aim and hope to make the Woman's Hospital of Philadelphia a model Institution, complete in its hygienic arrangements, and in the appliances that can give comfort to the sick, and increase the possibilities of recovery. But to carry out plans of improvement, and to extend the usefulness of the Institution, more labor and money must be expended. We have been cramped for means during

the past year; without heavy donations from comparatively a few, the operations of the Hospital could not have been sustained, and, in closing, we must again appeal to those who sympathize in the work for the pecuniary aid necessary to extend and perfect it.

The Twentieth Annual Session will commence on Thursday, October 14th, 1869.

THE WOMAN'S HOSPITAL OF PHILADELPHIA.

This Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 9 to 10 A.M., for the benefit of poor women and children, who are furnished with advice and medicines free of charge.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twelve dollars per week.

REPORT.

In making their Ninth Annual Report the Managers of the Woman's Hospital of Philadelphia feel that they have continued cause for encouragement.

The accompanying statement from the Medical Department shows that two hundred more patients have been treated within the past year than in any one preceding, and that the percentage of House patients has been especially increased.

The importance of introducing into the Hospital a better system of ventilation engaged the attention of the Board early last spring, but there were no funds in the treasury that could be appropriated for this purpose. A special contribution, however, was made to defray the necessary expenses. Vaporizing pans, and troughs for bringing air from outside of the cellar, were affixed to the heaters, and the proper arrangements made in flues and wards for that continuous removal of vitiated air, as well as the introduction of pure, so essential to the best condition of the patients. The results are satisfactory.

Clinical lectures have been given two or three

times, weekly during the session of the Woman's Medical College, by different members of the medical staff of the Hospital.

Four resident students have been constantly in the House, assisting in the Dispensary, and in the other medical work belonging to the Hospital.

The house-keeping department has been conducted with efficiency, and much to the satisfaction of the Managers.

By reference to the annexed report of the Treasurer, it will be seen that $2000 have been added to the Endowment Fund of the Hospital within the year, the generous and timely donation of Isaiah V. Williamson.

Some of the patients, blessed with pecuniary means, have made compensation for the advantages received, but the larger number have been those whose poverty and suffering have been their only appeal for admission.

The estimated expense of each House patient is several hundred dollars annually, and there have been times during the year when the funds were so low that the Managers have not only been forced to refrain from some outlays which would have increased the efficiency of Hospital work, but they have found difficulty in providing for current expenses. Those exigencies have generally been met by members of the Board, who from their own purses have contributed from time to time the means imperatively needed.

The interest of the Endowment Fund and the Annual Subscriptions are entirely inadequate to meet the continually expanding work of the Institution. More patients ask for admission than can be received, and the Managers again appeal to those who sympathize in their efforts for further contributions in aid of this important charity.

Two Managers are appointed monthly, whose duty it is to visit the House and note the condition of the patients and wards as often, at least, as once a week; and in the performance of this work the different Members of the Board have often been exceedingly interested in the patients, and impressed anew with the importance of generously sustaining the Institution. Numbers of these patients have been persons of refined sensibilities, for some of whom there would, in all human probability, have been no effectual relief but for the timely shelter and treatment here received.

As an illustrative, but not peculiar instance, the Managers would cite the case of a widow diseased and broken down with the labors of teaching, entirely unable to pay for board and secure the comforts and medical attentions needed, who, accompanied by her little girl, found here the rest and effective treatment which have enabled her with renewed strength to resume her school duties.

Indeed, the evidences of the beneficent results of the work in which they are engaged, have often gladdened the hearts of the Managers, exciting emotions of gratitude, and anew confirming them in the sus-

taining faith that the blessing of Him whose divine strength upholds all right efforts is resting upon this Institution.

In closing this report the Managers recur to one, who for nine years has been their beloved associate, but whose place is now vacant forever. Anna G. Gilpin folded her hands and passed from mortal sight in the very midst of her active duties. She was diffident and retiring, but her labors were faithful and valuable, and her memory is a cherished possession to her associates.

Five members of the first Board of Managers have already accomplished their work on earth; and it is pleasant again to repeat the names of Elizabeth D. Read, Anna Wharton, Mary E. Nancrede, Anna D. Morrison and Anna G. Gilpin. They came to this beneficent work when it cost something to do so, and they are linked by sacred and beautiful associations with the success of the Woman's Hospital, of Philadelphia.

Report of the Resident Physician to the Managers of the Woman's Hospital.

The annexed tabular report for the year 1869 shows an increased number of patients in every department of the Hospital. Among these have been many cases of interest, not only in the wards and dispensary, but also among the patients visited at their homes. This last class of cases has been at-

tended principally by the resident students under the supervision of the proper medical officers. The objects of the Institution have thus been promoted, as the students have gained experience while relieving suffering, their kind care often eliciting warm expressions of thankfulness.

In the month of July an ovarian tumor was successfully removed from a woman forty-one years of age by Dr. Charles H. Thomas, attending surgeon then on duty. The patient, rejoicing in restored health, left for her home in six weeks after the operation.

Forty-two births have taken place in the House, and fifty women have been attended in confinement at their homes.

Five deaths have occurred in the Institution. Two of these were infants with cholera-infantum: one, a young woman 22 years of age, with puerperal convulsions beginning twenty-four hours after a natural and speedy labor. Examination revealed extensive organic disease of the kidneys; another, an aged woman, was brought into the House in a dying condition; and a young woman died of tetanus after an unsuccessful surgical operation.

An effort has been made to carry out the original design of training nurses. One educated and refined woman, after a few weeks' trial, found the work too arduous; another, who with faithfulness, has nearly served her time, can be recommended as an efficient nurse.

The Twenty-first Annual Session will commence on Thursday, October 13th, 1870.

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

This Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 8 to 9.30, A. M., for the benefit of poor women and children. Patients who are able to pay, will be charged a moderate sum for the medicines furnished.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twelve dollars per week.

REPORT.

In making their report for another year, the Managers of the Woman's Hospital of Philadelphia find little to chronicle that is new or striking. The important work of the Institution has quietly proceeded, suffering has been relieved, and the greater number of the patients admitted into the wards have been returned to their friends well, or much improved. A relative of one of these, in writing to a member of the Board, and alluding to the invalid, speaks the feeling of many others, when she says: "When I saw —— at the Woman's Hospital, the misery of her disease assuaged by medical skill, assiduous nursing, tender sympathy, and all material appliances, as fully as if she were a millionaire, how I wished that I could express my sense of the excellence of the Institution in a way that would extend its benificence to more sufferers."

The Hospital has happily escaped the spread of contagious disease. Early in the year, Variola was developed in a patient a few days after her admission, but prompt measures were taken for her isolation and subsequent removal, and we are thankful to say that no other case of contagious disease of any kind has occurred.

Four persons have died in the house. One of these, a case of Phthisis Pulmonalis, although not properly belonging to an Institution intended only for curable

cases, was admitted and retained under circumstances appealing especially to the humanity of those in charge. Another, a young woman of 23 years, sent from another institution, on account of some curable disorder, died suddenly the day after her admission, from Valvular disease of the heart. The third, aged 29, died of Cirrhosis of the liver; the fourth, a child of premature birth, survived but a few days.

Mary J. Scarlett, M. D., who for three years had faithfully performed the duties of Resident Physician of the Hospital, yielding to the demands of other duties and private practice, resigned the position in September, and removed to her own house. Her place has been filled by Mrs. E. J. Holcombe, M. D.

There have been four nurses and four medical students constantly in the service of the Institution. Of the former, one has occupied the position of *chief* nurse, and has assisted in instructing and training the others. Miss Harriet N. Philips, who for two years had performed the duties of this office with fidelity and acceptance, left the Hospital in November to engage in missionary labor among the Indians in Northwestern Wisconsin. The under nurses have remained respectively from three to six months, giving their services in compensation for that instruction and experience which should qualify them for the profession of nursing; and we begin already to see some realization of the hope strongly felt in the inception of the Institution, and expressed in some of the earlier reports, that it would bless the community by training and sending out a band of superior nurses.

The students have assisted as heretofore in the medical work of the hospital, especially in the Dispensary

and the out-door Clinic, thus supplying an urgent want of the Institution, while fitting themselves for their destined career. These have generally remained for periods of six months each. Without wishing to be invidious, we yet take pleasure in mentioning the name of one, Miss Sara C. Seward, M. D., a woman of rare accomplishments and untiring industry, who sought the advantages of the Hospital as a preparation for medical missionary work in India.

The domestic department, still under the care of our judicious and efficient Matron, has been carried on with great harmony and with entire satisfaction to all.

Improvements have been made in the Hospital building which greatly increase the ease and method with which the work of the Institution is effected. Occupying an elevated situation in a section of the city heretofore but poorly supplied with water, its own supply from the public works was limited to the first story, pumps and reservoirs being required for the upper stories. This difficulty has happily been overcome by the establishment of a communication with the new reservoir for the north-western section of the city, thus affording an adequate supply of an agent essential to the success of any hospital—water.

We gratefully acknowledge that through the kindness of several of our friends, the amount for paving North College Avenue was promptly furnished, a work so greatly needed for the comfort and convenience of the inmates and of those visiting our premises.

An addition of $1,700 has been made to the Endowment of the Hospital, by Wm. Bucknell, as a "Memorial Fund," of his deceased wife, M. C. Bucknell.

The sum of $5,000. donated by Mrs. J. P. Crozer, and mentioned in the last Report, has been appropriated to the furnishing and maintenance of two beds, and we trust the time is not distant when other contributions shall enable the Managers to enlarge the capacity of the Institution, so that it may be able more nearly to meet the demands of those who need its care.

We regret that failing health, or the heavy pressure of other labors, has caused the resignation of three long-tried and valued Managers—the efficient President, Mrs. R. G. Stotesbury, and that early and beloved co-worker, Maria W. Horton, together with a younger, but not less faithful Member of the Board. This severance from familiar associates is sad, but on those who remain the necessity for labor still rests, and they commence the new year with the hope and prayer that, Divinely blessed, their work shall be worthier and richer in results than it has been in the past.

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

This Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensay Department is open Daily, from 8 to 9.30, A.M., for the benefit of poor women and children. Patients who are able to pay, will be charged a moderate sum for the medicines furnished.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provi led with attendance and nursing, at prices varying from six to twelve dollars per week.

MATRON.

ELIZABETH RICE.

REPORT,

READ TO THE CONTRIBUTORS, JANUARY 16, 1873.

—o—

The expiration of another twelve months reminds the Managers of the Woman's Hospital of their accustomed duty, to present their Annual Report.

The year just closed has been one of marked satisfaction in the workings of the Institution. Harmony and order have prevailed in the various departments, and have contributed in no slight measure to the general efficiency.

The thanks of the Managers are due to the Resident and Assistant Physicians, and the members of the Attending Board, for their faithful efforts to promote the medical interests of the Institution; to the resident students who have enjoyed the blessing of giving while they have received; and to the Matron who has presided with her accustomed energy and discretion over all domestic concerns.

The increased number of resident patients, as shown by the Physician's report, has demanded additional outlay, while it has assured the Managers that the advantages of the Institution are being more and more appreciated. They have often had occasion to regret that worthy and suffering women must be refused admittance for want of sufficient accommodations.

A further step has been taken during the year, in realization of a cherished hope of the Managers, regarding the training of nurses An apartment has been fitted up as a nurses' kitchen, with arrangements for thorough practical instruction in the preparation of food for the sick. This has proved eminently satisfactory to those under instruction, while it has secured more prompt attention to the wants of the patients, and relieved the Matron of a great amount of responsible care.

During the Autumn a course of ten lectures was given by the Resident Physician to the nurses of the Hospital, and such others as chose to attend. It is proposed to have such

instruction continued in courses of greater or less length, at stated periods. The attention of intelligent women desiring to become nurses, is invited to this provision, while ladies, mothers of families or others, are here promised an amount and kind of information that would fit them for many an emergency, and perhaps even sometimes help them to hold back the hand of death.

Year by year the conviction of the Managers has become strengthened, that the supply of good nurses in this community is painfully inadequate and it has been a matter of surprise to them as it has been to others, that women in search of honorable and remunerative employment were not more frequently attracted to this avocation. It is their desire so to elevate the standard of attainments and qualifications in nurses as to make the vocation one of dignity and honor, not less than one of usefulness.

The Managers are indebted to Dr. R. J. Dodd of Montgomery County, for a timely and generous donation of five hundred dollars, in aid of their recent efforts, as well as the sum of eight thousand dollars subsequently given in the name of his deceased wife, Hannah Matilda Dodd, towards an endowment fund for this Department, "the interest accruing thereon to be exclusively used for the purpose of instructing and training women as nurses."

To our Endowment fund has been added three thousand ($3000) dollars, by a second donation from our generous friend I: V. Williamson.

In the retrospect of the year, and especially in this meeting to-day, the Managers are reminded of a former associate, Dr. Ann Preston, whose public labors closed with the last Annual meeting of contributors, and the reading of the last Annual Report. Lingering still for a few months in painful illness, she passed on to the higher life April 18, 1872. The present is no time for historic mention or extended eulogy, but in justice to their sense of the loss sustained by the Institution in her death, together with their feeling of personal bereavement, the Managers cannot refrain from a word of grateful remembrance.

The friends of the Woman's Hospital need not be told of

the early and untiring labors of Dr. Preston, in its behalf. To her efforts more than to all other influences may be traced its very origin. Engaged in medical teaching and profoundly impressed with the need of clinical facilities for her pupils, it was but a step from their denial of opportunities in established institutions, to the inception of a Hospital, one of whose objects should be the education of women as Physicians.

Conscious as well of the great need of intelligent nurses, and with a heart of philanthropy responsive to the appeal of suffering, she devoted herself with all the energy of an intense nature, to awakening an interest in the organization of the Hospital, and to raising funds for its establishment and maintenance. Appreciative friends took up the burden of her desire, and when at length the premises now occupied by the Hospital were purchased and put in order for their destined use, her satisfaction was that of one who enjoys the fruition of labor.

Ever active in the management of the Hospital, she had endeared herself to her associates by many noble qualities of mind and heart. Taking a broad view of the objects to be attained, and clear in her apprehension of methods, she was ever ready with suggestion, while the principle of democracy was so inherent or inwrought in her nature, that acquiescence in the will of the majority was well nigh spontaneous. Keeping steadily in mind the great primal object of the Hospital, and ever ready to adopt any just measure for its furtherance, she yet labored earnestly for the promotion of all other interests, and was jealous of any influence that could compromise the high character of the institution.

Quick in perception, prompt and reliable in judgment, and having withal a rare facility of expression, her presence lent a peculiar charm to the meetings of the Managers.

Her bearing towards the patients of the Hospital was such as characterized her relations with all human kind. Humanity, in her estimation, was no mere moulding into form of so much protoplasm, no mere development through successive stages from lowest forms of life. She saw in each human face and form, an embodiment of higher being, a spiritual presence emanating from the All-Father, and destined to a life beyond,

where this mortal shall have put on immortality. It mattered not, therefore, what were the accidents of one's social state; high or low, rich or poor, she had the same kind word, the same gentle tone for all.

Prominent among her governing traits was an unbounded faith in the ultimate triumph of whatever is noble and true. Her oft repeated "*Ever the right comes uppermost,*" was no indifferent stoicism, no blind acceptance of events as decreed by inevitable fate, but a reverent recognition of an overruling and beneficent Power which concerns itself unceasingly with the affairs of men.

Sitting to-day as in her presence, and realizing anew the character and importance of the work committed to their charge, the Managers would devote themselves with renewed ardor to promoting the present interests of the Institution, and its future growth and development.

The Managers also lovingly cherish the memory of Maria W. Horton, whose failing health had necessitated her resignation before the last Annual meeting, and who peacefully sank to her rest soon after.

They also recur with sad pleasure to their association with Anna Justice Steel, a woman of rare delicacy and refinement, and whose impulses were always noble and generous. In this connection they would gratefully acknowledge a memorial donation of five thousand dollars from her husband, Edward T. Steel, for the permanent support of a charity bed.

This brief review of the year is suggestive of what is needed for the future. Already the question of further facilities for the accommodation of patients, becomes one which must be met practically at no distant day. Additional buildings should be erected, and the funds of the Institution made commensurate with its increasing opportunities for usefulness.

Grateful for what Divine favor and a generous public have enabled them to accomplish in the past, the Managers look confidently to the same sources of strength and wisdom for the future.

REPORT OF RESIDENT PHYSICIAN.

Comparing the present with past statistical reports of the Hospital, it will be seen that the number of resident patients, as well as those visited at their homes, exceeds that of any previous year; while in the numbar treated in the Dispensary there has been a slight deficiency.

In the out-door clinic, marked and satisfactory results of treatment have rewarded the faithfulness of the resident students, in many interesting cases of disease.

In the medical department of the house, we have watched with great satisfaction the steady progress towards complete recovery of several cases of severe illness. A large proportion of the patients have been discharged from the Hospital with health perfectly restored, while many others have been so much benefitted as to be able to resume their accustomed employment.

In the Surgical department, also, the year just closed has been one of much interest. Old chronic ulcers that had defied treatment for years, have yielded readily under the operation of skin-grafting. The removal of several tumors, operations for various forms of fistulæ, for lacerated perineum, for diseases of the eye, &c., &c., have not only relieved suffering, but have added much interest to clinical instruction.

Several cases of fractures and dislocations have also been successfully treated in the dispensary clinical service.

In the month of June, a private patient of Dr. B. B. Wilson was received into the house for the removal of an ovarian tumor. The tumor was of large size and extensively adherent to the abdominal parietes and viscera. The operation was followed by peritonitis, which resulted in the death of the patient on the fourth day afterwards. This is the fourth operation of the kind performed in the house, and the first that has been unsuccessful.

Five other deaths have occurred during the year; one from small-pox in a woman admitted in labor and before the eruption appeared. The infant of the same died twenty-four hours after its birth; and two others, one a few days old, from hemorrhage of the stomach, the other aged a few weeks and feeble from its birth, of marasmus. A woman of fifty-four years, admitted for a few days' rest, died suddenly of

perforation of the stomach, consequent upon cancer of that organ.

In the Obsterical department, a larger number of births have occurred than in any former year, forty-eight children having been born in the house, and fifty-two in the out-clinic.

The Hospital has been especially favored during the year, in the superior character of its nurses; most of them being women of cultivation and refinement. Twelve have been under training during this time, and of those who have gone out to engage in the duties of their profession, we have heard only favorable and commendatory reports.

Much credit is due to the lady in charge of this department, Miss Amanda Judson, for the skill and efficiency with which she has guided and directed its workings.

E. J. HOLCOMBE.

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

This Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A.M., for the benefit of poor women and children. Patients who are able to pay, will be charged a moderate sum for the medicines furnished.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twelve dollars per week.

THIRTEENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

In presenting the Annual Report of the condition of this Institution, we offer the usual statements of income and outlay: and in the retrospect of the past year but little more than the usual routine of Hospital practice.

Our accommodations have been increased by the appropriation of a room furnished with five beds; and though no larger number of the poor and afflicted may have been ministered to, we believe a great advantage has resulted from lessening at times the crowded state of some of the wards.

A change has been made in the Medical department by the substitution of Graduates in place of Students as resident assistants in the Hospital, and in the out-door Clinic. We desire hereafter to modify the uses and advantages of the out-door Clinic so as to bring a larger number of the graduates of the Woman's Medical College into contact with disease, and into the practical uses of the physician's knowledge and gentle art, and also enable them to bring into the Hospital cases of disease of which too little is known by medical practitioners generally; in which cases we are deeply interested, and for remedying which we were in part established.

The means and facilities for the better education of nurses for the sick, however slowly, have been steadily increasing since the establish-

ment of this Hospital; and we hope and believe that a system of instruction will, as we have further experience, be developed and matured as important in its character and results as the subject requires, and according to its measure, the needs of so many in the community demand.

Our record of the past year must unavoidably be of sickness and renewed health; of the additions to life and the demands of death. On these we refer to the report of the Resident Physician, but in relation to death, we would remark that two of the cases were of former faithful and efficient employés of the Hospital, who, prostrated in both instances by chronic and incurable diseases, were admitted because of their necessities to our home comforts, where they might lie in peace until removed to that eternal home where they could rest forever.

Dr. E. J. Holcombe, who for the past two years has been our Resident Physician, feeling that family ties and personal interests call her to a neighboring State, goes from us accompanied by our sincere appreciation of her professional ability and the sympathetic spirit in which she has labored to advance the usefulness of the Hospital.

In accepting the resignation of our long-tried Matron, the Board desires to bear testimony to the faithfulness with which she has labored, and unite in expressing the hope that when relieved from the cares of her present position, she may regain the health which has been too severely taxed in Hospital duties.

The Legacy of $1000, less the collateral inheritance tax, devised by Dr. Ann Preston to the Endowment Fund, has been received and so placed, also a legacy of $200, devised by Ann F. Wheeler. From Mrs. J. P. Crozer, in addition to former subscriptions, $1000 to the same Fund has been added to perpetuate two free beds. Our kind friend, Isaiah V. Williamson, has again come to our aid by an additional donation of $5000, to the same Fund.

May our, and all generous subscribers to the wants of the afflicted, bear in remembrance the important declaration borne to us from ages in the past, "He that hath pity upon the poor lendeth unto the Lord; and that which he hath given will He pay him again."

E. W. LIPPINCOTT, *President.*

1st Mo. 15th, 1874.

REPORT OF THE RESIDENT PHYSICIAN.

In reviewing the records of the different departments of the Hospital for the past year, we find but little requiring special notice.

The majority of the patients received into the House have been chronic invalids, who after a few weeks or months of rest from their too fatiguing occupations, under appropriate medical treatment, have gone out rejoicing in restored health, or in relief from suffering.

A departure from our ordinary rule in regard to the admission of incurables, has extended the benefits of the Institution to a few who had peculiar claims upon its charities, while it has also increased the number of deaths for the year.

The large number of applicants of this class, whom we have been obliged to refuse, has impressed us with the great need of suitable provision for such, either in the wards of hospitals already existing or in the establishment of new ones.

Nine deaths have occurred during the year.

Two women died of consumption of the lungs, and one of organic disease of the kidneys. One died of Pyæmia consequent upon confinement occurring before admission to the House; another, greatly debilitated from hemorrhages, died suddenly from a renewed attack a few days after entering, and another, very ill at the time of admission, died three days afterward.

Of three infants deceased, two, of premature birth, died of marasmus at the age of one week, and another three weeks old, of spasms.

A considerable number of surgical operations have been performed during the year, nearly all of which have been successful.

In the Lying-in department a few cases have required the intervention of art, but all have made a good recovery.

Forty-one children have been born in the House, and thirty-six in the out-clinic.

The efficient aid rendered by the resident medical students in the different departments of the Hospital is deserving of high commendation.

Equally deserving of credit in their not less responsible work is the excellent corps of nurses on duty during the year.

Statement of Cases for the year ending January 1st, 1874.

The Twenty-fourth Annual Session will commence on Thursday, October 1st, 1874.

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A.M., for the benefit of poor women and children. Patients who are able to pay, will be charged a moderate sum for the medicines furnished.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

FOURTEENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

In making our Fourteenth Annual Report to the friends of the Woman's Hospital, we feel that we may express much satisfaction in its increasing facilities for usefulness. During the present year its ministrations have been extended to 4539 patients. Noting the large percentage of these improved and cured under our hospital care, and recalling the grateful expressions of these women to their physicians and care-takers, we can have no stronger encouragement; while to the growing interest of the community in the management of hospital wards by women, we are pleased to be able to offer these results of our experience.

The current expenses of the year have been considerably increased by the outlay for necessary repairs, consisting of a new roof, and entirely new heating arrangements. By a connection with the sewerage through a new culvert in the neighborhood, we expect to greatly improve the drainage of the hospital.

A beginning has been made towards a Building Fund, with a view to the enlargement of our wards, as soon as practicable, for the better accommodation of our patients.

We take this opportunity to cordially thank our contributors; when they consider the many sufferers who have been restored to active life through their benevolence, we trust they may realize that "it is more blessed to give than to receive."

This year, as in the past, we are called upon to note the decease of valued friends to the hospital; but it is gratifying to find the evidence of their friendly remembrance in the final disposition of their estates. We gladly mention in this connection the names of Anna Wharton, Thomas Sparks and Mary D. Brown; not forgetting the kind interest of the Executors of the Jesse George estate.

When the period arrives for the dismissal, as prescribed in our By-Laws, of patients pronounced incurable, it is a matter of concern and anxiety to the managers of the Woman's Hospital that there is no adequate accommodation for such cases in the city of Philadelphia. The establishment of a ward or hospital for Incurables, by the increased opportunity and experience it would afford to students and nurses, might materially advance the interests of medical science; while to the long-suffering, hopeless invalid it would be a most wise and blessed charity.

The Woman's Hospital continues to devote special attention to the training of intelligent women as nurses. We do not lightly estimate this calling; and by selecting only such women for our pupils as can be commended for their benevolence, conscientiousness and efficiency, by giving them practical instruction in our wards, and the advantage of carefully-prepared lectures, we are enabled to send out each year a number of well-trained nurses, bearing our certificates.

Physicians have at last awakened to the fact that their success in the practice of medicine depends in a great degree upon the skill of the nurse to whose care their patient is entrusted; and that many a valuable life has been sacrificed by the stupidity or carelessness of the attendant.

We close this year with the satisfactory assurance that the whole machinery of our Hospital is working more efficiently than ever before; for which we thank God and take courage, humbly committing ourselves and the work again to His keeping.

REPORT OF THE RESIDENT PHYSICIAN.

In offering to the Managers of the Woman's Hospital the record of another year, I would call their attention to the fact that the practice of the Institution has increased in each separate department, giving an aggregate of 1686 patients above those of last year.

A large majority of those received into the house have been discharged in full health, while the remainder, with few exceptions, have left us much improved.

Nine deaths have occurred during the year, two being of feeble infants of premature birth.

A number of surgical operations have been performed, very generally successful.

Seventy-nine children have been born in the house (an increase of thirty-eight over last year), and forty-seven in the out clinic.

The change from students to graduates, as medical residents in the hospital, has been very satisfactory.

Six graduates of our training school for nurses, have gone out to engage in private nursing in the city. Three others have taken permanent positions in other institutions, and a preliminary corps is now on duty.

Statement of cases for the year ending January 1st, 1875.

The Twenty-sixth Annual Session will commence on Thursday, October 7th, 1875.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A.M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

FIFTEENTH ANNUAL REPORT

OF THE

Board of Managers

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

In offering to our contributors the Fifteenth Annual Report of the condition of the Woman's Hospital, we would state, the year has been one of unusual interest, and with gratitude acknowledge the continued blessing of a kind Providence.

The number of patients treated during the past twelve months has been 1,002 in excess of any previous year.

We would invite especial attention to the accompanying Report of Doctor Broomall, for a faithful exhibit in detail of our records.

During the year we received the resignation of Dr. Mary Branson, who desired to exchange her hospital duties for those of private practice. In accepting this resignation, the Managers were not unmindful of her fidelity in the discharge of the duties of Resident Physician.

Dr. Anna E. Broomall was unanimously appointed her successor. She came to us well acquainted with the requirements of the office, having previously resided in the Hospital as Assistant Physician; the interim of her absence having been profitably employed in the pursuit of her studies under most advantageous circumstances.

Each year brings to us new experiences from which we profitably glean. Many alterations and repairs have been made that materially add to the comfort and sanitary condition of the household, among which may be mentioned an entirely new Laundry.

We are convinced it will be detrimental to our progress to longer postpone enlarging our building. We are laboring under the disadvantage of the want of sufficient space to complete the success we would wish in Hospital-work, in order to secure the restoration of health, as far as human means can avail. At present thirty-seven beds are our utmost capacity.

Women and children are received without regard to their religious belief, nationality or color.

We are supported entirely by voluntary contributions, and earnestly solicit the continued aid of the benevolent to enable us to meet the increasing demands upon us.

We are still deeply impressed with the necessity of pursuing the work of nurse-training, and again repeat our conviction, that among the many wants of society, none are more inadequately supplied than that of the responsible office of nurse. There have been twenty-one graduates from our Training School, of whose usefulness we have satisfactory testimonials from physicians of our city, and are unable to supply all the calls upon us.

The importance of nourishing food for the sick, not assigning to medicine all the curative power, leads us to make its preparation in the diet-kitchen a prominent feature in the nurse-training, assisted by lectures from competent instructors.

Independent of the Diet Lectures, the usual Spring and Autumn Courses of Lectures to the nurses are still continued.

In addition to the general work of the Hospital, it was determined in June 1875, to divide the city into districts, to each of which a graduate of the Woman's Medical College is assigned as District Physician for the Woman's Hospital. By this plan, the medical needs of the poor in many portions of the city may be met, and the out-clinic of the Hospital, as well as its Dispensary usefulness, largely increased.

We have again to thank our kind friend, I. V. Williamson, for his remembrance of us in the gift of a piece of ground in the southern portion of the city.

A bed has been permanently endowed in the name and memory of Mary D. Brown, who was for many years one of our largest contributors, and from whose executors we have received her bequest of $8,000.

To all of our contributors and donors we extend our cordial thanks; not forgetting Deborah F. Wharton, Joseph and Joshua T. Jeanes and the executors of the Jesse George estate.

In retrospect, we are reminded of the absence of one of our members, Susan V. Greble, with whom ten years' association in this work has been severed by her being unexpectedly called from time to eternity. No extended eulogy from us would here be in keeping with her quiet, unobtrusive nature, that shrank from notice in her life-work. Truly "those who knew her best loved her most."

It has become our sad duty, before closing this Report, to note another vacancy, that Death, the great reaper, has made in our Board. Mary A. Tyler had been engaged in this work from its commencement. To her calm, deliberate judgment and wise counsel may justly be ascribed much of our early success in organizing and securing the results for which the Hospital was established. The disease that terminated her life was quick in performing its work. The transition of our fellow-laborers to the life beyond leaves for us the imperative duty to work diligently, for surely "the night cometh" to us all.

To stimulate the inventive power of woman, and in the belief that there is a need for improved surgical instruments and medical appliances, &c., early in this year one of our Managers presented this Hospital with an investment of one thousand dollars, the interest of which is to be appropriated, in small premiums, for such inventions of the graduates or students of the Woman's Medical College of Pennsylvania as the Managers of the Hospital shall judge suitable.

REPORT OF THE RESIDENT PHYSICIAN.

During the past year there has been an increased number of patients in each department.

Three of the nine deaths reported were of premature children.

Among the surgical operations were two removals of ovarian tumors by Dr. Emeline H. Cleveland; one leg amputation, besides a number of minor operations.

Sixty-two births are recorded in the Hospital, and eighty-one births in the out-practice.

Five graduates have gone out from the Nurse-training School, leaving at present five nurses under instruction.

Statement of cases for the year ending January 1st, 1876.

John H. Pilley & Son,—one pair of shades with spring rollers.

REPORT

OF THE

TRAINING SCHOOL FOR NURSES.

By the Act of Incorporation of the Woman's Hospital, approved the 22d day of March, 1861, it is provided, in Section 4, "That the object of said corporation shall be to establish in the City of Philadelphia a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time clinical instruction to women engaged in the study of medicine, *and for the practical training of nurses:* the chief Resident Physician to be a woman."

In the fifteen years of the Hospital's existence this pledge for the training of nurses has been faithfully carried out; and before a separate endowment was made for the Training School, our early reports bear witness to the efficiency of the Resident Physicians in directing this especial work. Nurse-training was a part of the Hospital routine; and from time to time, though without any formal certificate of graduation, we were enabled to send out capable nurses into private families; while our Head Nurses have gone out to work among the Indians, and to take responsible posts in other hospitals and charitable institutions.

In the year 1872 the Managers established a systematic course of lectures to nurses, to be given in the Spring and Autumn of each year, by the Resident Physician. A Diet Kitchen was also fitted up, with arrangements for thorough practical instruction in the preparation of food for the sick.

In the same year the first endowment for the Training School was made by Dr. R. J. Dodd, of Montgomery county, in the name of his deceased wife, Hannah Matilda Dodd. This, with further donations for the same purpose from Joseph Jeanes and Deborah F. Wharton, are acknowledged in the annual reports.

A higher standard of education was thus established, and certificates given to those nurses who had passed their novitiate satisfactorily. Twenty-one nurses have been graduated in the last three years.

In entering upon the fourth year of the Training School the Committee in charge congratulate the Managers on the success which has, so far, been attained. The comprehensive course of lectures and quizzes on nursing, and the lectures and service in the Diet Kitchen, complement the practical education in the wards. The liberality of the Managers in throwing open these lectures, in addition to the class of nurse-students, to those ladies who may have a special interest in the subject, is worthy of note.

In obstetrical nursing, and in many cases of women's diseases involving surgical treatment, the Woman's Hospital offers especial advantages to nurse-students. But we have long felt the need of the greater range of cases which the wards of a large general hospital alone supply. We are happy to state that this need of the Training School will be fully met during the present year.

Application to the Guardians of the City Hospital for a ward, surgical or medical, in which the nurses of our Training School may complete their education here begun, has received a favorable answer, and arrangements are now being made to give the last six months of our novitiate instruction in the wards of the Philadelphia Hospital.

For the suggestion that prompted this action, for the liberal offer of assistance that alone made it possible to carry out the plan, the Managers are indebted to Mrs. Pauline E. Henry, a lady of Germantown, deeply interested in nurse-training. They desire to record this extension of their Training School as her work; that in the immediate advantages of the broader school, both nurse-students and the community which profits by their services may recognize their obligations to this wise and generous friend.

The Managers have instructed this Committee to express their appreciation of the welcome extended to the Woman's Hospital Training School by the Committee of Guardians of the Philadelphia Hospital; and to thank these gentlemen for the courtesy and promptness of their response to our application, and for the cordial co-operation already begun by them.

Sarah C. Hallowell, *Chairman.*

The Twenty-sixth Annual Session will commence on Thursday, October 5th, 1876.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board,—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

SIXTEENTH ANNUAL REPORT

OF THE

Board of Managers

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

In submitting the Sixteenth Annual Report of the Woman's Hospital to its contributors, the Managers are happy to be able to say, the Institution has completed an encouraging year. The work of the Hospital has been greatly increased, in consequence of which, our Treasury has been largely drawn upon.

The financial depression in the mercantile world has had its effect upon our income; also very many who were our earliest contributors have been called from work to reward. It is important that we should make immediate effort for reimbursement, to enable us to secure the relief we would desire to the numerous applicants for admission to our wards.

We have recently limited the admission of in-door free patients to nearly one-half the number usually accommodated, not considering it prudent to incur the expense of maintaining a larger family, until such time as our funds shall be adequate to a greater outlay.

We therefore urgently solicit our former patrons, as well as all those whose sympathies are enlisted in the cause of the afflicted and suffering, to contribute the means to enable us to carry on the work we find to do.

The nurse-training claims our earnest attention. In our last Annual Report reference was made to the generous donations by Mrs. Pauline E. Henry and other friends, by which we were enabled to arrange for the extension of our Training School into the Pavilion wards of the Philadelphia Hospital at the Blockley Almshouse. Owing to unexpected delays in finishing the Pavilions, our nurses did not enter upon active service there until the 28th of July. Since then an efficient corps has been on duty, under the supervision of a head nurse of our appointment, subject to the direction of the physicians there in charge. Our Training School has the care of four wards in Blockley, with 50 beds.

We take this occasion to express to the Hospital Committee of the Board of Guardians of the Blockley Almshouse our grateful sense of their co-operation, and their arrangements for the comfort of our nurses, which have so facilitated our work in the Woman's Pavilion of the City Hospital.

During the past year, twenty-three nurses have been admitted into the school on probation of whom nine were discharged as unsatisfactory, and five failed in the fulfillment of their contract. A class of nine is now under training.

Of the class of 1876, three are acting as head nurses, Martha M. Waldron in the New Haven Hospital; Amanda E. Taylor in the Woman's Pavilion of the City Hospital, and Margaret H. Paxson in our own Institution. Margaret T. Miller is the remaining graduate. The candidates for graduation were examined by Dr. Weir Mitchell and Dr. Emeline H. Cleveland.

The Spring and Autumn courses of Nurse Lectures were given by the Resident Physician, Dr. Broomall.

The plan adopted in 1875 of dividing the city into districts and appointing to each a woman physician, residing in or near the district, to visit such poor patients as desire attendance from the Hospital, has been satisfactory, and to this is attributable the largely increased clinical practice.

We made application (with a strong recommendation from the Board of Public Charities,) to the last session of the State Legislature for an appropriation of twenty-five thousand dollars. Through the persistent effort of several members of the Senate and House in our behalf, the sum of fifteen thousand dollars was voted to us for building purposes, which we shall draw as soon as our plan for building is decided upon.

The legacy bequeathed to us by our valued Manager, Mary A. Tyler, has been received and invested.

Our thanks are due to the attending Medical Board for their faithful service in the interests of the Institution.

We also recognize the fact that the success of the Hospital for the past year is chiefly owing to the unremitting toil of those residing in the house.

We trust to them, and to all who have labored in the cause, may come the reward promised to the faithful in the great cause of humanity.

In conclusion we desire to express our sincere thanks to the friends of the Hospital for the aid afforded us, and our gratitude to the Giver of all good.

Instructor in Materia Medica and Practical Pharmacy.

MARY BRANSON, M. D.,
Instructor in Physical Diagnosis and Practice of Medicine.

HANNAH T. CROASDALE, M. D.,
Instructor in Minor Surgery.

ANNA M. MCALLISTER, M. D.,
Instructor in Obstetrics and Laryngoscopy.

MARY ALLEN, M. D.,
Instructor in Chemistry.

RACHEL L. BODLEY, A. M. Dean.

North College Avenue and 21st Street.

The Twenty-seventh Annual Session will commence on Thursday, October 4th, 1877.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

SEVENTEENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

The Woman's Hospital

OF PHILADELPHIA,

North College Avenue and Twenty-Second St.,

(NORTH OF GIRARD COLLEGE.)

JANUARY, 1878.

PHILADELPHIA:

SEVENTEENTH ANNUAL REPORT

OF THE

Board of Managers

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

With the close of another year the Managers of the Woman's Hospital submit to its contributors their Seventeenth Annual Report. The number of patients treated in the several departments of the Hospital, the out-practice and the Dispensary has been greater than in any previous year, as shown in the subjoined report of the Resident Physician. At the request of Dr. Broomall, the Hospital clinic service has been distributed among other physicians, and Drs. Croasdale, McAllister and Barton, having kindly volunteered to conduct it, the experiment has worked for six months with excellent success.

In previous reports the urgent need of this institution for increased accommodations for the obstetrical wards has been stated, and by the aid of an appropriation of fifteen thousand dollars, received from the State, we were enabled in July to begin the building of our new Maternity wards, adjoining the main Hospital, and fronting on Twenty-second Street. The building is of brick, three stories in height, with a basement of eight feet. It is provided with single rooms, as well as sufficient wards, in all of which are open chimneys,

and is crossed by ample corridors running north and south, east and west. The architect, Mr. Frank Furness, has made the ventilating shafts and the arrangements of windows give an abundance of air and light, and the housekeeping accommodations have also been well considered.

As the appropriation was not sufficient to complete the building, even in the very plain style which is our selection, we have decided to leave the upper stories unfinished within, although outwardly complete, and make the lower floor ready for immediate use. By this means we have avoided the incurring of any debt upon the new building, and for its completion we have applied to the present session of the Legislature for an appropriation of ten thousand dollars.

Under the able administration of Dr. Broomall, and the faithful care of Head Nurses Paxton and Doubleday, the Training School is a constantly increasing source of satisfaction. The Woman's Hospital Ward in Blockley, of fifty beds, is not only a means of larger professional experience to our nurses, but they are enabled to extend to the Blockley patients that gentle and intelligent care to which many of this class of patients are entirely unaccustomed in their homes. In March, 1877, the Nurse Committee applied to the Managers for permission to extend the course of training to two years, one year of which was to be spent in out-practice, in order to give our graduates a better introduction to physicians and families before leaving the school, and to enable us to answer directly some of the numerous calls for nurses which hitherto we have been unable to supply, except from our lists of non-resident graduates. So far as may be judged from the first working of the new plan, it promises not only to bring in a revenue to the school, but to add to the confidence with which Philadelphia physicians already regard it. The regular nurse lectures have been given this year by Dr. Mary Branson to the pupils in Blockley, and by Dr. Broomall in the Woman's Hospital. In addition to these,

in the spring course of the Hospital, for both divisions of the class, were given volunteer lectures by the following physicians interested in the school: Dr. Harrison Allen on Surgical Nursing; Dr. James Wilson on the Nursing of Children; Dr. Albert H. Smith (four lectures) on Obstetrical Nursing; Dr. John M. Keating on Fever Nursing; Dr. James Tyson on Examination of Urine; Dr. Alice Bennett (two lectures) on Hemorrhages and the Circulation; Dr. E. E. Montgomery on Poisons and their Antidotes.

Of the year's class of twenty-five, seven were dismissed after the month's probation, one was discharged later, and one failed to keep her contract with the school. Eleven nurses are at present under training. Five nurses have graduated from the class of '77, Letitia Hawthorn, Mary C. Mooney, Emma Putnam, Ellen Doubleday and Lucy J. Lothrop. The graduates are examined by Dr. S. Weir Mitchell and Dr. Emeline H. Cleveland, and receive the diploma of the school.

In recognition of superior ability as nurse pupil, the Managers have ordered the PAULINE MEDAL—a silver medal, with appropriate inscription, and the device "Be ye Faithful,"—to be given each year to the graduate who is distinguished for intelligence and the conscientious performance of duty. The medal for last year was given to Margaret H. Paxton.

It is a source of great satisfaction to the managers that the patients bear witness to much kindness and attention received during their stay in the institution, from all its staff alike—from the medical department and nurses, and the Matron.

The Hospital has sustained a great loss in the death, in May last, of Amanda M. Steever, for more than five years an active and most valued manager. In health it was her pleasure to work in its interests, and even in sickness that interest was not relaxed. We shall long miss her cheerful presence, as well as her active co-operation in all its plans and purposes.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS IN THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores; and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Applications of cups and leeches.
6. Fomentations, poultices, blisters, &c.
7. Dressing of bruises, sores, and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist-air, dry-air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants; their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

SARAH C. F. HALLOWELL, *Chairman Committee on Nurses.*

From the Fair held for S. P. C. A,—four jars fruit.
A. E. Massey and Mrs. W. G. Huey,—bottles.
A. E. Carpenter,—three boxes Cosmoline.
Mrs. Yarnall,—sideboard and magazines.
Mrs. Greble and Miss Anthony,—old linen.
Miss M. S. Miller,—picture.
Miss Pope,—bandages.
Mrs. Needles,—pair of vases, ten yards canton flannel, four flannel skirts, a flax seed strainer, garden seeds, chintz, and crib quilts.
Woman's Medical College,—drugs valued at $60.
A Manager,—a pair of blankets, quantity of burlap.
Miss Jeanes,—twenty-four new under garments.
Mrs. Comly,—old muslin.
Miss L. Hart,—bottles.
Through Miss Michener, from Green Hill Presbyterian Church, new garments and old muslin.
Mrs. Broomall and others,—old linen and muslin.
Mr. Isaac H. Steever,—muslin and bottles.
Mrs. Addicks,—magazines.
Flower Mission,—thirty-five boquets.
Dr. Cleveland,—magazines.
Thomas G. Lovegrove,—ice-pick.
H. C. Blair,—one dozen wheat food.
Jane C. Lovegrove, large quantity bottles.
Rebecca White,—twenty-eight garments, two books.
Miss Jeanes,—clock for Dispensary.
Mr. Edward T. Steel,—a large photograph.
Mrs. Greble,—bottles.
Mr. Joseph Cooper,—bottles.
From New Century Club, through Mrs. Taylor, a lot of butter and small cakes.
315 Marshall Street,—bottles.
Dr. M. R. Trevor,—thirty medical works.
Miss Jeanes,—one dozen white spreads, one piece canton flannel.
Miss Ramborger,—three pairs infants' socks.
Mrs. Hayhurst,—currant wine.
Dr. McAllister,—old muslin.
Dr. Albert H. Smith,—one bottle champagne and tap, rubber syringe, rubber sleeves.
Miss C. A. Lindsay,—Parrish's Pharmacy.
Henry C. Blair's Sons,—twenty vaccine virus points.
Mrs. Mary B. Biddle,—Scribner's Monthlies.
Miss Jeanes,—twenty-two night dresses.
Dr. E. P. Sawyer,—large lot of bottles.
Morris Davis,—turkey for Christmas.
Mrs. Wm. G. Huey,—turkey and pair of ducks.
Edward Lewis,—drugs, chemicals, &c.
G. Perkins,—strapping kettle.
Jos. P. Remington,—Drugs, Plasters, &c.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

EIGHTEENTH ANNUAL REPORT

OF THE

Board of Managers

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

THE Managers of the WOMAN'S HOSPITAL present to its contributors the Eighteenth Annual Report. The year that has closed is shadowed by a sense of deep loss in the death of two of our earliest and most prominent managers. It has also been marked with much encouragement, that in a season of business depression the Hospital has not only been permitted to carry out its healing work unhampered, but by the kindness of generous friends has been enabled to enlarge its advantages and to enter upon more extended opportunities, with the same freedom from debt and deficiencies which it is the fixed purpose of the managers to maintain.

The building of the new Maternity Wards, which already more than double the room for patients, has been conducted on the principle of contracting only for what we had the means in hand to pay, and not advancing one step beyond. On this basis, with the State appropriation of $15,000, received in 1877, to which was added the fund in hand, set aside for building, amounting to $1,700, the

managers signed a contract in June, 1877, with Messrs. Frank Furness, architect, and Jacob Myers, builder, to put up a building of brick, three stories in height, with basement and mansard roof, to complete it externally, and finish the first floor for occupancy. The depth on Twenty-second Street is 95 feet, 5 inches; the front on College Avenue is 50 feet, 11 inches. The building does not directly adjoin the main hospital, but runs at such an angle that each room in it is open to the east, west or south. The whole is cut by cross corridors, running the entire length and width of the building, lighted by large windows at either end. Ventilation is provided for in each room by open chimneys, in addition to the ventilating stacks. The whole is to be heated throughout by steam, and by open fires when desired. The height of basement is 8 feet; the first and second stories 14 feet, 10 inches, the third floor 12 feet. The first floor has seven single rooms, 11 feet by 16, and two large wards fronting south and east, with office and parlor. The entresol, which is half the height of the wards, is occupied on the lower floor with diet kitchen, pantries, bath rooms, drying and ventilating closets; and the upper story by linen rooms, storage rooms, bath rooms, &c. The basement is finished with hard cement, the floors and wood work throughout are of hard wood, oiled, and the halls are laid in lithogen. The cost of putting up this building and furnishing the first floor for immediate use, was, as stated in the main contract, $13,920; for plumbing, heating, &c., $1,720; for grading, paving and extras, $440. The work was begun in July, 1877, and the keys were handed over on the 16th of March, 1878.

Early in 1878, acting upon the recommendation of the State Board of Public Charities, and in view of the liberal State appropriations which have been granted to other hospitals for medical schools, a committee of the managers visited Harrisburg, to report on the work already accomplished with the previous grant, and to ask for the

further appropriation of ten thousand dollars, to make the upper floors of the Hospital ready for use. The committee was courteously received, and through the efforts of Messrs. Hall, Neall, and other friends in the Assembly, the appropriation was reported favorably to the House, but did not reach a second reading before that body adjourned.*

Resolving then to proceed no further, in accordance with the views that have governed the managers throughout, the first floor of the new building was occupied by nurses and patients, the furniture, shades, &c., being presented by Miss Mary Jeanes. In June an offer was made by Mr. Joshua T. Jeanes to assume the expense of completing the second floor. Estimates were called for, and that of Jacob Myers, the previous builder, for $5,050, was accepted, for which the managers received a check from Mr. Jeanes for $5,000. The contract includes the elevator to the third story, the iron stairway to second floor, and the steam pipes for heating that floor. There are ten single rooms on the second floor, of the same size as the lower wards, and two large wards.

The new building is to be used exclusively as a Maternity Hospital, leaving the entire ward space of the main hospital for medical and surgical cases. In the main hospital the upper wards and floors have been newly painted, and an elevator placed in the east wing, at a cost of $360, presented by three of the managers and other friends.

The Nurse Training School, which is fully recognized as an important part of our work, is a constant source of satisfaction, enabling us to furnish nurses for private practice, and to extend the

* The original appropriation asked of the State, to build and furnish the Maternity Hospital, was thirty thousand dollars, of which fifteen was granted. As this is the only Maternity Hospital in the State under the care of women managers and physicians, and as furnishing important clinical advantages to the Woman's Medical College, its usefulness is manifest, both as a charity and a school for medical education.

hospital's usefulness to the rich as well as the poor. The course of training is two years. In September, 1878, the managers received from the managers of the Pennsylvania Hospital a proposition to take a specified number of our pupil nurses into their wards for twelve months, and to pay for their services at our published rates of salaries. This was accepted, and the course of training heretofore carried on in the wards of the Philadelphia Hospital at Blockley, is now transferred to the Pennsylvania Hospital. In removing from the Philadelphia Hospital, where in the Woman's Pavilion the services of nurses and head nurse have been gratuitously given for two years, the managers expressed to the Hospital Committee of the Board of Guardians, and desire here again to record their sense of obligation for the kindness which was the first to open a general hospital of this city to the service of the school, and for the liberality and forethought by which all possible arrangements for the comfort of the nurses were made by the Committee, the Superintendent and the Warden of Blockley. Miss Doubleday, our former head nurse in the Woman's Pavilion, still remains in charge of that department in the service of the Philadelphia Hospital.

Of the class of twenty-four nurses in 1878, eighteen are at present under training; six having been dropped for failure to meet the requirements. The head nurses are Miss Paxton in the Woman's Hospital and Miss Barkley in the Pennsylvania Hospital. Nurses Atkinson, Deemer, Hannum, Harris, Metzger, Norton, Florman and Bartley are detailed for private practice. One nurse is on duty in the infirmary for Nervous Diseases in the Orthopedic Hospital, which carries out a portion of the course of training. The Volunteer Course of Lectures in the spring comprised a lecture on Nervous Nursing, by Dr. Weir Mitchell; on Surgical Nursing, by Dr. W. W. Keen; on Fever Nursing, by Dr. E. T.

Bruen; on the Nursing of Children, by Dr. James C. Wilson, with four lectures on Obstetrical Nursing, by Dr. Albert H. Smith. The regular course of hospital lectures on Nursing were given in the autumn course by Miss Waldron, a former pupil of the school, who left us to become the Head Nurse of the Connecticut Training School at New Haven.

The Hospital continues to receive into its wards and its private rooms and to treat in the Dispensary a large proportion of American patients. This is noted, not as affording any statistical comparison of diseases among different nationalities, although the record is a valuable one, but as showing the increasing disposition on the part of American women to consult with gynecological practitioners of their own sex. In addition to this dispensary practice seven district physicians, whose districts are noted elsewhere in this report, are authorized by the Hospital.

The year's record is not complete with a summary of its gains and progress. The loss which the Hospital has sustained in the death of Mrs. Lippincott and Dr. Cleveland is recorded in the following resolutions:

Resolved, That in the death of Elizabeth W. Lippincott, a Manager since the opening of the Woman's Hospital, and for six years its President, this institution has lost a devoted friend and a faithful, prudent counsellor. Of a retiring disposition, and for the last few years in frail health, her interest in all matters that pertained to the moral purity of the community, and to the advancement of the best interests of women, was unabated to the end. The medical education of women was essentially, in her view, a part of this advancement, and that women practitioners should have requisite knowledge, as well as tender sympathy, to bring to the suffering of their own sex. While we record her passing away, we are thankful that during the term of eighteen years it has been permitted to this institution to have the benefit of her matured judgment and co-operation, and in forwarding a copy of these resolutions to her family, we desire to express our sincere sense of their bereavement and of the loss which we share with them.

Resolved, That in the death of Dr. Emeline H. Cleveland the Hospital has sustained a double loss, not only as manager, but as chief physician of the medical staff. Dr. Cleveland has been a part of this institution from its inception. In 1861 she went abroad to study hospital work, and spent a year in the *Maternité* at Paris, receiving its diploma, and being admitted, through her connection with that medical school, to the fullest opportunities of examining other hospitals. Returning, she was made resident physician of the newly incorporated hospital, a post which she filled for eight years, until the increasing demands of private practice compelled her to present her resignation, but retaining her position as chief of the Obstetrical staff, and as a manager. In her death not only does the Hospital lose her large experience as a practitioner, and in the especial field of gynæcological surgery, in which her eminence was noted, but the warm-hearted interest of the woman whose private life, as well as professional service, was devoted to the suffering, who carried her helpful sympathy alike to the homes of rich and poor, and who gave herself without stint to the service of the needy. In her younger days the professional life of the woman physician was blocked by many obstacles; bitter prejudice and imputations of unwomanliness against those who sought to fit themselves by thorough knowledge for their healing work. This dignified and serious student made no claim to any special consideration nor advancement as a woman, but by her unfailing courtesy that took no note of any professional resentment, by her thoroughness and steadfastness, she has made the way easy for all women who are qualified to follow. Her life was a demonstration that true delicacy and thorough professional knowledge may go hand in hand, and her death marks the era of recognition for her pupils which her life went so far to win.

The enlarged accommodation for patients, and the additional number which we are now enabled to receive, will make an increased demand of our income for the year 1879. The second floor is yet to be furnished, and the expenses of the Diet Kitchen and Dispensary will be increased. As in times past, the simple statement of our need has been the only appeal required by the friends of the Hospital, we go forward to meet the new year in confidence that the blessing that has rested on this institution from its opening, will not fail.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS IN THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores; and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Applications of cups and leeches.
6. Fomentations, poultices, blisters, &c.
7. Dressing of bruises, sores, and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist-air, dry-air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants; their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

SARAH C. F. HALLOWELL, *Chairman Committee on Nurses.*

RULES FOR NURSES IN TRAINING.

I.

Application for admission to the school must be made to the resident physician of the hospital. The physician shall select intelligent women only, who can read and write, of a good character and habits, for which testimonial is required. Applicants must be between 21 and 45 years of age.*

II.

A record shall be kept by the resident physican of the names of nurse-students; their time of entering and leaving the school, and of their standing as graduates.

III.

Nurses shall be under training two years, one month of which is probationary. They must sign a written agreement to remain under instruction for eighteen months, and six months in the service of the school.

IV.

Their duties shall not only be within the hospital, but they shall serve in the out-clinic as the resident physician may require. Twelve months of their training shall be spent in the wards assigned by the Pennsylvania Hospital to the Woman's Hospital Training School, or in any other general hospital selected by the school.

V.

After the month of probation, for five months the instruction and a small compensation are considered a fair equivalent for their services. For the following twelve months of training they receive thirteen dollars a month. During the time of out-service their pay is sixteen dollars a month.

VI.

The right is reserved by the resident physician and nurse committee to discharge a student for misconduct or inefficiency.

* The Nurse Committee reserve the right to dispense with this rule in cases of exceptional ability.

VII.

The resident physician is empowered to invite any one or more of the graduated nurses to assist her in emergency, when the hospital needs may require. But no nurse, upon leaving the hospital shall be privileged to return for residence, except as invited by the physician, nor to retain any right before accorded to her, except that of leaving her address.

VIII.

Nurses, while on duty, shall wear cotton dresses without crinoline and without trains, and soft shoes without heels. The dresses shall be changed at least once in two weeks. White aprons must be worn. The utmost simplicity is enjoined both in outer and under-clothing; as no ruffled, tucked, or flounced skirts, nor trimmed garments are allowed to be sent to the hospital laundry. The number of garments shall not exceed eighteen per week.

IX.

Nurses in training are instructed to change the bed-linen in the medical wards twice weekly; in surgical cases every two days, unless directions to the contrary are given. In the lying-in wards, bed-linen and clothing must be changed daily. Each confinement patient shall be washed three times daily, unless special directions are given. The use of sponges is not allowed in the lying-in wards. The babies shall be washed after the morning visit, their mouths carefully washed after each nursing.

X.

The temperature of each patient must be measured, and the pulse and respiration counted and carefully noted twice daily.

XI.

The nurses shall see that each ward is thoroughly ventilated; the temperature shall be maintained at 65° Fahrenheit, unless special directions to the contrary are given.

XII.

Soiled clothing shall be removed immediately from the wards. Bed-pans, syringes, etc., must be carefully washed and disinfected after use.

XIII.

Exact information with respect to the appearance, amount and frequency of discharges is expected of the nurse.

XIV.

Each nurse is required to be present at the morning visit in her ward. In the evening visit she will accompany the physician through all the wards and receive bed-side instruction.

XV.

No nurse shall leave her ward at any time without providing a substitute, upon whom any patient therein or the attending physician may call.

XVI.

Each nurse is required to serve on night-duty as the resident physician may direct. During this time the day is entirely at her disposal for rest and recreation.

XVII.

The night-nurse shall see that the wards be kept perfectly quiet between 8 P. M. and 5 A. M.

XVIII.

Medicines in each ward are to be administered by the nurse, and kept in a locked closet of which she holds the keys.

XIX.

Nurses shall roll the bandages to be used in their wards.

XX.

All unnecessary exposure of a patient is to be avoided in washing and dressing.

XXI.

The temperature and duration of a bath will be ordered by the physician. Mean duration of a general bath, five minutes; of a hip bath, twenty minutes; no bath to be given within two hours of a meal.

XXII.

Nurses are required to be present at the nurse-lectures, unless detailed for special duty at the time.

XXIII.

Each nurse shall serve the prescribed length of time in the diet-kitchen, where she shall prepare all gruels, beef-teas, egg-nogs, etc.

XXIV.

The nurses shall see that visitors bring no food to the patients.

XXV.

The nurse shall not permit a lying-in woman to sit up in bed, or leave her bed, without the full sanction of the physician.

XXVI.

A strict watch of the patient and her every symptom shall be kept by the nurse and reported to the resident physician. A written record in special cases is required.

XXVII.

Gentleness and kindness to all patients is strictly enjoined upon the nurses. No personal remarks or criticism will be permitted, no forebodings expressed, nor comparison with other cases.

XXVIII.

Nurses shall in no instance be permitted to receive money from the patients.

XXIX.

Opportunity shall be given to the nurses to have one afternoon in each week, and part of alternate Sundays, at their own disposal, unless emergency shall require their services. It is expected nurses will assist each other in carrying out this rule.

XXX.

Upon the approval of the Examining Board of Physicians and Managers, a diploma, with the seal of the hospital, signed by the resident physician and the Examining Board, shall be given to each graduate.

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

This paper is to be filled out in applicant's own hand-writing.

1. What is your name and present address?

2. What is your age?

3. State whether you are married or single?

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation?

6. What is your state of health?

7. Have you good sight and hearing?

8. Where were you educated?

9. What references can you give?

10. Do you intend to devote yourself to the profession of nursing?

You will be required to remain under training for two years, the first month of which is probationary. The hospital furnishes you with board and lodging, and has your laundry work done. After the month of probation, for the first five months the pay is five dollars per month. In the next twelve months of training, the pay is thirteen dollars per month. For the concluding six months of service, the pay is sixteen dollars a month.

The month of probation is included in the first year's instruction.

You will be required to sign the following agreement, should the month of probation prove satisfactory to both parties.

"*I promise to remain for two years under instruction in the Training School of the Woman's Hospital, and to observe faithfully all rules of the School.*"

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses, are privileged to apply.

The Examining Board of physicians are Dr. Weir Mitchell and Dr Albert H. Smith.

In recognition of superior ability as nurse pupil, the Managers have ordered the PAULINE MEDAL—a silver medal, with appropriate inscription, and the device, "Be ye Faithful,"—to be given each year to the graduate who is distinguished for intelligence and the conscientious performance of duty.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these, a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

The cost of a scholarship for a nurse pupil for two years, is sixty dollars. We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer, Mrs. Charlotte L. Peirce, 1617 Green Street,

Mrs. Hallowell, Chairman of the Training School Committee, 2017 De Lancey Place,

Mrs. Pauline E. Henry, Germantown,

Or to the following physicians, who have kindly consented to receive donations to the school:

Dr. S. Weir Mitchell,
Dr. John Forsyth Meigs,
Dr. Elwood Wilson,
Dr. Albert H. Smith,
Dr. Alfred Stillé,
Dr. Thos. G. Morton,
Dr. William Pepper,
Dr. W. W. Keen.

STATEMENT OF CASES

FOR THE YEAR ENDING DECEMBER 31, 1878.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30, A M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

NINETEENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL OF PHILADELPHIA.

THE Managers of the WOMAN'S HOSPITAL report that, as far as they have been able, they have extended the advantages and increased the comforts of their Institution to deserving poor women and children. At the same time, they have also received into the Private Wards several ladies who have desired to avail themselves of our hospital advantages, and whose liberal payment has been a not inconsiderable source of income and consequent extension of assistance to those, our first-named charity patients.

They would call attention to the material improvement in the accommodations and comfort of the Hospital that has been made in the past year. The second floor of the Maternity Building, by aid of the generous donation of the late Joshua T. Jeanes, was completed in January last, making fifteen rooms in the obstetrical department. Each patient is cared for in a separate ward, an arrangement which is not only most conducive to the healthfulness of the Maternity, but gives the isolation and privacy so grateful to all sick persons. Not

only the private rooms for pay patients, but the poorest women of those received as free patients are thus accommodated; and these arrangements are, we believe, unequalled in any hospital of this country. All the wards of the Maternity are furnished with open fire-places, besides the steam-heaters which warm the building; so that all patients are secured the necessary amount and change of pure air. In the original building, now used exclusively for medical and surgical cases, changes have been made in all the wards, which give three beds to each of the large wards, thus avoiding the over-crowding of either surgical or medical cases. All improvements during the past year have kept this end in view. This makes accommodation for twenty-two patients, besides three private rooms for pay patients.

The floors of the original building have been relaid in hard-wood, oiled, and finished with shellac; so that they correspond, in this respect, with the wards of the Maternity wing; the halls of the Maternity are laid in lithogen, and the staircases are of iron. There are elevators in both buildings. Improvements in the kitchen ranges and the additional ranges of the diet-kitchens give an ample supply of hot water for ward uses. The furniture of the new wards has been the gift of Miss Jeanes; Mrs. Pauline Henry has furnished a room for nurses, called the Mappy Room.

An application made to the Legislature for Ten thousand dollars, to increase the facilities of the Hospital, was presented in February by Mr. Neall and others, and received favorable consideration; but owing to the close economy which prevailed in appropriations at the last session, was dropped at third reading.

The Dispensary and Clinic of this Hopital, except upon the first day of the week, has a large daily attendance. Some, having means, pay without special charge, a small sum for treatment, but the larger number are treated and furnished with medicine gratuitously; this

makes large and heavy drafts upon the current expenses of the obstetric, surgical, and medical departments. We sensibly feel that here, as elsewhere, additional funds will give us opportunities of usefulness.

A communication received in January from the County Medical Society, asking a number of questions in regard to the free dispensary system, is given below, with the answers returned by the Committee of the Woman's Hospital. The large increase of dispensary practice in all Hospitals, gives rise to the belief, that many persons, who are able to pay for attendance and medicine, avail themselves of hospital charity, which is intended, and should be used only for the very poor. The evil is a growing one; but Hospitals chartered, as the Woman's Hospital, to afford clinical opportunities to Women Students of Medicine, cannot well reduce the size of the Clinics, and the answers given below are therefore of additional interest to our subscribers.*

* The Committee appointed January 10, to confer with the Philadelphia County Medical Society, reported answers to the questions contained in the circular:

Ques. 1. Should general Dispensaries confine their operations strictly to certain geographical lines?

Ans. If unconnected with Medical Schools, Yes. If connected with a Medical School, we are fearful that it would restrict clinical opportunities.

Ques. 2. In order to restrict the benefit of your institution to those who are really poor, should inquiries be made in each case as to the ability of the applicant to pay for medical advice?

Ans. After the first relief has been given, when there is any doubt as to the poverty of the applicant or suspicion of imposture, it is suggested, that the name and address of the patient be referred to the proper ward bureau for investigation, and upon endorsement by said bureau, the relief may be continued to the applicant.

Ques. 3. Would it be advisable to establish, as a standard of qualification for relief, the amount of income, rent paid, or general circumstances of the individual applying?

Ans. We do not consider that any fixed standard could be made to cover all; the larger amount of income or wages returned might have greater claims upon it, and therefore each case must be regarded by their circumstances individually, as for instance, domestic servants, with lower wages, are relatively more able than the shop girl or governess, or even some householders.

Ques. 4. Would it be well for you to charge at your discretion a fee, either for advice or medicines, or both?

Ans. Yes.

In this place, it is proper to state the growing need of this Institution for enlarged accommodation in its Clinic room for College Clinics.

It has been an earnest desire of the Board of Managers to build, adjacent to the Hospital on the east end of the front lot, a suitable building for the use of the Students of the Woman's College, during their attendance of the Hospital Clinics.

The sudden death of one of the Corporators of said College, earnest in his advocacy of the measure, before completing his intended liberal subscription, has, we fear, prolonged the time for this extension.

If this cannot be undertaken during the present year, it is suggested to enlarge the present clinic room, by building an extension to the north. The crowded state of the room on Clinic days, shows to all Managers and Professors conducting the Clinic, that either an addition or a new building, to be put up on the lot connecting the College and Hospital is imperatively called for.

The bill of fare in Hospitals has been the subject of some investigation on the part of two Managers during the past year. Our contributors ought to know the satisfaction we take in stating that the patients of the Woman's Hospital are well fed, with abundant nourishing food, in a well-selected variety, this last being a point of especial attention. Our Matron furnishes, at no greater cost than would supply the tables, where sameness rules, such changes of diet, as are palatable and appetizing (great prominence being given to fruit), both fresh and stewed, as a part of the diet list, refreshing and necessary to the sick. Attention to these details, and the variety which rules in all good housekeeping in private homes is a part of the management of women, which can be supplied to Hospitals in no other way.

In the Nurse School there are at present eighteen pupils. We continue to supply the Pennsylvania Hospital with a class of six nurses, on duty in the Woman's department. One of our nurses,

Anna Bunting, who had been appointed Head Nurse in that department, has been promoted by the Managers of that Institution to the place of Superintendent of Nurses of the Pennsylvania Hospital.

We have also furnished the Orthopedic Hospital with four nurses, for a term of three months each. Nine nurses have graduated from the school during the past year—Nurses Barkley, Deemer, Hannum, Atkinson, Harris, Metzger, Norton, Florman and Bartley—who have fulfilled the requirements of the two years' training, and having passed a successful examination by the medical examiners, Drs. Weir Mitchell and Albert H. Smith, have received the diploma of the school. At the suggestion of Mrs. Henry, nurse scholarships have been founded, the payment of sixty dollars providing for the training of one pupil for two years. The Henry Scholarship, the gift of Mrs. Henry, and the Cliveden Scholarship, the funds for which were collected by Mrs. Samuel Chew, are already established.

The regular course of Hospital Lectures on Nursing was given twice a week during the summer, to a full class, by Dr. Broomall. The volunteer course, by which some of our most distinguished physicians show their interest in the school, was opened in November by a lecture from Dr. W. W. Keen on Criticism of Nurses and Surgical Nursing. Four lectures by Dr. Albert H. Smith on Obstetrical Nursing have been given. The course is filled by a lecture from Dr. John H. Ashurst, Jr., on Surgical Nursing; by Dr. William Pepper, on Fever Nursing; by Dr. James C. Wilson, on the Nursing of Children, and by Dr. James Tyson, on Food in the Sick Room.

The training of nurses being an important part of our Hospital work, and the classes of pupils enlarging each year, the necessity of a home to accommodate the pupil nurses detailed for out-practice becomes urgent. The present accommodations give nine beds for nurses and six for assistant physicians; but as the school grows, a near building, in which the second-year pupils may be accommodated

during their term of out-practice will be needed. The Hospital is under no expense for the wages of nurses, these being paid by the Nurse School, and for the last year the School has been self-supporting.

We refer to the Reports of Dr. Broomall, Physician in charge, for a review of patients, their diseases, and nativity; to that of Charlotte L. Peirce, late Treasurer, for a statement of expenses; and ask for a close examination of our very limited means for further usefulness beyond our present outlay.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS IN THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores; and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Applications of cups and leeches.
6. Fomentations, poultices, blisters, &c.
7. Dressing of bruises, sores, and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist-air, dry-air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants; their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

REBECCA WHITE, *Chairman Committee on Nurses.*

RULES FOR NURSES IN TRAINING.

I.

Application for admission to the school must be made to the resident physician of the hospital. The physician shall select intelligent women only, who can read and write, of a good character and habits, for which testimonial is required. Applicants must be between 21 and 45 years of age.*

II.

A record shall be kept by the resident physician of the names of nurse-students; their time of entering and leaving the school, and of their standing as graduates.

III.

Nurses shall be under training two years, one month of which is probationary. They must sign a written agreement to remain under instruction for eighteen months, and six months in the service of the school.

IV.

Their duties shall not only be within the hospital, but they shall serve in the out-clinic as the resident physician may require. Ten months of their training shall be spent in the wards assigned by the Pennsylvania Hospital to the Woman's Hospital Training School, or in any other general hospital selected by the school.

V.

After the month of probation, for five months the instruction and a small compensation are considered a fair equivalent for their services. For the following twelve months of training they receive thirteen dollars a month. During the time of out-service their pay is sixteen dollars a month.

VI.

The right is reserved by the resident physician and nurse committee to discharge a student for misconduct or inefficiency.

* The Nurse Committee reserve the right to dispense with this rule in cases of exceptional ability.

VII.

The resident physician is empowered to invite any one or more of the graduated nurses to assist her in emergency, when the hospital needs may require. But no nurse, upon leaving the hospital, shall be privileged to return for residence, except as invited by the physician, nor to retain any right before accorded to her, except that of leaving her address.

VIII.

Nurses, while on duty, shall wear cotton dresses without crinoline and without trains, and soft shoes without heels. The dresses shall be changed at least once in two weeks. White aprons must be worn. The utmost simplicity is enjoined both in outer and under-clothing; as no ruffled, tucked, or flounced skirts, nor trimmed garments are allowed to be sent to the hospital laundry. The number of garments shall not exceed eighteen per week.

IX.

Nurses in training are instructed to change the bed-linen in the medical wards twice weekly; in surgical cases every two days, unless directions to the contrary are given. In the lying-in wards, bed-linen and clothing must be changed daily. Each confinement patient shall be washed three times daily, unless special directions are given. The use of sponges is not allowed in the lying-in wards. The babies shall be washed after the morning visit, their mouths carefully washed after each nursing.

X.

The temperature of each patient must be measured, and the pulse and respiration counted and carefully noted twice daily.

XI.

The nurses shall see that each ward is thoroughly ventilated; the temperature shall be maintained at 65° Fahrenheit, unless special directions to the contrary are given.

XII.

Soiled clothing shall be removed immediately from the wards. Bed-pans, syringes, etc., must be carefully washed and disinfected after use.

XIII.

Exact information with respect to the appearance, amount and frequency of discharges is expected of the nurse.

XIV.

Each nurse is required to be present at the morning visit in her ward. In the evening visit she will accompany the physician through all the wards and receive bed-side instruction.

XV.

No nurse shall leave her ward at any time without providing a substitute, upon whom any patient therein or the attending physician may call.

XVI.

Each nurse is required to serve on night-duty as the resident physician may direct, During this time the day is entirely at her disposal for rest and recreation.

XVII.

The night-nurse shall see that the wards be kept perfectly quiet between 8 P. M. and 5 A. M.

XVIII.

Medicines in each ward are to be administered by the nurse, and kept in a locked closet of which she holds the keys.

XIX.

Nurses shall roll the bandages to be used in their wards.

XX.

All unnecessary exposure of a patient is to be avoided in washing and dressing.

XXI.

The temperature and duration of a bath will be ordered by the physician. Mean duration of a general bath, five minutes; of a hip bath, twenty minutes; no bath to be given within two hours of a meal.

XXII.

Nurses are required to be present at the nurse-lectures, unless detailed for special duty at the time.

XXIII.

Each nurse shall serve the prescribed length of time in the diet-kitchen, where she shall prepare all gruels, beef-teas, egg-nogs, etc.

XXIV.

The nurses shall see that visitors bring no food to the patients.

XXV.

The nurse shall not permit a lying-in woman to sit up in bed, or leave her bed, without the full sanction of the physician.

XXVI.

A strict watch of the patient and her every symptom shall be kept by the nurse and reported to the resident physician. A written record in special cases is required.

XXVII.

Gentleness and kindness to all patients is strictly enjoined upon the nurses. No personal remarks or criticism will be permitted, no forebodings expressed, nor comparison with other cases.

XXVIII.

Nurses shall in no instance be permitted to receive money from the patients.

XXIX.

Opportunity shall be given to the nurses to have one afternoon in each week, and part of alternate Sundays, at their own disposal, unless emergency shall require their services. It is expected nurses will assist each other in carrying out this rule.

XXX.

Upon the approval of the Examining Board of Physicians and Managers, a diploma, with the seal of the hospital, signed by the resident physician and the Examining Board, shall be given to each graduate.

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

This paper is to be filled out in applicant's own hand-writing.

1. What is your name and present address?

2. What is your age?

3. State whether you are married or single?

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation?

6. What is your state of health?

7. Have you good sight and hearing?

8. Where were you educated?

9. What references can you give?

10. Do you intend to devote yourself to the profession of nursing?

You will be required to remain under training for two years, the first month of which is probationary. The hospital furnishes you with board and lodging, and has your laundry work done. After the month of probation, for the first five months the pay is five dollars per month. In the next twelve months of training, the pay is thirteen dollars per month. For the concluding six months of service, the pay is sixteen dollars a month.

The month of probation is included in the first year's instruction.

You will be required to sign the following agreement, should the month of probation prove satisfactory to both parties.

"*I promise to remain for two years under instruction in the Training School of the Woman's Hospital, and to observe faithfully all rules of the School.*"

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses, are privileged to apply.

The Examining Board of Physicians are Dr. S. Weir Mitchell and Dr. Albert H. Smith.

In recognition of superior ability as nurse-pupil, the Managers have ordered the PAULINE MEDAL—a silver medal, with appropriate inscription, and the device, "Be ye Faithful,"—to be given each year to the graduate who is distinguished for intelligence and the conscientious performance of duty.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these, a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

The cost of a scholarship for a nurse-pupil for two years, is sixty dollars. We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street,

Rebecca White, Chairman of the Training School Committee, Fernwood, Delaware County,

Mrs. Pauline E. Henry, Germantown,

Or to the following physicians, who have kindly consented to receive donations to the school:

Dr. S. Weir Mitchell,
Dr. John Forsyth Meigs,
Dr. Elwood Wilson,
Dr. Albert H. Smith,
Dr. Alfred Stillé,
Dr. Thos. G. Morton,
Dr. William Pepper,
Dr. W. W. Keen.

STATEMENT OF CASES

FOR THE YEAR ENDING DECEMBER 31, 1879.

Number of Patients received in the Hospital,	236
Number of Patients attended at their homes,	998
Number of Patients treated in the Dispensary,	3,987
Number of Visits made by Dispensary Patients,	11,140
Number of Prescriptions compounded for Dispensary Patients,	12,164

CHARTER.

AN ACT

Incorporating the Woman's Hospital of Philadelphia.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met; and it is hereby enacted by the authority of the same.

That THOMAS BRAINERD, D.D., M. W. BALDWIN, C. D. CLEVELAND, FERDINAND J. DREER, MORRIS L. HALLOWELL, T. MORRIS PEROT, PHILIP M. PRICE, MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICHARD G. STOTESBURY, MRS. CAROLINE R. YARNALL, MRS. MARIA W. HORTON, MRS. EMELINE H. CLEVELAND, MRS. THOMAS WOOD, MRS. REBECCA L. FUSSELL, MISS ANN PRESTON, MISS ANNA WHARTON, MISS ANNA HALLOWELL, MISS ELIZABETH DORSEY, JOSEPH JEANES, MARMADUKE MOORE, WM. S. PIERCE, ISAAC BARTON, SAMUEL JEANES, REDWOOD F. WARNER, EDWIN FUSSELL, MRS. JOHN C. CRESSON, MRS. J. R. PRICE, MRS. GEORGE H. STUART, MRS. THOMAS HALLOWAY, MRS. DAVID MILNE, MRS. ELIZABEEH W. LIPPINCOTT, MRS. MARTHA G. RICHARDSON, MRS. SUSAN M. PARRISH, MRS. MARTHA A. WARNER, MRS. JANE SILL, MRS. THOMAS H. POWERS, MRS. COMMODORE READ, and their associates and successors be, and the same are hereby created and erected into one body politic and corporate, in deed and in law, by the name, style, and title of The Woman's Hospital of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style, and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to take, purchase, hold and receive to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality, real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever, capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use and benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomer of said Corporation, or their succesSsors, shall defeat or annul any gift, grant, devise, or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of said Corporation shall be to establish, in the City of Philadelphia, a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses; the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars, or more in one payment; or not less than one dollar, prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death, resignation, removal, or inattention to the duties as Managers; to make By-Laws for its government, and for the management of the Hospital, the safe keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice-Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a board of advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital. Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

SEC. 11. The following named persons shall be the Managers of the said Corporation until their successors are appointed, and shall divide themselves into three classes, to serve respectively, until the first, second, and third annual meetings of the said Corporation: MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICH-

ard D. Stotesbury, Mrs. Caroline R. Yarnall, Mrs. John C. Cresson, Mrs. J. R. Price, Mrs. George H. Stuart, Mrs. Thomas Halloway, Mrs. David Milne, Mrs. Elizabeth W. Lippincott, Mrs. Martha G. Richardson, Mrs. Commodore Read, Mrs. Maria W. Horton, Mrs. Emeline H. Cleveland, Mrs. Thomas Wood, Mrs. Rebecca L. Fussell, Mrs. Susan M. Parrish, Mrs. Martha A. Warner, Mrs. Jane Sill, Mrs. Thomas H. Powers, Miss Ann Preston, Miss Anna Wharton, Miss Anna Hallowell, Miss Elizabeth Dorsey.

Sec. 12. And be it further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinbefore provided for, shall be regulated by the By-Laws and ordinances of the said Corporation, hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with, the Constitution or Laws of the United States or of this Commonwealth.

Signed,

Elisha W. Davis,
Speaker of the House of Representatives.

Robert M. Palmer,
Speaker of the Senate.

Approved the 22d day of March, A. D. 1861.

A. G. Curtin.

OFFICE OF THE SECRETARY OF THE COMMONWEALTH,
HARRISBURG, April 2d, A. D. 1861.

I do hereby certify that the foregoing and annexed is a full, true and correct copy of the original Act of the General Assembly, entitled "An Act incorporating the Woman's Hospital of Philadelphia," as the same remains on file in this office.

In testimony whereof I have hereunto set my hand, and caused the
[SEAL.] seal of the Secretary's office to be affixed, the day and year above written.

SAMUEL B. MUNAS,
Deputy Secretary of the Commonwealth.

BY-LAWS.

ARICLE I.

Stated meetings of the Managers shall be held on the second Friday of each month of the year, except July and August, at such place and time as they may designate.

ARTICLE II.

Special meetings of the Managers shall be called by the Secretary, or, in her absence, by some other member of the Board, at the request of the President, or any three Managers.

ARTICLE III.

Five members shall constitute a quorum for the transaction of business.

ARTICLE IV.

The order of business at the stated meetings shall be—

1st.—Minutes of the preceding meeting.
2d.—Reports of Committees and Officers.
3d.—Unfinished business.
4th.—New business. Adjournment.

ARTICLE V.

The President, or, in her absence, one of the Vice-Presidents or President pro tem., shall preside at the meetings of the Board, and preserve order.

All drafts upon the Treasurer, approved by the Managers, shall be signed by the Presiding Officer of the meeting at which they have been passed.

ARTICLE VI.

The Secretary shall keep correct minutes of all meetings of the Managers and of the Corporation: give due notice of the time and place of meeting; and countersign all drafts on the Treasurer. She shall also have charge of the seal of the Institution.

ARTICLE VII.

The Treasurer shall take charge of all money belonging to the Corporation, not otherwise ordered by the Board, and shall deposit it, for "The Woman's Hospital of Philadelphia," in her own name as Treasurer, in a Banking institution approved by the Managers. She shall make such investments and appropriations thereof, subject to their order, or as they may have directed,* except in money given for

*See Minute Book vol. 2d, page 333.

special donations, during the recess of the Board; and shall exhibit a full report to the annual meeting of contributors; also, a monthly account to each stated meeting. She shall bind herself by word or writing for the faithful performance of her trust.

ARTICLE VIII.

Any Manager who shall absent herself from the meetings of the Board, for four consecutive months, without some satisfactory excuse, may be considered as having resigned her place, and the Board may proceed to elect a new member to fill the vacancy.

ARTICLE IX.

The Managers shall appoint, at the annual meeting, officers and physicians for the ensuing year; commitees for the admission of patients, and for the superintendence of the Nursing department, and for any other subject deemed needful. Annual collections shall be made from subscribers to the Hospital.

ARTICLE X.

The Medical department shall be under the direction of the Medical Board, consisting of the Chief Resident Physician, attending Physicians, and of four or more consulting Physicians.

ARTICLE XI.

It shall be the duty of the Resident Physician to keep, or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient; the time of leaving; the effect of treatment, and other important details; also a record of dispensary patients, and of those treated at their homes. She shall be qualified to give lectures to Nurses. There shall be a Spring and Autumnal course, consisting of twelve or fifteen Lectures each, for which compensation shall be made from the Nurse Fund.

ARTICLE XII.

The house is designed for respectable persons, those who are unable to pay will be received and treated gratuitously, or they in return shall render any services, according to ability as shall be required. Others will be charged such prices as may be agreed upon in each case.

ARTICLE XIII.

Patients received by the Institution shall be divided into five classes, viz.:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board or an authorized Committee.

2. Obstetric patients (married women) who shall be admitted near the expected time of confinement, and whose residence there shall be limited to three weeks afterwards, unless in particular instances.

3. Women and children, sick with ordinary non-contagious diseases, who shall be admitted for a period not exceeding six weeks, except by special action in each case.

4. Dispensary patients, non-resident at the Hospital, who shall visit the Institution at specified times, be treated there, and furnished with medicine.

5. Clinic patients, unable to visit the Hospital, to be treated at their own homes, and furnished with medicines or otherwise. Attendance on this class of patients, shall be optional with the Chief Resident Physician.

ARTICLE XIV.

All patients will be required to comply strictly with the Rules of the Institution.

ARTICLE XV.

Contagious diseases shall be excluded from the Hospital.

ARTICLE XVI.

One or more Assistant Physicians shall be employed in the institution, and such number of graduates or students of medicine (women), shall be admitted to board, as shall be required for the efficient performance of the medical service.

ARTICLE XVII.

Physicians and students may be permitted to visit the Institution daily, or less frequently, under such regulations as the Medical Board may establish.

ARTICLE XVIII.

Any alteration or amendment to these By-laws, may be made at any stated meeting of the Managers of the Hospital, provided, it shall have been proposed in writing at the previous stated meeting.

Woman's Medical College of Pennsylvania,

North College Avenue and Twenty-First St., Philadelphia.

The Thirty-first Annual Session will commence on Thursday, October 7th, 1880.

THE

Woman's Hospital

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30 A.M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

THE TWENTIETH ANNUAL REPORT

OF THE

MANAGERS

OF

THE WOMAN'S HOSPITAL OF PHILADELPHIA.

The managers of the WOMAN'S HOSPITAL present their Twentieth Annual Report to its contributors, with grateful acknowledgment to the Giver of all good for the present flourishing condition of the Institution.

We feel greatly encouraged with the work, when we contrast the prosperity of to-day with the doubts and anxieties that were experienced a score of years ago, when a WOMAN'S HOSPITAL was regarded by most as a project entirely too novel to admit of success.

Our beds are not only occupied with charity patients, but the past year, particularly, has brought us several remunerative patients from distant places, who, having been obliged to leave their own homes, to secure skilled medical advice, have appreciated the privilege of being privately treated in a well regulated hospital.

The third floor of the maternity building has been entirely completed and furnished, since our last report, through the generosity of our valued President, who has also placed in the hands of our Treasurer a sufficient sum to meet the expense of a new Laundry, the the erection of which has been deferred until spring.

We are sadly in need of increased facilities for the better accommodation of the Clinics, and earnestly hope at no very distant date

to be favored to receive such aid as will enable us to provide ample accommodation to equally benefit the Professor, the Patient, and Student.

We have been the grateful recipients of a legacy of twenty thousand dollars from the estate of the late Joshua T. Jeanes, a warm friend of the Institution, which was placed, by request of his family with the Endowment Fund.

The services of a Solicitor being required by the Hospital, Isaac C. Price offered himself in that capacity and was gratefully accepted.

We desire renewedly to call the attention of our friends and contributors to our School for Training Nurses, which we believe to be one of the most important outgrowths of our Hospital, as all will acknowledge that the skill of the physician is in vain, if not seconded by careful nursing.

We earnestly wish that our pecuniary means would allow us to extend its usefulness by admitting a larger number of pupils as the demand by the public for trained nurses is larger than we can supply.

Contributions to our Nurse Fund will be gladly received by our Treasurer, Mrs. R. C. Bunting, No. 1918 North 13th Street.

We wish here to express our very grateful appreciation of the interesting and practical courses of gratuitous lectures delivered to our nurses by Dr. John H. Ashhurst, on Surgical Nursing; by Dr. William Pepper, on Fever Nursing; by Prof. Joseph P. Remington, on Appliances for the Sick; and by Dr. James Tyson, on Foods.

The regular course of lectures to the nurses was delivered by Dr. Anna E. Broomall.

Fifteen nurse pupils have been admitted to the School during the past year. Of this number four have left and one withdrawn on account of health at the end of the month of probation.

Four nurses have graduated, and five have completed their course of training and are waiting the examination for the diploma of the School.

The accompanying Report of Dr. Anna E. Broomall, Physician in

Charge, furnishes a faithful review of the number of patients, their diseases and nativity.

We also refer to the Report of Rachel C. Bunting, Treasurer, for the financial condition of the Hospital, trusting that our needs will awaken an increased interest in our behalf with not only those who have heretofore kindly assisted us, but, that we may also have the sympathy and support of other benevolent spirits, seeking channels through which to dispense their means to assist the needy.

Is it not truly a wise charity that provides rest and medical advice for the failing strength and exhausted energies of the overworked woman, who would gladly avail herself of the opportunity of being (if possible) nursed back to health?

The managers return cordial thanks to all who have given their aid and services to the institution, not forgetting those who have kindly assisted in the exercises of the devotional hour on Sabbath afternoons. It is meet in closing this Report that we should refer to the bereavement we have sustained in the loss, by death, of one of our Vice-Presidents, Sarah B. F. Greble. She was gifted with fine intellectual ability, combined with more than ordinary suavity of manner. Earnest in purpose, she carried with her in her Hospital work a beautiful dedication of heart, ever ready to speak the sympathetic word to the burdened in spirit, the toil-worn laborer, or the invalid on the couch of suffering. Her face seemed radiant with the light within. Her presence and faithful labors were to us a blessing and bright example of being "Diligent in business, fervent in spirit, serving the Lord."

THE COURSE OF TRAINING

FOR NURSE-STUDENTS TO THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Applications of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

This paper is to be filled out in applicant's own hand writing.

1 What is your name and present address?

2. What is your age?

3. State whether you are married or single?

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation?

6. What is your state of health?

7. Have you good sight and hearing?

8. Where were you educated?

9. What references can you give?

10. Do you intend to devote yourself to the profession of nursing?

You will be required to remain under training for two years, the first month of which is probationary. The hospital furnishes you with board and lodging, and has your laundry work done. After the month of probation, for the first five months the pay is five dollars per month. In the next twelve months of training, the pay is thirteen dollars per month. For the concluding six months of service, the pay is sixteen dollars a month, fifty dollars of the last year's salary to be retained until the term of service has been completed.

The month of probation is included in the first year's instruction.

You will be required to sign the following agreement, should the month of probation prove satisfactory to both parties:—

"*I promise to remain for two years under instruction in the Training School of the Woman's Hospital and to observe faithfully all rules of the School.*"

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Dr. S. Weir Mitchell and Dr. Albert H. Smith.

In recognition of superior ability as nurse-pupil, the Managers have ordered the PAULINE MEDAL—a silver medal, with appropriate inscription, and the device, "Be ye Faithful,"—to be given each year to the graduate who is distinguished for intelligence and the conscientious performance of duty.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have

broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these, a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

The cost of a scholarship for a nurse-pupil for two years, is sixty dollars. We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. S. Weir Mitchell,	Dr. Alfred Stille,
Dr. John Forsyth Meigs,	Dr.Thos. G. Morton,
Dr. Ellwood Wilson,	Dr. William Pepper,
Dr. Albert H. Smith,	Dr. W. W. Keen.

STATEMENT OF CASES

For the Year ending December 31, 1880.

Number of patients received in the hospital.....232
Number of patients attended at their homes.....1213
Number of patients treated in dispensary.....3955

CHARTER.

AN ACT

Incorporating the Woman's Hospital of Philadelphia.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met; and it is hereby enacted by the authority of the same.

That THOMAS BRAINERD, D. D., M. W. BALDWIN, C. D. CLEVELAND, FERDINAND J DREER, MORRIS L. HALLOWELL, T. MORRIS PEROT, PHILIP M. PRICE, MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICHARD G. STOTESBURY, MRS. CAROLINE R. YARNALL, MRS. MARIA W. HORTON, MRS. EMELINE H. CLEVELAND, MRS. THOMAS WOOD, MRS. REBECCA L. FUSSELL, MISS ANN PRESTON, MISS ANNA WHARTON, MISS ANNA HALLOWELL, MISS ELIZABETH DORSEY, JOSEPH JEANES, MARMADUKE MOORE, WM. S. PIERCE, ISAAC BARTON, SAMUEL JEANES, REDWOOD F. WARNER, EDWIN FUSSELL, MRS. JOHN C. CRESSON, MRS J. R. PRICE, MRS. GEORGE H. STUART, MRS. THOMAS HALLOWAY, MRS. DAVID MILNE, MRS. ELIZABETH W. LIPPINCOTT, MRS. MARTHA G. RICHARDSON, MRS. SUSAN M. PARRISH, MRS. MARTHA A. WARNER, MRS. JANE SILL, MRS. THOMAS H. POWERS, MRS. COMMODORE READ, and their associates and successors be, and the same are hereby created and erected into one body politic and corporate, in deed and in law, by the name, style, and title of The Woman's Hospital of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style, and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to take, purchase, hold and receive to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality, real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever, capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use and benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomer of said Corporation, or their successors, shall defeat or annul any gift, grant, devise, or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of said Corporation shall be to establish, in the City of Philadelphia, a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses; the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars, or more in one payment; or not less than one dollar, prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death, resignation, removal, or inattention to the duties as Managers; to make By-Laws for its government and for the management of the Hospital, the safe-keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice-Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a board of advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

Sec. 11. The following-named persons shall be the Managers of the said Corporation until their successors are appointed, and shall divide themselves into three classes, to serve respectively, until the first, second, and third annual meetings of the said Corporation: Mrs. Anne D. Morrison, Mrs. Thomas L. Kane, Mrs. Richard D. Stotesbury, Mrs. Caroline R. Yarnall, Mrs. John C. Cresson, Mrs. J. R. Price, Mrs. George H. Stuart, Mrs. Thomas Halloway, Mrs. David Milne, Mrs. Elizabeth W. Lippincott, Mrs. Martha G. Richardson, Mrs. Commodore Read, Mrs. Maria W. Horton Mrs. Emeline H. Cleveland, Mrs. Thomas Wood, Mrs. Rebecca L. Fussell, Mrs. Susan M. Parrish, Mrs. Martha A. Warner, Mrs. Jane Sill, Mrs. Thomas H. Powers, Miss Ann Preston, Miss Anna Wharton, Miss Anna Hallowell, Miss Elizabeth Dorsey.

Sec. 12. And be it further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinbefore provided for, shall be regulated by the By-Laws and ordinances of the said Corporation, hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with, the Constitution or Laws of the United States or of this Commonwealth.

Signed, Elisha W. Davis,
Speaker of the House of Representatives.

Robert M. Palmer,
Speaker of the Senate.

Approved the 22d day of March, A. D. 1861.
A. G. Curtin.

Office of the Secretary of the Commonwealth,
Harrisburg, April 2d, A. D. 1861.

I do hereby certify that the foregoing and annexed is a full, true and correct copy of the original Act of the General Assembly, entitled "An Act incorporating the Woman's Hospital of Philadelphia," as the same remains on file in this office.

In testimony whereof I have hereunto set my hand, [seal.] and caused the seal of the Secretary's office to be affixed, the day and year above written.

Samuel B. Munas,
Deputy Secretary of the Commonwealth.

BY-LAWS.

ARTICLE I.

Stated meetings of the Managers shall be held on the second Friday of each month of the year, except July and August, at such place and time as they may designate.

ARTICLE II.

Special Meetings of the Managers shall be called by the Secretary, or, in her absence, by some other member of the Board, at the request of the President, or any three Managers.

ARTICLE III.

Five members shall constitute a quorum for the transaction of business.

ARTICLE IV.

The order of business at the stated meeting shall be—

1st.—Minutes of the preceding meeting.
2d.—Reports of Committees and Officers.
3d.—Unfinished business.
4th.—New business. Adjournment.

ARTICLE V.

The President, or, in her absence, one of the Vice-Presidents or Presidents pro tem., shall preside at the meetings of the Board, and preserve order.

All drafts upon the Treasurer, approved by the Managers, shall be signed by the Presiding Officer of the meeting at which they have been passed.

ARTICLE VI.

The Secretary shall keep correct minutes of all meetings of the Managers and of the Corporation; give due notice of the time and place of meeting; and countersign all drafts on the Treasurer. She shall also have charge of the seal of the Institution.

ARTICLE VII.

The Treasurer shall take charge of all money belonging to the Corporation, not otherwise ordered by the Board, and shall deposit it, for "The Woman's Hospital of Philadelphia," in her own name as Treasurer, in a Banking institution approved by the Managers. She shall make such investments and appropriations thereof, subject to their order, or as they may have directed,* except in money given for special donation, during the recess of the Board; and shall exhibit a full report to the annual meeting of contributors; also, a monthly account to each stated meeting. She shall bind herself by word or writing for the faithful performance of her trust.

ARTICLE VIII:

Any Manager who shall absent herself from the meetings of the Board for four consecutive months, without some satisfactory excuse, may be considered as having resigned her place, and the Board may proceed to elect a new member to fill the vacancy.

ARTICLE IX.

The Managers shall appoint, at the annual meeting, officers and physicians for the ensuing year; committees for the admission of patients and for the superintendence of the Nursing department, and for any other subject deemed needful. Annual collections shall be made from subscribers to the Hospital.

ARTICLE X.

The Medical department shall be under the direction of the Medical Board, consisting of the Chief Resident Physician, attending Physicians, and of four or more consulting Physicians.

ARTICLE XI.

It shall be the duty of the Resident Physician to keep, or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient; the time of leaving; the effect of treatment, and other important details; also a record of dispensary patients, and of those treated at their homes. She shall be qualified to give lectures to Nurses. There shall be a Spring and Autumnal course, consisting of twelve or fifteen Lectures each, for which compensation shall be made from the Nurse Fund.

*See Minute Book vol. 2d, page 333.

ARTICLE XII.

The house is designed for respectable persons, those who are unable to pay will be received and treated gratuitously, or they in return shall render any services, according to ability, as shall be required. Others will be charged such prices as may be agreed upon in each case.

ARTICLE XIII.

Patients received by the Institution shall be divided into five classes, viz.:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board or an authorized Committee.
2. Obstetric patients (married women) who shall be admitted near the expected time of confinement, and whose residence there shall be limited to three weeks afterwards, unless in particular instances.
3. Women and children, sick with ordinary non-contagious diseases, who shall be admitted for a period not exceeding six weeks, except by special action in each case.
4. Dispensary patients, non-resident at the Hospital, who shall visit the institution at specified times, be treated there, and furnished with medicine.
5. Clinic patients, unable to visit the Hospital, to be treated at their own homes, and furnished with medicines or otherwise. Attendance on this class of patients, shall be optional with the Chief Resident Physician.

ARTICLE XIV.

All patients will be required to comply strictly with the Rules of the Institution.

ARTICLE XV.

Contagious diseases shall be excluded from the Hospital.

ARTICLE XVI.

One or more Assistant Physicians shall be employed in the institution, and such number of graduates or students of medicine (women) shall be admitted to board, as shall be required for the efficient performance of the medical service.

ARTICLE XVII.

Physicians and students may be permitted to visit the Institution daily, or less frequently, under such regulations as the Medical Board may establish.

ARTICLE XVIII.

Any alteration or amendment to these By-laws, may be made at any stated meeting of the Managers of the Hospital, provided, it shall have been proposed in writing at the previous stated meeting.

RACHEL L. BODLEY, M. D., Dean,
North College Avenue and 21st Street.

The Thirty-Second Annual Session will Commence on Thursday October 6th, 1881.

—THE—

WOMAN'S HOSPITAL

OF PHILADELPHIA.

This Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30 A. M. for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendance and nursing, at prices varying from six to twenty dollars per week.

TWENTY-FIRST ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL OF PHILADELPHIA.

THE Board of Managers of the WOMAN'S HOSPITAL of Philadelphia respectfully submit their Twenty-first Annual Report to its contributors.

Through the goodness of an All Wise Providence, we are able to state, that the work of the Institution has progressed during the year, beyond any previous record. In consequence of which, and in accordance with the request of our Physician in charge, the Managers deemed it best to appoint an assistant physician.

The proposed laundry referred to in our last Report has been completed and occupied.

In the early part of the year, Rachel M. Huey, owing to ill-health resigned her position as Matron. The Managers accepted her resignation, and desire here to express their appreciation of her valuable and faithful services in the interests of the Institution, for a term of seven years.

The greatly increased demand on the Woman's Hospital, in all its departments, has rendered the extension of its buildings, from time to time, imperatively necessary.

The reception rooms of the Dispensary are now so decidedly insufficient for the accommodation of the patients, that it is needful to erect a new building, that shall be suitable for a reception and lecture-room,

but at present, our funds will not admit of our undertaking this very desirable improvement.

The number of pupils in the Nurse School has been increased; the continuous demand for trained nurses assures us, that greater efforts in this direction are necessary, to meet the growing desire for skilled caretakers of the sick.

The Managers have greatly appreciated the two courses of Lectures delivered by Dr. Anna E. Broomall, to the Nurses, as well as those of Drs. Albert H. Smith, Ashurst and Keen.

In consequence of the advanced prices of provisions, and the great number of patients, we feel the imperative necessity of additional means to provide for the wants of the inmates, and ask for aid to help us meet what we fear, will be a deficiency in our supplies.

The beneficent work of the Hospital has so largely increased, during the past twelve-month, that the Managers sincerely hope they may be sustained in continuing the benefits of the Institution to afflicted women, who are dependent on their own exertions for subsistence, and who with the medical care and rest found with us, are made able to again take up the battle of life with renewed health and strength.

Our rooms for the accommodation of invalids desiring to pay for attendance and nursing, are large and airy, and have been occupied during the entire year.

Through the kind liberality of our worthy President, Mary Jeanes, we have to acknowledge the gift of two thousand dollars, which will be wholly applied to building purposes. Our thanks are also due to her for the furnishing of the Children's Ward.

We here express our thanks to the executors of the Jesse George estate for one thousand dollars, they having kindly considered our worthiness by this additional sum in their final distribution; which was by order of the Board, also applied to the Building Fund.

Our thanks are offered to all who have been employed in the Hospital in whatever capacity their duties may have been; whether it be the medical work of our skillful Physician in charge, and her efficient assis-

tants ; or the sweet offerings of the ladies who have so kindly led the religious exercises of the Sabbath afternoons, or any other member of the busy family ; as well as to those, who have in any way, contributed either time or money for the welfare of the Institution. And amidst the various anxieties necessarily involved in the care of such an establishment, it is a subject of grateful acknowledgment, that so much harmony and good feeling have prevailed in the household. The Managers recognized in the death of Caroline Yarnall, the loss of a warm friend of the Institution ; she having been one of the original Managers and an Honorary Member at the time of her death.

The close of Martha Ann Warner's life-work, led us to a retrospective view of her long association with the Woman's Hospital. She was one of its Vice-Presidents for five years ; its Treasurer for four, from which appointment she was only released in anticipation of an extended foreign tour. When failing health, prompted her to offer her resignation to the Board, it was their pleasure to place her name on the list of Honorary Membership, in grateful recognition of her quiet influence and faithful services.

We refer to the accompanying Reports of Dr. Broomall, Physician in charge for a review of patients, their diseases and nativity, and details of the Nurse Training School. To that of Rachel C. Bunting, Treasurer, for statement of expenses, and ask for a close examination of our limited means, for future usefulness.

Report of the Training School for Nurses.

During the year 1881 thirty-one pupils have been admitted in the Training School for nurses, of this number, seven have left the class at or shortly after the month of probation. Four nurses having finished the course of instruction, have passed satisfactory examinations and have received their diplomas. The class during the past year has been larger than any previous year. In the spring two lectures, on confinement nursing were given, by Dr. Albert H. Smith, and two lectures on surgical nursing, one by Dr. W. W. Keen and the other by Dr. John H. Ashhurst, Jr. These gentlemen have kindly given their services and the lectures have been very highly appreciated by the class.

The regular instruction has been continued during the entire year; lectures have been delivered twice weekly and quizzes have also been conducted twice weekly. Bed-side instruction has been given in lifting patients, in changing body and bed clothing, in making beds and arranging pillows, &c.

An important feature of the training has been the careful teaching of manipulation, under the direct supervision of the assistant physician of the Hospital, Dr. Hannah J. Price and Miss Ann Norton, a former graduate of the nurse Training School. Each nurse has had a vacation in the summer, of one week. These pupils who otherwise would have been deprived of this rest, were enabled to take the vacation through the kindness of Miss Caroline E. Peterson, of the Woman's Christian Association, and Mrs. Eliza S. Turner of Chaddsford. It has been the aim to make the instruction of the class very practical, so that by direct explanation of every instrument shown, and every method taught, and by careful avoidance of technical terms, the pupils have acquired an intelligent understanding of the lectures. The demand in the community for nurses has been very great during the past year, showing a marked appreciation of the value of trained help, in the care of the sick.

ANNA E. BROOMALL.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Applications of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

This paper is to be filled out in applicant's own hand writing.

1. What is your name and present address?

2. What is your age?

3. State whether you are married or single?

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation?

6. What is your state of health?

7. Have you good sight and hearing?

8. Where were you educated?

9. What references can you give?

10. Do you intend to devote yourself to the profession of nursing?

You will be required to remain under training for two years, the first month of which is probationary. The hospital furnishes you with board and lodging, and has your laundry work done. After the month of probation, for the first five months the pay is five dollars per month. In the next twelve months of training, the pay is thirteen dollars per month. For the concluding six months of service, the pay is sixteen dollars a month, fifty dollars of the last year's salary to be retained until the term of service has been completed.

The month of probation is included in the first year's instruction.

You will be required to sign the following agreement, should the month of probation prove satisfactory to both parties :—

"*I promise to remain for two years under instruction in the Training School of the Woman's Hospital and to observe faithfully all rules of the School.*"

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Dr. Albert H. Smith and Dr. W. W. Keen.

In recognition of superior ability as nurse-pupil, the Managers have ordered the PAULINE MEDAL—a silver medal, with appropriate inscription, and the device, "Be ye Faithful,"—to be given each year to the graduate who is distinguished for intelligence and the conscientious performance of duty.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their

written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these, a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

The cost of a scholarship for a nurse-pupil for two years, is sixty dollars. We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. John Forsyth Meigs,
Dr. Ellwood Wilson,
Dr. Albert H. Smith,
Dr. Alfred Stille,
Dr. Thos. G. Morton,
Dr. William Pepper,
Dr. W. W. Keen.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met; and it is hereby enacted by the authority of the same.

That THOMAS BRAINERD, D. D., M. W. BALDWIN, C. D. CLEVELAND, FERDINAND J. DREER, MORRIS L. HALLOWELL, T. MORRIS PEROT, PHILIP M. PRICE, MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICHARD G. STOTESBURY, MRS. CAROLINE R. YARNALL, MRS. MARIA W. HORTON, MRS. EMELINE H. CLEVELAND, MRS. THOMAS WOOD, MRS. REBECCA L. FUSSELL, MISS ANN PRESTON, MISS ANNA WHARTON, MISS ANNA HALLOWELL, MISS ELIZABETH DORSEY, JOSEPH JEANES, MARMADUKE MOORE, WM. S. PIERCE, ISAAC BARTON, SAMUEL JEANES, REDWOOD F. WARNER, EDWIN FUSSELL, MRS. JOHN C. CRESSON, MRS. J. R. PRICE, MRS. GEORGE H. STUART, MRS. THOMAS HALLOWAY, MRS. DAVID MILNE, MRS. ELIZABETH W. LIPPINCOTT, MRS. MARTHA G. RICHARDSON, MRS. SUSAN M. PARRISH, MRS. MARTHA A. WARNER, MRS. JANE SILL, MRS. THOMAS H. POWERS, MRS. COMMODORE READ, and their associates and successors be, and the same are hereby created and erected into one body politic and corporate, in deed and in law, by the name, style, and title of The Woman's Hospital of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style, and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to

take, purchase, hold and receive to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality, real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever, capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use and benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomer of said Corporation, or their successors, shall defeat or annul any gift, grant, devise, or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of said Corporation shall be to establish, in the City of Philadelphia, a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses; the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars, or more in one payment; or not less than one dollar, prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death, resignation, removal, or inattention to the duties as Managers; to make By-Laws for its government and for the management of the Hospital, the safe-keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice-Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a board of advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital. Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

SEC. 11. The following-named persons shall be the Managers of the said Corporation until their successors are appointed, and shall divide themselves into three classes, to serve respectively, until the first, second, and third annual meetings of the said Corporation: MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICHARD D. STOTESBURY, MRS. CAROLINE R. YARNALL, MRS. JOHN C. CRESSON, MRS. J. R. PRICE, MRS. GEORGE H. STUART, MRS. THOMAS HALLOWAY, MRS. DAVID MILNE, MRS. ELIZABETH W. LIPPINCOTT, MRS. MARTHA G. RICHARDSON, MRS. COMMODORE READ, MRS. MARIA W. HORTON, MRS. EMELINE H. CLEVELAND, MRS. THOMAS WOOD, MRS. REBECCA L. FUSSELL, MRS. SUSAN M. PARRISH, MRS. MARTHA A. WARNER, MRS. JANE SILL, MRS. THOMAS H. POWERS, MISS ANN PRESTON, MISS ANNA WHARTON, MISS ANNA HALLOWELL, MISS ELIZABETH DORSEY.

SEC. 12. And be it further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinbefore provided for, shall be regulated by the By-Laws and ordinances of the said Corporation, hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which

may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with, the Constitution or Laws of the United States or of this Commonwealth.

Signed, ELISHA W. DAVIS,
Speaker of the House of Representatives.

ROBERT M. PALMER,
Speaker of the Senate.

Approved the 22d day of March, A. D., 1861.

A. G. CURTIN.

OFFICE OF THE SECRETARY OF THE COMMONWEALTH,
HARRISBURG, April 2d, A. D. 1861.

I do hereby certify that the foregoing and annexed is a full, true and correct copy of the original Act of the General Assembly, entitled "An Act incorporating the Woman's Hospital of Philadelphia," as the same remains on file in this office.

[SEAL.] In testimony whereof I have hereunto set my hand, and caused the seal of the Secretary's office to be affixed, the day and year above written.

SAMUEL B. MUNAS,
Deputy Secretary of the Commonwealth.

BY-LAWS.

ARTICLE I.

Stated meetings of the Managers shall be held on the second Friday of each month of the year, except July and August, at such place and time as they may designate.

ARTICLE II.

Special Meetings of the Managers shall be called by the Secretary, or, in her absence, by some other member of the Board, at the request of the President, or any three Managers.

ARTICLE III.

Five members shall constitute a quorum for the transaction of business.

ARTICLE IV.

The order of business at the stated meeting shall be—

1st.—Minutes of the preceding meeting.
2d.—Reports of Committees and Officers.
3d.—Unfinished business.
4th.—New business. Adjournment.

ARTICLE V.

The President, or, in her absence, one of the Vice-Presidents or Presidents pro tem., shall preside at the meetings of the Board, and preserve order.

All drafts upon the Treasurer, approved by the Managers, shall be signed by the Presiding Officer of the meeting at which they have been passed.

ARTICLE VI.

The Secretary shall keep correct minutes of all meetings of the Managers and of the Corporation; give due notice of the time and place of meeting; and countersign all drafts on the Treasurer. She shall also have charge of the seal of the Institution.

ARTICLE VII.

The Treasurer shall take charge of all money belonging to the Corporation, not otherwise ordered by the Board, and shall deposit it, for "The Woman's Hospital of Philadelphia," in her own name as Treasurer, in a Banking institution approved by the Managers. She shall make such investments and appropriations thereof, subject to their order, or as they may have directed,* except in money given for special donation, during the recess of the Board; and shall exhibit a full report to the annual meeting of contributors; also, a monthly account to each stated meeting. She shall bind herself by word or writing for the faithful performance of her trust.

ARTICLE VIII.

Any Manager who shall absent herself from the meetings of the Board for four consecutive months, without some satisfactory excuse, may be considered as having resigned her place, and the Board may proceed to elect a new member to fill the vacancy.

ARTICLE IX.

The Managers shall appoint, at the annual meeting, officers and physicians for the ensuing year; committees for the admission of patients and for the superintendence of the Nursing department, and for any other subject deemed needful. Annual collections shall be made from subscribers to the Hospital.

ARTICLE X.

The Medical department shall be under the direction of the Medical Board, consisting of the Chief Resident Physician, attending Physicians, and of four or more consulting Physicians.

ARTICLE XII.

The house is designed for respectable persons, those who are unable to pay will be received and treated gratuitously, or they in return shall render any services, according to ability, as shall be required. Others will be charged such prices as may be agreed upon in each case.

ARTICLE XIII.

Patients received by the Institution shall be divided into five classes, viz.:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board or an authorized Committee.

2. Obstetric patients (married women) who shall be admitted near the expected time of confinement, and whose residence there shall be limited to three weeks afterwards, unless in particular instances.

3. Women and children, sick with ordinary non-contagious diseases, who shall be admitted for a period not exceeding six weeks, except by special action in each case.

4. Dispensary patients, non-resident at the Hospital, who shall visit the Institution at specified times, be treated there, and furnished with medicine.

5. Clinic patients, unable to visit the Hospital, to be treated at their own homes, and furnished with medicines or otherwise. Attendance on this class of patients, shall be optional with the Chief Resident Physician.

ARTICLE XIV.

All patients will be required to comply strictly with the Rules of the Institution.

ARTICLE XV.

Contagious diseases shall be excluded from the Hospital.

ARTICLE XVI.

One or more Assistant Physicians shall be employed in the Institution, and such number of graduates or students of medicine (women), shall be admitted to board, as shall be required for the efficient performance of the medical service.

ARTICLE XVII.

Physicians and students may be permitted to visit the Institution daily, or less frequently, under such regulations as the Medical Board may establlsh.

ARTICLE XVIII.

Any alteration or amendment to these By-laws, may be made at any stated meeting of the Managers of the Hospital, provided, it shall have been proposed in writing at the previous stated meeting.

ARTICLE XIX.

It shall be the duty of the Resident Physician to keep, or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient; the time of leaving; the effect of treatment, and other important details; also a record of dispensary patients, and of those treated at their homes. She shall be qualified to give lectures to Nurses. There shall be a Spring and Autumnal course, consisting of twelve or fifteen Lectures each, for which compensation shall be made from the Nurse Fund.

The Thirty-third Annual Session will commence on Thursday, October 5th, 1882.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30 A.M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—from one to five dollars per week, as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

TWENTY-SECOND ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA,

NORTH COLLEGE AVENUE AND TWENTY-SECOND STREET.

(NORTH OF GIRARD COLLEGE.)

JANUARY, 1883.

PHILADELPHIA:
GRANT, FAIRES & RODGERS, PRINTERS, 52 & 54 N. SIXTH ST.
1883.

FORM OF BEQUEST.

*

I give, devise and bequeath to THE WOMAN'S HOSPITAL OF PHILADELPHIA, North College Avenue and Twenty-Second Street, ... Dollars for the use of the Corporation.

FORM OF DEVISE OF REAL ESTATE.

*

I give, devise and bequeath to THE WOMAN'S HOSPITAL OF PHILADELPHIA, in fee simple, for the use of the Corporation, (here describe the Real Estate accurately), with full power to sell, mortgage and convey the same free of all trusts.

ENDOWMENT.

*

A bed may be endowed in perpetuity by the gift of Five Thousand dollars; or the Managers will accept Three Thousand dollars as an endowment during the donor's life.

TWENTY-SECOND ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL OF PHILADELPHIA.

In offering our Twenty-second Annual Report to the contributors and friends of the Woman's Hospital of Philadelphia, we must state the year just closed has been an unusually eventful one; and while we recognize its prosperity, we are conscious that it has not been without shadows.

Two valued Managers have paid the debt of nature.

The physician in charge, Doctor Anna E. Broomall, offered her resignation, which the Managers regretfully accepted, believing the institution would meet with a great loss in her retirement from the position she had filled with so much ability for the last seven years. She has entered into private practice in this city, and has the best wishes of every Manager for her success.

To Dr. Broomall's energy and practical ideas, the Managers owe much for the present flourishing condition of the Nurse Training School, which, fostered by her untiring zeal, has grown to be a most important part of the Hospital work, and an inestimable boon to the community. We also ascribe the greatly increased usefulness of the Hospital to her devotion to its interests. We were fortunate in securing as her successor Doctor Anita E. Tyng, who left a large and remunerative practice in Providence, Rhode Island, to assume the duties and responsibilities of Physician in Charge of this institution.

Through the aid and exertion of the Managers, one of whom contributed half of the cost, the Clinic Hall referred to in our last report has been completed at the cost of sixteen thousand five hundred and ninety dollars. It was dedicated on the 4th inst., with appropriate ceremonies. This is the first building of the kind erected by women for women, and is a flattering proof of the substantial advance made in this city in the field of woman's medical education, and will afford far better accommodation to professor, student and patient, than the crowded apartments heretofore assigned to their use.

The Managers have in view the erection of a building on the corner of Twenty-second and Henrietta Streets, for the use and relief of such pay patients as may desire the seclusion not to be found in the Hospital proper.

Among other necessary improvements hoped for, a house to renovate the bedding, and a high brick wall, to protect the premises from annoyance and abuse perpetrated from the back street. A petition will be forwarded to the present session of the State Legislature, asking aid in these respects.

A very complete fire-escape from the main building and Maternity has been erected, providing complete facility for reaching the street from either house, the connection being an iron bridge leading to an iron stairway to the ground. The total expense was defrayed by one of the Managers.

Our thanks are due to the members of the medical staff for services rendered, and especially to Dr. Albert H. Smith and Dr. Keen, for lectures to the Nurse pupils.

The Managers are not unmindful of the kindness of the ladies who have assisted in the devotional hour of the Sabbath. To them, and to all who have assisted in any way to further the Hospital work, we extend our cordial thanks.

We gratefully acknowledge the receipt of fifteen thousand dollars from the estate of Hannah W. Richardson, and four hundred and seventy-five dollars from that of Jane S. Comfort; also a bequest of two hundred and fifty dollars from Rachel M. Huey, who had acceptably served the institution as Matron for seven years, and in her dying hour forgot not those for whom her living interest had been so actively manifested.

It is well known that many who reap the greatest benefit from the Hospital are those of limited means; to such we greatly desire to continue its benefits, but must ask for increased support from our friends, to secure to the worthy applicant the aid and comfort we desire.

As we extend the benefits of the Hospital, so must the funds needed to sustain the wants of the institution be increased.

The use of Clinic Hall will increase the annual expenditure fifteen hundred dollars.

The pupils of the Nurse School have been doubled since our last report, offering to them a larger avenue to an honorable independence, the expense of which must also be met from the Hospital funds.

We thankfully believe the modest beginning of this work has been blessed beyond the hopes of the founders, and it is for us, the successors of the pioneers in the Hospital work, to take from their memory and example increased devotion to our duties, looking to that help and guidance in which they put their trust, and seeking for the blessing of "Him who doeth all things well."

We recognize in the death of Mrs. John P. Crozer the loss of an interested friend of the Hospital, she having long been a Manager, and one who contributed largely in material aid to its welfare, also remembering us in the final distribution of her estate by a legacy of

three thousand dollars. She was an honorary member at the time of her death.

We have also to recur to the great loss we have sustained in the removal of Hannah W. Richardson from works to rewards, and copy the following tribute to her memory from our Minute Book:

"She was one of the originators of this noble institution, and to her liberal benefactions and untiring efforts to promote the beneficent work of the Hospital, we are largely indebted for the high position it now occupies."

The sick and suffering women ever found in her a sympathizing friend, and a ready provider of means to add to their comfort. We will sadly miss her presence in our Board, and her hearty co-operation in such measures as would add to the efficiency and usefulness of the institution.

"Vainly look we for another,
In her place to stand."

We refer to the accompanying reports of the Physician in Charge for statement of the medical work of the institution, and condition of the Nurse Training School; to that of the Treasurer for an exhibit of our financial condition.

Report of the Training School for Nurses.

During the year 1882 nineteen pupils have been admitted. Four have graduated. Fifteen have left. There are twenty-nine in the school. Sixteen applicants are waiting for vacancies.

A. E. TYNG.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and habits, for which satisfactory testimonials are required. Applicants must be between twenty-one and forty-five years of age.

2. Nurses shall be under training two years, one month of which shall be probationary; after which, they shall receive for the next five months five dollars per month; for the following twelve months thirteen dollars per month, and for the last six months they shall receive sixteen dollars per month. Fifty dollars of the last year's salary shall be retained until the term of service is completed.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the nurse committee, have the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week or once in two weeks, as neatness may require. They shall wear soft shoes that do not creak.

Felt slippers are best for winter. Nurses are expected to keep themselves neat and clean, paying especial attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be ruffled, tucked or flounced. The number of garments for each nurse not to exceed eighteen per week. Nurses shall keep their own rooms neatly swept and in good order.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean sheet shall be given daily; the pillow cases shall be changed twice a week; the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided. The babies shall be washed after the morning visit; a full bath in their bath-tub once daily; the private parts after each passage of urine or fœces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying-in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose.

8. Soiled clothing, sheets, &c., shall be removed immediately from the wards Bed-pans, syringes, and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a weak solution of carbolic acid or other disinfectant. The nurses must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and to report every symptom or change that has occurred in the patients since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting, or distributing meals, but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she will have the day for rest, unless an emergency should require a deviation from this rule. The night nurses shall see that the wards are kept perfectly quiet between 8 P. M. and 5 A. M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence. She shall place a basin of water and towel beside each patient who cannot get up, but yet is able to wash her face and hands, the last thing before leaving in the morning.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages, and keep them constantly on hand in the Maternity and Surgical Wards; they shall also cut and heat adhesive plaster, and attend to surgical dressing as directed. The nurses in the Surgical department shall see that the patients be kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one on whom an operation has been performed, to sit up in bed, or to leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15. The nurses must occupy their sitting-room in the evening. They will only be allowed gas in their bed-rooms from 9½ until 10 o'clock.

16. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own hand writing.

1. What is your name and present address?

2. What is your age?

3. State whether you are married or single?

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation?

6. What is your state of health?

7. Have you good sight and hearing?

8. Where were you educated?

9. Please give reference?

10. Do you intend to devote yourself to the profession of nursing?

You will be required to remain under training for two years, the first month of which is probationary. The hospital furnishes you with board and lodging, and has your laundry work done. After the month of probation, for the first five months the pay is five dollars per month. In the next twelve months of training, the pay is thirteen dollars per month. For the concluding six months of service, the pay is sixteen dollars a month, fifty dollars of the last year's salary to be retained until the term of service has been completed.

The month of probation is included in the first year's instruction.

You will be required to sign the following agreement, should the month of probation prove satisfactory to both parties:—

"I promise to remain for two years under instruction in the Training School of the Woman's Hospital and to observe faithfully all rules of the School."

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Dr. Albert H. Smith and Dr. W. W. Keen.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service*. Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Ellwood Wilson,
Dr. Albert H. Smith,
Dr. Alfred Stille,
Dr. Thos. G. Morton,
Dr. William Pepper,
Dr. W. W. Keen.

STATEMENT OF CASES

FOR THE YEAR ENDING DECEMBER 31, 1882.

Number of patients received in the Hospital,	292
Number of patients attended at their homes,	733
Number of patients treated in the Dispensary,	4,770

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 9.30 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesday and Saturday, from 2 to 4 P. M.

TWENTY-THIRD ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF

THE WOMAN'S HOSPITAL

OF PHILADELPHIA.

NORTH COLLEGE AVENUE AND TWENTY-SECOND STREET.

NORTH OF GIRARD COLLEGE.

JANUARY, 1884.

PHILADELPHIA:
GRANT, FAIRES & RODGERS, PRINTERS, 52 & 54 N. SIXTH STREET.
1884.

FORM OF BEQUEST.

I give, devise and bequeath to THE WOMAN'S HOSPITAL OF PHILADELPHIA, North College Avenue and Twenty-Second Street,
Dollars for the use of the Corporation.

FORM OF DEVISE OF REAL ESTATE.

I give, devise and bequeath to THE WOMAN'S HOSPITAL OF PHILADELPHIA, in fee simple, for the use of the Corporation, (here describe the Real Estate accurately), with full power to sell, mortgage and convey the same free of all trusts.

ENDOWMENT.

A bed may be endowed in perpetuity by the gift of Five Thousand dollars; or the Managers will accept Three Thousand dollars as an endowment during the donor's life.

TWENTY-THIRD ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

The Managers of the Woman's Hospital of Philadelphia present their annual report to its contributors, for the twenty-third time, and are again favored with evidence of growth. Most of the early workers in the interests of the Institution have finished their earthly tasks, but the work has steadily gone on; the Father's blessing has not been withheld; the increase has been many-fold.

The Nurse School continues to claim our earnest attention, and we hope for still better results in the future than we have yet attained.

The accompanying report of Dr. Tyng furnishes the detailed work of this department for the past year.

We have long desired to provide better lodging accommodations for the nurse pupils, and are now erecting a commodious nurse dormitory on the Hospital grounds sixty-two feet in length by forty-two in width, three stories high. The completion of this building will afford ample room for thirty-two pupils.

Two-thirds of the cost of this needed improvement will be met by an appropriation of seven thousand five hundred dollars from the State. Our committee were greatly assisted in procuring this sum

by the influence of the late Gen. Thomas L. Kane and his wife, Dr. Elizabeth D. Kane.

Our thanks are due, and cordially tendered, to the members of the Legislature, who were kindly interested in the passage of the bill securing us this appropriation.

Early in the year we announced for the first time a "Donation Day," the response to which brought us thirteen hundred and seventy-one dollars in money, besides clothing, groceries, and various supplies suited to Hospital use; all of which were very acceptable, and a great assistance pecuniarily.

Another Donation Day will be appointed for the present year. The conducting pipes from the steam heaters have all been covered with asbestos through the generosity of one of the managers

We gratefully acknowledge the receipt of one thousand dollars from the estate of William S. Vaux.

The Clinics have been unusually large.

Especial attention has been given to the Eye and Ear clinic. The work in the Dispensary has greatly increased, and is under the care of Dr. Susan Hayhurst, a graduate of the College of Pharmacy of this city.

Our thanks are due and are cheerfully offered to all who have aided in any part of the year's work. We cannot justly close this report without an urgent appeal to the benevolent for that substantial aid requisite to conduct an Institution dispensing so much beneficent work. The increased expenditure renders it absolutely necessary to enlarge our income to continue future usefulness. We refer to the accompanying reports of Dr. Tyng, physician in charge, for detailed review of patients, their diseases and nativity; to that of Rachel C. Bunting, Treasurer, for statement of receipts aud outlay.

E. C. GRIFFITH,
PRESIDENT

Report of the Training School for Nurses

FOR THE YEAR 1883.

Fifteen pupils have been admitted during the past year, and seven have left. One of these was discontented, one discharged, the others were not in sufficiently good health.

There have been two public graduations held in Clinic Hall, at each of which nine nurses received their diplomas. One of them, Miss A. M. Fletcher, received the Pauline Medal, which is "given in recognition of superior ability," and has also been installed as head nurse.

Beside the regular instruction in lectures and quizzes, there have been several lectures by other physicians, who, knowing the great need felt in the community for more skilled nurses, have ever shown a kindly interest in the welfare of the School:

On Anatomy and Physiology; a course of five by Dr. Emilie B. Du Bois.
On Bandaging; a course of six by Dr. Sophia Presley.
On Confinements; two by Dr. Ida E. Richardson, and one by Dr. Anna M. Fullerton.
On the Care of Diseases of the Eye; by Dr. Amy S. Barton.
On Cooking; seven by Mrs. Rohrer.
On Typhoid Fever; by Dr. Ida E. Richardson.
On Fevers in General; by Dr. James B. Walker.
On Rheumatism, Eruptive Diseases, and Food, with its relation to the sick; three lectures by Dr. Martha Perry.
On Poisons; by Dr. Clara Marshall.
On Massage; by Dr. Hannah J. Price.

ANITA E. TYNG, M.D.,

The First Semi-Annual Commencement of the Nurse Training School was held March 14th, in Clinic Hall, when the President of the Board of Managers, Mrs. B. Griffith, conferred diplomas on the following named ladies, who had fulfilled the prescribed course of training:

Mrs. Agnes E. Hanna	New York.
Mrs. Emma J. Rouse	Pennsylvania.
Miss Catharine R. Conway	Philadelphia.
Miss Mary Gale	Cincinnati, Ohio.
Miss Helen F. Greaney	Philadelphia.
Miss Emily Lewis	Pennsylvania.
Miss Elizabeth E. Lee	Pennsylvania.
Miss Sara G. Haydock	Philadelphia.
Miss Ada M. Fletcher	Illinois.

The Second Commencement occurred on Dec. 19th. Diplomas were awarded by Mrs. R. C. Bunting, Chair. of Nurse Com., to

Mrs. Maggie Parker	New York.
Miss Amanda Gates	Pennsylvania.
Miss Maggie Smith	New Jersey.
Miss Chloe C. Littlefield	Massachusetts.
Miss Elizabeth McKechnie	Massachusetts.
Mrs. Ida Hancock	New York.
Miss Kate Kyler	Pennsylvania.
Mrs. Ray Laurie	Pennsylvania.
Miss Jennie E. Garland	Pennsylvania.

Congratulatory addresses were delivered on both occasions to the graduates.

THE COURSE OF TRAINING

For Nurse-Students of the Woman's Hospital, Philadelphia, includes:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.
22. Hygiene and rudimentary principles of Anatomy and Physiology.

RACHEL C. BUNTING.
CHAIR. COM. OF NURSES.

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own handwriting on another paper.

1. What is your name and present address?
2. What is your age?
3. State whether you are married or single?
4. If a widow, have you children? How many? Their ages? How are they provided for?
5. What is your present occupation?
6. What has been the state of your health the past year?
7. Have you good sight and hearing?
8. Where were you educated?
9. Please give reference?
10. Do you intend to devote yourself to the profession of nursing?

You will be required to remain under training for two years, the first two months of which are probationary. The hospital furnishes you with board and lodging, and has your laundry work done. After the first month of probation, for the next five months the pay is five dollars per month. In the next twelve months of training, the pay is thirteen dollars per month. For the concluding six months of service, the pay is sixteen dollars a month, fifty dollars of the last year's salary to be retained until the term of service has been completed.

The months of probation are included in the first year's instruction.

You will be required to sign the following agreement, should the time of probation prove satisfactory to both parties:—

"*I promise to remain for two years under instruction in the Training School of the Woman's Hospital and to observe faithfully all the rules of the School.*"

Upon passing a satisfactory examination, at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Dr. Albert H. Smith, Dr. W. W. Keen, and Dr. Anna E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticisms and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School, in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Ellwood Wilson,	Dr. Thos. G. Morton,
Dr. Albert H. Smith,	Dr. William Pepper,
Dr. Alfred Stillé,	Dr. W. W. Keen.

Applications for admission to the Nurse School should be made to

A. E. Tyng, M.D.

Woman's Hospital, Philadelphia, Pa.

STATEMENT OF CASES.

FOR THE YEAR ENDING DECEMBER 31, 1883.

MRS. SUSAN M. PARRISH,
MRS. MARTHA A. WARNER,
MRS. JANE SILL,
MRS. THOMAS H. POWERS,
MRS. COMMODORE READ,

and their associates and successors be, and the same are hereby created and erected into one body politic and corporate, in deed and in law, by the name, style, and title of The Woman's Hospital of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style, and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to take, purchase, hold, and receive to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality, real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever, capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use and benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomer of said Corporation, or their successors, shall defeat or annul any gift, grant, devise, or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of the said Corporation shall be to establish, in the City of Philadelphia, a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses; the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars or more in one payment; or not less than one dollar prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death,

resignation, removal, or inattention to their duties as Managers; to make By-Laws for its government and for the management of the Hospital, the safe-keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice-Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a Board of Advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital. Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

SEC. 11. The following-named persons shall be the Managers of the said Corporation until their successors are appointed, and shall divide themselves into three classes, to serve respectively, until the first, second, and third annual meetings of the said Corporation:

MRS. ANNE D. MORRISON,
MRS. THOMAS L. KANE,
MRS. RICHARD D. STOTESBURY,
MRS. CAROLINE R. YARNALL,
MRS. JOHN C. CRESSON,
MRS. J. R. PRICE,
MRS. GEORGE H. STUART,
MRS. THOMAS HALLOWAY,
MRS. DAVID MILNE,
MRS. ELIZABETH W. LIPPINCOTT,
MRS. MARTHA G. RICHARDSON,
MRS. COMMODORE READ,
MRS. MARIA W. HORTON,
MRS. EMELINE H. CLEVELAND,
MRS. THOMAS WOOD,
MRS. REBECCA L. FUSSELL,
MRS. SUSAN M. PARRISH,
MRS. MARTHA A. WARNER,
MRS. JANE SILL,
MRS. THOMAS H. POWERS,
MISS ANN PRESTON,
MISS ANNA WHARTON,
MISS ANNA HALLOWELL,
MISS ELIZABETH DORSEY.

SEC. 12. And be it further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinbefore provided for, shall be regulated by the By-Laws and ordinances of the said Corporation, hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with, the Constitution or Laws of the United States, or of this Commonwealth.

Signed, ELISHA W. DAVIS,
Speaker of the House of Representatives.

ROBERT M. PALMER,
Speaker of the Senate.

Approved the 22nd day of March, A. D. 1861.
A. G. CURTIN.

OFFICE OF THE SECRETARY OF THE COMMONWEALTH,
HARRISBURG, April 2d, A. D. 1861.

I do hereby certify that the foregoing and annexed is a full, true and correct copy of the original Act of the General Assembly, entitled "An Act incorporating the Woman's Hospital of Philadelphia," as the same remains on file in this office.

In testimony whereof I have hereunto set my hand, and caused the seal of the Secretary's office to be affixed, the day and year above written.

[SEAL.]

SAMUEL B. MUNAS,
Deputy Secretary of the Commonwealth.

BY-LAWS.

ARTICLE I.

Stated meetings of the Managers shall be held on the second Friday of each month of the year, except July and August, at such place and time as they may designate.

ARTICLE II.

Special Meetings of the Managers shall be called by the Secretary, or, in her absence, by some other member of the Board, at the request of the President, or any three Managers.

ARTICLE III.

Five members shall constitute a quorum for the transaction of business.

ARTICLE IV.

The order of business at the stated meeting shall be—

1st.—Minutes of the preceding meeting.
2d.—Reports of Committees and Officers.
3d.—Unfinished business.
4th.—New business. Adjournment.

ARTICLE V.

The President, or, in her absence, one of the Vice-Presidents or Presidents pro tem., shall preside at the meetings of the Board, and preserve order.

All drafts upon the Treasurer, approved by the Managers, shall be signed by the Presiding Officer of the meeting at which they have been passed.

ARTICLE VI.

The Secretary shall keep correct minutes of all meetings of the Managers and of the Corporation; give due notice of the time and place of meeting; and countersign all drafts on the Treasurer. She shall also have charge of the seal of the Institution.

ARTICLE VII.

The Treasurer shall take charge of all money belonging to the Corporation, not otherwise ordered by the Board, and shall deposit it, for "The Woman's Hospital of Philadelphia," in her own name as Treasurer, in a Banking institution approved by the Managers. She shall make such investments and appropriations thereof, subject to their order, or as they may have directed, except in money given for special donation, during the recess of the Board; and shall exhibit a full report to the annual meeting of contributors; also, a monthly account to each stated meeting. She shall bind herself by word or writing for the faithful performance of her trust.

ARTICLE VIII.

Any Manager who shall absent herself from the meetings of the Board for four consecutive months, without some satisfactory excuse, may be considered as having resigned her place, and the Board may proceed to elect a new member to fill the vacancy.

ARTICLE IX.

The Managers shall appoint, at the annual meeting, officers and physicians for the ensuing year; committees for the admission of patients and for the superintendence of the Nursing department, and for any other subject deemed needful. Annual collections shall be made from subscribers to the Hospital.

ARTICLE X.

The Medical department shall be under the direction of the Medical Board, consisting of the Chief Resident Physician, attending Physicians and of four or more consulting Physicians.

ARTICLE XI.

The house is designed for respectable persons, those who are unable to pay will be received and treated gratuitously, or they in return shall render any services, according to ability, as shall be required. Others will be charged such prices as may be agreed upon in each case.

ARTICLE XII.

Patients received by the Institution shall be divided into five classes, viz.:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board or an authorized Committee.

2. Obstetric patients (married women) who shall be admitted near the expected time of confinement, and whose residence there shall be limited to three weeks afterwards, unless in particular instances.

3. Women and children, sick with ordinary non-contagious diseases, who shall be admitted for a period not exceeding six weeks, except by special action in each case.

4. Dispensary patients, non-resident at the Hospital, who shall visit the Institution at specified times, be treated there, and furnished with medicine.

5. Clinic patients, unable to visit the Hospital, to be treated at their own homes, and furnished with medicines or otherwise. Attendance on this class of patients shall be optional with the Chief Resident Physician.

ARTICLE XIII.

All patients will be required to comply strictly with the Rules of the Institution.

ARTICLE XIV.

Contagious diseases shall be excluded from the Hospital.

ARTICLE XV.

One or more Assistant Physicians shall be employed in the Institution, and such number of graduates or students of medicine (women), shall be admitted to board, as shall be required for the efficient performance of the medical service.

ARTICLE XVI.

Physicians and students may be permitted to visit the Institution daily, or less frequently, under such regulations as the Medical Board may establish.

ARTICLE XVII.

Any alteration or amendment to these By-laws, may be made at any stated meeting of the Managers of the Hospital, provided, it shall have been proposed in writing at the previous stated meeting.

ARTICLE XVIII.

It shall be the duty of the Resident Physician to keep, or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient; the time of leaving; the effect of treatment, and other important details; also a record of Dispensary Patients and those treated at their homes. She shall be qualified to give lectures to Nurses. There shall be a Spring and Autumnal course, consisting of twelve or fifteen Lectures each, for which compensation shall be made from the Nurse Fund.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

This Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open Daily, from 8 to 10 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesday and Saturday, from 2 to 4 P. M.

JANUARY, 1885.

TWENTY-FOURTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia.

The Managers of the Woman's Hospital of Philadelphia submit their twenty-fourth annual report to its contributors, with gratitude for past favors, and the belief that a more direct and urgent appeal to the friends of the Institution for substantial support is absolutely necessary.

Reference was made in our last report to the erection of the Nurse Dormitory.

It was finished ready for occupancy in the summer.

The completion of this building has been a source of much gratification to the Managers, not only for the ability to provide better accommodation for the nurse pupils, but by their removal from the main and clinic buildings the opportunity occurred to utilize the apartments heretofore occupied by them for greater benefit to the Hospital.

One of the large sunny rooms on the second floor of Clinic Hall has been appropriated to the establishment of a medical ward for very young children; the little people are provided with pleasant quarters, in a well-ventilated room, with open fire; the conditions are certainly favorable for them to be nursed back to health.

Another improvement, greatly desired, has been made by raising

the roof of the main building ten feet at the apex, creating a ventilating loft over the entire structure.

The details of the Nurse School will be found in the accompanying report of Dr. Tyng. For this department of the Hospital work we especially appeal for an increase of funds. It is gratifying to hear of the good work many of the nurse graduates are doing. Not only in this country, but from beyond the sea, good tidings reach us of what the teaching of this Institution has done, and is doing for the afflicted of other lands.

From St. Luke's Hospital, Shanghai, China, we have recently learned of the most valuable services of Miss McKechnie, one of our graduates; another, Miss Williams, is located in India, where a wide field of labor awaits her.

Physicians testify repeatedly of the help to them of the trained nurses of the Woman's Hospital. We are prepared to announce that the advantages of the Nurse School have been increased since the last report.

Application has been made by the Bureau of Education for statistics and photographs of the Nurse Dormitory and nurses, for the New Orleans Exposition, and met with favor by the Board.

The Board desires to express their recognition of the valuable lectures delivered to the nurse pupils by the physicians named in Dr. Tyng's report. The hearty thanks of the Board are due to the Medical Staff for the faithful performance of their duties.

To our Solicitor, Isaac C. Price, the thanks of the Board are tendered for valuable counsel.

We have gratefully accepted the proceeds of an entertainment, given for the benefit of the Hospital, through the kindness and energy of a young lady who had been a patient, and desired to aid the Institution that had benefited her.

We thankfully acknowledge the bequest of Edwin F. Greble, amounting to $500.

The Sabbath afternoon services have been held as usual, to the comfort of many of the inmates.

To the ladies who have conducted these meetings, we extend sin-

cere thanks, and to all who have contributed of their time, strength and means to the work of the year, our thanks are cheerfully and justly offered, not forgetting numerous friends in their kindly remembrance of us on Donation Day, and at other times in valuable gifts of money, household articles, drugs, provisions and clothing.

We cannot close our report without tender mention of one who, not long since, sat and counselled with us. Mary Anna Longstreth, who, because of frail health, was unable to do active service in Hospital work, yet the impress of whose high culture and Christian character was felt among us, as elsewhere, as a benediction. Passing from sight, she too remembered our needs, and bequeathed for our work five hundred dollars.

We refer to the accompanying report of Dr. Tyng, physician in charge, for statement of the medical work, and would ask for especial attention to that of Rachel C. Bunting, Treasurer, for report of expenditures, and the low condition of the treasury.

The twenty-fifth day of February has been appointed as Donation Day.

E. C. GRIFFITH,
President.

REPORT

OF THE

TRAINING SCHOOL FOR NURSES.

During the year 1884, twenty-two pupils have been admitted; of this number five have left after a short stay because of not having sufficient strength and health for this work.

The instruction has been continued throughout the year; lectures and quizzes occupying three evenings of the week.

Several physicians have contributed to the course of lectures, as follows:

On Obstetrics, Dr. Anna E. Broomall,	12
On Baths, " " "	1
On Massage, Dr. Hannah J. Price,	6
On Bandaging, Dr. Sophia Presley,	9
On Nursing in Diseases of the Eye, Dr. Amy S. Barton,	1
On Nursing in Cholera Infantum, Dr. Ida E. Richardson,	1
On Medicines, Dr. Emma Putnam,	1
On Using the Senses in the Sick-room, Dr. Lucilla R. Hedley,	1
On Domestic Remedies, Dr. Clara Marshall,	1
On Typhoid Fever, Dr. James C. Wilson,	1
On Surgical Nursing, Dr. William W. Keen,	2
On Food, Dr. William H. Parish,	1
On Complications in Fevers, Dr. Edward T. Bruen,	1

Bi-weekly lectures by Dr. Tyng, throughout the year.

Seven nurses have graduated during the year:

Miss Sophia Dalmas,	Pennsylvania.
Miss Josephine West,	Iowa.
Miss Mary E. Williams,	Pennsylvania.
Miss Catharine R. Thorn,	Pennsylvania.
Miss Mary Rush,	England.
Miss Martha S. Oviatt,	Massachusetts.
Mrs. Lilly W. Thurman,	Pennsylvania.

A. E. TYNG, M. D.

THE COURSE OF TRAINING

For Nurse-Students of the Woman's Hospital, Philadelphia, includes:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.
22. Hygiene and rudimentary principles of Anatomy and Physiology.

RACHEL C. BUNTING,
CHAIR. COM. OF NURSES.

FORM OF APPLICATION

TO THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own handwriting, on another paper, and send to Dr. A. E. Tyng, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?

2. What is your age? Give the date?

3. State whether you are married or single?

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation? Why do you leave it?

6. What is your state of health? State any defects or deficiences? Have you had any womb trouble?

7. Have you good sight and hearing? Do you wear glasses? Why?

8. Where were you educated? In what grade of school?

9. Please give reference as to character, neatness, order, thoroughness, etc.

10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

DR. A. E. TYNG, M. D.,
Woman's Hospital, Philadelphia.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training, and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hopital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Ellwood Wilson,
Dr. Albert H. Smith,
Dr. Alfred Stillé,
Dr. Thos. G. Morton,
Dr. William Pepper,
Dr. W. W. Keen.

STATEMENT OF CASES

FOR THE YEAR ENDING DECEMBER 31, 1884.

Number of patients received in the Hospital	300
Number of patients attended at their homes	789
Number of patients treated in the Dispensary	3,737
Number of prescriptions compounded for Dispensary	14,151

and their associates and successors be, and the same are hereby created and erected into one body politic and corporate, in deed and in law, by the name, style, and title of The Woman's Hospital, of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style, and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to take, purchase, hold, and receive to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality, real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use and benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomer of said Corporation, or their successors, shall defeat or annul any gift, grant, devise, or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of the said Corporation shall be to establish, in the City of Philadelphia, a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses; the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars or more in one payment; or not less than one dollar prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death, resignation, removal, or inattention to their duties as Managers; to make By-Laws for its government and for the management of the Hospital, the safe-keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice-Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a Board of Advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College, of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital. Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

SEC. 11. The following-named persons shall be the Managers of the said Corporation until their successors are appointed, and shall

divide themselves into three classes, to serve respectively, until the first, second and third annual meetings of the said Corporation :

Mrs. Anne D. Morrison,	Mrs. Maria W. Horton,
Mrs. Thomas L. Kane,	Mrs. Emeline H. Cleveland,
Mrs. Richard D. Stotesbury,	Mrs. Thomas Wood,
Mrs. Caroline R. Yarnall,	Mrs. Rebecca L. Fussell,
Mrs. John C. Cresson,	Mrs. Susan M. Parrish,
Mrs. J. R. Price,	Mrs. Martha A. Warner,
Mrs. George H. Stuart,	Mrs. Jane Sill,
Mrs. Thomas Halloway,	Mrs. Thomas H. Powers,
Mrs. David Milne,	Miss Ann Preston,
Mrs. Elizabeth W. Lippincott,	Miss Anna Wharton,
Mrs. Martha G. Richardson,	Miss Anna Hallowell,
Mrs. Commodore Read,	Miss Elizabeth Dorsey.

Sec. 12. And be it further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinbefore provided for, shall be regulated by the By-Laws and ordinances of the said Corporation, hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with the Constitution or Laws of the United States, or of this Commonwealth.

Signed, Elisha W. Davis,
Speaker of the House of Representatives.

Robert M. Palmer,
Speaker of the Senate.

Approved the 22d day of March, A. D. 1861.
A. G. Curtin.

OFFICE OF THE SECRETARY OF THE COMMONWEALTH,
HARRISBURG, April 2d, A. D., 1861.

I do hereby certify that the foregoing and annexed is a full, true and correct copy of the original Act of the General Assembly, entitled "An Act incorporating the Woman's Hospital of Philadelphia," as the same remains on file in this office.

In testimony whereof I have hereunto set my hand, [SEAL.] and caused the seal of the Secretary's office to be affixed, the day and year above written.

SAMUEL B. MUNAS,
Deputy Secretary of the Commonwealth.

BY-LAWS.

ARTICLE I.

Stated meetings of the Managers shall be held on the second Friday of each month of the year, except July and August, at such place and time as they may designate.

ARTICLE II.

Special Meetings of the Managers shall be called by the Secretary, or, in her absence, by some other member of the Board, at the request of the President, or any three Managers.

ARTICLE III.

Five members shall constitute a quorum for the transaction of business.

ARTICLE IV.

The order of business at the stated meeting shall be:—

1st.—Minutes of the preceding meeting.
2d.—Reports of Committees and Officers.
3d.—Unfinished business.
4th.—New business. Adjournment.

ARTICLE V.

The President, or in her absence, one of the Vice-Presidents or Presidents pro tem., shall preside at the meetings of the Board, and preserve order.

All drafts upon the Treasurer, approved by the Managers, shall be signed by the Presiding Officer of the meeting at which they have been passed.

ARTICLE VI.

The Secretary shall keep correct minutes of all meetings of the Managers and of the Corporation; give due notice of the time and place of meeting; and countersign all drafts on the Treasurer. She shall also have charge of the seal of the Institution.

ARTICLE VII.

The Treasurer shall take charge of all money belonging to the Corporation, not otherwise ordered by the Board, and shall deposit it, for "The Woman's Hospital of Philadelphia," in her own name as Treasurer, in a Banking institution approved by the Managers. She shall make such investments and appropriations thereof, subject to their order, or as they may have directed, except in money given for special donation, during the recess of the Board; and shall exhibit a full report to the annual meeting of contributors; also, a monthly account to each stated meeting. She shall bind herself by word or writing for the faithful performance of her trust.

ARTICLE VIII.

Any Manager who shall absent herself from the meetings of the Board for four consecutive months, without some satisfactory excuse, may be considered as having resigned her place, and the Board may proceed to elect a new member to fill the vacancy.

ARTICLE IX.

The Managers shall appoint, at the annual meeting, officers and physicians for the ensuing year; committees for the admission of patients and for the superintendence of the Nursing department, and for any other subject deemed needful. Annual collections shall be made from subscribers to the Hospital.

ARTICLE X.

The Medical department shall be under the direction of the Medical Board, consisting of the Chief Resident Physician, attending Physicians and of four or more consulting Physicians.

ARTICLE XI.

The house is designed for respectable persons. Those who are unable to pay will be received and treated gratuitously, or they in return shall render any services, according to ability, as shall be required. Others will be charged such prices as may be agreed upon in each case.

ARTICLE XII.

Patients received by the Institution shall be divided into five classes, viz.:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board or an authorized Committee.

2. Obstetric patients (married women) who shall be admitted near the expected time of confinement, and whose residence there shall be limited to three weeks afterwards, unless in particular instances.

3. Women and children, sick with ordinary non-contagious diseases, who shall be admitted for a period not exceeding six weeks, except by special action in each case.

4. Dispensary patients, non-resident at the Hospital, who shall visit the institution at specified times, be treated there, and furnished with medicine.

5. Clinic patients, unable to visit the Hospital, to be treated at their own homes, and furnished with medicines or otherwise. Attendance on this class of patients shall be optional with the Chief Resident Physician.

ARTICLE XIII.

All patients will be required to comply strictly with the Rules of the Institution.

ARTICLE XIV.

Contagious diseases shall be excluded from the Hospital.

ARTICLE XV.

One or more Assistant Physicians shall be employed in the Institution, and such number of graduates or students of medicine

(women), shall be admitted to board, as shall be required for the efficient performance of the medical service.

ARTICLE XVI.

Physicians and students may be permitted to visit the Institution daily, or less frequently, under such regulations as the Medical Board may establish.

ARTICLE XVII.

Any alteration or amendment to these By-laws, may be made at any stated meeting of the Managers of the Hospital, provided, it shall have been proposed in writing at the previous stated meeting.

ARTICLE XVIII.

It shall be the duty of the Resident Physician to keep, or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient; the time of leaving; the effect of treatment, and other important details; also a record of Dispensary Patients and those treated at their homes. She shall be qualified to give lectures to Nurses. There shall be a Spring and Autumnal course, consisting of twelve or fifteen Lectures each, for which compensation shall be made from the Nurse Fund.

THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 8 to 10 A.M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesday and Saturday, from 2 to 4 P. M.

25TH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

For the twenty-fifth time the Managers of The Woman's Hospital of Philadelphia present to its friends and contributors their annual record of the working of the Institution. A detailed historical account of the conception and growth of the Hospital, with a retrospect of its work for a quarter of a century, has been carefully prepared. For the year just closed the Managers are able to report the continued prosperity of the Institution, and humbly acknowledge the protecting care of an All Wise Father has not been withheld.

Two hundred and ninety patients have been admitted to the wards of the Hospital. The daily clinics have been largely attended. The records show that 4015 clinic patients have received treatment. A clinic for throat and nose diseases, another for ear diseases, were opened last spring with satisfactory results. Two successful operations of ovariotomy have been performed during the year, one by Dr. A. E. Tyng, the other by Dr. Anna E. Broomall. Reference to the accompanying report of Dr. A. E. Tyng, Physician in Charge, will furnish the detailed statement of the medical work for the year.

The financial condition of the Hospital is exhibited in the report of the Treasurer, Rachel C. Bunting.

Application was made to the last session of the Legislature for an appropriation to be expended for necessary alterations and repairs. We owe hearty thanks to all the members who aided the passage of the bill, especially to the Representative from the Twenty-fifth District of our City, who so ably laid our necessity and usefulness before the Legislature. By this aid the Managers have been enabled to make many alterations and improvements during the year, to increase the convenience, and, it is believed, the sanitary condition of the Hospital.

For some time it has been thought imperative to renovate the wards of the main building. Walls were badly cracked, floors were rough and splintered, the insufficient water supply has been a source of much discomfort. The latter difficulty has been overcome by the erection of a large tank to furnish a free flow of water to all parts of the house. Eight wards have been entirely renovated, by walls and ceilings being newly plastered, floors relaid in hard wood, and protected by several coats of oil and varnish to render them impervious, if possible, to disease germs. Several alterations have been made in the plumbing, introducing the most modern and approved appliances.

The members of the Nurse Committee have earnestly devoted themselves to their duties, and are encouraged to believe the Course of Training is well adapted to the needs of the graduates.

Much care and attention is given to the practical instruction of the preparation of food in the Diet Kitchen, for the twofold purpose of benefiting the patients with proper nourishment, and giving the nurse pupils the opportunity to learn by practice the useful art of cooking for the sick.

Experience has so convincingly proven that without proper food the invalid's restoration to health is often greatly if not hopelessly delayed, that this committee considers this department of the Nurse Training to be of very great importance, and it aims to not have the diet list excelled by any other hospital.

It was the purpose of the early managers to make the standard of the Nurse School excellent, and its development in later years has proven the trust has been held sacred by those into whose hands the labor has fallen.

The last Nurse Commencement was held in Clinic Hall on the 16th of December, with appropriate and interesting ceremonies, at which time ten nurses received diplomas in testimony of having passed their examinations satisfactorily after the obligatory two years' Course of Training.

The Managers desire to here record their earnest thankfulness to all who have aided in whatever capacity the progress of the usefulness of the Institution. Donation day, the 25th of February, brought us the evidence of kind remembrance of many friends.

This report cannot be closed without reference to the loss the Hospital has sustained by the death of its devoted friend Dr. Albert H. Smith, who for sixteen years contributed his time, professional learning and personal influence to its interests.

Wednesday the twenty-fourth day of February has been appointed as Donation Day.

WOMAN'S HOSPITAL OF PHILADELPHIA.

REVIEW OF TWENTY-FIVE YEARS.

READ AT THE TWENTY-FIFTH ANNUAL MEETING, HELD JANUARY 21st, 1886.

In the year 1862, the Managers of the Woman's Hospital of Philadelphia, in their First Annual Report, made the following statement: "The want of an appropriate retreat where, without violence to their sensibilities, women suffering from curable diseases could be received and accommodated under medical treatment, has long been painfully felt in this city. The intelligent ministrations of women are peculiarly needed in many of these cases, and the Managers trust that this Hospital will furnish a desideratum which is not met by any other of our benevolent institutions." "To those who believe that educated, intelligent women are needed in relieving the suffering and diseases of women, and that they are peculiarly fitted to aid in the task, the Managers appeal in confidence for the pecuniary aid needful to carry on their work. The funds for sustaining the Institution consist of individual donations and subscriptions; and while the amount at present secured will necessarily circumscribe this charity within narrow limits, the Board feel a conviction that the strong interest manifested in the enterprise will rapidly place additional means at their disposal."

These courageous words were written in January. The September previous a commodious building, on North College avenue near Twenty-second street, erected for a dwelling-house, had been leased and partially furnished, and on December 16th, 1861, the first patient had been admitted. During the succeeding month, five patients were inmates of the wards of the little Hospital; fifty patients were prescribed for and furnished with medicines free of charge at the Clinic and Dispensary held daily in the same Building from 9 to 10 A. M.

In January, 1863, the Managers state, in their Second Annual Report, that the house on North College avenue mentioned in the First Report, and a "similar adjoining house, situated upon lots 150 feet deep by 224 feet in front, have been purchased by the Board, and have been made to communicate upon their second and third floors, forming a large and commodious building. A year's experience has proved the situation upon the high ground north of Girard

College not only delightful, but very healthful." Sixty-two persons had been received as inmates of the house during the year; 1142 patients had been treated in the Dispensary and furnished with medicines, and 213 had been visited and treated gratuitously at their own homes; 2933 prescriptions had been furnished to Dispensary and out-door patients.

Thus was the career of the Woman's Hospital of Philadelphia quietly inaugurated. At the close of a quarter of a century of its existence the Managers record, with thankfulness, twenty-five years of progress unmarred by physical disaster, and characterized by slow, healthful growth throughout every department. A summary of the statistics of the successive annual reports throughout this period shows that since December 16th, 1861, 4892 patients have been received into the hospital wards, 71,905 clinic patients have been treated, and 20,391 poor patients have been attended at their homes. These patients have been exclusively women and children admitted or visited, without distinction as to their religious belief, nationality, or color; the physicians-in-chief, the hospital internes, the dispensers of drugs, the officers and nurses have all been women. Upon the list of consulting physicians and surgeons the names of women physicians have appeared, and since early in the history of the Hospital the names of some of the most eminent men in the profession in Philadelphia have also been found.

The material development of this Woman's Work as shown in its buildings deserves a passing notice. To the two original dwelling-houses, which still remain the nucleus of the whole, there have been added:—in 1878, a brick building ninety-five feet by fifty-one feet, three stories in height, containing the Maternity Wards exclusively; in 1881, a separate house for the laundry, complete in all its details; in 1882, a large and commodious clinic hall, at a cost of $16,590.00, one of the Managers contributing half the cost. Also, in 1884, a commodious dormitory for the nurse-pupils, sixty-two feet in length by forty-two feet in width and three stories in height, was erected on the Hospital grounds; this building affords ample room for thirty-two pupils.

Besides these separate buildings, extensive repairs and remodelings throughout the original houses have been made from year to year, elevators introduced, fire escapes constructed, steam-heating apparatus and sanitary plumbing introduced, and thus the group of buildings has been thoroughly unified for the Hospital work.

Except $30,000 received in three separate appropriations from the State, the large sums of money expended in maintaining current expenses and in building and re-fitting, have come from legacies, from individual donations and from annual subscriptions which faithful hands have gathered from year to year.

The object of the Hospital, as indicated in its charter is threefold:

First. "The treatment of diseases of women and children, and for obstetrical cases."

In the working of the institution there has been much to cheer the friends of the movement in the fulfillment of this first object.

It has been the earnest desire of the Managers from its inception that this Hospital "should be not only eminent for medical skill, but a place in which the Christian virtues and graces should be illustrated, and diffused ; a place in which every patient, of whatever name or nation, however lowly or unfortunate, should realize that her feelings and sensibilities are respected, and her comfort and welfare carefully guarded." The early Annual Reports frequently embody the especial encouragement received from women sick and apparently sinking under fatal disorders, too poor to secure the comforts indispensable to recovery, and to whom the Almshouse was a terror, restored to health and active duty through the fostering care of this Hospital. Large numbers suffering from surgical difficulties have had them successfully removed by operations performed by women connected with the medical staff of the Hospital. Other patients in great numbers with ailments, equally exhausting and requiring treatment less striking, but not less skillful, have also returned to their active duties, blessing the Institution to which they owed their recovery.

The moral welfare of patients has likewise been steadily held in view in the administration of the Woman's Hospital of Philadelphia. Its Managers have realized that the poor who resort to a hospital are not beyond the possibility of moral as well as material aid, and that the advice of and intercourse with capable and qualified women may be invaluable in communicating to such, wiser views with reference to their own health and life, and the rearing of their children. The aim, therefore, has been to make this Woman's Hospital a model institution, complete in its hygienic arrangements, and in the appliances that give comfort to the sick and increase the possibilities of recovery.

In the carrying out of this idea it has been the rule monthly to appoint two managers, whose duty it has been to visit the Hospital as often, at least, as once a week during their term of service, at irregular hours and unstated times.

They inspect every department from attic to cellar ; scrutinize closets, investigate beds and linen, note the progress of patients and bring to them healthy out-door sympathy so grateful to the weary inmates of the wards. These ladies on the House Committee, as another has well said, "carry into the Hospital details, the intelligent management of their own households, and something of the love of their own homes to the women lying there."

Since the opening of the Hospital provision for the care of women during confinement has been faithfully carried out. As early as 1862 more than one-third of all the patients admitted entered the obstetrical wards. In 1876 the

necessity of the separation of the lying-in department from the medical and surgical departments was earnestly considered. In July, 1877, the corner-stone of the maternity building was laid. This building, which was not entirely finished until 1880, was constructed on the principle of isolating the patients, and at the same time aiming to secure for them the privacy and comforts of home. The same idea has since been carried out in the Tarnier pavilion of the Maternité of Paris.

The Woman's Hospital of Maternity is three stories in height, with a basement of eight feet. The building does not directly adjoin the main hospital, but runs at such an angle that each room in it is open to the east, west, or south. Ventilation is provided for in each room by open chimneys, in addition to the ventilating stacks. The floors and woodwork throughout are of hard wood, oiled, and the halls are laid in lithogen. In each story there are ten chambers, each chamber eleven feet by sixteen, and fifteen feet high (the third floor twelve feet). Two rooms are reserved for the accommodation of patients in labor, and after confinement, the women are carried to the lying-in chambers. In close connection are dining-room and nursery. There is no direct communication between the rooms, each chamber opening on a common corridor. The communication between the stories is by means of iron staircases and an elevator. The furniture of the chamber is made of iron ; each patient has a freshly-washed bed tick filled with clean straw, and when she leaves, the contents of her bed are turned out and burned, and the cover washed. The rooms are used in rotation, the one longest unoccupied is the one first used and so on in regular order. During the first four years of occupation of the Maternity, a room on the third floor was used as a children's ward ; no contagious diseases were received but the injurious effects of sick children upon the lying-in patients were shown in the increased mortality rate. In 1878, the puerperal mortality was a little below one per cent. ; in 1879, it was one per cent. ; in 1880, it arose to between two and three per cent. In 1881, 1882, and 1883, a portion of the building was used for a nurse dormitory ; this increased the death rate to four per cent. in 1881 and 1882, and to six per cent. in 1883.

This high death rate led at once to the removal of nurses and children; this with a thorough renovation of the building, and painting the walls of chambers, wards, and corridors had immediate effect as shown by the reports of 1884 and 1885, during which years not one death occurred in the lying-in department among the one hundred and seventy-five women delivered there.

The *second* purpose of the charter, "to furnish facilities for clinical instruction to women engaged in the study of medicine," has been steadily kept in view by the Managers.

Whatever of fame or distinction may now or hereafter attach to the character

and work of the Woman's Medical College of Pennsylvania, it will always be remembered with gratitude by its officers and alumni that the life of the College was once saved by a band of women. These women were the first Board of Managers of the Woman's Hospital of Philadelphia, inspired and led by the heroic spirit of the brave, yet gentle, Dr. Ann Preston.

The College, chartered in 1850, had held on its course through varying fortunes for ten years. Each year the absolute necessity for clinical instruction in connection with the didactic teaching of the regular college course, became more and more apparent; all successful work was crippled without it, and at that time for a woman to gain admission, as a medical student, to any hospital in Philadelphia, was impossible. There was no alternative; if the College maintained its existence, a hospital, one of whose objects should be the education of women as physicians, must be founded.

To obtain a charter, raise funds for defraying necessary expenses, find competent women to serve as managers, and skillful physicians who would act on a consulting board, this was Dr. Preston's work.

For another woman, Dr. Emeline H. Cleveland, whose name must forever remain indissolubly linked with that of Dr. Ann Preston, in this magnificent work of founding a hospital, it remained to solve the difficult problem of obtaining a woman doctor, having the requisite experience which would fit her for the responsible position of Resident Physician in this woman's hospital for women.

With equal devotion to the cause, when as yet there was neither a house for the Hospital, nor capital to rent or purchase one, Dr. Cleveland set out alone to spend a year in the School of Obstetrics in connection with the Maternité of Paris. When she returned, in August, 1861, bearing all the honors which the Paris school had to bestow upon a student, and having her medical knowledge further extended by attendance in other hospitals in Paris, and in London, it was to find, as we have already recorded, the work of her coadjutor in Philadelphia so well advanced that the Hospital was immediately opened.

Those autumn days of 1861 were the dark days of the war, when men's hearts were failing them for fear, and the College session of 1861–62 was omitted. The Hospital, however, proved a rallying place for the college friends, and in the Second Annual Report it is stated that "certain rooms upon the first floor of the building last opened have been rented to the Female Medical College of Pennsylvania, and arranged as lecture rooms, museum and laboratory for that institution." From the first, several members of the college class boarded in the Hospital, and, by every means at her command, the Resident Physician sought to afford to students practical observation in connection with the college instruction in the theory and art of medicine.

The admission of students as residents was continued until 1873, when a change was made in the medical department by the substitution of graduates in place of students as resident assistants in the Hospital and in the out-door clinic. These internes are selected by a competitive examination, held by members of the Attending Board each year, immediately following the commencement exercises of the College.

Steadily following up the avowed purpose of their charter the Hospital Managers gave all students of the College access to the daily morning clinics in the Dispensary service. In the Eighth Annual Report (January, 1869), it is recorded that during part of the year there have been four weekly clinical lectures, conducted by different members of the Board of Attending Physicians. These weekly clinical lectures have never since that date been intermitted during term-time in the college. As the number of students increased from year to year the Managers, in each succeeding Annual Report, make reference to the straitened quarters and the necessity for increased accommodations for students.

Partial relief was afforded when, in 1875, the College went out from the Hospital building to possess its own noble edifice in the immediate vicinity. Again the class outgrew the recently vacated lecture room in the Hospital, and still the effort of the Managers was in the direction of more ample accommodation, until at length, in the Twenty-Second Annual Report, the announcement is made, that Clinic Hall was opened, January 4th, 1883, with appropriate ceremonies. "This," the report further states, "is the first building of the kind erected by women for women, and is a flattering proof of the substantial advance made in this city, in the field of woman's medical education, and will afford far better accommodations to professor, student and patient, than the crowded apartments heretofore assigned to their use."

This carefully-planned, neatly-finished building, in whose amphitheatre we are assembled to-day, will seat three hundred students, and in its several commodious treatment and prescribing rooms amply accommodate the Dispensary patients who now daily throng the vestibule of the Hall; for, be it noted to the credit of both the woman clinician and patient, it has come to pass in these latter days that large numbers flock to these early morning clinics, showing an increasing disposition on the part of American women to consult with gynæcological practitioners of their own sex.

The *third* object of the Woman's Hospital of Philadelphia, as set forth in its charter is "the practical training of nurses." True to their strong conviction of the necessity of this work, the Managers early entered upon its accomplishment.

In the Second Annual Report reference is made to the subject, and in May,

1863, Dr. Ann Preston, at the request of the Board of Managers of the Woman's Hospital of Philadelphia, delivered before a large audience of ladies, at the Assembly Buildings, at Tenth and Chestnut streets, a public lecture on "Nursing the Sick and the Training of Nurses." This lecture, which must ever rank as one of the happiest public utterances of its gifted author, was designed to arrest the attention of the community and turn it in the direction of the need of good nurses.

I quote the closing paragraph of Dr. Preston's lecture: "Ladies, those who were most active and interested in founding and starting the Woman's Hospital of Philadelphia, knowing the injury and suffering sustained for want of a greater number of high-toned and well-trained nurses, as well as the need among women generally of more knowledge in regard to the right manner of taking care of the sick, made the training of an enlightened and refined class of nurses one of the objects embodied in the charter of that institution. . . . As this is an effort intended for a most benevolent purpose, we trust the ladies of this community will become assistants in the work, by seeking out suitable women, and encouraging them to qualify themselves for nursing as a business, and by infusing among ladies generally a due appreciation of the importance of familiarity with those practical details which will make them everywhere so invaluable in sickness and sorrow."

Immediately following this public lecture of Dr. Ann Preston, a brief course of lectures on the subject of nursing the sick was delivered in the Hospital building by the resident physician, Dr. Cleveland. In the same annual report (Second Report), which records these lectures it is stated that "one novitiate is now in the Hospital preparing herself for nursing as a vocation." The following year it is stated that several other women have been in the Hospital part of the year as novitiates in the nurse department; the same report continues, "But while the Board of Managers are not able to report the progress in this direction they could desire, they are yet so thoroughly impressed with its importance that they feel bound to continue their own labors, and to strive to excite the efforts of others to secure to the community the blessing of a band of high-toned and well-trained nurses."

In 1871, it is recorded that "five nurses who gave their time and labor for a definite period for experience and instruction in nursing are almost or altogether ready for outside labor." The report continues: "When we consider that the best medical skill is often entirely defeated by the ignorance or inefficiency of the nurse, and that, on the other hand, the nurse alone who intelligently co-operates with the healing powers of nature is in certain stages of illness more important and effective than the physician, we feel like honoring the calling and inviting intelligent and benevolent women who desire employ-

ment and are adapted to this work to train themselves for its responsible duties." In the Annual Report of January, 1872, the last, penned by the hand of Dr. Preston, after mentioning the class of five nurses in the institution, she adds: "And we begin already to see some realization of the hope strongly felt in the inception of the Institution, and expressed in some of the earlier reports, that it would bless the community by training and sending out a band of superior nurses."

The great hindering cause hitherto had been lack of money to provide for the maintenance of nurses while under training. During the summer following the publication of these prophetic dying words of Dr. Preston, the sum of $8000 was contributed by Dr. R. J. Dodd, of Montgomery county, Pennsylvania, in the name of his deceased wife, towards an endowment fund for the Nurse Department, "the interest accruing thereon to be exclusively used for the purpose of instructing and training women as nurses." In response to this timely and generous donation, the Managers, without delay, established a systematic course of lectures to nurses, to be given in the spring and autumn of each year, by the Resident Physician. Also, they fitted up a diet kitchen, with arrangements for thorough practical instruction in the preparation of food for the sick, and a higher standard of nurse education was thus established.

The impetus imparted in 1872, by the founding of an endowment fund for the Nurse Training School, has been transformed into other forms of energy in each succeeding year, with the happiest results. In 1876 the generous donations of Mrs. Pauline E. Henry, a lady of Germantown, Philadelphia, deeply interested in nurse training, and of other friends, enabled the Managers to arrange for the extension of the Training School, of the Woman's Hospital, into the pavilion wards of the Philadelphia Hospital at the Blockley Almshouse. The Woman's Hospital Training School had the care of four wards in Blockley with fifty beds, and its duties were performed by the novitiate during the last six months of her instruction.

In March, 1877, the course of Nurse Training was lengthened to two years, one year of which is spent in out practice in order to give the graduates before leaving the school a better introduction to physicians and families. In September, 1878, the Managers of the Woman's Hospital received from the Managers of the Pennsylvania Hospital a proposition to take a specified number of pupil nurses into the wards of their great Hospital for the last twelve months of their course of training. This proposition was accepted, and the course of training for second year pupils transferred from the wards of Blockley Hospital to the Pennsylvania Hospital, an arrangement which lasted two years. Thus the growth of the germ idea of the founders of the Woman's Hospital has been traced from the feeble beginning of one nurse pupil in 1863,

to a well-established school, averaging in attendance each year, twenty-five women. These nurse-pupils pursue a specified course of training, which requires for its completion two years. In the curriculum, comprehensive courses of lectures on nursing, in the lecture room, and lectures and faithful service in the diet kitchen, complement the practical education in the Hospital wards.

The training is further enriched from year to year by a volunteer course of lectures, by which some of the most eminent physicians of Philadelphia have shown their interest in the school. The course ends with a thorough examination conducted by two members of the Attending Board, passing which, the student receives the diploma of the Institution, carefully signed and sealed.

In all, ninety-two women have graduated from the Nurse Training School of the Woman's Hospital since its endowment and thorough organization, in 1872. Previous to that year a number of excellent nurses passed through the required period of hospital training and received a certificate (not a diploma) for their term of service.

At last the fruition of desire is in part revealed, and there is rapidly rising in this and in other communities a new profession for women, a vocation of dignity and honor no less than of usefulness. It will be observed that not until in the order of time the true status of the woman in medicine was recognized and granted in the community, was the want fully met of a band of thoroughly trained nurses filled with a high sense of the moral responsibility of their profession. Without the one the other could not be, and to the Woman's Hospital of Philadelphia, belongs the honor of cherishing each successively, the woman physician and the woman nurse, affording each the best opportunities for development to be found in America, and so adjusting in hospital ward, in lecture room and in out-practice, the duties and responsibilities of each, that now, and henceforth throughout a century of progress, the trained woman-nurse may complement the educated woman-physician, and each find in her own field the fulfillment of a lofty ambition, and the realization of the truest ministry of woman outside the family relation.

The retrospect of twenty-five years finds but two of the original twenty-four corporate members occupying their seats in the Board, viz.:—the faithful Recording Secretary, who from the beginning until the present, has kept with rare fidelity and wisdom the records of the three hundred successive months of work which silently have fashioned the fair structure we are scanning to-day, and the Corresponding Secretary, who took the pen from Ann Preston's faltering hand, and, with the exception of two years' intermission of service, has performed faithfully and well the work bequeathed to her.

Of the six Presidents who in twenty-five years have presided over this earliest of woman's boards, three have been translated to the higher service of the

unseen life ; one, after years of devoted service, reluctantly retired from the Board at the mandate of family sorrow ; another lingers in a beautiful old age to bestow with thoughtful care her wealth and her counsel upon the institution with which, since 1864, she has been identified, and the present presiding officer, who has most acceptably filled the chair five years.

It were invidious to attempt personal mention of those who from our ranks have gone up higher, or who, called to other whitening fields of usefulness, have gone out from us. Their names are upon our records and are graven on the memories of their associates. The good work that they did here can never cease, because in ever-widening circles it spreads throughout the globe.

Of the deceased contributors of large sums to the treasury of the Hospital it were in like manner impossible to speak discriminatingly. While the munificent benefactions of Isaac Barton, Joshua Jeanes, Alfred Cope, R. J. Dodd, Mr. and Mrs. John P. Crozer, Mary D. Brown, and others, make their memory at this anniversary hour an inspiration to continued well-doing, there is a long list of donations, bequests and legacies of small sums, which, as they have been cast into our treasury throughout a quarter of a century, have distilled an aroma of blessing upon our assembled Board which no words can describe. Such, for example, was the bequest in 1882, of $250 from our well-beloved Rachel M. Huey, who had for seven years served the Institution as matron with distinguished ability and fidelity.

One name remains to be mentioned reverently, that of Hannah W. Richardson. Of her tireless ministry in the behalf of the Woman's Hospital, extending from a period before the Hospital door was opened until her earthly life closed, no record can be attempted, since even the left hand of the donor never knew what the right hand performed. Of her it was written in the minute book of the Board, in May, 1882: "She was one of the originators of this noble Institution, and to her liberal benefactions and untiring efforts to promote the beneficent work of the Hospital we are largely indebted for the high position it now occupies."

In this rapid review of the toil of twenty-five years, a glad surprise crowns the close in the discovery that, unconsciously, the Woman's Hospital of Philadelphia has become a medical centre whence radiate hope and blessing to physical sufferers, not only in the city and nation in which it stands, but in far-off lands of the Orient. To the graduate of the Woman's Medical College of Pennsylvania, the great hospitals of Philadelphia are now open, but to her fostering mother she still turns for the skill in gynæcological surgery which she especially desires, and to the obstetrical wards for her most valued lessons; while in the wise adaptation of means to ends she finds in the same institution exercise

for her developing powers, and support throughout her early professional career.

In June, 1875, the city of Philadelphia was divided by the Managers into seven districts, afterwards increased to nine, and to each of these districts a graduate of the Woman's Medical College of Pennsylvania, is assigned as district physician for the Woman's Hospital of Philadelphia.

Ten other young women serve as clinic physicians on stated days, in the morning dispensary service in Clinic Hall, and there are four resident physicians annually appointed, to serve under the Physician-in-chief in the Woman's Hospital, the whole, forming a complete and satisfactory illustration of a hospital which is not merely a scientific school, although in its affiliation with the Woman's Medical College of Pennsylvania, it constitutes such a school of a high order, but an illustration of a Christian charity in the truest and widest sense of that term, because founded on principles in accordance with the highest laws of social progress.

Rachel L. Bodley.

REPORT

OF THE

TRAINING SCHOOL FOR NURSES.

We should have better nurses and fewer failures if three points could be better understood before entering the school. These are: health, work and character. Many of the references given testify as to the good reputation in society, and of membership in some religious body, but say nothing of those great essentials for a good nurse, neatness, order, thoroughness and method.

More questions were added to the "Form of Application" last year, and yet a great many applicants write that they are in good health, but after being here a short time confess to some weakness which prevents steady and continuous work.

Many give as their reason for leaving their present occupation, "a desire to do good to humanity." These persons have very little idea how selfish and exacting sick humanity is, nor how much it taxes the patience and the temper of the nurse, nor how much drudgery there is in this method of doing good, nor how continuous is the labor.

To obtain a still higher standard for our school there has been more care in culling out those not fitted for this work.

Twelve failures are reported.

Nine for insufficient health and strength.

One was inefficient.

One was discharged for insubordination to rules.

One left in ill temper.

January 1st, 1885.	The school contained, ...	29
	Admitted during the year, ...	17
	Total, ...	46
	Of these there have graduated, .	10
	" " failed, . . .	12
	" remain, ...	24
	Total, ...	46

There are eight applicants accepted to enter this winter.

Number of calls for nurses supplied, ... 118

Lectures have been given as follows :

On Nursing in Confinement cases, by Dr. Anna E. Broomall,	7
On Bandaging, by Dr. Sophia Presley,	3
On Bandaging, by Dr. Kate McDowell,	2
On Surgical Nursing, by Dr. William W. Keen,	2
On Nursing in Scarlet Fever, by Dr. James B. Walker,	1
On Nursing Diseases of Alimentary Tract, by Dr. James B. Walker,	1
On Nursing Chronic Incurables, by Dr. James C. Wilson,	1
On Nursing in the Opium Habit, " " "	1
On Nursing Cholera, " " "	1
On Cholera Infantum, by Dr. Ida E. Richardson,	1
On Nursing Diseases of the Eye, by Dr. Amy S. Barton,	1
On Listerism, by Dr. Harriet M. Lewis,	1
On Surgical Appliances, by Dr. Susan P. Stackhouse,	1
On Domestic Remedies, by Dr. Clara Marshall,	1
On Foods for the Sick, by Dr. Edward T. Bruen,	1

Bi-weekly lectures throughout the year by Dr. A. E. Tyng.

Names of the graduates of this year :

Miss Mary E. Fuller,	Pennsylvania.
Miss Mary A. O'Rourke,	Pennsylvania.
Miss Annie Bennett,	Philadelphia.
Miss Margaret L. White,	Philadelphia.
Miss Fannie S. Woodcock,	Philadelphia.
Miss Katharine G. Halligan,	Philadelphia.
Miss A. Louise Mitchell,	Philadelphia.
Miss Alicia R. Saunderson,	New York.
Mrs. Emma Clarke,	Ohio.
Mrs. Josephine K. Rote,	Pennsylvania.

A. E. TYNG, M. D.

THE COURSE OF TRAINING

For Nurse Students of the Woman's Hospital of Philadelphia includes :

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general ; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.
22. Hygiene and rudimentary principles of Anatomy and Physiology.

RACHEL C. BUNTING,
Chair. Com. of Nurses.

FORM OF APPLICATION

TO THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own handwriting, on another paper, and send to Dr. A. E. Tyng, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?

2. What is your age? Give the date.

3. State whether you are married or single.

4. If a widow, have you children? How many? Their ages? How are they provided for?

5. What is your present occupation? Why do you leave it?

6. What is your state of health? State any defects or deficiences. Have you had any womb trouble?

7. Have you good sight and hearing? Do you wear glasses? Why?

8. Where were you educated? In what grade of school?

9. Please give reference as to character, neatness, order, thoroughness, etc.

10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

DR. A. E. TYNG,

Woman's Hospital, Philadelphia.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The Managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the month of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training, and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school :

Dr. Ellwood Wilson, Dr. Thos. G. Morton,
Dr. Alfred Stillé, Dr. William Pepper,
Dr. W. W. Keen.

STATEMENT OF CASES.

For the Year ending December 31, 1885.

Number of patients received in the Hospital,	290
Number of patients treated at the morning clinics,	4,014
Number of patients treated last year at the morning clinics,	3,737
Average number of patients monthly at the morning clinics,	334
Number of prescriptions compounded for the morning clinics,	17,881
Average number of prescriptions monthly for the morning clinics,	1,490
Number of patients attended at their homes,	648
Number of visits made to patients at their homes,	3,449

THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 8 to 9½ A.M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesday and Saturday, from 2 to 4 P.M.

26th

ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

January, 1887.

North College Avenue and Twenty-second Street,

NORTH OF GIRARD COLLEGE.

FORM OF BEQUEST.

I give, devise, and bequeath to the WOMAN'S HOSPITAL of PHILADELPHIA, North College Avenue and Twenty-Second Street, ...Dollars for use of the Corporation.

FORM OF DEVISE OF REAL ESTATE.

I give, devise, and bequeath to the WOMAN'S HOSPITAL OF PHILADELPHIA, in fee simple, for the use of the Corporation (here describe the Real Estate accurately), with full power to sell, mortgage, and convey the same free of all trusts.

ENDOWMENT.

A bed may be endowed in perpetuity by the gift of Five Thousand dollars; or the Managers will accept Three Thousand dollars as an endowment during donor's life.

26TH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

AGAIN it is the duty of the Managers of the Woman's Hospital of Philadelphia to submit to its friends and contributors the Annual Report of the condition of the Institution. Each year brings new cares and responsibilities; were it not so the present prosperity of the Hospital could not have been attained.

The retrospect of the past gives us encouragement to trust that under the guidance of the protecting care of a Merciful Providence the Hospital may continue its benefits to even a greater number of patients.

In the early summer Dr. Anita E. Tyng, Physician in Charge, offered her resignation to the Board, which was accepted. She remained with us until the first of September, completing four years of active service in the interests of the Hospital. In her retirement she has the best wishes of the Managers for a successful future.

Dr. Anna M. Fullerton was appointed Physician in Charge and has assumed the duties and responsibilities of the position.

The year just closed has, like many of its predecessors, been a prosperous one; the usual routine of work has gone on, patients have been admitted, treated and discharged, many of whom have borne tender testimonies of their gratitude for the care dispensed to them in the alleviation of suffering.

Two hundred and ninety-one patients have been received in the Hospital; three thousand eight hundred and fifty-seven have been treated in the clinics; twenty-one thousand nine hundred and twelve prescriptions have been compounded in the Dispensary; three thousand eight hundred and forty visits have been made in the out practice, for a detailed statement of which reference is made to the accompanying report of Dr. Anna M. Fullerton.

Reference was made in our last report to the thorough renovation of eight wards, the remaining wards have undergone the same process of

purification in being newly plastered, refloored in hard wood and repainted. Many other necessary repairs have been made, the doctors', matrons' and servants' rooms have been painted and replastered. A new bath-room, built on the upper floor of the house where a want had long been felt for one, has added much to the convenience of the inmates. Inside shutters have been placed at the windows of some of the wards in the main building and Maternity, by which the comfort of the patients has been greatly enhanced.

The diet kitchen has been put in thoroughly good repair, ceiling and walls renovated, the floor relaid in hard wood, shellac finish. Many additional conveniences for the use of the nurses have been placed in this department. The main building, Maternity and Clinic Hall have all been painted. The floors of the vestibule and main corridor have been laid in encaustic tile. The steam heaters have been overhauled and put in good repair. A necessity was felt to increase the light in Clinic Hall, which has been satisfactorily done by putting in an additional skylight. The payment of the remainder of the State appropriation to our Treasurer enabled us to meet the expense of these repairs and pay off the last indebtedness of the Nurse Dormitory. From a previous payment from the same source we were enabled to build a substantial enclosure of brick ten feet high on the Henrietta Street front in 1885.

The Nurse Training School, the oldest in the city of the kind, continues to claim our earnest attention. The Nurse Committee has been gratified in being able to add to the course of instruction a Massage, which has been practically taught by Miss Lobb in a course of ten lessons. The object of this school no longer needs to be spoken of as an experiment. In many of the large cities of this country as well as in Europe, training schools have been established and are recognized as essentially important institutions and are productive of great good. Our experience has led us to place great importance on the fitness of the applicant for admission to the training school.

Our standard for graduation has always been held high, and we yet believe we have no right to send incompetent persons from us as graduates.

Donation Day, the twenty-fourth of February, was a satisfactory day to us. While we are grateful for the kind remembrance of our friends in sending their gifts on the day appointed to receive, we anxiously solicit new annual subscribers.

Many of those who pledged themselves in the beginning of the work to give yearly aid in its behalf, have finished their life's journey. Thus

our subscriptions have been diminished year by year. We would urge the importance of an effort to increase our income in this direction.

We have to report for the first time the holding of an Apron Bazaar with supper at St. George's Hall, November 23rd, 1886, from which we realized the sum of thirteen hundred and six dollars after deducting all expenses. We take this opportunity to return our hearty thanks to the many friends who so generously assisted us by contributing their time, money, provisions and the abundance of both useful and fancy articles. We were led to the idea of holding a Fair by the suggestions of some of the students of the Woman's Medical College, who desired the opportunity to give practical expression of their gratitude for the benefit derived by them in their course of study from the privileges of the Hospital. Another proof of the interest of the students is shown in their participation in the Hospital Meetings held each Sabbath in Clinic Hall at 4.30 p. m.

We gratefully acknowledge the receipt of five hundred dollars, the legacy of Mrs. Mary Wood, of Upper Darby, Delaware County, Pennsylvania; also one thousand dollars, the gift of John F. Smith, of this city.

Our sincere thanks are tendered to the Medical Staff for their earnest labors, to the physicians who have so ably lectured to the nurse pupils, to the resident physicians and nurses, to the Matron and her attendants, and to all who have assisted in any way to increase the usefulness of the Hospital.

The financial condition of the Institution is shown in the accompanying report of Rachel C. Bunting, Treasurer.

A donation was received on the day of the Annual Meeting from the pupils of the Elisha Kent Kane School of twenty-four slips, eighteen napkins and six flannel sacques; the material was contributed by the pupils and the neat sewing affords a very creditable specimen of the needle-work taught in the school.

REPORT

OF THE

TRAINING SCHOOL FOR NURSES.

A CAREFUL examination of the questions required to be satisfactorily answered by our applicants before their admission into the Training School, will prove that we aim to supply only such nurses as are physically, morally, and mentally well-fitted for the work.

The probationary term of service of two months, required of all our applicants, enables us to exercise greater care in our selection of nurses.

During the past year an added advantage in their training has been provided for the nurses, by appointing them in turn to assist at the daily clinics. Here much practical experience may be gained in the dressing of wounds, the management of accident and emergency cases, and in bandaging and massage.

Of the number of applicants received during the year eight have failed to complete the course.

Two because of ill health.

Five were inefficient.

One was obliged to withdraw.

January 1st, 1886.	The school contained,		25

Miss Clara Burgard, - - - -	Philadelphia.
Miss Caroline Lukens, - - - -	Philadelphia.
Mrs. Anna B. Ruddach, - - -	Philadelphia.
Mrs. Anna B. Smythe, - - - -	Pennsylvania.

ANNA M. FULLERTON, M. D.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, two months of which shall be probationary; after which they shall receive ten dollars in cash per month during all the term of two years—including the two months of probationary service. Fifty dollars of the said salary shall be retained until the term of service is completed.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the nurse committee, have the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week or once in two weeks, as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter.

Nurses are expected to keep themselves neat and clean, paying especial attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean sheet shall be given daily; the pillow-cases shall be changed twice a week; the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided. The babies shall be washed after the morning visit; a full bath in their bath tub once daily; the private parts after each passage of urine or fœces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying-in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose.

8. Soiled clothing, sheets, etc., shall be removed immediately from the wards. Bed-pans, syringes, and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a weak solution of carbolic acid or other disinfectant. The nurses must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and report every symptom or change that has occurred in the patients since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting or distributing meals, but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she will have the day for rest, unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P. M. and 5 A. M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence. She shall place a basin of water and towel beside each patient who cannot get up but yet is able to wash her face and hands, the last thing before leaving in the morning.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go

to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages, and keep them constantly on hand in the Maternity and Surgical Wards; they shall also cut and heat adhesive plaster, and attend to surgical dressing as directed. The nurses in the Surgical department shall see that the patients be kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one upon whom an operation has been performed, to sit up in bed, or leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15. The nurses must occupy their sitting-room in the evening. They will only be allowed gas in their bed-rooms from 9½ until 10 o'clock.

16. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of The Woman's Hospital.

Please answer these questions in your own handwriting, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow, have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble?
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school?
9. Please give reference as to character, neatness, order, thoroughness, etc.
10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

DR. A. M. FULLERTON,
Woman's Hospital, Philadelphia.

This Agreement, Made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and of the other part, witnesseth that the said party of the second part hereto, hereby covenants and agrees faithfully, truly and diligently to serve the said THE

WOMANS' HOSPITAL as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of THE WOMANS' HOSPITAL, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMANS' HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMANS' HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of said Hospital.

In Consideration Whereof, The said THE WOMANS' HOSPITAL doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by Lectures, from time to time, by the Medical Director in charge and by other Physicians and Surgeons by clinic or bed-side instruction and practice, and in the proper preparation of diet for the sick in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMANS' HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry work during the said term of two years. The first two months of said term shall be considered as probationary, without pay for the first month, but, if found to be satisfactory, shall be considered as part of the said term of two years; but if the said party of the second part hereto, shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the Rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto, shall be retained by the said Hospital after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging, and laundry work, as aforesaid, the sum of Ten Dollars per month, in cash, during all the said term of two years, including the said two months of probationary service. The said Hospital, however, retaining the sum of Fifty Dollars out of the said salary until the termination of the said term of two years, which said sum shall be paid to the said party of the second part hereto, whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited, and the said Hospital shall be exonerated, released, and discharged from the payment of the whole or of any part thereof. At the termination of the said two years of service under instruction, as aforesaid, upon passing a satisfactory examination by the proper officers of the

Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a Nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital, and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. T. G. Morton and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Ellwood Wilson, Dr. Thos. G. Morton,
Dr. Alfred Stille, Dr. William Pepper,
Dr. W. W. Keen.

STATEMENT OF CASES.

THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 8 to 9½ A. M. for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesday and Saturday, from 2 to 4 P. M.

27th

ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

January, 1888.

North College Avenue and Twenty-second Street,

NORTH OF GIRARD COLLEGE.

TWENTY-SEVENTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

For the twenty-seventh time the Managers of the Woman's Hospital of Philadelphia prepare their Annual Report for the friends and contributors of the Institution. The result of the past year's work, not less than of all the years which have preceded it, plainly show that the field of labor widens year by year, and that the Father's blessing continues for which the managers are truly grateful.

The record of the year 1887 is an unusual one. The capacity of the Institution has been tested to its utmost; even through the summer months the wards and private rooms were continuously occupied. Four hundred patients have been received and treated in the Hospital. The Clinic and Dispensary have been largely attended, as shown in the accompanying report of Dr. Anna M. Fullerton, Physician in Charge. Many operations, some of them of a grave character, have been successfully performed by the women physicians of the Attending Board, thus adding to the reputation of the Woman's Hospital and also affording the nurse pupils opportunity to practiee surgical nursing under the immediate supervision of the medical staff.

The development of the Nurse Training School has been very marked. It has been enlarged by the admission of four additional pupils. The calls of the year exceeded those of the previous year by fifty.one. The nurse pupils have had the advantage of thorough instruction in Massage and the Swedish Movement. The teaching in the Diet Kitchen has been more systematically given than ever before, although the subject of nourishing food, properly prepared and cooked, has claimed special attention in the course of study from the beginning.

The graduating exercises of the Nurse Training School were held in Clinic Hall on December 14th, at which time the class of '87, fourteen in number, received their well-earned diplomas.

Early in the year Miss Fletcher, who had occupied the place of Head Nurse for three years, resigned that position. Her successor, Miss Burlan, also a graduate of the school, has taken up the work faithfully and conscientiously.

The Repair Committee has been active throughout the year in looking after the condition of the buildings. A new range and boiler placed in the Diet Kitchen add much to the convenience of those having duties in that department.

The Committee on Sabbath Meetings has been faithful to its appointment, and through the assistance of the Young Women's Christian Association of the Women's Medical College, have secured devotional services in Clinic Hall, every Sabbath afternoon, which the convalescent patients have been comforted in attending.

The success of the Bazaar and Supper of November, 1886, led to a similar attempt this year, and through the generous efforts of many friends of the Hospital we were favored to realize the net sum of seventeen hundred and eighty dollars from the Bazaar and supper held at St. George's Hall, November 29th, 1887.

We take this means to return cordial thanks to our numerous friends who gave their labor, time, money, provisions, material for either fancy or useful articles, and all other contributions of any kind which enabled us to attain such a satisfactory result.

Our Donation Day, the 16th of March, brought us many valuable gifts in household articles, provisions and money.

The report of Rachel C. Bunting, Treasurer, gives the financial condition of the Institution in detail. We had hoped to receive aid from the State, as a bill was passed in the last session of the Legislature for our benefit, but owing to the failure of the Revenue bill it could not receive the signature of the Governor. Our earnest thanks are hereby extended to the members of both Houses who so faithfully protected our bill.

Our thanks are due, and are hereby tendered, to each and all who have aided in any way to increase the usefulness of the Hospital, especially to the pupils of the Elisha Kent Kane and George G. Meade Grammar schools, and the kindly offering of the little girls from a Parlor Fair, and Young Ladies' Band, North Presbyterian Church.

REPORT

OF THE

TRAINING SCHOOL FOR NURSES.

EACH year marks new progress in our Training School, for as we learn by experience what is best for the management and discipline of the School, we are better enabled to provide such instruction as will render our nurses reliable, well-informed and efficient in the care of the sick.

The demand for our nurses in the answering of out-calls, has rendered it necessary for us to increase the number in the school to thirty-six.

One hundred and seventy-seven calls were answered during the year, including a great variety of cases, medical, surgical, obstetrical and gynæcological. Fourteen of these cases were abdominal sections, and these, with fonrteen cases of the kind in the hospital, have well tested the ability of our nurses to deal with critical forms of surgical nursing.

In medical nursing, a number of cases of typhoid fever, scarlet fever, measles, diphtheria, croup, pneumonia, etc., have been provided for.

About fifty calls for confinement cases have been answered.

Thirty applicants have been admitted during the year, eighteen of whom have been accepted. Three (3) are still probationers. The others were rejected because of incompetency.

Admitted during the year,		30
School contained, January 1st, 1887,		32

Mrs. Harriet E. Segnes, - - -	Pennsylvania.
Miss Rose D. Smart, - - - -	Prince Edward's Island.
Miss Mary E. Tiffany, - - -	Kansas.

A. M. FULLERTON, M. D.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, two months of which shall be probationary; after which they shall receive ten dollars in cash per month during all the term of two years—including the two months of probationary service. Fifty dollars of the said salary shall be retained until the term of service is completed.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the nurse committee, have the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week or once in two weeks, as neatness may require. They shall wear soft shoes that do not creak. Felt silppers are the best for winter. Nurses are expected to keep themselves neat and clean, paying especial atten-

tion to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean sheet shall be given daily; the pillow-cases shall be changed twice a week;, the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided. The babies shall be washed after the morning visit; a full bath in their bath tub once daily; the private parts after each passage of urine or fœces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying-in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose.

8. Soiled clothing, sheets, etc., shall be removed immediately from the wards. Bed-pans, syringes, and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a weak solution of carbolic acid or other disinfectant. The nurses must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and report every symptom or change that has occurred in the patient since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting or distributing meals, but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she will have the day for rest, unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P.M. and 5 A.M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence. She shall place a basin of water and towel beside each patient who cannot get up but yet is able to wash her face and hands, the last thing before leaving in the morning.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility.

If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages, and keep them constantly on hand in the Maternity and Surgical Wards; they shall also cut and heat adhesivef plaster, and attend to surgical dressing as directed. The nurses in the Surgical department shall see that the patients be kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one upon whom an operation has been performed, to sit up in bed, or leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15. The nurses must occupy their sitting-room in the evening. They will only be allowed gas in their bed-rooms from 9½ until 10 o'clock.

16. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

THE COURSE OF TRAINING.

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressingof bruises, sores and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during, and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow, have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble?
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

DR. A. M. FULLERTON,
Woman's Hospital, Philadelphia.

This Agreement, Made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and of the other part, witnesseth that the said party of the second part hereto, hereby covenants

and agrees faithfully, truly and diligently to serve the said THE WOMAN'S HOSPITAL as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of THE WOMAN'S HOSPITAL, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of said Hospital.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by Lectures, from time to time, by the Medical Director in charge and by other Physicians and Surgeons by clinic or bed-side instruction and practice, and in the proper preparation of diet for the sick in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry work during the said term of two years. The first two months of said term shall be considered as probationary, without pay for the first month, but, if found to be satisfactory, shall be considered as part of the said term of two years; but if the said party of the second part hereto, shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the Rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto, shall be retained by the said Hospital after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging, and laundry work, as aforesaid, the sum of Ten Dollars per month, in cash, during all the said term of two years, including the said two months of probationary service. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years, which said sum shall be paid to the said party of the second part hereto, whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited, and the said Hospital shall be exonerated, released, and discharged from the payment of the whole or of any part thereof. At the termination of the said two years of service under instruction, as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a Nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital, and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. T. G. Morton and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1918 North Thirteenth Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school :

Dr. Elwood Wilson, Dr. Thos. G. Morton,
Dr. Alfred Stille, Dr. William Pepper,
Dr. W. W. Keen.

REPORT OF PHYSICIAN IN CHARGE.

The Annual Report of the work of the Hospital is herewith submitted :—

Number of patients in the Hospital January 1, 1887	42
Number of patients received during 1887	400
Number of patients treated at morning clinics	4,211
Number of patients treated at morning clinics last year	3,857
Average of patients monthly at morning clinics	321
Number of visits at morning clinics	16,280
Average of visits monthly at morning clinics	1,356
Number of patients visited at their homes	688
Number of prescriptions compounded for in-patients	5,796
Number of prescriprions compounded for morning clinics	16,215
Number of prescriptions compounded for out-practice	2,303

An examination of the following statistical tables will demonstrate the fact that a large number of serious cases have been under the care of the Hospital during the year. Among these were fourteen cases of laparotomy, two of which (a hysterectomy and the removal of a cyst of the broad ligament) were performed, on invitation of the Hospital Staff, by Dr. Granville Bantock, of the Samaritan Hospital, London. The case of hysterectomy was for the removal of a large uterine fibroid, weighing twenty-nine pounds. Both patients made a good recovery.

Of the other operations, Dr. Anna E. Broomall performed two for the removal of large ovarian cysts; one exploratory incision with the removal from the abdomen of twenty-five pounds of free liquid; and, later, for the same patient, the removal of a large ovarian sarcoma; three operations for the removal of the uterine appendages for pyosalpinx; and four oöphorectomies. One of the latter was quite a rare case of absent uterus, the patient suffering

greatly from periodic ovarian congestion. Entire relief resulted from the operation.

In another very interesting case Dr. Hannah T. Croasdale made an exploratory incision for the purpose of determining the possibility of removing a uterine fibroid tumor by hysterectomy. The tumor was found too adherent to be removed with safety.

As a result of these operations but one patient died of inflammation, and that in a case of oöphorectomy in a patient long addicted to the morphia-habit. Here the extreme restlessness of the patient induced peritonitis to which she succumbed.

In the case of ovarian sarcoma the operation was undertaken as a last resort for the relief of a patient whose life was rendered one of great suffering by the rapid strides made by the disease; hence it was no matter of surprise to us that, although she reacted well from the immediate operation, her death resulted not long after from extreme exhaustion.

One patient affected with melancholia, on whom the operation for the removal of diseased ovaries was performed, died subsequently of acute mania.

For a report of other operations performed in the Hospital, I refer to the Table of Operations.

Of the remaining deaths in the Hospital, one occurred as the result of cardiac dilatation in an old woman in whom the disease was far progressed ; and one patient, who entered our Maternity ill with fever, died on the fourth day after confinement, of erysipelas. Three infants born in the Maternity died during the year ; two of prematurity, one of malformation of the heart.

Five deaths occurred in our Children's Ward, where we receive children mainly through the Society for the Prevention of Cruelty to Children and the Children's Aid Society. These little ones come to us often with but a very slender hold on life, having been reduced by destitution to extreme conditions of disease from which they cannot rally. Two children died of inanition ; one of pneumonia, one of entero-colitis, and one of heart failure.

As evidence of the extreme care we endeavor to exercise as regards antiseptic measures for the management of disease, I would like to call attention to the fact that, without any special means for isolation, we have treated one case of measles, one of diphtheria and one of septic erysipelas, without any spread of infection.

The year in our Maternity has also been one of marked success, as shown by its report. A number of cases of unusual interest occurred. One hundred and seventeen women were received, and one hundred and two confined with but one death, and that in a patient who entered the house very ill.

The tables of statistics accompanying this report represent the cases which have been under our care through the year.

ANNA M. FULLERTON, M. D.

STATMENT OF CASES.

THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 8 to 9½ A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesdays and Saturdays, from 2 to 4 P. M.

TWENTY-EIGHTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia.

It is with renewed gratitude to the Father of all Mercies that the Managers of the Woman's Hospital of Philadelphia again prepare their Annual Report for the contributors and friends of the institution. The work of the Hospital has gone on, and brought much to encourage us during the year. The increased number of patients has demanded active service on the part of the Physician in Charge and attending staff. Four hundred and eighty-two patients have been treated in the house, six hundred and eighty-one visited at their homes; two hundred and thirty-nine operations have been performed by the women surgeons of the attending staff, some of which were of a most rare and vital nature, the details of which, with the other medical work of the year, will be found in the accompanying report of Dr. Fullerton, Physician in Charge.

Surgery in the hands of women no longer remains a doubt. We have realized the fruition of the cherished thought in the establishment of this Hospital, "to furnish facilities for the clinical instruction of women engaged in the study of medicine." From the opportunity thus afforded the skill of women to handle the surgeon's knife has been tested, and the suffering woman has been alleviated by the tender hand of the woman physician.

With the increased surgical practice of the Hospital comes the need of better facilities to secure the best sanitary conditions possible and the strictest antiseptic precaution after operations. Great care is exercised in cleansing and purifying, but separate buildings are greatly to be desired for the isolation and quiet necessary to the well-doing of the patients.

It is desirable to have enlarged bath and rubbing rooms, for the purpose of better accommodation in administering the massage treatment, combined with steam and vapor baths upon the most approved hygienic principles.

We hope to be enabled to make these much needed improvements by an appropriation from the Legislature the present year.

The Nurse Training School has been increased to forty-two pupils, in order to meet the increased number of calls for out-nurses. Two hundred and fifty-eight calls have been supplied the present year, exceeding the number of last year by eighty-one.

The Annual Commencement of the School was held in Clinic Hall on the 6th of December last, with appropriate exercises, when fourteen pupils received their diplomas. The names of the graduates appear in the accompanying report of the Nurse Training School.

Instruction in the proper preparation of food is held to be of great importance

in the course of training; each nurse is required to learn to cook in the diet kitchen, where practical instruction is given in the preparation of soups, broths, beef-tea, jellies, as well as more substantial dishes. The Managers are indebted to the present Diet-kitchen Matron for her work in that department.

The purchase of a Fleming's Battery has been a source of great benefit to the patients requiring electrical treatment.

A new departure has been made in forming a Dental Clinic, of which we trust to be able to report favorably another year.

A much needed improvement—a large new range—has been placed in the kitchen and gives good satisfaction. Repairs have been made to the roof and chimneys.

The acceptance of the resignation of Elizabeth T. Evans, who held the position of matron for seven years, brought anxiety for the wise selection of a successor to fill the vacancy. Mary R. Satterthwaite was chosen, who assumed the duties and responsibilities of the position in May last.

The Sabbath meetings have been continued even through the summer with acceptance.

It may not be out of place here to mention the receipt of jellies, fruits, reading matter and other valued gifts from many patients, after leaving the Hospital, thus manifesting their gratitude for the care and attention received while inmates of the institution. The sum of three thousand dollars has been received from the estate of John M. George; one thousand from that of Joshua Lawrence. The Managers have again been encouraged by donations from John Baird and John F. Smith.

A legacy of five hundred dollars has been received from the late John F. Gilpin in consideration of the great interest of his wife, Anna G. Gilpin, in the institution, which she had served four years as Vice-President.

Donation Day, March 28th, brought us kind and acceptable remembrances from many friends

The sincere thanks of the Managers are due and are cheerfully rendered to all who have aided in any way the interests of the Hospital, whether in time, money, labor or sympathy.

We would again ask for aid from the benevolent to enable us to continue the work that has prospered in the past.

We cannot close this report without tender mention of those who were with us in the beginning of the year. Two valued and faithful Managers have passed the portal and entered into their final rest.

HULDA JUSTICE, who counselled with us for twelve years, continued active in the work of the Hospital to within a fortnight of her death, left us "as a shock of corn fully ripe."

Professor RACHEL L. BODLEY, who was suddenly called away in the early summer from a life dedicated to God and humanity, "to join

> The innumerable caravan that moves
> To that mysterious realm where each shall take
> His chamber in the silent halls of death,"

served as a Manager of the Hospital for five years, and brought to the work that peculiar charm and earnestness of purpose which especially endeared her to those with whom she labored.

REPORT

OF THE

TRAINING SCHOOL FOR NURSES.

THE history of our Nurse School for the past year is one of increased activities, and, consequently, one of increased opportunities for the attainment of experience and skill in the art of nursing.

The greater respect for *work* and the higher appreciation of the value and and dignity of the smallest and most menial details, as evinced by our pupils, has been a most gratifying feature of the training.

The number of pupils in the school was increased during the year to forty-two, because of the increased demand for nurses to answer out-calls.

Two hundred and fifty-eight calls were answered by us during the year, including a great variety of cases; medical, surgical and obstetrical.

The statistics of the school are as follows:

Admitted during the year,		34
School contained, January 1st, 1888,		36
Total,		70
Graduated during 1888,	14	
Failed,	17	
Remaining in school, January 1st, 1889,	39	
Number of calls for nurses supplied,		258

Lectures have been given as follows:

On Nursing in Confinement Cases, by Dr. Anna E. Broomall,	2
On " " Diseases of the Respiratory Organs, by Dr. Ida E. Richardson,	1
On " " Typhoid and the Eruptive Fevers, Dr. James B. Walker,	1
On Domestic Remedies, By Dr. Clara Marshall,	1
On Surgical Nursing, by Dr. W. W. Keen,	1
On Nursing Diseases of the Eye, by Dr. Amy S. Barton,	1
On Massage and Swedish Movements, by Miss Lobb,	6
On " by Miss Ann Norton,	3

Bi-weekly lectures, with weekly quizzes on the lectures, are given throughout the year by Dr. Anna M. Fullerton.

Names of graduates of 1888:

Anna T. Phillips,	Pennsylvania.
Adeline F. Smith,	Ohio.
Lydia S. Martin,	Pennsylvania.
Anna H. Reeve,	Pennsylvania.
Hattie M. Kenyon,	Ontario.
Katharine G. Featherall,	Maryland.
Elizbabeth M. Slocum,	Pennsylvania.
Mary Josephine Carroll,	Maryland.
Agnes Vieth,	Scotland.
Clara J. Horton,	Connecticut.
Emily S. Haughwaut,	Pennsylvania.
Jessie E. Newport,	Pennsylvania.
Hannah Whitely,	Pennsylvania.
Emma Everett,	Virginia.

A. M. FULLERTON,
Physician in Charge.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, one month of which shall be probationary, with an extension to two months, at the discretion of the Nurse Committee, after which they shall receive ten dollars in cash per month during all the term of two years—including the two months of probationary service. Fifty dollars of the said salary shall be retained until the term of service is completed.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the Nurse Committee, have the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week or once in two weeks, as neatness may require. They

shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean sheet shall be given daily; the pillow-cases shall be changed twice a week; the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided. The babies shall be washed after the morning visit; a full bath in the bath tub once daily; the private parts after each passage of urine or fœces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose.

8. Soiled clothing, sheets, etc., shall be removed immediately from the wards. Bed-pans, syringes and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a weak solution of carbolic acid or other disinfectant. The nurses must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and report every symptom or change that has occurred in the patient since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting or distributing meals, but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P.M. and 5 A.M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the

medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages, and keep them constantly on hand in the Maternity and Surgical Wards; they shall also cut and heat adhesive plaster, and attend to surgical dressing as directed. The nurses in the Surgical department shall see that the patients are kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one on whom an operation has been performed, to sit up in bed, or leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—their manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentations, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow, have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble?
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

DR. A. M. FULLERTON,
Woman's Hospital, Philadelphia.

This Agreement, Made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and of the other part, witnesseth that the said party of the second part hereto, hereby covenants and agrees faithfully, truly and diligently to serve the said THE WOMAN'S HOSPITAL as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of THE WOMAN'S HOSPITAL, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicity observe and obey the teachings and directions of those placed in authority over her by the Managers of said Hospital.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by Lectures, from time to time, by the Medical Director in charge and by other Physicians and Surgeons by clinic or bed-side instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry work during the said term of two years. The first two months of said term shall be considered as probationary, without pay for the first month, but if found to be satisfactory, shall be considered as part of the said term of two years; but if the said party of the second part hereto, shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the Rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto, shall be retained by the said Hospital after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging, and laundry work, as aforesaid, the sum of Ten Dollars per month in cash, during all the said term of two years, including the said two months of probationary service. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years, which said sum shall be paid to the said party of the second part hereto, whenever entitled to receive the Diploma hereinafter mentioned ; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited, and the said Hospital shall be exonerated, released, and discharged from the payment of the whole or of any part thereof. At the termination of the said two years of service under instruction,

as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a Nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital, and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others, desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. T. G. Morton and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, 1502 Arch Street, Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to to receive donations to the school:

Dr. Elwood Wilson, Dr. Thos. G. Morton,
Dr. Alfred Stillé, Dr. William Pepper,
Dr. W. W. Keen.

REPORT OF PHYSICIAN IN CHARGE.

The Annual Report of the work of the Hospital is herewith submitted:

Number of patients in the hospital, January 1st, 1888	49
Number of patients received during 1888	433
Total number treated in hospital during 1888	482
Number of patients treated at morning clinics	4,841
Number of patients treated at morning clinics last year	4,211
Number of visits at morning clinics	18,458
Average of visits monthly at morning clinics	1,538
Number of new patients visited at their homes	681
Number of prescriptions compounded for in-patients	6,061
Number of prescriptions compounded for morning clinics	14,543
Number of prescriptions compounded for out-pratice	2,410
Number of prescriptions compounded for district practice	109
Number of births in hospital	103
Number of births in out-practice	35
Number of operations in hospital	239

It is with pride and pleasure that we review the work of the past year. Though meeting with many hindrances because of insufficient accommodations and the lack of necessary means for carrying out all our purposes, we feel that the year, notwithstanding this, has been rich in results.

The number of patients treated has exceeded that of any other year.

A larger number of operations has been performed and much accomplished for the relief of many most critical and painful conditions.

A short recital of some special points of interest in connection with these cases may better illustrate the character of the year's work.

Among the graver operations were sixteen cases of abdominal section. Fourteen of these occurred during the service of Dr. Anna E. Broomall, and were performed by her. Two of them were for extra-uterine pregnancy, the patients both making a good recovery, although one was brought to the hospital in a condition of collapse from loss of blood and with septicæmic symptoms which led us to fear there was but little help for her. Two others were for the removal of large ovarian tumors. Another, for the removal of a dermoid cyst. An operation for ventral hernia was another, undertaken for a patient in a most critical condition, the abdominal walls being so thinned and ulcerated that rupture was imminent. An operation for pyosalpinx, one for hydrosalpinx and others for the removal of the uterine appendages in consequence of disease, resulted in most of the cases in producing almost immediate relief from previous symptoms of distress.

A recent case of hysterectomy, also performed by Dr. Broomall, for the removal of a uterine fibroma which caused the patient excessive loss of blood, has given most satisfactory results.

During Dr. Hannah T. Croasdale's term of service, an exploratory incision was made by her for the investigation of an obscure abdominal tumor which proved to be the dilated colon.

Dr. Anna M. Fullerton performed an abdominal operation also, for hæmatocele, in her term.

A radical operation by Dr. W. W. Keen at the surgical clinic for the reduction of an immense inguinal hernia, was another of special interest, as also was one for the fixation of a floating kidney. All the gynæcological operations, together with those on the rectum, bladder and breast were performed by the three members of the gynæcological staff in their respective terms. For an enumeration of these, I would refer to the list accompanying this report. The eye operations were performed by Dr. Amy Barton.

The entire number of operations, excluding the minor ones at the daily clinics, was two hundred and thirty-nine.

Among these cases, but two patients died; one, from a long-standing pericardial trouble; the other from rapid sepsis resulting from absorption of the foul contents of a tumor.

A patient under treatment for a brain tumor died suddenly from its rupture before any operation was undertaken; and another patient, an emigrant brought to us from a French vessel, in the last stages of pyæmia (resulting from the decomposition of a placenta retained within the uterus fourteen days after delivery), lived but a short time after her admission into the hospital.

With these exceptions, the progress of our patients has been most satisfactory.

Our Maternity statistics prove the work in that building also to have been very gratifying. One hundred and three patients were confined, and we have not a single case of inflammatory trouble following labor to report, although several of the confinements were difficult and required operative interference. One patient with long-standing organic disease of the heart, was attacked with

acute nephritis during labor and succumbed shortly after. Her child survived. Another patient was brought to the Hospital with meningitis following upon a violent form of chorea, complicating pregnancy. She lived but two or three days after admission.

In our children's ward where thirty-five little patients were treated during the year, we have not a single death to report. Here some important operations were performed, as resection of the knee-joint, amputation of the leg, excision of eyes, removal of scrofulous glands, etc. These children were mainly sent us through the charity associations of the city.

The table of statistics accompanying this report will give more fully the enumeration of the cases treated.

ANNA M. FULLERTON.

STATEMENT OF CASES.

For the Year ending December 31st, 1888.

NAMES OF CASES.	Cured.	Improved.	Not improved.	Not treated.	Died.	Total

THE

WOMAN'S HOSPITAL OF PHILADELPHIA.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access from all parts of the city.

Its Dispensary Department is open daily, from 8 to 9½ A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesdays and Saturdays, from 2 to 4 P. M.

Twenty-Ninth Annual Report

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia

Again it is our duty to prepare for the contributors and friends of THE WOMAN'S HOSPITAL OF PHILADELPHIA its Annual Report.

There has been increased activity in every department of the Hospital during the year just closed, for which the Managers are truly grateful to Him who hath again blessed their efforts.

During the year 583 patients have been treated in the House, an increase of 101 over the previous year; 6,365 treated at the Dispensary; 695 treated at their homes; 454 operations have been performed, many of which were of a very critical nature, an excess of 215 from the preceding year.

We have been obliged to increase the number of nurse pupils in the Training School to 50, in consequence of the urgent demand for nurses for out practice. We have supplied 287 calls, and been compelled to refuse many other applications. The Annual Nurse Commencement took place the 11th of December with appropriate exercises and practical illustrations of nurse work by the class, on which occasion Clinic Hall was filled with a large and appreciative audience. 16 graduates received their well-earned diplomas, after the completion of the required two years' course. The Spring course of lectures to the nurses was delivered by the usual professors of the Woman's Medical College of Pennsylvania.

Donation Day, March 20th, brought us many kind and acceptable remembrances in money, provisions, clothing, &c.

The Sabbath Meetings have been kept up with a great deal of interest through the united efforts of the Young Women's Christian Association of the Woman's Medical College of Pennsylvania and the Christian Endeavor Society of one of our city churches, the latter organization having had charge of the services during the summer months. The convalescent patients enjoyed the privilege of meeting in the Assembly Hall, and those unable to leave their beds, who were near enough to hear, expressed their appreciation of the sacred music. In furtherance of this work of love we gladly mention the gift of an organ from our President.

Two years ago the Legislature of Pennsylvania appropriated the sum of $20,000 to aid us in the erection of surgical wards, treatment and operating rooms on the present improved plans, demanded by modern surgery. We were greatly disappointed in not receiving this money, owing to the failure of the Revenue Bill. The last session of the Legislature granted us an appropriation of ten thousand dollars, with the condition of our adding an equal amount. This requirement has been met, but the sum is totally inadequate to complete our necessary improvements. We are therefore, obliged to earnestly solicit assistance from our friends and those interested in the welfare of the Hospital to enable us to erect the much needed buildings. We have secured three adjoining properties on Henrietta street, and are making preparations to commence building as early in the spring as practicable.

We thankfully acknowledge the endowment of the "Huldah Justice Bed," in remembrance of our valued manager, the gift of a loving son in tender memory of a devoted mother.

If our contributors will compare the increase of the present work of the Hospital with the past, and find it has almost doubled within the past two years, they will perhaps realize how greatly the endowed beds have aided us in the past to give to those patients unable to offer compensation, treatment that has been gratefully received, and restored suffering women to renewed health. We are glad to report the increase in the number of private patients who have sought treatment in the Hospital. Our rooms for such cases vary in price from five to thirty dollars per week, according to the condition of the patients. It must be remembered the charge of five dollars per week is inadequate to cover the expense of medicines, medical advice and nursing. Gratuitous service is given to more than half the patients admitted to the Hospital.

From the estate of Isaiah V. Williamson, we have received his bequest of $40,000, less the collateral inheritance tax, which in accordance to the restriction of the will must be used exclusively for the maintenance of free beds.

Our friend, Anna T. Jeanes, has kindly presented to the Hospital a portrait in oil of our valued Dr. Ann Preston, whose memory is vividly cherished by those whose fortune it was to be associated with her in the early work of the Institution.

It may be well here to mention the acceptable gifts we have received from many patients after they have left the Hospital, in grateful return for services rendered them, such as reading matter, clothing, fruit, jellies and donations of various kinds. Some have sent the work of their own hands in the way of knitting, such as infants' blankets, sacques, socks, etc. One woman, whose home was in the country, a fruit growing district, manifested her gratitude by sending a large quantity of fruit for preserving.

We would like to refer to the excellent surgical appliances of the Children's Ward, and the marked success of the treatment of the past year. It is on surgical cases we must mainly depend for the patients of this ward, owing to the risk of contagious diseases in the admission of children as medical cases.

The acceptable offerings received from the Young People's Guilds and the Public Schools of the neighborhood have been sources of comfort to us, and we trust blessings to them.

The sincere thanks of the Board of Managers are cordially tendered to all who have aided in any way the completion of the year's works in the various departments of the Hospital.

With the waning year there passed from earth our friend, MARY JEANES, who served this Institution as a manager for more than a quarter of a century, giving freely of her time, money and counsel. She was its President for three years and its untiring friend from her first identification with the work. To her generosity the Hospital is indebted for the many munificent gifts she bestowed upon it.

Reference should be made to the long service of DR. ELLWOOD WILSON on the Board of Consulting Physicians and Surgeons, and to his kind and faithful assistance when called upon. Since the issue of our eighth Annual Report he held the appointment that death has now severed.

DR. JAMES H. HUTCHINSON and DR. MARY H. STINSON came to the work later, and met the staff when their assistance was required, aiding by word and deed to advance the interest of the Institution. They also have finished their life-work and entered the final rest.

We cannot close this report without referring to the valuable service rendered the Hospital by our friend and solicitor, ISAAC C. PRICE, whose death occurred within the year, and whose memory we hold in grateful remembrance.

We refer to the accompanying report of Dr. Anna M. Fullerton. Physician in Charge for the interesting detail of the medical work of the Hospital, and to that of Rachel C. Bunting, Treasurer, for the statement of receipts and expenditures.

REPORT
OF THE
Training School for Nurses.

The year 1889 has been a prosperous one in the records of the Nurse Training School of the Woman's Hospital of Philadelphia. We therefore with especial pleasure call attention to the present condition and future prospects of the School.

The test of success in any work must be obtained by a comparison of the end accomplished with the end aimed at. The purpose of our School being to train women in the skillful care of the sick, it has been a gratification to find that each year the demand from the public for a larger supply of our nurses has increased.

Two hundred and eighty-seven calls for nurses have been answered during 1889, and numerous calls refused, owing to our insufficient numbers. The number of pupils in the School has therefore been increased to fifty during the year.

All the nursing in the Woman's Hospital is done by nurses from the Training School, who do their work under the careful supervision of superintendent and head nurses. Twelve months thus spent in the practical work of the wards and dispensary service, associated with the theoretical instruction given by special courses of lectures, afford ample opportunity for the attainment of a high degree of efficiency in nursing.

In this connection it may be well to warn the public that there are in the city a number of women calling themselves "trained nurses," who hold no diploma from our school. Women of this class may by their misrepresentations, not only bring discredit on the Schools from which they purport to come but greatly endanger the patients committed to their care. Families are therefore strongly advised to ask for credentials from persons employed in so important a capacity.

Our thanks are due to the physicians and surgeons who have kindly delivered special lectures to the nurses during the year.

The statistics of the School are as follows:

Admitted during the year,		45
School contained, January 1st, 1889,		39
Total,		84
Graduated during 1889,	16	
Failed,	26	
Remaining in school, January 1st, 1890,	42	

Number of calls for nurses supplied, - - - - - 287

Special lectures have been given as follows:

On Confinement Nursing, by Dr. Anna E. Broomall.
On Nursing in Heart and Lung Diseases, by Dr. Ida Richardson.
On " " Digestive Troubles " " "
On " " Fevers, by Dr. James B. Walker.
On the Hygiene of the Sick Room, by Dr. Elizabeth Peck.
On the Use of Electricity and Massage by Nurses, Dr. Chas. K. Mills.
On the Use of Electricity by Nurses, Dr. Lucy N. Tappan.
On Bandaging, " " "
On Surgical Nursing, by Dr. Anna M. Fullerton.
On Emergencies, Dr. Chas. A. Currie.
On Massage, Miss Oella S. Houston.
On Cooking for the Sick, Miss S. Janvier.

Bi-weekly lectures in general nursing, with weekly examinations on these lectures, are given throughout the year, by Dr. Anna M. Fullerton.

Names of graduates of 1889:

Fannie V. Loveland, - - - - -	Pennsylvania.
Mary S. Teuber, - - - - - -	New Jersey.
Mary Annie Cook, - - - - - -	Pennsylvania.
Addie S. Cromwell, - - - - -	Georgia.
Anna Margaret Chambers - - - -	Pennsylvania.
Belinda McLeary, - - - - - -	Pennsylvania.
Elizabeth Johnson, - - - - -	Ohio.
Oella Stanton Houston, - - - -	Ohio.
Edith V. Hooper, - - - - - -	Pennsylvania.
Agnes M. McGowan, - - - - -	Pennsylvania.
Hannah M. Brown, - - - - - -	Delaware.
Lena C. Hearn, - - - - - - -	Delaware.
Dora T. Duffield, - - - - - -	Pennsylvania.
Annie G. Zeigler, - - - - - -	Pennsylvania.
Lizzie C. Riel, - - - - - - -	Pennsylvania.
Anna B. Waldorff, - - - - - -	New York.

ANNA M. FULLERTON, M. D.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, one month of which shall be probationary, with an extension to two months, at the discretion of the Nurse Committee, after which they shall receive ten dollars in cash per month during

all the term of two years—including the two months of probationary service. Fifty dollars of the said salary shall be retained until the term of service is completed. A vacation of two weeks will be given during the two years.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the Nurse Committee, have the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses of regulation uniform, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week, or as often as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order. Probationers shall bring with them two or three wash dresses plainly made, and several large white aprons. They will not be expected to wear their uniform until fully received into the School.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean sheet shall be given daily; the pillow-cases shall be changed twice a week; the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided. The babies shall be washed after the morning visit; a full bath in the bath tub once daily; the private parts after each passage of urine or fœces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose.

8. Soiled clothing, sheets, etc., shall be removed immediately from the wards. Bed-pans, syringes and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a solution of corrosive sublimate or other

disinfectant. The nurses must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and report every symptom or change that has occurred in the patient since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting or distributing meals, but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P. M. and 5 A. M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages, and keep them constantly on hand in the Maternity and Surgical Wards; they shall also help on supply surgical dressing as directed The nurses in the Surgical department shall see that the patients are kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one on whom an operation has been performed, to sit up in bed, or leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—the manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentation, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow, have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble? Give your height and chest measure.
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

Dr. A. M. FULLERTON,
Woman's Hospital, Philadelphia.

This Agreement, Made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and of the other part, witnesseth that the said party of the second part hereto, hereby covenants and agrees faithfully, truly and diligently to serve the said THE WOMAN'S HOSPITAL as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of The Woman's Hospital, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of said Hospital.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by Lectures, from time to time, by the Medical Director in charge and by other Physicians and Surgeons by clinic or bed-side instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry work during the said term of two years. The first two months of said term shall be considered as probationary, without pay for the first month, but if found to be satisfactory, shall be considered as part of the said term of two years; but if the said party of the second part hereto, shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the Rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto, shall be retained by the said Hospital after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging, and laundry work, as aforesaid, the sum of Ten Dollars per month in cash, during all the said term of two years, including the said two months of probationary service. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years, which said sum shall be paid to the said party of the second part hereto, whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited, and the said Hospital shall be exonerated, released, and discharged from the payment of the whole or of any part thereof. At the termination of the said two years of service under instruc-

tion, as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a Nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital, and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the hospital, to which physicians and others desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. T. G. Morton and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service*. Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, Darby, Delaware County, Pa., Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Alfred Stillé,
Dr. W. W. Keen,
Dr. Thos. G. Morton,
Dr. William Pepper.

REPORT OF PHYSICIAN IN CHARGE.

The Annual Report of the work of the Hospital is submitted as follows:

Number of patients in the Hospital, January 1st, 1889	46
Number of patients received during 1890	537
Total number treated in Hospital during 1889	583
Total number treated in Hospital during 1888	482
Number of patients treated at morning clinics	6,365
Number of patients treated at morning clinics last year	4,841
Number of visits at morning clinics	22,914
Number of visits monthly at morning clinics	1,909
Number of new patients visited at their homes	695
Number of visits to patients seen at their homes	4,313
Number of prescriptions compounded for in-patients	8,381
Number of prescriptions compounded for morning clinics	18,505
Number of prescriptions compounded for out-practice	2,446
Number of prescriptions compounded for district practice	305
Number of births in Hospital	122
Number of births in out-practice	44
Number of operations in Hospital	454
Number of patients treated in afternoon clinics	227
Number of visits of patients in afternoon	495

An examination of the statistics given above proves the increased activity of our work in all its departments, and certainly gives practical evidence that the Woman's Hospital of Philadelphia, the oldest Hospital in the State, and one of the oldest in the country for the exclusive treatment of diseases of women and children, supplies a need in the community deserving of a hearty and substantial support from the public.

There is probably no Hospital which offers the same advantages that we offer for the surgical and general treatment of diseases peculiar to women. The facilities for operative procedures and for skilled nursing have been the result of many years' experience in the work, and must therefore offer opportunities unequalled as yet by newer institutions.

It is our endeavor to maintain a high standard of excellence in our work, and the satisfactory results obtained are simply the fruit of painstaking care in individual cases.

The number of critical operations performed in the Hospital has exceeded that of any other year. Forty-one laparotomies have been done in the house, the causes for which, with the result of treatment, will be found in a tabulated list accompanying this report.

A list of all the operations done will show other grave conditions of disease and injury which owe their relief to skilled surgical care. Several of these cases have been among children sent us by the charity associations of the city, and have added much both of interest and profit to the surgical clinics, conducted by Dr. John B. Roberts. Were our accommodations for such cases more satisfactory, a larger number of them could be received.

The record of our Maternity work for the year is also very gratifying. One hundred and twenty-two women have been cared for during their confinement in the lying-in wards; while in those set aside for cases of puerperal complication coming to us from without, many serious conditions have been successfully treated. We have not a single case of sepsis originating in the house to report.

But two deaths have occurred among the women in the Maternity; one from phthsis in its last stages; the other from air in the heart after a delivery complicated by the presence of a large uterine fibroid.

The thorough trial given the "couveuse" or hatching-cradle for premature infants, imported by us from Paris in 1888, has given us a series of successes which proves beyond a doubt the value of the apparatus for the purpose for which it is designed. A second couveuse was obtained this year, and both the cradles have been kept in active service the greater part of the time.

The successful performance of a Cæsarian section, by Dr. Anna E. Broomall, in a most urgent case, is especially to be noted. The mother and baby, now eight months after the operation, are both living and well.

The tables of statistics which follow will give more fully the enumeration of the cases treated.

REPORT

OF THE

DISPENSARY SERVICE.

MORNING CLINICS:

Doors open for admission of patients from 8 to 9.30 A. M. daily, except on Sunday.

Gynæcological Clinics,
Medical Clinics,
Skin and Surgical Clinics,
Electrical Clinics,
Ear, Throat and Nose Clinics. } *Daily.*

Eye Clinics on Mondays, Wednesdays and Fridays.
Dental Clinics on Tuesdays, Thursdays and Saturdays.

NOON CLINICS:

These are held from 12.30 to 1.30 P. M. during the winter and spring terms of the Woman's Medical College, beginning in October and ending in June.

Medical	Clinic,	Mondays,	by	Prof James B. Walker
Surgical	"	Fridays,	by	Prof. John B. Roberts.
Obstetrical	"	Thursdays,	during service of	Prof. Anna E. Broomall.

CHARTER

AN ACT

Incorporating the Woman's Hospital of Philadelphia.

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met; and it is hereby enacted by the authority of the same.

That THOMAS BRAINERD, D. D., M. W. BALDWIN, C. D. CLEVELAND, FERDINAND J. DREER, MORRIS L. HALLOWELL, T. MORRIS PEROT, PHILIP M. PRICE, MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICHARD G. STOTESBURY, MRS. CAROLINE R. YARNALL, MRS. MARIA W. HORTON, MRS. EMELINE H. CLEVELAND, MRS. THOMAS WOOD, MRS. REBECCA L. FUSSELL, MISS ANN PRESTON, MISS ANNA WHARTON, MISS ANNA HALLOWELL, MISS ELIZABETH DORSEY, JOSEPH JEANES, MARMADUKE MOORE, WM. S. PIERCE, ISAAC BARTON, SAMUEL JEANES, REDWOOD F. WARNER, EDWIN FUSSELL, MRS. JOHN C. CRESSON, MRS. J. R. PRICE, MRS. GEORGE H. STUART, MRS. THOMAS HALLOWAY, MRS. DAVID MILNE, MRS. ELIZABETH W. LIPPINCOTT, MRS. MARTHA G. RICHARDSON, MRS. SUSAN M. PARRISH, MRS. MARTHA A. WARNER, MRS. JANE SILL, MRS. THOMAS H. POWERS, MRS. COMMODORE READ, and their associates and successors be, and the same are hereby created and erected into one body politic and corporate, in deed and in law, by the name, style, and title of The Woman's Hospital of Philadelphia.

SEC. 2. That the said Corporation, by the same name, style, and title, shall have perpetual succession, and be able to sue and be sued; to plead and be impleaded in all courts of law, and elsewhere; to have and make a corporate seal, and again at pleasure to alter and renew the same; and shall be able and capable in law and equity to take, purchase, hold and receive to them and their successors, any lands, tenements, goods and chattels, of whatever kind, nature or quality, real, mixed, or personal, which are now, or shall or may at any time hereafter become the property of the said Corporation or body politic, by purchase, gift, grant, bargain, sale, conveyance, devise, bequest, or otherwise, from any person or persons, whomsoever, capable of making the same; and the same to grant, bargain, sell, improve or dispose of, for the use or benefit of the said Corporation. Provided, That the net yearly income from the real estate of the said Corporation shall not exceed ten thousand dollars.

SEC. 3. That no misnomers of said Corporation, or their successors, shall defeat or annul any gift, grant, devise, or bequest, to or from the said Corporation. Provided, That the interest of the party or parties shall sufficiently appear upon the face, gift, grant, will or other writing, whereby any estate or interest was intended to pass to or from said Corporation.

SEC. 4. That the object of said Corporation shall be to establish, in the City of Philadelphia, a Hospital for the treatment of diseases of women and children, and for obstetrical cases; furnishing at the same time facilities for clinical instruction to women engaged in the study of medicine, and for the practical training of nurses: the chief resident physician to be a woman.

SEC. 5. The members of the said Corporation shall be such persons as shall contribute for the support of the Hospital twenty dollars, or more in one payment; or not less than one dollar, prior to the first election; and thereafter those who shall have paid the same sum annually for two consecutive years immediately preceding the meeting being held.

SEC. 6. The Board of Managers of the said Corporation shall consist of twenty-four women, and shall be elected by the members at the annual meeting; eight being elected each year to serve for a period of three years, and until their successors are appointed. The Board shall appoint the officers of this Corporation from its own body, and shall have power to fill vacancies occurring in the intervals of election, either from death, resignation, removal, or inattention to the duties as Managers; to make By-Laws for its government, and for the management of the Hospital, the safe keeping of the Funds and other property of this Corporation; and their appropriation and use in accordance with the intent and purposes of this institution.

SEC. 7. The officers of this Corporation shall be a President, two Vice-Presidents, a Secretary, Treasurer, and Board of Managers.

SEC. 8. The Managers of the said Corporation shall be assisted by a board of advisers of nine men, who shall be elected annually by the Board of Managers, from the corporators and faculty of the Female Medical College of Pennsylvania.

SEC. 9. The annual meeting of the members shall be held on the third Thursday of January, in every year, for the election of Managers, and for hearing the annual report of the condition of the Hospital. Special meetings of the members may be called by the Board of Managers whenever they may deem it necessary.

SEC. 10. It may be discretionary with the Managers to make pecuniary arrangements with the corporators of the Female Medical College of Pennsylvania, for the education of competent women as physicians; the number not to exceed three at any one time.

SEC. 11. The following named persons shall be the Managers of the said Corporation until their successors are appointed, and shall divide themselves into three classes, to serve respectively, until the first, second, and third annual meetings of the said Corporation: MRS. ANNE D. MORRISON, MRS. THOMAS L. KANE, MRS. RICHARD D. STOTESBURY, MRS. CAROLINE R. YARNALL, MRS. JOHN C. CRESSON, MRS. J. R. PRICE, MRS. GEORGE H. STUART, MRS. THOMAS HALLOWAY, MRS. DAVID MILNE, MRS. ELIZABETH W. LIPPINCOTT, MRS. MARTHA G. RICHARDSON, MRS. COMMODORE READ, MRS. MARIA W. HORTON,

Mrs. Emeline H. Cleveland, Mrs. Thomas Wood, Mrs. Rebecca L. Fussell, Mrs. Susan M. Parrish, Mrs. Martha A. Warner, Mrs. Jane Sill, Mrs. Thomas H. Powers, Miss Ann Preston, Miss Anna Wharton, Miss Anna Hallowell, Miss Elizabeth Dorsey.

Sec. 12. And it is further enacted by the authority aforesaid, That the duties and rights of the members of the said Corporation, the powers and functions of the officers thereof, the number of members which shall constitute a quorum at its meetings, the causes which shall justify the suspension or expulsion of members from the Corporation, and all other concerns of the said Corporation not hereinafter provided for, shall be regulated by the By-Laws and ordinances of the said Corporation, hereafter to be made, which the said Corporation is hereby authorized to make and alter in the manner which may be therein mentioned. Provided, That the said By-Laws or ordinances shall not be repugnant to, or inconsistent with, the Constitution or Laws of the United States or of this Commonwealth.

Signed,

Elisha W. Davis,
Speaker of the House of Representatives.

Robert M. Palmer,
Speaker of the Senate.

Approved the 22d day of March, A. D. 1861.

A. G. Curtin.

OFFICE OF THE SECRETARY OF THE COMMONWEALTH,

HARRISBURG, April 2d, A, D. 1861.

I do hereby certify that the foregoing and annexed is a full, true and correct copy of the original Act of the General Assembly, entitled "An Act incorporating the Woman's Hospital of Philadelphia," as the same remains on file in this office.

In testimony whereof I have hereunto set my hand, and caused the [SEAL.] seal of the Secretary's office to be affixed, the day and year above written.

SAMUEL B. MUNAS,

Deputy Secretary of the Commonwealth.

BY-LAWS

ARICLE I.

Stated meetings of the Managers shall be held on the second Friday of each month of the year, except July and August, at such place and time as they may designate.

ARTICLE II.

Special meetings of the Managers shall be called by the Secretary, or, in her absence, by some other member of the Board, at the request of the President, or any three Managers.

ARTICLE III.

Five members shall constitute a quorum for the transaction of business.

ARTICLE IV.

The order of business at the stated meeting shall be—

1st.—Minutes of the preceding meeting.

2d.—Reports of Committees and Officers.

3d.—Unfinished business.

4th.—New business. Adjournment.

ARTICLE V.

The President, or, in her absence, one of the Vice-Presidents or President pro tem., shall preside at the meetings of the Board, and preserve order.

All drafts upon the Treasurer, approved by the Managers, shall be signed by the Presiding Officer of the meeting at which they have been passed.

ARTICLE VI.

The Secretary shall keep correct minutes of all meetings of the Managers and of the Corporation : give due notice of the time and place of meeting ; and countersign all drafts on the Treasurer. She shall also have charge of the seal of the Institution

ARTICLE VII.

The Treasurer shall take charge of all the money belonging to the Corporation, not otherwise ordered by the Board, and shall deposit it, for "The Woman's Hospital of Philadelphia," in her own name as Treasurer, in a Banking institution approved by the Managers. She shall make such investments and appropriations thereof, subject to their order, or as they may have directed,* except in money given for special donations, during the recess of the Board ; and shall exhibit a full report to the annual meeting of contributors ; also, a monthly account of each stated meeting. She shall bind herself by word or writing for the faithful performance of her trust.

* See Minute Book vol. 2d, page 333.

ARTICLE VIII.

Any Manager who shall absent herself from the meetings of the Board, for four consecutive months, without some satisfactory excuse, may be considered as having resigned her place, and the Board may proceed to elect a new member to fill the vacancy.

ARTICLE IX.

The managers shall appoint, at the annual meeting, officers and physicians for the ensuing year; committees for the admission of patients, and for the superintendence of the Nursing department, and for any other subject deemed needful. Annual collections shall be made from subscribers to the Hospital.

ARTICLE X.

The Medical department shall be under the direction of the Medical Board, consisting of the Chief Resident Physician, attending Physicians, and of four or more consulting Physicians.

ARTICLE XI.

It shall be the duty of the Resident Physician to keep, or cause to be kept, a clear register of the name, date of admission, and general condition of each indoor patient; the time of leaving; the effect of treatment, and other important details; also a record of dispensary patients, and of those treated at their homes. She shall be qualified to give lectures to Nurses. There shall be a Spring and Autumnal course, consisting of twelve or fifteen Lectures each, for which compensation shall be made from the Nurse Fund.

ARTICLE XII.

The house is designed for respectable persons, those who are unable to pay will be received and treated gratuitously, or they in return shall render any services, according to ability as shall be required. Others will be charged such prices as may be agreed upon in each case.

ARTICLE XIII.

Patients received by the Institution shall be divided into five classes, viz.:

1. Those affected with diseases peculiar to women, who shall be admitted to the wards for a period not exceeding twelve weeks, except by special action of the Board or an authorized Committee.

2. Obstetric patients (married women) who shall be admitted near the expected time of confinement, and whose residence there shall be limited to three weeks afterwards, unless in particular instances.

3. Women and children, sick with ordinary non-contagious diseases, who shall be admitted for a period not exceeding six weeks, except by special action in each case.

4. Dispensary patients, non-resident at the Hospital, who shall visit the Institution at specified times, be treated there, and furnished with medicine.

5. Clinic patients, unable to visit the Hospital, to be treated at their own homes, and furnished with medicines or otherwise. Attendance on this class of patients, shall be optional with the Chief Resident Physician.

ARTICLE XIV.

All patients will be required to comply strictly with the Rules of the Institution.

ARTICLE XV.

Contagious diseases shall be excluded from the Hospital.

ARTICLE XVI.

One or more Assistant Physicians shall be employed in the institution, and such number of graduates or students of medicine (women), shall be admitted to board, as shall be required for the efficient performance of the medical service.

ARTICLE XVII.

Physicians and students may be permitted to visit the Institution daily, or less frequently, under such regulations as the Medical Board may establish.

ARTICLE XVIII.

Any alteration or amendment to these By-laws, may be made at any stated meeting of the Managers of the Hospital, provided, it shall have been proposed in writing at the previous stated meeting.

THE

Woman's Hospital of Philadelphia

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access to all parts of the city.

Its Dispensary Department is open daily from 8 to 9.30 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting days, Tuesdays and Saturdays, from 2 to 4 P. M.

Thirtieth Annual Report

—OF THE—

Board of Managers

—OF THE—

Woman's Hospital

of Philadelphia

JANUARY, 1891

North College Avenue and Twenty-Second Street
North of Girard College.

Form of Bequest.

I give, devise, and bequeath to the WOMAN'S HOSPITAL OF PHILADELPHIA, North College Avenue and Twenty-Second Street, ...Dollars for use of the Corporation.

Form of Devise of Real Estate.

I give, devise, and bequeath to the WOMAN'S HOSPITAL OF PHILADELPHIA, in fee simple, for the use of the Corporation (here describe the Real Estate accurately), with full power to sell, mortgage and convey the same free of all trusts.

Endowment.

A bed may be endowed in perpetuity by the gift of Five Thousand dollars; or the Managers will accept Three Thousand dollars as an endowment during donor's life.

Thirtieth Annual Report

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia

Through the continued blessing of a Merciful Father, the Annual Report of the Board of Managers of the WOMAN'S HOSPITAL of Philadelphia to its contributors and friends, adds to the records another year of prosperity.

Six hundred and sixty-eight patients have been received and treated, an excess of eighty-five over last year.

Among them there has been an increased number of serious surgical cases. Seven hundred and thirty-one operations have been performed, for the detailed account of which we refer to the accompanying report of Dr. Anna M. Fullerton, Physician in Charge.

While we claim to have only sixty-five beds, there have been at times seventy patients in the house, when it seemed imperative to admit urgent cases. This overcrowding shows us the necessity for more beds and more space.

In order to accommodate the greatest sufferers we are sometimes obliged to limit the stay of the convalescing patients and discharge them sooner than is wise for either their own well-doing or the credit of the Hospital.

31,744 prescriptions have been filled in the Dispensary. The Clinics have been crowded. The out-practice has been large, keeping the internes uncommonly busy in this branch of their work giving aid to the suffering in the homes of the poor.

It is cause of much encouragement that since the opening of the Maternity in 1861, that this Department of the Hospital practice has been attended with such marked success.

We are able to report the successful treatment of a number of interesting cases in the Children's Ward, but regret that our limited accommodations prevents the admission of a greater number of this class of patients. Experience shows us the need of a Receiving Ward, especially for the children. While we have been mostly exempt from any serious trouble in admitting patients with contagious diseases, we realize the danger of latent forms of such diseases existing beyond the ken of the most careful physician, the development of which could be so detrimental to the Institution.

We have been touched by the desire of some of the patients to be helpful to others in sharing with those not so comfortable as themselves, money, clothing, etc., and with their kindly appreciation of the benefit derived from the Hospital care and treatment.

To keep an Institution of this kind in good order, constant repair is necessary, and the outlay for the repair of roofs, heaters, etc., the renovating of walls, painting, re-dressing floors, etc., has amounted to a considerable sum, but we believe has been money well expended.

The increased number of pupils in the Nurse Training School has brought satisfaction, thereby enabling us to meet the more frequent calls for out-nursing. Twenty nurses graduated on the 10th of December, on which occasion interesting and appropriate exercises were held in Clinic Hall.

The names of the graduates with the report of the Training School is appended.

The usual Spring course of weekly lectures to the nurses was delivered and proved an exceedingly interesting course. It included a special course on Massage, also cooking lectures by Miss Sara Janvier, Matron of our Diet Kitchen besides those on Chemistry, and other subjects given by Doctors Barton, Leffman, Mills, Marshall, Richardson, Walker, Roberts and Fullerton. Clinic Hall was crowded at each lecture with a very appreciative audience, so that many others beside the nurses were benefitted by the instruction.

A committee was appointed early in the year, on Appeal for the Building Fund, circulars were printed and freely distributed, but we failed to realize the amount we hoped for, but are grateful for the responses that were made. Four houses on Henrietta street have been purchased with the view of proceeding with the new building when way opens. The last payment of the State appropriation has been made. We hope another appropriation may be granted us by the present session of the Legislature. From the executors of Mary Jeanes twenty-five thousand dollars have been received and invested, to be known as the "Mary Jeanes Fund" to be kept separate from other funds the income arising from which to be exclusively used for Hospital sustenance.

In memory of Isaiah V. Williamson seven endowed beds have been placed in a Ward newly fitted up to be known as the "Williamson Ward," and one bed in the Children's Ward to be known as the "Williamson Bed."

On Donation Day, March 6th, we were the grateful recipients of many useful supplies, including groceries, clothing, both new and partly worn, and over sixteen hundred dollars in money which was placed by vote of the Board with the Building Fund.

We would be glad to have our list of annual subscribers enlarged, as many who aided us in the beginning of the work have been removed by death and thus year by year we have lost valuable subscriptions, while the expenses have been necessarily increased in proportion to the greater number of patients. By far the larger proportion of the patients are those who pay nothing whatever, others pay according to their means which must necessarily be a moderate sum. when we remember the class of patients who come to be nursed back to health are generally overworked, self-supporting women, whose remuneration is not usually sufficiently large to admit of very liberal expenditure. The best of the Hospital is given to these but we must continue to receive contributions to aid us, if we are to continue to administer to this deserving class. We have also accommodated many patients of a class who were formerly nursed in their own homes, but, who recognizing the advantages of Hospital treatment have filled our private rooms during the year.

The demands for a new surgical ward are imperative. We trust we can see our way clear in the near future to proceed with the building on the newly acquired property.

Through the care of the Young Women's Christian Association, of the Woman's Medical College of Pennsylvania, the devotional hour of the Sabbath afternoon has been observed, and much comfort brought to many patients.

During the heated term, the ladies' of the Christian Endeavor, of the North Presbyterian Church, Beth Eden and Grace Baptist Churches, the Grace Methodist and Bethlehem Presbyterian Churches and the King's Daughters of the Eleventh Baptist Church gave valuable aid in these meetings Especial mention should be made of Mrs, Vaché's faithful assistance with the vocal music. We have received many neatly made garments from the young ladies connected with the sewing bands of the numerous church guilds, for whose industry and kindness we offer sincere thanks, also to the pupils of the Elisha Kent Kane, George G. Meade and other schools of the neighborhood, for their generosity in the gifts of eggs, groceries oranges, etc.

Through the exertion of Dr. Fullerton and the Head Nurse, a Christmas tree was prepared for the little ones, giving them much pleasure. Ten pounds of candy toys was given by a friend to trim the tree. The Christmas dinner was the gift of the Managers—the New Year's dinner of outside friends—both of which were greatly enjoyed. Our thanks are due and are cheerfully rendered to any and all who have given of their strength, time or money to secure the prosperity of the Hospital during the year.

We refer to the report of our Treasurer, Rachel C. Bunting, for the financial condition of the Institution.

REPORT

OF THE

Training School for Nurses.

Those who were present at the exercises of our last Nurse Commencement which took place December 10th, when twenty of our nurses were graduated, could not fail to recognize the growing importance and interest of this department of our work.

The number of applications we receive proves the desire of women to fit themselves for trained work. The demand for skilled nurses is ever increasing, as our inability to supply but about half the out-calls we receive, will testify. Three hundred calls were answered during the past year for the nursing of all varieties of disease, and we could have answered as many more had we had sufficient nurses.

The record of the School for the year is as follows :

Admitted during the year, - - - - - - -		37
Remaining in School, January 1st, 1891 - - - -		42
Total, - - - - - - -		79
Graduated during 1891, - - - -	21	
Failed, - - - - - - - -	12	
Pupils in School, January 1st, 1891, - -		47
Head Nurse and Assistants, - - - -		3
Total, - - - - - - -		50

With the supply of two assistants to the head nurse during the year, the practical teaching of the wards is rendered far more satisfactory.

Regular Lectures have been delivered as provided for by the Board of Managers : a special series of lectures, as appended below, for which the School is greatly indebted to the physicians and surgeons who have interested themselves for us ; while bi-weekly lectures on general nursing, with weekly examinations on these lectures have been given throughout the year, by Dr. Anna M. Fullerton, the Physician in Charge.

Special lectures were as follows :—

On the Administration of Medicines, by Dr. Clara Marshall.
On Disinfectants, by Dr. Henry Leffman.
On Fractures, by Dr. John B. Roberts.
On Electricity, by Dr. Chas. K. Mills.
On Massage and Swedish Movement, by Dr. Chas. K. Mills.
On Nursing in Heart and Lung Diseases, by Dr. Ida Richardson.
On Nursing in Fevers, by Dr J. B. Walker.

On Nursing Diseases of the Eye. by Dr. Amy Barton.
On Chemistry, by Dr. Frieda E. Lippert.
A special course of six lectures :—
On Massage, by Kurre W Ostrom.
On Cooking for the Sick, by Miss S Janvier.
On Obstetric Nursing, by Dr. Anna M. Fullerton.

Names of Graduates of 1890:

Winifred Denniston	Ireland.
Marianne Hunt	Pennsylvania.
Annie M. Clark	Pennsylvania.
Clara A. Lawrence	Massachusetts.
Theresa Honert	Ohio
Mary E. Cole	Pennsylvania.
Anna E. Rinell	Sweden.
Marion Morton	England
Clara Miller	Ohio.
Laura Spurgeon	Maryland.
Mary E. Thomas	Pennsylvania.
Sarah J. Jamison	Pennsylvania.
Nettie Share	Pennsylvania.
Katie E. Johnson	Pennsylvania.
Hannah M Hunt	England
Sallie E. Thomas	Pennsylvania.
Anna Parvin Smith	Pennsylvania.
Gertrude M. Kinport	Pennsylvania.
Lizzie McGowan	Pennsylvania.
Rosina Lederer	Germany.

RULES FOR NURSES.

1 Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, one month of which shall be probationary, with an extension to two months, at the discretion of the Nurse Committee, after which they shall receive ten dollars in cash per month during all the term of two years—including the two months of probationary service. Fifty dollars of the said salary shall be retained until the term of service is completed A vacation of two weeks will be given during the two years.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the Nurse Committee, have the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed ; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses of regulation uniform, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week, or as often as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order. Probationers shall bring with them two or three wash dresses plainly made, and several large white aprons. They will not be expected to wear their uniform until fully received into the School.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean sheet shall be given daily; the pillow cases shall be changed twice a week; the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided The babies shall be washed after the morning visit; a full bath in the bath tub once daily; the private parts after each passage of urine or fæces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying-in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose

8. Soiled clothing, sheets, etc, shall be removed immediately from the wards. Bed-pans, syringes and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a solution of corrosive sublimate or other disinfectant. The nurse must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and report every symptom or change that has occurred in the patient since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting or distributing meals, but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P. M. and 5 A. M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages and keep them constantly on hand in the Maternity and Surgical Wards; they shall also keep on supply surgical dressing as directed. The nurses in the Surgical department shall see that the patients are kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one on whom an operation has been performed, to sit up in bed, or leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

The following rules regulate the supply of nurses to out calls.

REGULATIONS.

The charge for the services of this nurse for a week is $10. If employed for massage in addition to other nursing, $15 For any part of the week it is $2, with massage $3, per day.

Travelling expenses are to be paid by the family employing the nurse, and during her term of service her washing is to be done at the expense of the family.

At the expiration of her term of service the amount due the Institution, to the date of her departure, must be placed in a sealed envelope, together with blank furnished employer. Upon the enclosed blank sheet it is requested that the employer shall note a candid statement (which will be regarded as strictly confidential) of the conduct and efficiency of the nurse. The remarks of the attending physician as to her capability may also be noted, and will be especially valuable to the Training School. It is hoped that both employers and physician will be frank in noting any short-comings

The nurse in attendance upon a case, is expected to receive only such visitors as wish to see her on important business; to have from half an hour to an hour for out-door exercise daily, when the condition of the patient will admit; to have sufficient time for sleep. A nurse cannot stay at one place over eight weeks.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
3. Frictions—the manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentation, poultices, blisters, etc.
7 Dressing of bruises, sores and wounds.
8 Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths
11 Attention before, during and after parturition
12. Care of new-born infants
13 Method of ascertaining and noting pulse, temperature and respiration.
14 Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents
18 Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet
19 Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date?
3. State whether you are married or single?
4. If a widow have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiences Have you had any womb trouble? Give your height and chest measure?
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc., Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

Dr. A. M. FULLERTON,

Woman's Hospital, Philadelphia.

This Agreement, Made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and of the other part, witnesseth that the said party of the second part hereto, hereby covenants and agrees faithfully, truly and diligently to serve the said THE WOMAN'S HOSPITAL as a nurse under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of The Woman's Hospital, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of said Hospital.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by Lectures, from time to time, by the Medical Director in charge and by other Physicians and Surgeons by clinic or bed-side instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry work during the said term of two years. The first two months of said term shall be considered as probationary, without pay for the first month, but if found to be satisfactory, shall be considered as part of the said term of two years; but if the said party of the second part hereto, shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the Rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto, shall be retained by the said Hospital after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging, and laundry work, as aforesaid, the sum of Ten Dollars per month in cash during all the said term of two years, including the said two months of probationary service. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years, which said sum shall be paid to the said party of the second part hereto, whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited, and the said Hospital shall be exonerated, released, and discharged from the payment of the whole or of any

part thereof. At the termination of the said two years of service under instruction, as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a Nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital, and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the Hospital, to which physicians and others desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. T. G. Morton and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service*. Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, Darby, Delaware County, Pa., Mrs. Pauline E. Henry, Germantown, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Alfred Stillé, Dr. Thos. G. Morton,
Dr. W. W. Keen, Dr. William Pepper.

REPORT OF PHYSICIAN IN CHARGE.

The Annual Report of the work of the Hospital is submitted as follows:

Number of patients in the Hospital, January 1st, 1890	40
Number of patients admitted during 1890	628
Total number treated during 1890	668
Total number treated during 1889	583
Number of patients treated at morning clinics	6,125
Number of patients treated at morning clinics last year	6,365
Number of visits to morning clinics	26,792
Number of visits to morning clinics last year	22,914
Number of visits monthly to morning clinics	2,233
Number of new patients visited at home	789
Number of visits to patients seen at home	3,625
Number of patients in afternoon clinics	199
Number of visits to afternoon clinics	456
Number of prescriptions for in-patients	7,765
Number of prescriptions for morning clinics	20,565
Number of prescriptions for afternoon clinics	279
Number of prescriptions for out-practice	2,897
Number of prescriptions for district practice	268
Number of births in Hospital	143
Number of births in out-practice	42

A review of the work of the past year in the Hospital, will show a marked increase in the number of patients both in the surgical and maternity wards. This is in part doubtless due to the fact that some of the hospitals of the city, of like character, were closed, or not in their full running order, during the summer months, hence we were unusually taxed during this season of the past year. Throughout the year, however, a bed in the Institution has seldom remained vacant two days in succession. A large number of serious cases have been thrown upon our care as will be appreciated by an examination of the accompanying lists which give a statement of cases.

In the surgical wards 271 operations were done, 56 of which were abdominal sections.

In the Maternity building 35 operations took place, making a total of 306 in the house. Of minor operations in the different departments of the dispensary work 425 were done. Thus 731 operations were provided for by the Hospital.

Among 668 patients treated in the house, we have but 12 deaths to report. When we consider that six of these were cases in which sepsis existed upon admission to the Hospital, that three others were the victims of malignant disease, that in one, death occurred from tuberculosis in it last stages, in another from heart-failure a week after operation in a patient who had suffered two years from profuse hemorrhage, while the only death in the Maternity was the result of meningitis in a patient brought to us in the last stages of labor, suffering from an acute attack of erysipelas; we feel that for the class of cases treated, our results could scarcely have been better.

In eight of these cases the patients came to us in advanced stages of disease, soliciting us, after they had exhausted all other known measures for relief, to attempt such aid as surgery might afford for their deplorable conditions. Little else could be done, however, than to palliate their sufferings for a time, as the end was realized to be, for them, inevitable. How sad a comment is this upon delay in conditions which demand prompt action for the attainment of good results.

Considering our insufficient accommodations, a large number of children have been treated by us during the past year, 71 having been received in the Nursery These have been chiefly surgical cases, although non-contagious medical cases have also been received. This important feature of our work has not yet received the attention it merits, so far as suitable provision for the management of children without causing annoyance to adult patients is concerned.

The thoughtfulness of friends in supplying us with clothing, gifts of toys, bedding, etc., and donations for cases requiring surgical apparatus, is deserving in this connection, of especial mention. The little ones in our Nursery during the past Christmas season, will not soon forget the brilliant Christmas tree, and the stockings filled with gifts which brought them such delight. We lost no cases by death in this ward.

Our Maternity record shows an increase in the number of cases received and cared for. It will also be noted as a matter for gratification that another year has passed without the development of a single case of puerperal fever, the only death being that already mentioned, of a patient brought to the house with erysipelas. Two cases of still-birth occurred. Both were cases of difficult labor

In one, the child was hydrocephalic and otherwise diseased and deformed; in the other, the patient had been in labor some days when brought to the house. The obstruction offered by a greatly contracted pelvis so delayed the birth as to render it impossible to save both mother and child. As a matter of interest a table has been prepared by which an outline of the Maternity work from 1862 up to the present time is given. Few, if any, institutions can show a better record in the management of such cases.

Our out-practice work is deserving of mention, as showing an increasing confidence in the Hospital on the part of the community 789 patients have been visited at their homes, 3,625 visits paid, and 42 confinements attended. The latter give us, with the number of births cared for by our district physicians, over 200 which have come under the care of the Hospital during the year.

The thorough work of our Dispensary during the past year as evidenced by the reports of the clinicians in charge of the various departments, is a matter also of gratification. We desire especially here, to express our indebtedness to those among our workers whose faithful and disinterested labors have made their work what it is.

The Report of the Nurse Training School, given elsewhere, will show the continued growth and activity of this department of our work.

In closing we would express our appreciation of the sympathy and generosity of our Managers, without which it would have been impossible to obtain the results here reported.

ANNA M. FULLERTON, M. D.

ABDOMINAL SECTIONS.

No.	*Age.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
1	27	Both ovaries sclerosed. Chronic Salpingitis. Removal of appendages.	Extensive.	Yes.	Recovery.	Persistent pelvic pain confining patient almost constantly to bed for more than a year. Galvanic current used per vaginum for two months three times a week, with rest treatment. Entire relief after operation.
2	16	Tubercular abscess of abdominal wall. Abscess cavity curetted, irrigated and drained.	Firm.	Yes.	Recovery.	But a small incision made through peritoneum which did not appear affected by the disease. No tumor found beneath it. Carefully closed by suture before operation upon the intra-mural abscess.
3	27	Encapsulated lipoma of omentum. Exploratory incision.	Numerous and dense.	Yes.	Recovery.	Patient seen a year after operation in perfect health. No return of tumor.
4	18	Cystic ovaries and pyosalpinx. Removal of appendages.	Extensive.	Yes.	Recovery.	Patient several months in another hospital under palliative treatment, without relief. Suffering extreme. Great emaciation.
5	40	Tubercular abscesses of kidney. Purulent contents partially evacuated, cavity irrigated and drained. Nephrectomy abandoned.	Dense and universal.	Yes.	Death.	Patient suffering from sepsis on admission. Death from exhaustion on the second day
6	26	Cyst of right ovary. Chronic salpingitis. Removal right ovary and tube.	Extensive.	Yes.	Recovery.	Constant pain; anæmia extreme. Palliative treatment tried for a year. After operation and convalescence, some complaint of pain on left side, where appendages, though somewhat diseased, had been allowed to remain.
7	41	Large multiple fibroid; free hemorrhages; pressure symptoms. Hysterectomy.	Numerous but readily separated.	No.	Recovery.	Electricity, though advised, was not tried; patient being a working woman, preferred operation as taking less time.
8	42	Peritoneal abscess and occlusion of gall duct. Cholecystotomy.	Dense.	Yes.	Death.	Temperature on admission, 103°; pulse, 136. Severe paroxysmal pains, irregular chills, extreme exhaustion. Death from sepsis 26 hours after operation.

ABDOMINAL SECTIONS—Continued.

No.	*Age.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
9	32	Dermoid cyst of right ovary. Tubercular peritonitis with salpingitis and occlusion of tubes. Removal of cyst and both appendages.	Extensive.	Yes.	Recovery.	Constant pain before operation. Entire relief after operation.
10	60	Large ovarian cystoma. Entire removal.	Dense and extensive.	Yes	Recovery.	Tumor pronounced fibroid. Electricity advised. Severity of pressure symptoms and patient's expressed wish led to operation.
11	40	Sclerosed ovaries. Cyst of left ovary. Chronic salpingitis. Removal of appendages.	Present.	Yes.	Recovery.	The year before operation the patient had received two months' treatment, three times weekly, with galvanism per vaginum. Entire relief after operation.
12	46	Ventral hernia. Radical operation.	Numerous and dense.	No.	Death.	Patient extremely ill on admission with spontaneous rupture of hernial sac. Suppuration of hernial sac. Gangrene of portion of intestine. Death on third day from sepsis.
13	28	Pyosalpinx and hydrosalpinx. Ovaries enlarged. Tubes occluded. Removal of appendages.	Dense and extensive.	Yes.	Recovery.	Extreme anæmia and emaciation. Constant pelvic pain. Repeated attacks of peritonitis.
14	38	Prolapsus uteri with adhesions. Exploratory incision.	Recent.	No.	Recovery.	Breaking up of adhesions.
15	27	Fibro-myoma of uterus. Removal of appendages.	Firm.	Yes.	Recovery.	Had long been under treatment by electricity without benefit.
16	30	Retroverted uterus bound by adhesions. Exploratory incision.	Extensive.	Yes.	Recovery.	Some adhesions broken up.

No.	Age.	Pathological Condition and Operation.	Adhesion.	Drainage.	Result.	Remarks.
17	25	Chronic ovaritis and salpingitis. Removal of appendages.	Recent.	Yes.	Recovery.	
18	24	Cystic ovaries. Chronic salpingitis. Removal of appendages.	Recent.	Yes.	Recovery.	
19	28	Cystic ovaries. Removal of appendages.	Present.	Yes.	Recovery.	Had been under electrical treatment without benefit.
20	29	Cystic ovaries. Chronic salpingitis. Removal of appendages.	Recent.	Yes.	Recovery.	
21	30	Parovarian cyst of right side. Both ovaries cystic. Removal of appendages.	Recent.	Yes.	Recovery.	
22	54	Fibro-myoma of uterus. Hysterectomy.	Not extensive.	No.	Recovery.	
23	65	Carcinoma of liver. Exploratory incision.	Extensive.	Yes.	Death.	Patient moribund on admission. Extreme distension of abdomen from ascites. Incision one inch in length made simply to relieve dyspnœa and discover nature of tumor. Death on second day.
24	8	Splenic enlargement. Exploratory incision.	Not extensive	No.	Recovery.	
25	18	Double pyosalpinx with ovarian abscess. Tubes occluded. Removal of appendages.	Extensive.	Yes.	Recovery.	Patient entered hospital with pelvic peritonitis. Had been ailing since birth of first child, ten months before admission. Five weeks in bed and under treatment by morphia just before admission.

ABDOMINAL SECTIONS—Continued.

No.	*Age.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
26	17	Large ovarian cystoma on right side. Suppurating ovarian cystoma on left. Removal of appendages.	Extensive and very dense.	Yes.	Death.	Patient did well after operation up to fifth day, when she died from a small perforation of the bowel at a point where it had been adherent to the suppurating cyst and was almost gangrenous. It was thought possible her restlessness had induced further injury of the bowel by the drainage tube. Had been under care of two electricians.
27	24	Double ovarian cysts, size of hen's eggs Tubes enlarged and occluded. Removal of appendages.	Extensive.	Yes.	Recovery.	History of excessive loss of blood. Extreme anæmia.
28	29	Hæmatosalpinx of right side; hydrosalpinx of left. Uterus retroflexed and adherent. Ovaries enlarged and cystic Removal of appendages.	Extensive and dense.	Yes.	Recovery.	Patient had been sent to the electrical clinic for uterine hæmorrhage, supposed to be due to miscarriage. History of colicky pains, one missed period and hæmorrhage, withdischarge of clots. Entered hospital with pelvic peritonitis.
29	14	Encysted dropsy. Tubercular peritonitis, pus tubes. Entire occlusion fimbriated extremities. Removal uterine appendages. Irrigation. Peritonæum dusted with iodoform.	Dense and universal.	Yes.	Recovery.	Convalescence good, save for a small fistula at site of drainage tube. The abdominal enlargement had been pronounced ovarian cyst.
30	27	General pelvic exudation; burrowing pus sinuses opening into vagina; bladder and right iliac fossa; vesico-vaginal fistula. Exploratory incision. Thorough irrigation and drainage of pelvis. Removal of detached, sloughing, sub-peritoneal fibroid—polyp of uterus.	Universal and dense.	Yes.	Recovery.	This condition followed a neglected labor, terminated by forceps. Patient entered hospital with septic fever. Recurring chills; temperature, 104°; pulse, 130.

No.	Age.	Pathological Condition and Operation.	Adhesions.	Drainage.	Result.	Remarks.
31	24	Chronic ovaritis and salpingitis. Firm fixation of ovaries to pelvic wall. Tubes occluded. Removal of appendages.	Dense.	Yes.	Recovery.	History of constant pain for two years, with recurring attacks of pelvic peritonitis. Entire relief.
32	23	Hæmatoma of one ovary. Sclerosis of the other. Chronic salpingitis. Removal of appendages.	Slight.	No.	Recovery.	History of constant pelvic pain for three years. Menorrhagia. Anæmia. Entire relief.
33	38	Multiple uterine fibroid; hæmorrhage; pressure symptoms. Removal of uterine appendages.	Dense.	Yes.	Recovery.	Electricity advised for hæmorrhage. A few treatments taken, resulting in pelvic peritonitis, with which patient was admitted into hospital.
34	19	Infantile uterus. Fimbriated extremity of both tubes rudimentary. Tubes occluded. Ovaries enlarged and cystic. Removal of appendages.	Firm	Yes.	Recovery.	Patient had for three years suffered with severe menstrual molimen, without having any discharge of blood but twice in her history, and that several months before admission into hospital. Then she had a mere "show," as she described it. Had been under long-continued treatment with emmenagogues, etc., before admission. Each month her sufferings grew more severe, and she had recurring attacks of pelvic peritonitis.
35	22	Hæmatosalpinx covered by adherent omentum, as by a hood. Complete occlusion of tubes, with enlargement of ovaries. Removal of appendages.	Very firm and extensive	Yes.	Recovery.	Patient thought on admission to be suffering from the effects of an incomplete miscarriage. Had been sent to hospital for dilatation, with curretting of uterus. Presence of a mass at side of uterus led to decision for an exploratory incision.
36	32	Tubes greatly thickened and occluded; fimbriated extremities adherent. Double abscess of one ovary containing extremely fetid pus Removal of appendages.	Extensive.	Yes.	Death.	Patient began menstruating at 16 years. Always suffered at her periods. At 18 years married. Had never been pregnant. For her increasing suffering she had been led to employ morphia very freely. Death on third day from heart clot supposed to be due to impoverished condition of blood, the result of opium poisoning.

ABDOMINAL SECTIONS—Continued.

No.	*Age.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
37	37	Hydrosalpinx Thickened and occluded tubes. Cyst of one ovary Ovarian stroma destroyed. Removal of appendages.	Dense and firm.	Yes.	Recovery.	History of painful menstruation since its first establishment at age of 11 years. Married nineteen years without the occurrence of conception. Uterus retroverted and bound in hollow of sacrum; fluctuating mass on left side. Menstruation extremely painful, profuse and irregular. Electricity, according to most improved methods, had been used for months with aggravation of symptoms of pain and distress.
38	34	Tubes thickened and occluded. Recent and acute salpingitis superimposed upon a chronic condition Blood clot extruded from one tube. Ovaries sclerosed. Removal of appendages.	Extensive.	Yes.	Recovery.	Menstrual history, painful, profuse and irregular. Married four years. Had one child, born a year after marriage. Six months before admission to hospital had a miscarriage at four and a half months, which was followed by a long illness, probably septic. Patient stated there had been a discharge of pus from the vagina. Entered hospital after a recent attack of pelvic peritonitis. Extremely anæmic.
39	43	Tubes thickened and tortuous; ovaries enlarged and adherent. Fimbriæ free, but remainder of tubes occluded. Removal of appendages.	Firm and dense.	Yes.	Recovery.	History of frequent, profuse and painful menstruation since 14 years of age. Married at 18 years. Had one child a year after. Three miscarriages followed. Constant pelvic pain for years. At operation, adhesions to bowel, omentum and pelvic wall were very firm. Some suturing of bowel required after separating adhesions.
40	27	Tubes thickened, tortuous and occluded. Large blood cyst of one ovary, the other cystic. Chronic salpingitis. Removal of appendages.	Extensive.	Yes.	Recovery.	Periods always profuse, painful and irregular. Married ten years. No children. Constant and severe intermenstrual pain in ovarian and sacral regions.
41	30	Ovaries enlarged and cystic. Hydrops folliculi. Multiple puncture of cysts. Removal of neither tubes nor ovaries, which in other respects were healthy.	Recent and not numerous.	No.	Recovery.	Constant ovarian pain since her first delivery, eight weeks previously; tenderness over ovaries. After puncture of cysts ovaries reduced one-half in size. Complete relief of pain.

No.	Age.	Pathological Condition and Operation.	Adhesion.	Drainage.	Result.	Remarks.
42	21	Hydrops folliculi. Multiple puncture of cysts. Removal of neither tubes nor ovaries.	Recent and not numerous.	No.	Recovery.	This case was similar to the last. Her child was 4 months old. Results same as in last case.
43	21	Tubes thickened and tortuous. Fimbriated extremities free. Ovaries greatly enlarged and cystic. Removal of appendages.	Firm.	No	Recovery.	Patient always delicate since the occurrence of a fall some months previous to admission; had suffered constant pelvic pain, aggravated at the menstrual period. Had recurring attacks of hystero-epilepsy since the fall, closely associated with the menstrual molimen. Uterus retroverted, and ovaries prolapsed and adherent.
44	54	Malignant disease of uterus and abdominal viscera. Exploratory incision.	Extensive.	No.	Recovery.	Perfect union of wound. No untoward symptoms followed operation. Death subsequently from progress of disease.
45	21	Cyst of left ovary. Hæmatoma of right ovary. Removal of appendages.	Recent.	Yes.	Recovery.	
46	52	Ovarian cystoma. Evacuation of cyst sac, with drainage.	Numerous.	Yes.	Recovery.	Cyst-sac still draining 5 months after operation.
47	35	Fibro-myoma of Uterus. Cystic ovaries. Removal of appendages.	Not extensive.	Yes.	Recovery.	
48	27	Cystic ovaries; cyst of parovarium on right side. Removal of appendages.	Numerous.	Yes.	Recovery.	Electrical treatment preceded operation for several months.
49	27	Multilocular ovarian cyst. Entire removal.	Numerous and dense.	Yes.	Death.	Patient suffering from sepsis on admission. Suppuration of cysts. Death from exhaustion on second day.

ABDOMINAL SECTIONS—Continued.

No.	*Age.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
50	51	Unilocular ovarian cyst. Entire removal.	Extensive and dense.	Yes.	Recovery.	An attack of acute phlebitis of left limb preceded the operation, the result of pressure. Convalescence uninterrupted.
51	35	Fibro-myoma of anterior wall of uterus Hysterectomy.	Not very extensive.	No.	Death.	Extreme anæmia from excessive hemorrhages Pulse after operation, 74°; temperature, 98.4. Case was a febrile, and convalescence perfect up to end of eighth day, when death occurred suddenly from heart failure.
52	52	Carcinoma of pancreas. Exploratory incision.	Extensive.	No.	Recovery.	
53	37	Sclerosed ovaries. Tubes congested. Removal of appendages.	Recent.	Yes.	Recovery.	History of repeated attacks of severe pelvic pain.
54	38	Unilocular cyst of left ovary. Entire removal.	None.	Yes.	Recovery.	
55	36	Both ovaries cystic. Tubes occluded and caseous. Removal of appendages.	Firm.	Yes.	Recovery.	Several months of electrical treatment had preceded operation without benefit.
56	37	Fibro-myoma of Uterus. Hysterectomy.	Extensive.	Yes.	Recovery.	

OPERATIONS IN THE HOSPITAL FOR 1890.

Abdominal Section viz:	56
Ovariotomies	6
Hysterectomies	4
Removal Diseased Appendages	30
Exploratory Incisions	5
Breaking up Adhesions and Correction of Displacements	3

REPORT

OF THE

DISPENSARY SERVICE.

MORNING CLINICS.

Doors open for admission of patients from 8 to 9.30 A. M. daily, except on Sunday.

Gynæcological Clinics,
Medical Clinics,
Skin and Surgical Clinics,
Electrical Clinics,
Ear, Throat and Nose Clinics,
} *Daily.*

Eye Clinics on Mondays, Wednesdays and Fridays.
Dental Clinics on Tuesdays, Thursdays and Saturdays.

NOON CLINICS.

These are held from 12.30 to 1.30 P. M. during the winter and spring term of the Woman's Medical College, beginning in October and ending in May.

Medical	Clinic,	Tuesdays,	by	Prof. James B. Walker.

JANE P. DOWNING,
W. T. McCOLLIN.

ENDOWED BEDS.

"The two Crozer Beds" were endowed by gifts in 1869 and 1873 of $6,000 by Mrs. John P. Crozer.

"One Crozer Bed" in November, 1882, by legacy of $3,000—bequeathed by Mrs. John P. Crozer.

"The Anna Justice Steel Bed" was endowed in 1873, by a gift of $5,000 from Edward T. Steel.

"The Mary D. Brown Bed" was endowed in 1875, by a legacy of $8,000 bequeathed by Mary T. Brown.

"The Huldah Justice Bed" was endowed in March, 1889, by a gift of $5,000 from William W. Justice.

The Williamson Ward of seven beds and one bed in the Children's Ward were endowed by legacy from Isaiah V. Williamson of $40,000 (less collateral inheritance tax), received January, 1890.

streth, bottles and old muslin; Mrs. Pennock, tablecloth; Miss Biddle, 6 gingham aprons; Mrs. E. F. Williams, 20 chemises; Miss Anna T. Jeanes, 50 chemises, 25 night-gowns; Mrs. James M. Bennett, 25 lbs. sugar; Mrs. M. K. Tomlinson, 2 cans tomatoes, 2 cans peaches, 1 can apples, oatmeal, tea, sugar; Mr. Wm. Snyder, large box oranges; M. L. Hinchman and Miss Taylor, 4 doz. lemons, 6 lbs. sugar; Anonymous, piano cover and $2.00 for tuning piano; Mrs. Abbie Laughlin, bottles and magazines; Mrs. Watkins, bottles and old muslin; D. W. Kolbe & Son, Goodyear cupping cup, 2 syringes, 1 fountain syringe, 2 doz. pessaries, 6 clinical thermometers, 6 boxes catgut, 2 bottles iodoform cotton; Mrs. Wilcox, 1 doz. tumblers, 4 lbs. sugar, 2 dresses; Rebecca C. Perot, 2 doz. napkins; Dr. M. Sibley Lee, 5 dresses, 1 pair drawers, 1 Tam O'Shanter, 6 prs. shoes, old muslin; Mrs. F. P. Crozer Griffith, 3 doz. oranges; H. B. Cather, 1 cwt. corn meal, 1 barrel flour; James H. Gifford, 1 box starch; Edith Sharpless, 1 night dress, old muslin; Lentz Sons, surgical appliances; Mary S. Wetherill, 38 yds. toweling; Aschenbach & Miller, 5 lbs. tea, 5 lbs. chocolate; Althea "King's Daughters," 4 night dresses, old muslin, oakum; James T. Shinn, 3 doz. pint bottles liquid rennet; Anne M. Ormsby, 4 vests, 4 curtains, old muslin; Jane P. Downing, 2 doz. napkins, 6 towels; Mrs. J. Sargent Price, 6 infant's dresses, 8 towels; Reynolds Public School, 29th Section, 17 pillow cases, material donated by Miss Annie S. Jones, Principal, the work done by the following pupils of the 6th and 7th grade, Theresa Amene, Jennie McDonough, Lottie Leech, Nellie Hall, Edith Hazlett, Blanche Ingham, Clara Bachman, Fannie Roller, Edith Von Klech, Eva Amberg, Florence Snell, Florence Mabel Andrews, Maud C. Walton, Nellie McCall, Sybil Rex Moyer.

DONATIONS.

Mrs. Geo. H. Earle, Jr., 3 kits of fish, 5 pair drawers, 5 chemises; Mary S. Wetherill, 38 yards towelling; Mrs. Sarah Smith, 3 baby slips, 4 pair drawers, 2 night dresses; Grandchildren of Huldah Justice, 3 boxes of flowers; Annie M. Ormsby, 4 undervests, 4 old lace curtains, old muslin; Elisha Kent Kane School, in memory of Dean Bodley, 5 doz. eggs, 3 doz. oranges; Miss Clark, china tea-pot and bowl; Church of the Covenant, Easter flowers; Helping

Hand, North Presbyterian Church, 7 baby slips, 6 pair drawers, old muslin; Thomas Calhoun, barrel of flour; old muslin and linen from Susan J. Paxson, Mrs. John W. Brock, Mrs. Price, Mrs. Carson; Mrs. Martha Steever, 10 new chemises; Rebecca C. Sheppard, bed-room slippers, flannel sack, old muslin and linen; N. P. Lindstrom, 1 mat, 3 waists, 3 pair drawers, 7 night dresses, 4 skirts, 2 chemises, 2 wrappers, 3 pair underdrawers, 3 undervests, 2 pair stockings, 1 infant's sacque; Misses Simpson and Miss Dainty, 10 night dresses, shoulder shawl, 2 pair stockings, old muslin, picture magazines, old muslin; Mrs. S. G. Lewis, 25 bound volumes of *Harper's Magazine*, 1 of Littell's *Living Age*, 1 of *Century Magazine*; Mrs. Harris, bolster and pillow-cases, underwear, flannel, 4 night dresses, 12 pair drawers, stockings, slippers, socks, bandages, knee-caps and toweling, bed spread, infant's dresses, 5 sacques, old flannel, muslin and linen; Miss Parry, bed-table, 4 wrappers, coat, underwaist, 2 dresses, 4 pair drawers, 11 baby caps, shawl, 1 operation flannel night dress, 5 sheets, 7 pillow-cases, slippers, buttons, parasol, collars, etc.; through Mrs. Halloway, 8 white skirts, 2 flannel skirts, 9 night dresses, 3 pairs drawers, lot of old muslin and flannel, 14 chemises, 11 vests, stockings, underwaists, wrapper, 8 night caps, handkerchiefs, 2 pair cloth shoes; W. G. Tyler, book; Miss Potts, flowers; Misses Gill, napkins and old linen; through Mrs. Halloway, ½ doz. plated forks; Mary S. Wetherill, water cooler; bottle and old muslin from Mrs. Parks; Mr. and Mrs. Thomason, South Vineland, 2 crates strawberries, 3 bushels peas; Stephen Green, jelly and wine; through Miss M. C. Biddle, 1 bed-rest, 2 flannel wraps, 13 pair drawers, 2 aprons, 9 infant slips; Mrs. E. F. W. Smith, rolling chair; Mrs. Parry, 8 underwaists, 8 night dresses, 7 chemises, 11 pair drawers, 1 wrapper; Endeavor Society, Green Hill Church, 2 wool hoods, 1 sacque, stockings, underwear and slippers; Edward Swayne, flowers; reading matter from Mrs. Col. Taber, Sara Carpenter and Mrs. Amos Michener; Mrs. J. B. Justice, bed for baby; Charles Veautier, fresh green vegetables, several barrels monthly; corn and other vegetables from William Snyder; barrel of cabbage from J. Biddle & Son; Mrs. Henry Jacobs, 50 lbs. home-made soap; seventy glasses of fruit for diet kitchen from Young Ladies' Missionary Band of First Presbyterian Church, Lancaster, Pa.; 18 glasses of jelly from an unknown friend, also 2 baskets of grapes; Miss Fannie A. Kemble, wrapper and slippers; Mrs. Miller, Ridge Avenue, 2

baskets of grapes; Miss Anna Reed, afghan; Mrs. R. W. Smith, rubber cushion; through Mrs. E. Lewis, 4 lbs. prunes, 4 lbs. prunellas, 5 lbs. peaches; through Mrs. S. Price, 6 slips, 8 towels; Thanksgiving offering from the pupils of the George G. Meade School, 2 lbs. wheaten grits, 8 lbs. flour, 2 lbs. rice, 8 lbs. sugar, 4 packages Avena, 2 pkgs corn starch, 2 pkgs rolled oats, 5 cans tomatoes, 1 can corn, lemons, oranges and apples; through Mrs. G. Miller, 2 fine turkeys; 1 turkey from M. Lanneau; 1 turkey from H. K. Mulford; $29.16 from Managers for Christmas dinner, 1 pound cake, 6 Dutch cakes from J. D. Guntzer; box oranges, box figs from Mrs. H. Tompkins, Beverly, N. J.; celery and turnips from Mr. Vautier; toys for children from Catherine, Carrie, Frances Earle and Mrs. William J. Howard; toys and apples from Miss Cadwallader; box containing suits of infant's clothing, books, plates and glassware from Mrs. H. T. Tompkins, Beverly, N. J.; from Miss Rhoda Smith through Dr. Fullerton, Christmas cards, old muslin, 2 flannel skirts and wrapper; walnut crib and mattress, baby coach from Mrs. Fletcher Clark; old muslin from Jennie Cornell, Mrs. Carson, Mrs. Price and other friends; from Mrs Benjamin Griffith, 2 carpets, 30 quarts of ice cream; 18 lbs. of sponge cake for Christmas dinner, Christmas cards and picture books for patients and children; underwear, wrappers, sacques, old flannel, muslin and bottles from Mrs. Downing; 25 lbs. white grapes from Germantown Society of the Woman's Christian Temperance Union, through Mrs. Stephen Green; toweling from Mrs. Wetherill; oranges and apples for children from Green Hill Presbyterian Church, through Miss Gregory; advertising in the *Evening Telegraph*, *Ledger* and *Record* of Nurse Commencement without charge; reduction of same in the *Press;* through Mrs. James Biddle, bottles for dispensary; 13 pairs of drawers, 6 crib sheets, 2 aprons, 9 infant slips. Many gifts fruits and vegetables from Mrs. Audenreid, of Secane.

DONATIONS TO DISPENSARY.

J. T. Shinn, 36 pints liquid rennet; Philadelphia College of Pharmacy, drug preparations; Woman's College laboratory, drug preparations; Powers & Weightman, drugs; Mrs. Audenreid, 1 case of new prescription bottles; S. T. Child, year's repair to clocks; Troemner, year's repair of scales; bottles from many friends.

THE

Woman's Hospital of Philadelphia

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access to all parts of the city.

Its Dispensary Department is open daily from 8 to 9.30 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting hours, daily, from 3 to 4 P. M., except Sunday.

Thirty-first Annual Report

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia

The Managers of THE WOMAN'S HOSPITAL OF PHILADELPHIA are again favored to report another year of busy work and prosperity.

Seven hundred and twenty-nine patients have received treatment, exceeding the number of last year by about sixty-eight. Seventy-six of these were children. Thirty one thousand and sixty-nine prescriptions have been compounded in the Dispensary. The record of each case has been carefully kept, The accompanying tabulated statement of Dr. Anna M. Fullerton, Physician in Charge, gives the work of the year in detail, with her interesting account of the many operations performed.

From some of the patients grateful and encouraging words have come to us, telling of the great benefit derived from the treatment and care the Hospital had given them. After returning to their homes with renewed health, two patients each sent a crate of strawberries and a barrel of sweet potatoes, thus giving tangible evidence of their gratitude.

As each year closes and the account is to be rendered, we are struck with the steadily increased service of this institution, and are encouraged to believe we are still under the guidance of that sustaining power that has been with us from the beginning of the work.

When the founders of The Woman's Hospital selected this site for the institution, it was done with the best thought they could give; and they felt they had secured a property, eligible for size, situation and sanitary conditions, to meet the needs of the future; but we have gradually outgrown these earlier provisions.

At one time a part of the main building accommodated all of the hospital requirements; later, it was all needed; and we have endeavored, by additions and alterations, to meet the growing want as it came. The first improvement was to remove the Laundry from the main building to a separate structure, and, when, through the gratuity of kind friends, we were enabled to erect the Maternity building, we felt permanent relief had come to us. Then the Laundry accommodation was insufficient; so a new laundry was built, and the erection

of Clinic Hall with its commodious amphitheatre and convenient treatment rooms and sunny dormitories again relieved us; but the Nurse School was growing, and more space for the accommodation of the increased number of pupils had to be secured; then the Nurses' Dormitory was built. Thus we have gone on, adding and altering as occasion required, until we are firmly convinced that now the right thing to do is to look to the erection of an entire new building for the Hospital proper. We have shrunk from this decision, knowing the great cost of such a structure, no matter how economically it might be built.

With this report of our present condition we most earnestly appeal for that substantial aid that has come to us from our friends in the past, to make it possible to do that which seems imperative for our future success. Our main building is inadequate for the purposes required. We are overcrowded and working at a great disadvantage. A building erected nearly two score of years ago for a private residence is not the building to meet to-day the wants of a well ordered hospital for the best surgical and medical work.

We have long known this crisis must come; but we have patiently held back, waiting and trusting to see our way clear to proceed. Heretofore all the building we have done has been paid for on completion. There is no debt unpaid.

Much thought has been given to the Nurse Training School. The largest class we have ever graduated, twenty-one in number, have received their diplomas. The Commencement was held in Clinic Hall on the 16th of December, when a large and appreciative audience was assembled. The exercises were interesting and appropriate.

We believe we have again equipped a class of earnest women for the profession they have chosen, with the necessary requirements to enter the arena of life, for which a thorough preparation and earnest dedication of heart are necessary for success Three hundred and thirty-eight applications for nurses have been supplied. The domestic department of this institution is an important factor in the comfort of the household, and has run smoothly throughout the year. The House Committee is not a standing committee, as in many institutions, but is composed of two managers decided upon at each stated meeting for a month's service, whose duty is to visit every department of the building. Visits are made at least once, and often twice a week. The ladies usually volunteer, thus selecting for themselves the time best suiting them to devote to this service. Experience leads us to believe that this arrangement has advantages over a Standing Committee, as every manager can be enlisted in the service and practically acquaint herself with the details of the work, besides affording the opportunity for the Institution to be benefitted by the individual experience of each member of the Board. As usual, necessary repairs have been attended to, including the steam heaters, involving considerable expense.

We can again report continued interest in the Sabbath Meetings.

Donation Day was held on the 25th of March, and brought us many acceptable gifts of money, clothing, groceries, etc

We have appointed the ninth of March for the Donation Day this year

and would ask our friends to especially consider our desire to build, and send their offerings for that purpose.

Our hearty thanks are tendered to the Medical Staff for their faithful service in the interests of the Hospital, and to every person who has aided in any way the successful work of the year, either by gifts of money, professional skill or donations of any kind. Especial mention should be made of the offerings from the "King's Daughters" of the Oxford Presbyterian Church, who so kindly provided the screens for the Williamson Ward, and the pleasant remembrance of the Young Ladies' Missionary Band of the First Presbyterian Church of Lancaster, Pa., in the gift of a large box of preserved fruit and jellies put up by themselves. Neither do we forget the kindness of the pupils of the Reynold's School in sending, on Thanksgiving Day, groceries, preserves and fruit, nor the offerings on Donation Day of the pupils of the Elisha Kent Kane and other schools of the neighborhood. We would also mention the timely gift of underclothing, sheets and pillow-cases from the Needlework Guild and other guilds and sewing bands. Also underclothing from Miss Anna P. Stevenson's Mothers' Meeting. Bountiful provision was made for the Thanksgiving, Christmas and New Year's dinners by special contributions.

The little ones who were inmates at the holiday season greatly enjoyed the Christmas Tree prepared for them by kind hands and the many presents sent to them by their friends.

We gratefully acknowledge the gift of $5,000 from Mrs. Jacob P. Jones for the endowment of a bed in memory of her husband.

The appended report of our Treasurer, Rachel C. Bunting, shows the financial condition of the Institution.

REPORT

OF THE

Training School for Nurses.

The record of the Nurse School for the past year shows a steady growth of its prosperity. One hundred and fifteen applications for admission have been received. Of these but forty-five could obtain appointments because of lack of accommodations for a larger number. The school numbers fifty pupils on active duty. Owing to sickness some additional appointments have been made to fill vacancies, so that we have fifty-five names at present on the roll.

An effort has been made to increase the opportunities for systematic, practical teaching in the various departments of nurse work. For this purpose assistant head-nurses have been appointed to superintend the teaching in the wards, and special courses of instruction in massage, the use of electricty, and cooking for the sick, etc., have been provided.

Three hundred and twenty-five out-calls have been supplied with nurses. These included cases of general medical, surgical, and obstetrical work. About the same number of calls have been referred elsewhere, as we were unable to supply the demand.

Our encouragement to proceed with our work is great, notwithstanding the difficulties under which we labor. The increase in the size of the school renders necessary an increase in accommodations for nurse-students. More commodious dormitories are at present an urgent need, also a study-room for the nurses, containing the conveniences of a good school room, as anatomical charts and a full reference library. This would do away with the necessity of nurses' studying in their bed-rooms. Additional facilities for teaching are also needed in the Diet Kitchen. If we would excel in the most important enterprise of training nurses, we should possess ample means for carrying on the work.

The regular weekly lectures with weekly examinations upon these lectures have been given by myself throughout the year, additional lectures and recitations being conducted by Dr. Lippert and Miss Jauvier. A course of special lectures on nursing was given under our auspices in Clinic Hall, by those interested in the School. A list of subjects with the names of the lecturers is appended below.

During the year Miss Vieth, our head-nurse, after a faithful term of service, left us and Miss Amanda Leedom was appointed to her position. Miss Marianne Hunt and Miss Annie M. Clark, who had served as assistant head-nurses, also resigned, and their places have been filled in the surgical and maternity wards,

respectively, by Miss Annetta C. Earnshaw and Miss Kate E. McClellan.

The report of the School for the year, stands as follows:

Admitted during 1891,	45
In School Jan. 1, 1891,	47
Total,	92
Graduated in 1891,	21
Absent on account sickness,	5
On duty,	50
Failed,	16
Total,	92

Course of special lectures on Nursing delivered in 1891:

On Massage, by Dr. Charles K. Mills.
On Massage and Swedish Movements, by Prof. Kurre W. Ostrom.
On Massage, by Miss Ward.
On Electricity, by Dr. Lucy N. Tappan.
On Electricity, by Miss Ward.
On Nursing in Fevers, by Dr. James B. Walker.
On Fractures and their Management, by Dr. John B. Roberts.
On Obstetrical Nursing, by Dr. Anna E. Broomall.
On the Germ Theory of Disease, by Dr. Anna M. Fullerton.
On General and Special Surgical Nursing, by Dr. A. M. Fullerton.
On Soap, by Dr. H. Leffman.
On Chemistry, by Dr. Frieda Lippert.
On Physiology, by Dr. Frieda Lippert.
On Nursing in Diseases of the Eye, by Dr. Amy S. Barton.
On Cooking for the Sick, by Miss Sara Janvier.

The nurses graduated during 1891, are as follows:

Virginia L. Borden,	Philadelphia.
Lucy L. Walton,	Pennsylvania.
S. Eleanor Wells,	Ohio.
Lydia R. Speakman,	Pennsylvania.
Emma H. Gitlings,	Ohio.
Belle L. Allen,	Pennsylvania.
Kate Schwenker,	New Jersey.
Bessie H. Stewart,	Pennsylvania.
Mary B. Struble,	Pennsylvania.
Laura Anna Koons,	Ohio.
Amanda Leedom,	Pennsylvania.
Ida M. Pleasanton,	Delaware.
Kate E. McClellan,	Pennsylvania.
Laura C. Watters,	Pennsylvania.
Carrie J. Miller,	Pennsylvania.
Annetta C. Earnshaw,	Pennsylvania.
Bella M. Burney,	Illinois
Leah E. Grover,	Pennsylvania.

Teresa Perez, - - - - - - Philadelphia.
Florence Cottringer, - - - - - Philadelphia.
Anna B Seitz, - - - - - - - New York.

ANNA M. FULLERTON, M. D.,
Superintendent of Nurse School.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, one month of which shall be probationary, with an extension to two months, at the discretion of the Nurse Committee, after which they shall receive ten dollars in cash per month during all the term of two years—including the two months of probationary service. Fifty dollars of the said salary shall be retained until the term of service is completed. A vacation of two weeks will be given during the two years. Nurses, who for any reason are obliged to ask an extension of this time, will be expected to make up DOUBLE the time of their additional absence to the Hospital in return for the inconvenience which is thus caused.

Candidates for graduation shall be examined in April and October yearly. Those entering the School in January shall be required to present themselves for examination in April following the expiration of their two years' term of service. Those entering in July at the October examination.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the Nurse Committee, has the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses of regulation uniform, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week, or as often as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order. Probationers shall bring with them two or three wash dresses plainly made, and several large white aprons. They will not be expected to wear their uniform until fully received into the School.

6. The bed linen of the medical wards shall be changed once a week, and in the surgical wards twice a week. In confinement cases at least one clean

sheet shall be given daily; the pillow cases shall be changed twice a week; the patient's clothing once in two days. Each confinement patient shall have her whole body washed daily. All unnecessary exposure of patients in washing and dressing to be carefully avoided. The babies shall be washed after the morning visit; a full bath in the bath tub once daily; the private parts after each passage of urine or fæces. Their mouths shall be washed with a clean cloth before and after nursing. The mother's nipples should be washed before and after the child nurses. Infants shall be put to the breast or fed once every two hours, unless directions are given to the contrary. Sponges are not allowed in the lying-in wards.

7. The temperature of each patient must be taken twice daily; also the respiration and the pulse counted. The nurses must see that each ward is thoroughly ventilated. The temperature to be kept at 65° Fahrenheit. Nurses must assist patients in dressing and undressing. They shall comb the hair of patients confined to their beds each day, unless the patients are too sick. They must sweep and dust the wards with great care. The dust must be put in a receptacle provided for that purpose.

8. Soiled clothing, sheets, etc., shall be removed immediately from the wards. Bed-pans, syringes and all similar articles must be carefully washed and disinfected after each use. The nurse's hands must be disinfected after each vaginal injection, by washing them in a solution of corrosive sublimate or other disinfectant. The nurse must see that the valves of the water-closets are lifted, and the pans rinsed out after each use. Exact information with regard to the appearance, amount and frequency of discharges is expected of the nurse. Each nurse is expected to be present at the Physician's morning visit in her ward, and report every symptom or change that has occurred in the patient since the last visit. The nurses may ask assistance of convalescent free patients in bed-making, dusting or distributing meals. but it shall not be demanded.

9. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P. M. and 5 A. M., and that all the gas is turned down low. She shall summon the Ward Physician if anything occurs that requires her presence.

10. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the Ward Physician.

11. Nurses shall roll bandages and keep them constantly on hand in the Maternity and Surgical Wards; they shall also keep on supply surgical dressing as directed. The nurses in the Surgical department shall see that the patients are kept perfectly quiet for twenty-four hours after an operation, and that no person shall see them without permission of the Physician. They shall not permit a lying-in woman, or one on whom an operation has been performed, to

sit up in bed, or to leave her bed, without the Physician's permission.

12. Nurses shall see that visitors do not give food of any kind to the patients.

13. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall in no instance be permitted to receive money from the patients.

14. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

15, Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

The following rules regulate the supply of nurses to out calls.

REGULATIONS.

The charge for the services of this nurse for a week is $10. If employed for massage in addition to other nursing, $15. For any part of the week it is $2, with massage $3, per day.

Travelling expenses are to be paid by the family employing the nurse, and during her term of service her washing is to be done at the expense of the family.

At the expiration of her term of service the amount due the Institution, to the date of her departure, must be placed in a sealed envelope, together with blank furnished employer. Upon the enclosed blank sheet it is requested that the employer shall note a candid statement (which will be regarded as strictly confidential) of the conduct and efficiency of the nurse. The remarks of the attending physician as to her capability may also be noted, and will be especially valuable to the Training School. It is hoped that both employers and physicians will be frank in noting any short-comings.

The nurse in attendance upon a case, is expected to receive only such visitors as wish to see her on important business; to have from half an hour to an hour for out-door exercise daily, when the condition of the patient will admit; to have sufficient time for sleep. A nurse cannot stay at one place over eight weeks.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Frictions—the manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentation, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital.

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single?
4. If a widow have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble? Give your height and chest measure.
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

For information in regard to services and salary, apply to

Dr. A. M. FULLERTON,

Woman's Hospital, Philadelphia.

This Agreement, made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and , of the other part, witnesseth that the said party of the second part hereto hereby covenants and agrees, faithfully, truly and diligently, to serve the said, THE WOMAN'S HOSPITAL, as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof if she shall so long live, in the Training School of the Woman's Hospital, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of said Hospital.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by lectures from time to time by the Medical Director in charge and by other Physicians and Surgeons, by clinic or bedside instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry work during the said term of two years. The first two months of said term shall be considered as probationary, without pay for the first month; but if found to be satisfactory, shall be considered as part of the said term of two years; but if the said party of the second part hereto shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto shall be retained by the said Hospital, after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging and laundry work as aforesaid, the sum of Ten Dollars per month in cash during all the said term of two years, including the said two months of probationary service. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years; which said sum shall be paid to the said party of the second part hereto whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited; and the said Hospital shall be exonerated, released and discharged from the payment of the whole or of any

part thereof. At the termination of the said two years of service under instruction, as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a Nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital, and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the Hospital, to which physicians and others desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. J. B. Roberts and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school. To such as may desire to establish a scholarship we would state the price to be sixty dollars.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C Bunting, Darby, Delaware County, Pa., Mrs. Pauline E. Henry, 2301 De Lancy Place, or to the following physicians, who have kindly consented to receive donations to the school:

Dr. Alfred Stillé, Dr. Thos. G. Morton,
Dr. W. W. Keen, Dr. William Pepper.

REPORT OF PHYSICIAN IN CHARGE.

Number of patients in Hospital, January 1st, 1891	58
Number of patients admitted during 1891	671

The record of the work of the Hospital for 1891, shows the increasing usefulness of the Institution and the great need for an extension of its facilities. A larger number of patients have been received and treated in its wards than during any previous year, and numerous applications for admission have been refused because of lack of room for their accommodation. An examination of the tabulated lists will show that many serious cases have been under our care. Several of the patients were admitted for a complication of troubles, each requiring special treatment. In the lists such have been classified under the head of the most important symptom or condition for which they were admitted. Seven hundred and twenty-nine (729) patients have been treated in the wards. Three hundred and twenty operations have been performed for house patients; forty-two of which were abdominal sections. Among many important surgical cases treated, were two for strangulated hernia, one of great enlargement of the thyroid gland, one of pyonephrosis, twelve of mammary tumors, one of fractured skull, and several cases of joint trouble. A number of important operations were performed in the children's ward, which has been kept constantly full.

Through the generosity of friends some most valuable additions have been made to our surgical facilities during the past year, enabling us to carry out more thoroughly and readily the requirements of aseptic surgery. Thus, steam sterilizers have been obtained for both the Surgical and Maternity Wards; a beautiful glass and metal instrument case has been placed in Clinic Hall, and quite a number of valuable instruments supplied.

Many additions to our comfort and convenience have also been made throughout the year by the thoughtful gifts of friends, some of them former patients. The holiday seasons have been similarly remembered and rendered pleasant; and flowers, fruit, picture cards, books, toys, and a Christmas tree will long live in the memory of some of our patients as illustrative of the charity which finds it more blessed to give than to receive.

One hundred and eighty-five patients have been cared for in the Maternity Wards this year. Among them we lost but one patient, who was brought to us during labor in a comatose state, having already had during the day sixteen convulsions due to kidney disease of long standing. Fifty-five maternity cases were treated in the out-practice.

The prevailing influenza of the past few months has added greatly to our work, both in the Hospital and out-practice. Both patients and employees have suffered; the medical and nursing staff being so crippled that those escaping the trouble have often had double duty to perform. We have cause, however, to be grateful for the fact that we have, so far, not lost a single

case through this disease, and that our work has gone on prosperously, notwithstanding our weakened force.

The Nurse School has been kept unusually busy, as the special report of the School will show. Three hundred and forty-two out-calls were answered during the year, for all classes of cases—medical, surgical and obstetrical.

Sufficient has been said here perhaps to demonstrate the activity of our work in all its departments. The pressing need of means to enlarge our usefulness is a matter which we desire to commend to the thoughtful consideration of those abundantly blessed with this world's goods, and, above all, to those interested in aiding woman's work for women.

ANNA M. FULLERTON, M.D.

ABDOMINAL SECTIONS.

No.	*Age and Civil State.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
1	39 years. Single.	Uterine fibroma (multiple). Removal of appendages.	None.	Yes.	Recovery.	No history of hemorrhages. Marked pressure symptoms. Appendages very vascular. Varicose condition of the ovarian plexus.
2	49 years. Married.	Myo-fibroma of uterus. Sub-peritoneal—on posterior uterine wall. Hysterectomy.	Present.	Yes.	Recovery.	Weight of tumor, 15¾ ounces. Tumor of slow growth. In February, 1888, it was size of a large fist; at time of operation, the size of child's head. When in the house two years ago, electricity was advised, and a short course of such treatment was given.
3	35 years. Single.	Hemorrhagic fibroid. Both ovaries cystic. Removal of appendages.	Extensive and dense.	Yes.	Recovery.	History of profuse hemorrhages at her periods; also intermenstrual flow for last 15 years Tumor found to have developed within folds of broad ligament. Adhesions so dense as to make removal impossible.
4	29 years. Single.	Myo-fibroma of uterus in anterior wall. Hysterectomy.	Extensive and dense.	Yes.	Death.	Weight of tumor, 2¼ pounds. Patient, previous to admission, had 6 months of electrical treatment. Death on 9th day, due to peritonitis.
5	35 years. Married.	Myo-fibroma of uterus (posterior wall). Exploratory incision. Separation of some adhesions.	Extensive and dense.	Yes.	Recovery.	Adhesions too dense to permit of extirpation.
6	63 years. Married.	Fibro-cystic tumor of uterus. Entire removal.	Extensive adhesions to omentum.	Yes.	Death.	Growth appeared over 20 years previous to operation and had caused no bad symptoms. The pressure symptoms were but slight. Death on 9th day from sepsis.

ABDOMINAL SECTIONS—Continued.

No.	*Age and Civil State.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
7	48 years Married.	Fibroid of uterus. Sub-peritoneal. Had undergone ossification. Hysterotomy.	Present.	No.	Recovery.	Patient suffered from pressure symptoms. Tumor the size of fœtal head at about 6 months. Appendages, both sides, normal.
8	48 years. Married.	Suppurating cyst of parovarium. Removal of cyst and of appendages of both sides.	Numerous and dense.	Yes.	Recovery.	Tumor found to have developed within folds of broad ligament, to which the adhesions were very firm. Seven pints of pus evacuated from cyst.
9	36 years. Married	Hæmatosalpinx of right tube. Removal of appendages of right side.	Numerous and dense.	Yes.	Recovery.	
10	25 years. Married.	Pyosalpinx of left tube. Hæmatoma of left ovary. Chronic salpingitis on right side. Removal of appendages.	Numerous and dense.	Yes.	Recovery.	On admission to house, patient had already commencing symptoms of septic troubles, chills, high fever, night sweats. Convalescence uninterrupted.
11	35 years. Married.	Hydrosalpinx of left side. Removal of appendages of left side.	Numerous.	Yes.	Recovery.	
12	17 years. Single.	Hæmatoma of left ovary. Appendages of right side healthy. Removal of appendages of left side.	Not extensive.	Yes.	Recovery.	
13	25 years. Married.	Hæmatoma of right ovary. Adherent tube and ovary on left side. Removal of appendages.	Firm.	Yes.	Recovery.	Long course of palliative treatment with no marked change in condition.

ABDOMINAL SECTIONS—Continued.

No.	*Age and Civil State.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
14	27 years. Single.	Hæmatoma of both ovaries. Removal of appendages.	Numerous. Readily separated.	Yes.	Recovery.	Same as preceding.
15	23 years. Married.	Abscess of right ovary. Removal of appendages of right side.	Numerous and firm.	Yes.	Death.	Adhesions anteriorly were readily broken. Posterior adhesions and those of the appendages to left side so dense that no attempt was made to sever them. Right ovary riddled with pus sacs. Patient on admission suffering from sepsis.
16	40 years. Married.	Cystic ovaries. Salpingitis.	Not numerous. Readily separated.	Yes.	Recovery.	
17	22 years. Married.	Cystic disease of ovaries. Removal of appendages.	Not numerous.	Yes.	Recovery.	Long course palliative procedures without avail.
18	29 years. Single.	Cystic ovaries and salpingitis. Large uterus studded over with small sub-peritoneal fibroids. Cyst of parovarium on left side. Removal of appendages.	Not numerous.	No.	Recovery.	
19	33 years. Single.	Salpingitis and ovaritis. Removal of appendages of left side.	Extensive and dense.	Yes.	Recovery.	
20	32 years. Married.	Salpingitis and ovaritis. Uterus retroverted. Exploratory incision. Correction of mal position and separation of adhesions.	Extensive and dense.	Yes.	Recovery.	
21	31 years. Married.	Chronic salpingitis and ovaritis. Removal of appendages.	Not numerous but very firm.	Yes.	Recovery.	Tubes occluded. Long course palliative treatment. Electrical treatment also.

No.	Age and Civil State.	Pathological Condition and Operation.	Adhesions.	Drainage.	Result.	Remarks.
22	22 years. Single.	Cystic disease of ovaries. Removal of appendages.	None.	Yes.	Recovery.	Periods regular but very scant. Had hystero-epilepsy since puberty. Seizure always at time of period.
23	24 years. Married.	Peri-ovaritis. Exploratory laparotomy Adhesions broken up.	Numerous though recent.	Yes.	Recovery.	Appendages normal, but surrounded by adhesions sufficient to cause the extreme suffering patient had experienced.
24 25	30 years. Married.	Chronic ovaritis and pelvic peritonitis. Removal of appendages. Secondary operation for intestinal obstruction.	Extensive and firm.	Yes.	Death.	Had been suffering since birth of child, 15 months prior to operation. Dense adhesions, omental and parietal. Intestinal obstruction ensuing, secondary operation was done 48 hours after the first. There were found some fresh adhesions and a constriction of the bowel by omentum. All omentæ vessels deeply injected. Lymph deposits on surface of intestines. Patient lived but 24 hours after this operation, although change for better seemed apparent at first.
26	35 years. Married.	Retroverted adherent uterus. Exploratory laparotomy. Adhesions broken up.	Extensive and firm.	Yes.	Recovery.	The year prior to operation had 4 months' electrical treatment without improvement. Re-admitted during 1891, showing no change, despite constant local palliative treatment.
27	29 years. Married.	Retroflexed adherent uterus. Exploratory laparotomy. Adhesions separated.	Extensive.	Yes.	Recovery.	
28	22 years. Single.	Adherent uterus. Adherent and diseased appendages. Removal of appendages.	Extensive and firm.	Yes.	Death.	Cause of death found at autopsy to be hemorrhage caused by excessive restlessness of patient. Death on second day.

No.	Age and Civil State.	Pathological Condition and Operation.	Adhesions.	Drainage.	Result.	Remarks.
29	38 years. Single.	Retroverted adherent uterus. Prolapsed ovaries. Right ovary cystic. Removal of appendages of right side.	Numerous. Readily separated.	Yes.	Recovery.	
30	38 years. Married.	Ruptured tubal pregnancy. Hemorrhage into peritoneal cavity. Removal of ruptured tube, blood and clots.	Extensive.	Yes.	Death.	Patient in condition of exhaustion from loss of blood. Death on 3d day from sepsis superimposed upon an old peritonitis.
31	23 years. Married.	Tubal pregnancy (right side—one to two months.) Cyst of left ovary. Removal of appendages.	Numerous.	Yes.	Recovery.	Right tube much distended. Fimbriated extremity closed. Cyst of left ovary, the size of an orange, ruptured in the attempt at delivery.
32	30 years. Married.	Tubal pregnancy (right side), (about two months) Removal of appendages of right side, with gestation cyst and embryo.	Numerous.	Yes.	Recovery.	No period for 2 months prior to operation. Two days before admission to hospital was attacked with regular labor pains. These persisted, with some intermission, for two or three days, and after their subsidence, the menstrual flow began. This proved very painful, not profuse, lasted 4 days, and was attended by expulsion of clots, and a "mass" that proved on microscopical examination to be decidual membrane.

No.	Age and Civil State.	Pathological Condition and Operation.	Adhesions.	Drainage.	Result.	Remarks.
33	42 years. Married.	Utero-abdominal pregnancy (full term). Removal of fœtus and gestation cyst.	Numerous.	Yes.	Death.	Patient in condition of exhaustion on admission. History gave evidence of attempt at birth of child 6 months prior to operation. There were at this time irregularly recurring pains lasting some few days. After these ceased there commenced a discharge of amniotic liquid. This, with a discharge of blood, continued during following 6 months. Gestation cyst was utero-abdominal. Child weighed 5 pounds—2,267 grammes. Autopsy showed a communication between the sac and uterine cavity, about an inch above internal os-uteri.
34	37 years. Married.	Cystoma of left ovary. Removal.	Very firm.	Yes.	Death.	Cyst, which was multiple, and found to contain clear fluid; ruptured in attempt at its delivery. Cyst the size of an orange. Death on 9th day, due to sepsis.
35	23 years. Married.	Cystoma of right ovary. Removal.	None.	No.	Recovery.	Cyst the size of an orange. The condition complicated a pregnancy of about 5 months. Pregnancy continued uninterrupted to full term.
36	30 years. Single.	Dermoid cyst of right ovary. Small fibroid of uterus. Removal of appendages and of cyst.	Firm.	Yes.	Recovery.	Cyst the size of large fist, contained fat and much hair. Fibroid being found upon the fundus uteri, the appendages were removed.
37	26 years. Married.	Dermoid cyst of left ovary. Removal of cyst and of appendages of left side.	Numerous. Readily separated.	Yes.	Recovery.	Cyst contained quantity of hair, also about 4 pints of cheesy liquid resembling pus.

ABDOMINAL SECTIONS—Continued.

No.	*Age and Civil State.*	*Pathological Condition and Operation.*	*Adhesions.*	*Drainage.*	*Result.*	*Remarks.*
38	42 years. Single.	Multilocular cyst of *right* ovary. Entire removal.	Readily separated.	Yes.	Recovery.	So large a pedicle that the extra-peritoneal treatment with clamp and serre-noeud applied. Amount of liquid, 6 quarts, 1 pint. Weight of tumor, 13 pounds. Weight of sac, 20 ounces. Tumor of 3 years growth.
39	19 years. Single.	Multilocular cyst of *left* ovary. Entire removal.	None.	Yes.	Recovery.	Tumor of 3 years' growth. Amount of liquid 3 gallons. Weight of tumor, 26¼ pounds.
40	68 years. Married.	Unilocular cyst of *left* ovary. Entire removal.	None.	Yes.	Recovery.	Noticed tumor for first time in January, 1891. Then the size of a teacup. Weight of tumor, 4¾ pounds. Amount of liquid, 4 pints.
41	35 years. Married.	Unilocular cyst of *right* ovary. Entire removal.	None.	Yes.	Recovery.	Amount of liquid, 8 quarts, ½ pint. Weight of tumor, 16 pounds.
42	8 years. Child.	Sarcoma of kidney. Exploratory incision.	Extensive and dense.	Yes.	———	Patient living and in good condition, so far as operation concerned, in third week after the exploratory incision.

OPERATIONS IN THE HOSPITAL FOR 1891.

Abdominal Sections	42

REPORT

OF THE

DISPENSARY SERVICE.

MORNING CLINICS.

Doors open for admission of patients from 8 to 9.30 daily, except on Sunday.

Gynæcological Clinics,
Medical Clinics,
Skin and Surgical Clinics,
Electrical Clinics,
Ear, Throat and Nose Clinics,
} *Daily.*

Eye Clinics on Mondays, Wednesdays and Fridays.

Dental Clinics on Tuesdays, Thursdays and Saturdays.

NOON CLINICS.

These are held from 12.30 to 1.30 P. M. during the winter and spring term of the Woman's Medical College, beginning in October and ending in May.

Medical	Clinic,	Tuesdays,	by	Prof.	Frederick P. Hunt.
Surgical	"	Fridays,	by	Prof.	John B. Roberts.

E. Monaghan, old muslin; Miss Wilcox, 1 doz. oranges, ½ doz. lemons; Mrs. Halloway, old muslin; Mrs. J. P. Downing, large clock for diet kitchen; through Mrs. Downing, box of oranges; F. E. Johnson, 1 bath-robe, 1 skirt, 1 blouse, baby clothes, old flannel, old muslin; Mrs. Anna Y. Mohr, 7 saucers for diet kitchen; Rebecca White, 25 flannel baby sacques, 1 child's flannel sacque; a friend through Miss M. C. Biddle, wooden rocking chair; Mrs. Lukens, 1 pair baby shoes, 3 flannel slips, 1 short white dress; Miss Hislop, Trenton, N. J., through Mrs. Halloway, old muslin; Miss C. E. French, reading matter; through Dr. Roberts from Wm. Snowden, two Polyclinic ether bottles; Mrs. Downing, 2 linen table cloths, 1 doz. napkins; Mrs. Anna Y. Mohr, large quantity white wrapping paper; Mrs. T. M. Perot, 2 doz. fine linen napkins; Mrs. A. Caldwell, one abdominal supporter; from Bible Society, 1 large Bible, 6 Testaments (large print), 6 Gospels (large), 20 small Gospels; through Mrs. Halloway, large bag of old muslin; Mrs. Monaghan, West Chester, Pa., 2 wrappers; through Mrs. Bullock from Mrs. Rumford, old muslin; Mrs. Charlotte Lewis, bed table; through Miss Warner from Broad and Oxford Street Presbyterian Church, iron bedstead and mattress; Miss Warner, one screen; Miss Emma L. Taylor, bottles and old linen; through Miss Biddle, 2 pillow cases, 1 baby slip; Mrs. McCollin, 1 doz. fresh eggs; students of Bryn Mawr College, wild flowers; scholars of 26th and Thompson street, wild flowers; Mrs. McMasters, Poconoke City, Md., 1 crate strawberries; Miss. L. A. Taylor, 2 doz. table napkins; Dr. Anna E. Broomall, 2 baskets of apples; Needle Work Guild, 4 sheets, 6 pillow cases, 2 night-dresses; 2 chemises, 4 pairs muslin drawers, 2 pairs woolen drawers, 2 woolen shirts, 4 flannel petticoats, 6 pairs stockings, 6 towels, 2 children's skirts, 2 pairs children's drawers; Mrs. P. Downing, Media, bottles, pictures, papers, books and toy rabbit; through Dr. Underwood, Lancaster, Pa., 46 qts. assorted preserves, 23 glasses assorted jellies; C. Lanneau, large turkey; Prof. Jackson, 3 turkeys, 5 qts. cranberries; Mrs. F. F. Chambers, books; Mrs. J. P. Downing, 10 qts.

strawberry jam, 1 dollar for Christmas tree; donation from Reynold School, 20th and Jefferson streets, rice, sugar, oatmeal, Indian meal, jellies, preserves, apples, 8 doz. oranges, 7 doz. eggs; Miss Elizabeth B. Justice, table caster; Mrs. Audenreid, 12 qts. tomato sauce; Mrs. Daniel Neall, 2 linen sheets, 2 wrappers, 2 sacques; through Mrs. Halloway, baby clothes, caps, etc.; through Mrs. Wetherell, 1 carving knife and fork; Mrs. A. J. Bliss, Boston School text-book and Mrs. Lincoln's cook book; from Managers, cakes for Nurse Commencement; through Mrs. Bunting, $2.50 for Nurse Commencement; Mr. Meredith, 1 barrel spinach, 4 pine apples; Mrs. A. J. Bliss, old muslin, paper books, shoes and clothing; through Mrs. Halloway, old muslin and bottles; through Miss Stevenson, 13 night gowns, 2 children's night-gowns, 40 pillow cases; Rebecca White, 15 outing flannel sacques; Mrs. George H. Earle, 1 crate strawberries; 30 lbs. cherries, 6 baby dresses, 9 bands, 6 pairs socks, pieces linen and flannel, large box concord grapes; Mrs. Audenreid, Secane, Delaware Co., 30 lbs. cherries, 1 crate currants; through Miss Warner, awnings and screens for windows of Williamson ward; Mr. D. Meredith, ½ doz. wash boards, 1 case Rennene, 1 doz. Rennene; Elise Weber through Dr. Wygant, 1 doz. linen towels; Mrs. H. M. Steele, Germantown, underwear, muslin, old linen, etc.; Mrs. Kiernan, baby clothing; Miss L. K. Burpee, scrap book and pictures; from Chester, Pa., quantity of partly worn underclothing and old muslin; Mrs. Towne, Vineland, N. J., barrel sweet potatoes, 9 glasses jelly, 2 new towels, 3 merino shirts, 1 muslin waist, 4 yds. muslin, 9 pairs baby socks; Mrs. S. W. Thomas, reading matter; Mrs. Jenks, Ashbourne, Pa., 2 baskets of pears; C. Lanneau, 1 large turkey; Mr. Davis, 1 turkey; from Catharine, Carrie and Frances Earle, Devon, Pa., toys for Christmas tree and Easter toys; from Managers, Christmas dinner; Mr. Parker, old muslin; through Mrs. Taylor, 1 set of gartenbaubes; Mrs. James S. Biddle, 2 rocking-chairs for wards; Gratz School, 10 doz. eggs, 7 doz. oranges; Robert Morris School, 15 doz. eggs, 4 doz. oranges, 1 doz. bananas; Dr. Ruth Clemment, oranges, lemons, coffee, sugar, calico, sacques, skirts and underwear; Mrs. L. M. Perot, 2 doz. table napkins; old muslin and bottles from 1707 Arch street.

Secondary Department of Wm. D. Kelly School, 5⅓ doz. eggs, ½ doz. bananas, 7⅓ doz. eggs; Geo. G. Meade School, 5 doz. eggs, ½ doz. bananas, ⅔ doz. lemons, 1 potato, 1 apple, 3⅓ oranges, 1 chocolate Easter egg; A. D. Bache School, Boys' Primary and Girl's Secondary, 7 doz. eggs, 9 doz. oranges, ½ doz. bananas, 13 cans corn, 5 cans peas, 11 cans tomatoes, 1 can pears, 1 can apricots, 1 toy basket of eggs, 1 box candies, 3 lbs. soda crackers, 1 lb tea, 3 dyed eggs, 3 lbs. barley, 2 lbs. corn meal, 13 lbs. corn starch, 2 lbs. farina, ¼ lb. pepper, 3 qts. salt, 1 package Puddene, 2 lbs. pulverized sugar, 30 lbs. granulated sugar, 25 lbs. oatmeal, ⅔ doz. lemons, 15 lbs. rice, 2 lbs. mixed cakes.

DONATIONS TO DISPENSARY.

J. F. Stevenson, carboy carriage; W. Procter, Jr. & Co., pepsin; Powers & Weightman, drugs; H. Troemner, weights and a year's repair of scales; J. M. Maris & Co., 3 cases of bottles; E. Magill, a fever cooler; D. W. Kolbe, stretcher on wheels; Phil. Col. Pharmacy, drug preparation; Woman's Med. College, drug preparations; Jagode & Lewis, 5 lbs. wool; B., $30, special purposes.

THE

Woman's Hospital of Philadelphia.

THIS Institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access to all parts of the city.

Its Dispensary Department is open daily from 8 to 9.30 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting hours, daily, from 3 to 4 P. M., except Sunday.

THIRTY-SECOND ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia

With the close of the year comes the accustomed duty of the Managers of the WOMAN'S HOSPITAL OF PHILADELPHIA, to make their report of the condition of the institution to its contributors and friends.

Again we are favored to acknowledge continued activity and prosperity in every department of the work. Eight hundred and twenty-four patients have been admitted for treatment, and many serious operations have been successfully performed. The Dispensary service has been greater than ever before. More patients have been registered in the out-practice than in any previous year. The detailed tabulated statement of all these cases is appended in the carefully prepared report of Dr. Anna M. Fullerton, Physician-in-charge.

The Managers are grateful to the entire Medical Staff for the vigilance that has been required of them, to meet the demand of the increased service of the Hospital, well knowing their care has been augmented in proportion to the additional number of cases requiring treatment.

The Domestic Department has been satisfactorily conducted throughout the year, and with the large family to be provided for it is cause for congratulation that this result has been obtained.

There have been eighty-eight pupils in the Nurse Training School during the year, thirteen of whom were received on probation and did not remain for the full course of training. Twenty-four have graduated, leaving fifty-one pupils in the school at present.

Heretofore the graduating exercises of the school have been held in the Hospital Clinic Hall. At the commencement last year we felt a larger auditorium must be provided, for the more comfortable accommodation of the audience, so the departure from custom was made in holding the graduating exercises elsewhere than on our own premises.

On December 17th, at noon, the commencement was held in Association Hall. Mrs. Sarah C. F. Hallowell, a former manager, and the first chairman of

the Woman's Hospital Training School Committee, presided by request. Fifty pupils, clad in the uniform of the school, formed a pretty procession as they entered and passed to the seats reserved for them. The undergraduates each carried a small tray, bearing dainty china, on which was placed samples of the appetizing and nourishing food prepared by the nurses in the Diet Kitchen of the Hospital. The Rev. W. N. McVickar, D.D., made a beautiful and impressive opening prayer.

The diplomas were conferred by Mrs. Benjamin Griffith, the President of the Board of Managers, who briefly addressed the graduates with expressions of encouragement and good wishes for their success in the profession they had chosen. The other speakers were the Rev. S. D. McConnell, D.D., Dr. Anna M. Fullerton, Mrs. Helen Towne Jenks, Dr. Edward P. Davis, Dr. Charles H. Thomas, Joseph R. Rhoads, Esq., and Dr. John B. Roberts. For the music of the occasion we are indebted to the Boys' High School Band, who gratuitously gave their services.

Improvements for the comfort of the nurses have been made during the year. Appreciating the importance of undisturbed rest for the weary night-watchers new dormitories were constructed in the attics of the Maternity Building, where a retired place from the busy day-life can always be found.

A fumigating chamber has been arranged for the use of the nurses on their return to the Hospital from cases of contagious disease, where accommodation is provided for thorough disinfection, making our quarantine much more effective than it has been.

Necessary repairs have been made during the year, including the painting of the interior of the Maternity Building.

Several important additions have been made to the surgical appliances, including the renovation of the operating table in Clinic Hall.

By the kindness of interested friends, and through Mr. Howard, of Secane, Delaware County, Pa., we have received a gift of plate-glass, for the purpose of providing operating tables and treatment stands. A small pathological laboratory has been fitted up during the year, for the better accommodation of the pathologists upon our staff, by which their work is facilitated.

We are grateful to acknowledge the gift of $5,000, from John Baird, for the endowment of a free bed.

Our earnest thankfulness is due to the several Needlework Guilds for their very valuable gifts, which are itemized in the list of donations; also to the pupils of Miss Marshall's, the Grambo, Reynolds, Bache, Geo. G. Meade, E. Kent Kane and other schools of the neighborhood, for their various kindly offerings.

We received, on Donation Day, many acceptable gifts in the way of clothing, groceries, old muslin and linen, etc., and $1,087 in money, one thousand dollars of which was placed with the Building Fund.

Especial mention should be made of the kindness of the King's Daughters of the Broad and Oxford Streets Church, for their useful gift of window awnings. Many acceptable articles have been received from many friends, to whom we extend cordial thanks.

An urgent appeal was made in our last Annual Report for donations to the Building Fund, to enable us to proceed with the greatly needed construction of

a building with modern appliances for the greater comfort of the invalids. We again ask for that aid which will secure to us the amount necessary to meet the outlay, before we make the venture to commence building.

The Report of our Treasurer, R. C. Bunting, gives our financial condition.

Efficient service has been rendered to the Sabbath Meetings by many friends.

We cannot close this Report without reference to the unremitting labor for a score of years of Sarah Pennock, as a Manager of this institution. Her life-work ended in the early summer. She has left to us, who have been associated with her, the legacy of a beautiful example of "days well spent and duties well performed."

REPORT

OF THE

Training School for Nurses

At the close of the year 1891 the Nurse School was suffering from the effects of the epidemic of influenza, so that although we had the names of fifty-five pupils upon our roll, there were but fifty on active duty. The report for the year 1892, therefore, stands as follows:

In school January 1, 1892	55
Admitted during 1892	33
Total	88
In the School, January 1, 1893	51
Graduated in 1892	24
Not accepted	13
Total	88

Miss Amanda Leedom has continued to fill the position of superintending head-nurse; Miss Kate E. McClellan resigning her position as head-nurse in the Maternity wards in June, Miss Annie Nicholson was appointed to take her place. Miss Annetta C. Earnshaw's position as head-nurse of the Surgical wards, was filled at the close of her term of service by Miss Eliza Mercer. The annual course of lectures and class instruction have been carried on during the year. The topics embraced in my own course of instruction, given four evenings of each week, have been as follows:

1. SURGICAL NURSING.—Including minor injuries and accidents, fractures, dislocations, general surgical operations, and nursing in abdominal operations. A special series of lectures, with class instruction in bandaging was also given. These lectures have been illustrated, not only by the display of instruments, apparatus, etc., with which a nurse should be familiar, but by mock operations, in which special methods of management were illustrated.

2. MEDICAL NURSING.—This series included lectures in fever nursing, both general and special, including the subjects of contagion and infection, and the management of communicable disease. Other medical diseases were also considered in detail. Children's diseases were included under this head, as also

was the subject of dietary in disease. The latter course of lectures was supplemented by lectures and class instruction in cooking by Miss Janvier.

3. GYNÆCOLOGICAL NURSING.—Under this head the special management of gynæcological cases, both from a palliative and operative point of view, was taken up, and the "rest treatment" considered.

4. OBSTETRICAL NURSING.—These lectures demonstrated the most approved methods of management, according to the principles of antiseptic midwifery, as also for the proper care of infants in the earlier days of their existence.

MASSAGE AND ELECTRICITY have been thoroughly taken up by a series of lectures, with individual teaching by Miss Ward. This course has been provided for by the special donations of friends.

ADDITIONAL LECTURES on special subjects have been given the nurse pupils, through the courtesy of the Professors of the WOMAN'S MEDICAL COLLEGE. Thus the course of last spring included the following list of lectures:

Infant Feeding, by Dr. Anna E. Broomall.
Diseases of Infancy, by Dr. Anna E. Broomall.
Nursing of Fevers, by Dr. Frederick P. Henry.
Fracture Nursing, by Dr. John B. Roberts.
Nursing of the Nervous and Insane, by . Dr. Chas. K. Mills.
Disinfectants, by Dr. Henry Leffmann.
Nursing in Diseases of the Eye, by . . . Dr. Amy S. Barton.
Domestic Remedies, by Dr. Anna M. Fullerton.
Lectures in Anatomy, by Dr. Frieda E. Lippert.

It will be seen from this report that it is planned to give our nurses a very thorough course of instruction. Appreciative letters from our patrons indicate that the graduates of our school appear, as a rule, to be well qualified for their work.

There is a great need in this country of opportunities for special instruction to nurses desiring to prepare for the positions of superintendents or head-nurses in various institutions. To meet this want the Managers of this Hospital, at a recent meeting, ratified a proposition, that from among our recent graduates a limited number be retained in the school as a post-graduate class, whose work shall be arranged with especial reference to superintendence. This class is to be at first limited to four graduates, who shall be expected to act in rotation as supervising nurses of the different departments of work in the Hospital, under the head-nurse of each department. Special lectures and courses of instruction shall be provided for these nurses, and at the close of their term of service—the term being one year—a special certificate shall be awarded them. The nurses comprising this class shall receive the same allowance monthly that was accorded to them during their second year of service in the school. We would thus be enabled to meet more successfully the demand from various hospitals and training schools throughout the country for the services of a head-nurse.

The nurses graduated during 1892 from our school are as follows:

1 Irene Hopkins Virginia.
2 Alice Littlefield. Maine.

3 Emma H. Ludlam New Jersey.
4 Margaret Newcome Pennsylvania.
5 Laura J. Bird North Carolina.
6 Mary T. Bennett Pennsylvania.
7 Emma Cunningham "
8 Mattie Diller "
9 Emily W. Bacon "
10 Ida M. Heard "
11 Alice Artley "
12 Eliza Mercer New Hampshire.
13 Eliza F. Mitchell Canada.

DR. ANNA M. FULLERTON, M.D., *Superintendent of Nurse School.*

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women, who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, two months of which shall be probationary. They shall receive eight dollars in cash per month during the first year (excluding the two months of probationary service) and ten dollars per month for the second year. Fifty dollars of this amount shall be retanied until the term of service is completed. This sum is paid to enable the nurses to provide themselves with uniform, books, theremomters, and other articles needed for their work, and is not intended as a salary, the instruction given being regarded as a proper compensation for their services. A vacation of two weeks will be given during the two years. Nurses, who for any reason are obliged to ask an extension of this time, will be expected to make up DOUBLE the time of their additional absence to the Hospital in return for the inconvenience which is thus caused.

Candidates for graduation shall be examined in April and October yearly. Those entering the school in January shall be required to present themselves for examination in April following the expiration of their two years' term of service ; those entering in July at the October examination.

3. The Resident Physician shall have the right to suspend a nurse for care

lessness or misconduct, and the Physician, in conjunction with the Nurse Committee, has the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses of regulation uniform, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week, or as often as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order. Probationers shall bring with them two or three wash dresses plainly made, and several large white aprons. They will not be expected to wear their uniform until fully received into the school.

6. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest, unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P.M., and 5 A.M., and that all the gas is turned down low. She shall summon the head nurse of her ward if anything occurs that requires her presence.

7. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the head-nurse of her ward, who shall consult the House Physicians when necessary.

8. The head-nurse of each section shall accompany the Physician-in-Charge and Attending Physicians during their visits to the wards, and shall receive the directions for treatment, which are to be carried out by the nurses under her supervision. Order boards, directing the work in each ward, shall be prepared by her daily, and she shall carefully examine, both day and night, reports as they are handed in by the nurses. Special rules for the direction of their work will be provided for the nurses.

9. Nurses shall see that visitors do not give food of any kind to the patients.

10. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall, in no instance, be permitted to receive money from the patients.

11. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

12. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

The following rules regulate the supply of nurses to out-calls :

REGULATIONS.

The charge for the services of this nurse for a week is $10. If employed for massage in addition to other nursing, $15. For any part of the week it is $2, with massage, $3 per day.

Travelling expenses are to be paid by the family employing the nurse, and during her term of service her washing is to be done at the expense of the family.

At the expiration of her term of service the amount due the institution, to the date of her departure, must be placed in a sealed envelope, together with blank furnished employer. Upon the enclosed blank sheet it is requested that the employer shall note a candid statement (which will be regarded as strictly confidential) of the conduct and efficiency of the nurse. The remarks of the attending physician, as to her capability may also be noted, and will be especially valuable to the Training School. It is hoped that both employers and physicians will be frank in noting any shortcomings.

The nurse in attendance upon a case, is expected to receive only such visitors as wish to see her on important business ; to have from half an hour to an hour for out-door exercise daily, when the condition of the patient will admit ; to have sufficient time for sleep. A nurse cannot stay at one place over eight weeks.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Massage—the manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentation, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of Catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air, and medicated baths.
11. Attention before, during and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient, with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble? Give your height and chest measure.
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

Dr. A. M. FULLERTON,
Woman's Hospital, Philadelphia.

This Agreement, made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and , of the other part, witnesseth, that the said party of the second part hereto hereby covenants and agrees, faithfully, truly and diligently, to serve the said, THE WOMAN'S HOSPITAL, as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of the Woman's Hospital, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of said HOSPITAL.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL, doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by lectures from time to time by the Medical Director in charge and by other Physicians and Surgeons, by clinic or bedside instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry-work during the said term of two years. The first two months of said term shall be considered as probationary, without pay, but if the said party of the second part hereto shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto shall be retained by the said Hospital, after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging and laundry work as aforesaid, the sum of Eight Dollars per month in cash for the first year excluding the said two months of probationary service, and Ten Dollars per month for the second year. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years; which said sum shall be paid to the said party of the second part hereto whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited; and the said Hospital shall be exonerated, released and discharged from the payment of the whole or of any part thereof. At the termina-

tion of the said two years of service under instruction as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED] E. C. GRIFFITH,
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the Hospital, to which physicians and others desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. J. B. Roberts and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service.* Of these a list of the *recommended nurses* is kept at the Hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the Nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, Darby, Delaware County, Pa., Mrs Pauline E. Henry, 2301 De Lancey Place, Dr. Anna M. Fullerton, Physician-in-Charge, or any of the Managers.

REPORT OF PHYSICIAN-IN-CHARGE.

Number of patients in Hospital January 1, 1892	72
Number of patients admitted during 1892	752
Total number treated in wards during 1892	824
Total number treated in wards during 1891	729
Number of persons treated in morning clinics	6,102
Number of persons treated in morning clinics in 1891	6,321
Number of visits to morning clinics	22,953
Number of visits to morning clinics in 1891	28,668
Number of visits monthly to clinics	1,913
Number of new cases visited at their homes	872
Number of visits to patients at their homes	4,844
Number of stray patients (out of regular hours)	392
Number of visits of stray patients	1,032
Number of house prescriptions	11,017
Number of clinic prescriptions	17,601
Number of out-practice prescriptions	2,687
Number of district prescriptions	57
Number of prescriptions for strays	289
Number of births in Hospital	158
Number of births in out-practice	57
Number of operations in house	397
Number of operations in clinics	116
Total number of operations	525

Total	824

It may be seen by the statistics just given that about one hundred more patients have been treated in the Hospital during the past year than in the one preceding it ; the total number being 824. The number of out-patients has also greatly increased.

The fact that this work has been accomplished without any material addition to our accommodations proves that the energies, both of the medical and nursing staff, have been taxed to the utmost. The difficulties attendant upon the care of cases such as we receive here, cannot properly be estimated by any one who is unfamiliar with the inadequacy of our surroundings. In former reports I have spoken sanguinely of our work, and said little or nothing of our trials, hoping that we might soon be delivered from them ; to-day I lift the curtain for a peep behind the scenes, which may appeal more strongly to generous-hearted friends who need but to *see* to be prompted to *do* that which will advance any good work.

Among our special stumbling-blocks may be mentioned : (1) The insufficient water-supply to our buildings, amounting in the summer to an absolute famine, because of our main water-pipe being of too small size to provide us with the needed quantity of water. Whenever the river is low we are obliged, for several days in succession, to have all the water carried to the third floor, that may be required for use there.

(2) In this connection I would speak of the poverty of our buildings in the needed bath-rooms and water-closets. Upon one floor, where twenty-two persons are accommodated, as well as the nurses who may be on duty, there is but one small water-closet and one bath-tub. There is no separate lavatory for cleansing utensils, and all the hot water used must be obtained by heating water in a kettle over a gas-stove. During the use of the spigots on a lower floor, no water can be obtained on the upper floors, which greatly hinders satisfactory work.

(3) Another difficulty with which we have to contend, is found in our antiquated means for the transportation of helpless patients. The only elevator in our Surgical Building is one worked by hand, and, though secure from any possibility of accident, its crude construction causes it to fail us at the most critical times, necessitating the carrying of patients up and down stairs by the nursing staff.

(4) The absence of a receiving-ward and an isolating apartment constitute another great lack. Here, as in all hospitals, obscure cases are sometimes admitted which shortly afterward develop into some form of contagious disease ; and, as it is impossible to arrange for their removal at once, we are greatly taxed to provide for their proper quarantine.

(5) Another great need is a Children's Ward, where we can receive such cases as present themselves at the morning and noon clinics and require to be kept in the house for the carrying out of the proper after-treatment.

(6) The lack of a sufficient number of treatment-rooms, clinic-rooms, apartments for treatment by physical exercise and massage, causes much difficulty by limiting the number of workers for whom it is possible to arrange.

(7) With our increasing number of capital operations, we greatly miss a special operating-room, provided with all the necessary facilities for critical work in abdominal surgery.

(8) Much annoyance, and, even at times, danger to our patients, arises from our extremely noisy and illy-paved street. Realizing this, I visited during the past summer, Director Windrim and several members of Councils, hoping arrangements might be made for an asphalt pavement surrounding the Hospital. This effort seems, so far, to have been of little avail, although the promise of assistance was heartily accorded.

(9) Notwithstanding the efforts that have been made to add to the accommodations for nurses, we still find much remains to be done. The dormitories in the Maternity Building cannot be heated. Those in the main building not only cannot be heated, but in stormy weather, during winter, are rendered uninhabitable, because of leakage from the roof, while in summer the intense heat prevents their use.

(10) Still another need exists in the absence of separate reception rooms for physicians, nurses and patients, where, during leisure hours, a little time may be spent with their friends in pleasant recreation.

(11) A greatly cramped dining-hall necessitates half the nurses waiting at each meal for the second table.

But, perhaps, enough has been said to show that we are not so fully equipped for our work as we should be. Surely, if with our present means we are enabled to slay the Goliath of human misery presenting itself at our doors, it is with the pebble and the sling rather than the true implements of war.

In closing, I desire to speak briefly of the fruits of our labor in the face of all these odds. Our lists show that of the 824 patients treated 476, or about 57 per cent., were free patients, while many others were received at reduced rates. 525 operations were performed, 60 of these being abdominal sections, some of them of the most critical character. Several serious operations in general surgery have been successfully performed and a large number of gynæcological operations. In our Maternity wards 156 patients have been cared for, and some extremely critical operations have been performed, among these was one case of symphysiotomy and a Porro-Cæsarian operation. A number of serious puerperal conditions have been received into the house and successfully treated.

Since the harder the battle the more glorious the victory, we have much to congratulate ourselves upon in our showing. Our thanks are due to the working-staff of the Hospital for much earnest and self-sacrificing effort, and to our many friends and contributors, whose substantial aid has rendered the year's work possible. Growth necessarily means increasing wants, larger expenditures, and greater responsibilities for those who control an institution, hence our difficulties are, after all, resolved into "growing pains."

ABDOMINAL SECTIONS.

NO.	CIVIL STATE AND DATE OF OPERATION.	AGE.	DISEASE.	OPERATION.
1	Married. Op., Jan. 16, 1892.	27 yrs.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
2	Married. Op., Jan. 19, 1892.	36 yrs.	Perityphlitis.	Exploratory section. No connection of abscess with abdominal cavity. Treated afterward by external incision and drainage.
3	Single. Op , Jan. 22, 1892.	27 yrs.	Double hæmatoma of ovaries. Entire destruction of ovarian stroma.	Bilateral removal of appendages.

REPORT

OF THE

DISPENSARY SERVICE.

MORNING CLINICS.

Doors open for admission of patients from 8 to 9.30 daily except on Sunday.

Children's Clinics,
Gynæcological Clinics,
Medical Clinics.
Skin and Surgical Clinics,
Electrical Clinics,
Ear, Throat and Nose Clinics, } *Daily.*

Eye Clinics on Mondays, Wednesdays and Fridays.
Dental Clinics on Tuesdays and Saturdays.

NOON CLINICS.

These are held from 12.30 to 1.30 P.M. during the winter and spring term of the Woman's Medical College, beginning in October and ending in May.

Medical	Clinic,	Tuesdays, by Prof. Frederick P. Henry.

We have examined the above accounts, compared them with the vouchers, and found them correct:

CATHARINE H. EARLE.
ANNA L. FOGG.

ENDOWED BEDS.

"The two Crozer Beds" were endowed by gifts in 1869 and 1873, of $6,000, by Mrs. John P. Crozer.

"One Crozer Bed" in November, 1882, by legacy of $3,000, bequeathed by Mrs. John P. Crozer.

"The Anna Justice Steel Bed" was endowed in 1873, by a gift of $5,000 from Edward T. Steel.

"The Mary D. Brown Bed" was endowed in 1875, by a legacy of $8,000, bequeathed by Mary T. Brown.

"The Huldah Justice Bed" was endowed in March, 1889, by a gift of $5,000 from William W. Justice.

The Williamson Ward of seven beds and one bed in the Children's Ward were endowed by legacy from Isaiah V. Williamson of $40,000 (less collateral inheritance tax), received January, 1890.

"The Jacob P. Jones Memorial Bed" was endowed in June, 1891, by a gift of $5,000 from Mrs. Jacob P. Jones.

"The John Baird Bed" was endowed December, 1892, by a gift of $5,000 from John Baird.

FACULTY AND AUXILIARY INSTRUCTORS.

CLARA MARSHALL, M.D.,
Professor of Materia Medica and General Therapeutics.

FRANCES EMILY WHITE, M.D.,
Professor of Physiology and Hygiene.

ANNA E. BROMALL, M.D.,
Professor of Obstetrics.

HANNAH T. CROASDALE, M.D.,
Professor of Diseases of Women and Children.

WILLIAM H. PARISH, M.D.,
Professor of Anatomy.

HENRY LEFFMANN, M.D.,
Professor of Chemistry and Toxicology.

JOHN B. ROBERTS, M.D.,
Professor of Principles and Practice of Surgery.

FREDERICK P. HENRY, M.D.,
Professor of the Principles and Practice of Medicine.

AMY S. BARTON, M.D.,
Clinical Professor of Ophthalmology.

CHARLES K. MILLS, M.D.,
Clinical Professor of Nervous Diseases.

HENRY W. STELWAGON, M.D.,
Clinical Professor of Dermatology.

CHARLES H. BURNETT, M.D.,
Clinical Professor of Otology.

H. AUGUSTUS WILSON, M.D.,
Clinical Professor of Orthopædic Surgery.

EMMA E. MUSSON, M.D.,
Clinical Professor of Laryngology and Rhinology.

LAWRENCE WOLFF, M.D.,
Clinical Professor of Medicine.

EDWARD P. DAVIS, M.D.,
Clinical Professor of Diseases of Children.

JOSEPH P. REMINGTON, PH.M.,
Pharmacy.

MARY SHERWOOD, M.D.,
Lecturer on Pathology.

Lecturer on Medical Jurisprudence.

ELIZABETH R. BUNDY, M.D.,
Demonstrator of Anatomy.

ELEANOR M. HIESTAND-MOORE, M.D.,
Demonstrator of Chemistry.

HARRIET E. LOTHROP, M.D.,
Demonstrator of Histology.

ELEANOR C. JONES, M.D.,
Demonstrator of Practice of Medicine.

CAROLINE M. PURNELL, M.D.,
Demonstrator of Gynæcology.

ARTHUR A. STEVENS, M.D.,
Demonstrator of Pathology.

LUCY N. TAPPAN, M.D.,
Demonstrator of Obstetrics.

KATE W. BALDWIN, M.D.,
Demonstrator of Surgery.

ELIZABETH L. PECK, M.D.,
Instructor in Materia Medica and Therapeutics.

MARY W. GRISCOM, M.D.,
Assistant Demonstrator of Obstetrics.

RUTH W. LATHROP, M.D.,
MARIE L. BAUER, M.D.,
Assistant Demonstrators of Anatomy.

MARY GETTY, M.D.,
R. ANNA BREED, M.D.,
Assistant Demonstrators of Pathology.

FLORENCE MAYO, M.D.,
EMMA L. BILLSTEIN,
Assistant Demonstrators of Histology.

ANNE WALTER,
Prosector and Curator of the Museum.

CLARA MARSHALL, M.D., Dean,
131 South Eighteenth Street.

THE

Woman's Hospital of Philadelphia.

THIS institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access to all parts of the city.

Its Dispensary Department is open daily, from 8 to 9.30 A.M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from six to twenty dollars per week.

Visiting hours, daily, from 3 to 4 P.M., except Sunday.

THIRTY-THIRD ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

WOMAN'S HOSPITAL

OF PHILADELPHIA.

JANUARY, 1894.

North College Avenue and Twenty-Second Street,

North of Girard College.

Form of Bequest.

I give, devise, and bequeath to the WOMAN'S HOSPITAL OF PHILADELPHIA, North College Avenue and Twenty-second Street, ... Dollars for use of the Corporation.

Form of Devise of Real Estate.

I give, devise, and bequeath to the WOMAN'S HOSPITAL OF PHILADELPHIA, in fee simple, for the use of the Corporation (here describe the Real Estate accurately), with full power to sell, mortgage, and convey the same free of all trusts.

Endowment.

A bed may be endowed in perpetuity by the gift of Five Thousand dollars; or the Managers will accept Three Thousand dollars as an endowment during donor's life.

THIRTY-THIRD ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia.

It is again the privilege of the Managers of "The Woman's Hospital of Philadelphia," to report the busy and successful work of another year.

The Hospital has received and treated 909 patients. Many of the cases have been remarkably interesting, requiring operations of a most serious character, which have been successfully performed by the surgical staff of the Hospital.

The patients have come (as our records show) from all parts of our own and other States, and by far the greater number have been those to whom the Hospital service has been gratuitously rendered.

The rooms devoted to the use of private patients have also been occupied, but the crowded condition of the wards has many times urged upon us the great necessity of extending the accommodation of the Hospital. It is the intention of the Managers to erect in the near future a building, plain and substantial, with all the approved modern conveniences in keeping with the best known sanatory laws. We have a fund set apart for this purpose, which has been supplemented by an appropriation from the State; but it is well-known that a well-equipped Hospital cannot be built without ample means. We, therefore, again earnestly appeal to those who have aided us in the past, as well as to all who hold "the healing of the sick" to be one of the injunctions that Jesus gave to his disciples, as practical now as when he walked among men.

Some alleviation from the crowded condition of the wards has been derived by the removal of the Children's Ward to the new quarters prepared for it, by the conversion of two of the Henrietta street houses, by alteration and addition, into a children's ward, in which there are two general wards, an isolating room, a diet kitchen, an office, a sitting-room, and two small bath rooms, affording accommodation for twenty-two children. In the removal of the children to a separate building the opportunity for the management and study of diseases peculiar to children has been greatly facilitated. The building was ready for occupancy the first of October, and has been constantly full. A large number of serious medical and surgical cases have been very successfully treated in this department. The cost of this improvement, $1084.23, was met (except a small deficit) by the proceeds realized from a Lawn Fête held June 29th, 1893, at Secane, Delaware Co., Penna.

For this acceptable gift we are indebted to the physicians connected with the Hospital, foremost among whom was Dr. Audenried, at whose home the delightful entertainment was held, consisting of a series of beautiful tableaux, and a very excellent supper provided by the ladies of Secane and Media, who also acted as patronesses of the occasion. Because of the small indebtedness remaining on the children's building, it was decided to hold a fair in the autumn. The thought originated with Mary Evans Price, who proposed the holding of a parlor fair. Other friends coming forward with offers of assistance it was found a private parlor would not answer the purpose. It was then decided that Clinic Hall might be used, and the transformation of the treatment and reception rooms by deft hands, into sales and supper rooms, and the auditorium into a flower garden, with potted plants and cut flowers, was something remarkable.

The supper rooms were fitted up with small, attractive-looking tables, where the talent of the nurses was called into activity, in gracefully serving the guests with the food prepared for them by Miss Janvier, the matron of the Hospital.

The Managers are exceedingly grateful to all who aided in making the fair such a great success, and feel especial mention is due to the Doctors, Clinicians, Internes, and the students of the Woman's Medical College of Pennsylvania, as well as to Mrs. Mary Evans Price, Dr. Hayhurst, Dr. Audenried, Mrs. Howard, Mrs. Delaney, Mrs. Downing, Mrs. Breed, Mrs. Phraener, Mrs. Hawley, and the West Philadelphia branch of King's Daughters, for their very efficient and energetic assistance. In addition to the actual proceeds of the sales there were many valuable

contributions of money, both in large and small sums, which brought the total amount realized to $1504.80, providing a very substantial nucleus for the work of the Children's Ward.

A library of juvenile books especially suited to the use of children has been furnished through the kindness of the students of the Woman's Medical College of Penna.

It is hoped at some future time a roofed play-ground can be provided for the convalescing children, where their returned activity can be safely indulged without risk from exposure to the outside air. We kindly recognize the thoughtfulness of Miss Hawthorne, one of our graduated nurses, in securing through her own effort two hundred dollars for the Hospital, as well as Miss Fannie S. Woodcock, another nurse, who collected one hundred and three dollars.

We have thankfully received the legacy of $250 from Sarah F. Cowden of Columbia, Penna., who was at one time a patient in the Hospital.

From Harriet Blanchard, one thousand dollars has been gratefully received.

Through the generosity of Mrs. Mary T. Jones we have received four thousand dollars, which was placed with the Building Fund, to which the money received on Donation Day was also added.

We are indebted to Joseph Jeanes for the gift of five hundred dollars to defray the expense of painting Clinic Hall. Other necessary repairs have been made, including the painting of the Nurses' Dormitory. A crematory, the gift of a manager, has been built for the disposal of all waste material, and is a valuable addition to the Hospital. The repaving of North College Avenue has contributed to the comfort of the patients, by reducing the noise from the street. We feel we are largely indebted for this improvement to the influence of Judge Fell and John Baird, for the faithful representation of our annoyance to the City Authorities.

The short supply of water continues to be a source of great inconvenience. Although effort has been made to have this difficulty overcome, it is yet without satisfactory results.

We have received the grateful appreciation of the friends of some of the patients for their recovery by offerings that have been valuable to the Hospital. The holidays have been observed through the year by the generous remembrance of the friends of the Institution in sending gifts appropriate to the occasions. Donations for Easter and Thanksgiving, in the way of eggs, sugar, oranges, lemons, canned goods, etc., came from the Elisha Kent Kane, Bache, William D. Kelly, Reynolds, and Meade

Schools. At Christmas two trees were beautifully trimmed, one for the children, the other for the adult patients, making glad the hearts of those who were happily remembered by the gifts of toys, candies, books, and other reading matter from kind friends.

We are greatly indebted to the Coatesville, Philadelphia, Beverley, and Wayne branches of the Needle Work Guild of America, the Organized Charity of the Seventh Ward, the King's Daughters of the Second Presbyterian Church of Germantown, as well as other sewing Guilds and private individuals for the valuable gifts of clothing suited to the need of the Institution.

Our thanks are due to those who have manifested a spirit of earnestness in the care of the Sabbath meetings. The interest of the crippled children in the singing, who have been carried into the services, has been quite touching on many occasions.

The Hospital was creditably represented in the World's Columbian Exposition in the Organization Department of the Woman's Building by a series of photographic views.

The work of the Hospital increases each year, but special demands have been made upon our charity the present season, owing to the financial depression of the times. Through the instrumentality of the Children's Aid and Woman's Directory, homes have been provided for convalesced patients, for which we feel grateful.

The Nurse Training School continues in a flourishing condition. Twenty-two nurses graduated at the last commencement, held in Clinic Hall the 13th of December. An attractive programme was prepared, including appropriate addresses and practical illustrations by the class.

We cannot close this report without acknowledging our sincere gratitude to all who have assisted in the success of the year's work, whether it has been in gifts, time, labor, or money.

TREASURER'S REPORT.

R. C. BUNTING, in account with THE WOMAN'S HOSPITAL from January 1st, 1893, to January 1st. 1894.

ANNA L. FOGG.

ENDOWED BEDS.

"The two Crozer Beds" were endowed by gifts in 1869 and 1873, of $6,000, by Mrs. John P. Crozer.

"One Crozer Bed" in November, 1882, by legacy of $3,000, bequeathed by Mrs. John P. Crozer.

"The Anna Justice Steel Bed" was endowed in 1873, by a gift of $5,000 from Edward T. Steel.

"The Mary D. Brown Bed" was endowed in 1875, by a legacy of $8,000, bequeathed by Mary T. Brown.

"The Huldah Justice Bed" was endowed in March, 1889, by a gift of $5,000 from William W. Justice.

The Williamson Ward of seven beds and one bed in the Children's Ward were endowed by legacy from Isaiah V. Williamson of $40,000 (less collateral inheritance tax), received January, 1890.

"The Jacob P. Jones Memorial Bed" was endowed in June, 1891, by a gift of $5,000 from Mrs. Jacob P. Jones.

"The John Baird Bed" was endowed December, 1892, by a gift of $5,000 from John Baird.

Puck magazines, Keppler and Schwarzmann, N. Y. Counterpane, old muslin, and infants' clothing, Mrs. McCollin. 2 scrapbooks,

a stuffed cat, Mrs. I. C. Price. China cups and saucers, Miss Hearn. 1 box of soap, Stephen Morris and Son. 3 boiled hams, 2 tongues, 2 cakes, 5 boxes of mustard, bottle of salad dressing, Dr. A. Audenried. 1 case of samp, Mitchell and Fletcher. 2 breast pumps, 2 glass tubes, and shields, Mrs. Caldwell. Haircloth sofa, Mrs. Halloway. Mrs. Jane P. Downing, tablecloth, flannel wrapper, underclothing, shoes and clothing for children's ward. 2 baskets of apples, Mrs. Downing, Media. 60 quarts of chow-chow, 30 quarts of currant jelly, 2 crates of grapes, 2 baskets of peas, 1 basket each of pears, peppers, egg plants, green tomatoes, Mrs. Earle. 1 crate of grapes, 1 barrel of sweet potatoes, 1 barrel of apples, J. G. Kenner, Somerville, N. J. Oatmeal and corn starch, Miss Hearne. 4 wrappers, 1 night dress, Rebecca White. 14 palm-leaf fans, Mrs. Anna J. Bliss. 17 garments for surgical ward, through Mrs. Jane D. Harrar. Clothing, Miss Lockwood, 13 pairs of drawers, 8 slips, 3 flannel skirts, 4 waists, Alice and Ida Stillmann. 34 new garments, Beverley Branch of Needlework, Guild of America, through A. B. Purcell. Large rolling chair and sterilizer, Partridge and Richardson. 2 cases of home-made wine, Miss Huston, Coatesville. Brussels carpet, Mrs. J. P. Downing. Carpet-balls, Hetty Bierley and Louisa Grover. 14 slips, Diligent Circle, King's Daughters through Dr. Audenried. 4 night-dresses, 4 sheets, 1 baby blanket, Mrs. Slack, Bristol. From the Haverford Needlework Guild, 63 garments. Reynold's school donation to children's ward, avena, sugar, tea, corn-starch, barley, jelly, coffee, flour, crackers, oranges, rice, lemons, potatoes. 40 quarts of ice cream, 15 pounds of cake, Mrs. Benjamin Griffith. 8 chickens, 4 quarts of quinces, 1 quart of peaches, 1 quart of pears, 1 quart of apple jelly, Mrs. Leary. 1 box of oranges, 3 baskets of grapes, Mrs. Wolf. 22 quarts of cranberries, 5 dozen of oranges, Miss Laing. 2 large turkeys, Mr. Bradley. From the Coatesville Branch of the Needlework Guild, through Dr. Ida V. Riel, 15 garments. 2 wrappers, 4 infants' sacques, Mrs. Jane P. Downing. 5 children's dresses and large lot of old muslin, Mrs. Bunting. From L. B. Eldridge, invalids' wheeled-chair, muslin, and bottles. 1 sterilizer, Mrs. G. B. Smith. Mrs. Newtown, 1 overcoat and underwear. Mrs. Wolf, 1 box of oranges. Mr. Davis, 30 pounds of chickens. 2 turkeys, Mrs. Edward Lewis. 1 box of oranges, Mrs. Daniel Lees. Lot of scrap-books, Mrs. Burpee. Large box of books, toys, games, and gifts, Miss Gifford, Roxborough. Scrap and picture books, Miss Wahn's Sunday School Class, Second Presbyterian Church, Germantown. Toys and books, Mrs. George Hutton. Scrap-books, Earnest Workers. Refrigerator for children's ward, Mrs. Anna Y. Mohr. Gas fixtures for children's ward, Mrs. Stephen Harris. Library of juvenile books for children's ward, Students of Woman's Medical College. Books, Miss Anna Jeanes, for children's ward. Operating table, Mrs. George H. Earle, Jr. Gas stove for operating-room, Miss Amanda Leedom. Pictures for children's ward, Friends. Valuable ophthalmological instruments, Webster, Fox and Company.

DONATIONS TO DISPENSARY.

Powers and Weightman, drugs. Robert Shoemaker and Company, drugs. Philadelphia College of Pharmacy, drug preparations. Woman's Medical College, drug preparations. W. Proctor, Jr., Company, pepsin. H. Troemner, weights and yearly repair of scales. J. M. Maris and Company, case of bottles and sundries. Whitall, Tatum and Company, bottles. Prescription bottles, many friends. Linton and Fowler, varnishing floor of drug room of Dispensary of Woman's Hospital.

REPORT

OF THE

Training School for Nurses.

The work of our Training School for the year 1893 has been most gratifying in its results. The earnest spirit manifested by our nurse pupils, and their diligent application to duty, has left little to be desired in the way of material for making a most useful class of workers. It is to be regretted that the time allotted to training must be limited to but two years, for the science of nursing is of so wide a scope that the woman who desires to fit herself to enter the highest rank in the profession must feel, when she obtains her diploma, at the termination of her two years' course, that she is still but at the threshold of knowledge, and that she may have to gain, through many painful experiences, the wisdom which will make her the power for good which she would be in the sick-room.

With a view to enlarging the opportunities of our school for the ambitious few who desire to prolong their term of experience, and thus to fit themselves for positions of trust in other institutions, the managers of our Hospital have arranged for a third year course, in which the work is planned with especial reference to superintendence. The members of this class are expected to gain their experience by acting as supervising nurses of the different departments of work in the Hospital. They receive the same monthly allowance as that accorded to them during their second year of service, and at the termination of their third year are entitled to a special certificate, which shall be given them for the work, if satisfactorily accomplished.

The statistics of the school for the year 1893 stand as follows:—

In school, January 1, 1893,	51
Admitted during 1893,	40
Total,	91
In school, January 1, 1894,	52
Graduated in 1893,	22
Left on account of ill-health,	2
Discharged,	4
Probationers not accepted,	11
Total,	91

Miss Amanda Leedom has continued to occupy the position of Superintending Head Nurse, and Miss Annie Nicholson that of Head Nurse in the Maternity. For the supervision of other responsible work in the Hospital we have depended upon the efficient help of advanced pupils still in the school.

Lectures and class instruction have been combined with individual ward instruction, as heretofore, in the education of our pupils during the year.

The lessons given four times weekly have comprised the details of medical, surgical, gynecological, and obstetrical nursing.

Special lessons in electricity and its application have been given by Dr. Anna B. Hall and Dr. Caroline Peterson, and especial lessons in massage by Dr. Peterson and Miss Jessie M. Ward.

Lectures on cooking for the sick, with especial instruction in the practical part of the work, and demonstrations in our Diet Kitchen were provided by the matron, Miss Janvier.

Additional lectures to the pupil-nurses, to which the public were invited, were given by the following physicians, who kindly supplemented, as they have done each year, our usual course of instruction :—

"The Nursing of Sick Children," by Dr. J. P. Crozer Griffith.
"Important Points in Obstetric Nursing," by Dr. Anna E. Broomall.
"The Nursing of Fractures," by Dr. John B. Roberts.
"Nursing of the Nervous and Insane," by Dr. Charles K. Mills.
"Fever Nursing," by Dr. Frederick P. Henry.
"Nursing in Diseases of the Skin," by Dr. H. W. Stellwagon.
"Disinfectants," by Dr. Henry Leffmann.
"Nursing in Diseases of the Eye," by Dr. Amy Barton.
"Medicines and their Administration," by Dr. A. M. Fullerton.

These lectures were held in Clinic Hall on successive Monday evenings during the spring months of the year, and were attended by large and appreciative audiences.

During their second-year work our pupils were sent to supply over three hundred calls from out cases, which represented every variety of disease.

On the 13th of December the graduation exercises of the class of '93 were held in Clinic Hall.

Interesting addresses were made by the Rev. H. C. McCook, D.D., and Mrs. Summerfield E. Snively. The benediction in closing was pronounced by the Rev. Summerfield E. Snively. Recitations were given by pupils of the school on the various subjects of nurse-work, and were appropriately illustrated.

The number of graduates was twenty-two, whose names are herewith appended :—

Margaretta Hammel,	New Jersey.
Alice M. Welty,	Pennsylvania.
Minnie B. Humphreville,	"
Kate G. Summerill,	New Jersey.

Fanny Sedam,	Pennsylvania.
Elizabeth Owens,	"
Minerva McFarland,	"
Lizzie Ridinger,	"
Rachel Nicholson,	"
Martha Harris,	New Jersey.
Ella Grimm,	Ohio.
Estelle Devoll,	"
Jean W. Strawhorn,	Pennsylvania.
Sarah Conklin,	"
Carrie B. Gautier,	New Jersey.
Elizabeth T. Haines,	"
Mary L. Warren,	Ohio.
Maggie R. Downs,	Pennsylvania.
Jennie J. Morgan,	"
Rebecca Church,	"
Anna G. Davis,	"
Anna M. Adams,	"

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women, who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, two months of which shall be probationary. They shall receive eight dollars in cash per month during the first year (excluding the two months of probationary service) and ten dollars per month for the second year. Fifty dollars of this amount shall be retained until the term of service is completed. This sum is paid to enable the nurses to provide themselves with uniform, books, thermometers, and other articles needed for their work, and is not intended as a salary, the instructions given being regarded as a proper compensation for their services. A vacation of two weeks will be given during the two years. Nurses, who for any reason are obliged to ask an extension of this time, will be expected to make up DOUBLE the time of their additional absence to the Hospital in return for the inconvenience which is thus caused.

Candidates for graduation shall be examined in April and October yearly. Those entering the school in January shall be required to present themselves for examination in April following the expiration of their two years' term of service; those entering in July at the October examination.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the Nurse Com-

mittee, has the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses of regulation uniform, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week, or as often as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order. Probationers shall bring with them two or three wash dresses plainly made, and several large white aprons. They will not be expected to wear their uniforms until fully received into the school.

6. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest, unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P.M. and 5 A.M., and that all the gas is turned down low. She shall summon the head nurse of her ward if anything occurs that requires her presence.

7. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the head-nurse of her ward, who shall consult the House Physicians when necessary.

8. The head-nurse of each section shall accompany the Physician-in-Charge and Attending Physicians during their visits to the wards, and shall receive the directions for treatment, which are to be carried out by the nurses under her supervision. Order boards, directing the work in each ward, shall be prepared by her daily, and she shall carefully examine both day and night reports as they are handed in by the nurses. Special rules for the direction of their work will be provided for the nurses.

9. Nurses shall see that visitors do not give food of any kind to the patients.

10. Nurses are expected to be present at the lectures, unless detailed for special duty at that time. Nurses shall, in no instance, be permitted to receive money from the patients.

11. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

12. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

The following rules regulate the supply of nurses to out-calls:—

REGULATIONS.

The charge for the services of this nurse for a week is $12. If employed for massage in addition to other nursing, $15. For any part of the week it is $2, with massage, $3 per day.

Travelling expenses are to be paid by the family employing the nurse, and during her term of service her washing is to be done at the expense of the family.

At the expiration of her term of service the amount due the institution, to the date of her departure, must be placed in a sealed envelope, together with blank furnished employer. Upon the enclosed blank sheet it is requested that the employer shall note a candid statement (which will be regarded as strictly confidential) of the conduct and efficiency of the nurse. The remarks of the attending physician, as to her capability may also be noted, and will be especially valuable to the Training School. It is hoped that both employers and physicians will be frank in noting any shortcomings.

The nurse in attendance upon a case, is expected to receive only such visitors as wish to see her on important business; to have from half an hour to an hour for out-door exercise daily, when the condition of the patient will admit; to have sufficient time for sleep. A nurse cannot stay at one place over eight weeks.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed sores, and arranging positions.
4. Massage—the manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentation, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air and medicated baths.
11. Attention before, during and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies? Have you had any womb trouble? Give your height and chest measure.
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade of school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

Dr. A. M. FULLERTON,
Woman's Hospital, Philadelphia.

THIS AGREEMENT, made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and , of the other part, witnesseth, that the said party of the second part hereto hereby covenants and agrees, faithfully, truly and diligently, to serve the said, THE WOMAN'S HOSPITAL, as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of the Woman's Hospital, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of the said HOSPITAL.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL, doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by lectures from time to time by the Medical Director in charge and by other Physicians and Surgeons, by clinic or bedside instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry-work during the said term of two years. The first two months of said term shall be considered as probationary, without pay, but if the said party of the second part hereto shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto shall be retained by the said Hospital, after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging and laundry work as aforesaid, the sum of Eight Dollars per month in cash for the first year excluding the said two months of probationary service, and Ten Dollars per month for the second year. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years; which said sum shall be paid to the said party of the second part hereto whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited; and the said Hospital shall be exonerated, released and discharged from the payment of the whole or any

part thereof. At the termination of the said two years of service under instruction as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required timeunder instruction as a nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED]. E. C. GRIFFITH.
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the Hospital, to which physicians and others desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. J. B. Roberts and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service*. Of these a list of the *recommended nurses* is kept at the hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, Darby, Delaware County, Pa., Mrs. Pauline E. Henry, 2301 De Lancy Place, Dr. Anna M. Fullerton, Physician-in-Charge, or any of the Managers.

REPORT OF PHYSICIAN-IN-CHARGE.

Henry Drummond has strikingly said, "All the work of the world is merely a taking advantage of energies already there." The established success of the Woman's Hospital of Philadelphia and similar institutions

in which women of earnest purpose and philanthropic feeling labor in the service of humanity, proves that the senses, perceptions, feelings, reasoning powers and adaptation to work of women supply a sum of energies, which constitute a power for the accomplishment of much good. Professor Huxley's immortal definition, "Science is but trained and organized common sense," admits to the world's work-shops all who wish to aid in the world's work.

In the combination of forces essential to the successful carrying on of the varied enterprises represented by an institution, harmony can alone result from the admirable adaptation of many activities to the development of one great work. The motto, "*Non nobis solum*,"—"not for ourselves alone,"—must actuate all those who bear the responsibilities and share in the work of such an institution. Could we sufficiently realize the importance of our *individual* efforts, would we not all as managers, medical officers, and employees, display a "passion and a seriousness" in the pursuit of our purpose, which would give a fresh impetus to our work and lead to results which should far exceed all past achievements?

That there is a special need for the work of our Hospital is fully demonstrated by its yearly increasing statistics. Thus, during the past year, 909 patients were treated in its wards, 10,371 received treatment at the various clinics, and 1104 were treated at their homes. 251 maternity cases were cared for by the Institution, and 677 operations were performed. Among these operations were 48 abdominal sections. Many of them for most serious and complicated conditions. In the Maternity, a Cesarean Operation, a Porro-Cesarean Operation, and a symphyseotomy were performed, among many other operations.

The establishment of the new Children's Ward is deserving of special notice in this connection, and we have cause for much gratitude in the remembrance of the generous response of our friends to its needs. These wards which were prepared by the remodeling of two small dwellings on Henrietta street have supplied very comfortable quarters for the increasing number of children seeking admission to our Hospital. During the past year, 116 children have been received for treatment in the house, while 702 have been treated in the clinic. We should much like to mention by name the many friends who by their labors and by their gifts, great and small, gave such substantial aid in this enterprise, but the attempt would require more time and space than can be allotted to it, and we, therefore, take this opportunity of making a public acknowledgment of the valuable aid rendered by all.

A careful examination of our tabulated lists will illustrate more fully

the character of the work which has fallen into our hands during the past year, the accomplishment of which, notwithstanding many difficulties, has been rendered possible by the concerted action and determined effort of all interested in the work. There is probably no institution of its size in Philadelphia, that is making a braver effort to bear the many burdens laid upon it, than is the Woman's Hospital of Philadelphia. In the establishment and inculcation of the principle that women are capable of exercising "trained and organized common sense," in ministering to the body, this institution does work that is unique in the community; and, in the clinical instruction which it affords the students of the Woman's Medical College, it is sowing seeds of influence which are to be spread broad-cast over many lands. The training of nurses, also, who shall be competent to enter upon the service of humanity in the paths of pain, is another most important branch of its work, which adds not a little to its labors and expenses; while the Dispensary and out-practice service, for the supply of medical aid to the very poor, opens up a circle of influence and blessing in which more ample means would enable a much more thorough work to be accomplished. Those knowing our Institution can readily appreciate the fact which this summary of our work is intended to present; viz.: that our income and facilities are entirely insufficient for the demands made upon us—especially in this period of great financial depression, when the many women and children who constitute the indispensable background of the world's achievements, must suffer from countless sacrifices, which serve to sap them of health and strength. The needs of women as physicians, women as nurses, and women and children as patients, are thus laid before our friends. The cause of the defenceless, the cause of the weak and oppressed, the cause of suffering, whether it be mental, moral, or physical, must ever stir into action that which is best and noblest in humanity. To those who seek such an outlet for their energies we have only the invitation, "Come and see."

STATEMENT OF CASES

FOR THE YEAR ENDING DECEMBER 31, 1893.

Names of Cases.	Cured.	Improved.	Not Improved.	Not Treated.	Died.	Total.
Gynecological.						
Uterine Fibro-myoma,	5	2			3	10
Fibroid Polyp (uterine),	9					9
Placental Polyp,	1					1
Carcinoma of Uterus,	1	1			1	3
Epithelioma of Uterus,				1		1
Foreign Body in Uterus	1					1
Uterine Congestion	3	3		1		7
Acute Metritis,	3	3				6
Chronic Metritis		1				1
Sarcoma of Uterus,					1	1
Endometritis,	2	2				4
Hematometra,	1					1
Fibrous Endometritis,	1					1
Cervical Polyp,	6					6
Endocervicitis,	2					2
Membranous Dysmenorrhea,	1	2				3
Congestive Dysmenorrhea,	5			1		6
Amenorrhea,				1		1
Metrorrhagia,	1	3				4
Cystic Degeneration of Cervix,	1					1
Stricture of Os Uteri,	1					1
Prolapse of Uterus,	3	4				7
Procidentia,	2					2
Retroversion,	8	18		2		28
Anteversion,		1				1
Anteflexion,	1					1
Imbedded Pessary,	1					1
Pelvic Peritonitis,	8	8				16
Extra-uterine Gestation,	1				2	3
Hematocele,	2					2
Pelvic Exudate,	5					5
Pelvic Adhesions,		19				19
Arrested Development Pelvic Organs,				1		1
Vaginismus,	1					1
Prolapse Vaginal Walls,	1					1
Pelvic Abscess,	3	1				4
Atresia of Vagina,	3	1				4
Kaurosis Vulvæ,		1				1
Epithelioma of Vulva,	3					3
Vulvo-vaginal Cyst,	6					6
Pruritus Vulvæ,				1		1
Eczema of Vulva,	1					1
Leucorrhea,	1					1
Ovarian Fibroid,	1					1
Ovarian Cysts,	9			1	1	11
Ovarian Congestion,		1				1
Prolapsus of Ovary,		1				1
Ovarian Hematoma,					1	1
Dermoid Cyst,	1					1

Names of Cases.	Cured.	Improved.	Not Improved.	Not Treated.	Died.	Total.
Hydrosalpinx,	1					1
Hæmatosalpinx,	2					2
Pyosalpinx,					1	1
Lacerated Cervix,	38	4		3		45
Lacerated Perineum,	52	1		1	1	55
Perineal Fistula,	1					1
Imperforate Hymen,	1					1
Hemorrhoids,	9	3				12
Recto-vaginal Fistula,	2	1				3
Stricture of Rectum,		1				1
Prolapsed Rectum,		2				2
Ischio-rectal Abscess,	2					2
Rectal Abscess,	1					1
Fistula in Ano,	4	1				5
Ulceration of Rectum,	1					1
Cystitis,	5	7				12
Urethral Caruncle,	3					3
Vesico-vaginal Fistula,	1					1
Fibroma of Breast,	3					3
Sarcoma of Breast,	1					1
Carcinoma of Breast,	3					3
Secondary Carcinoma of Breast,	1	1			1	3
Mammary Abscess,	2					2
Mastitis,	3					3
Pregnancy,	212					212
Puerperal Complications,	8				2	10
Incomplete Abortion,	5					5
Threatened Abortion,	6					6
Threatened Miscarriage,	1					1
Neuroses Early Gestation,	4					4
General Surgical.						
Fistulous Abscess Abdominal Walls,	1					1
Abscess Abdominal Walls,	2	1				3
Tubercular Abscesses,	2	2				4
Alveolar Abscesses,	2					2
Palmar Abscesses,	5					5
Lumbar Abscess,	1					1
Abscesses of Neck,	2					2
Abscesses of Arm,	2					2
Abscess of Ankle,	1					1
Abscess of Thigh,	2					2
Suppurating Bubo,	1					1
Suppurating Cervical Glands,	6	2				8
Suppurating Hip Joint,	1					1
Suppurating Synovitis of Knee,	1					1
Bursitis,	1					1
Tubercular Sinus,		2				2
Tubercular Joints,	1					1
Ankylosed Joints,	7	1				8
Ulceration of Umbilicus,	1					1
Omphalorrhagia,	1					1
Ventral Hernia,		3				3

Names of Cases.	Cured.	Improved.	Not Improved.	Not Treated.	Died.	Total.
Strangulated Hernia,	1					1
Epiplocele,	1					1
Enterocele,	1					1
Carcinoma of Intestines,						1
Sarcoma of Omentum,				1		1
Carcinoma of Liver,					1	1
Colloid Cancer of Gall-bladder,					1	1
Lipoma,					1	1
Cystic Liver,	2					2
Fibrous Tumor Nasal Septum,	1					1
Enchondroma Nasal Septum,	1					1
Adenoid Vegetations of Pharynx,	1					1
Hypertrophied Tonsils,	1					1
Abdominal Ascites,	1	1				2
Ranula,	1					1
Felon,	1					1
Phthisis Bulbi,	1					1
Strabismus,	3					1
Supernumerary Thumb,	1					3
Hare-lip,	3					1
Curved Tibiæ,	1					3
Club-feet,	2					1
Knock-knee,	1					2
Ingrowing Toe-nail,	2					1
Leg Ulcer,	5					2
Incipient Coxitis,	1					5
Spinal Curvature,		1				1
Acute Synovitis,	1					1
Chronic Synovitis,		1				1
Phimosis,	2					1
Tinea Circinata,	1					2
Burns,	1					1
Contused Wounds,	2				1	2
Rupture of Muscle,	1					2
Ununited Fracture of Tibia,	1					1
Fracture of Radius,	2					1
Fracture of Tibia,	1					2
Fracture of Femur,	1					1
Dislocation of Shoulder,	1					1
Dislocation of Elbow,	1					1
Ophthalmia Neonatorum,	5	1				1
						6
Medical.						
Pyonephrosis,	1					1
Nephritis (acute),	1					1
Nephritis (chronic),		2				2
Renal Insufficiency,	1					1
Incontinence of Urine,	2	1				3
Inflammatory Rheumatism,	1					1
Muscular Rheumatism,	3					3
Gout,	1					1
Arthritis Deformans,		1				1
Acute Arthritis,	1					1

Names of Cases.	Cured.	Improved.	Not Improved.	Not Treated.	Died.	Total.
Lithemia,	2					2
Erysipelas,					1	1
Chorea,	1					1
Epilepsy,		3				3
Apoplexy,	1				1	2
Meningitis,					1	1
Phlebitis,	1					1
Alcoholism,	1					1
Neurasthenia,	2	7				9
Neuralgia,	2					2
Debility,	2	10				12
Inanition,	12	3			1	16
Anemia,	3	3				6
Sciatica,	2	1				3
Adenitis,	1					1
Goitre,	1					1
Exophthalmic Goitre,					2	2
Eczema,	4	1				5
Otitis Media,	2					2
Salivation,	1					1
Syphilis,		1			2	3
Coryza,	4					4
Tonsillitis,	9					9
Acute Laryngitis,	10	1				11
La Grippe,	10					10
Bronchitis,	1					1
Pneumonia,	5					5
Tuberculosis,		1				1
Incipient Phthisis,		1				1
Asthma,		1				1
Fibroid Phthisis,		1				1
Croup,	1					1
Cardiac Disease,		2				2
Typhoid Fever,	3				1	4
Intermittent Fever,	1					1
Malaria,	1	2				3
Chronic Hepatitis,	1					1
Perihepatitis,	1					1
Icterus ad Neoganum,	1					1
Catarrhal Jaundice,	1					1
Diabetes Mellitus,		1				1
Chronic Constipation,		1				1
Gastritis,	6					6
Gastro-enteritis,	1					1
Indigestion,	6					6
Entero-colitis,					1	1
Dysentery,	1				1	1
Cholera Infantum,	1				1	2
Ascarides,	1					1
Rhachitis,	3					3
Prematurity,	1					1

Cured, 687. Improved, 176. Not improved or not treated, 19. Died, 27.

OPERATIONS IN THE HOSPITAL FOR 1893.

Abdominal Sections:—

Porro-Cesarean op.,	1
Cesarean op.,	1
Ovariotomy for Ovarian Cysts,	9
Removal Intraligamentary Cyst,	1
" Dermoid Cyst,	1
" Ovarian Fibroma,	1
" Ovarian Hematoma,	2
Oöphorectomy for Cystic ovaries,	2
Hysterectomy for Uterine Fibroids,	7
Operation for Extra-uterine Gestation,	3
" " Hematosalpinx,	1
" " Hydrosalpinx,	2
" " Malignant Disease Pelvic organs,	1
" " Carcinoma Uteri,	1
" " Pyosalpinx,	1
" " Chronic Salp. and Ovaritis,	11
" " Sarcoma of Omentum,	1
" " Cystic Liver,	1
" " Carcinoma of Liver,	1
Total,	48
Vaginal Hysterectomy,	1
Perineorrhaphy,	132
Trachelorrhaphy,	38
Colporrhaphy,	3
Curettement of Uterus,	47
Cervical Polypi,	6
Placental Polyp,	1
Operation for Uterine Polypi,	6
Amputation of Cervix,	1
Epithelioma of Vulva,	3
Vulvo-vaginal Cysts,	9
Imperforate Hymen,	3
Atresia Vaginæ,	3
Hematometra,	1
Removal Imbedded Pessary,	1
" Urethral Caruncle,	4
Whitehead's op. for Hemorrhoids,	11
Clamp and Cautery op. for "	1
Operation for Rectal Fissure,	1
" " Anal Fistulæ,	5
" " Abdominal Fistulæ,	2
" " Stricture of Rectum,	1
" " Recto-vaginal Fistula,	1
Stoltz op. for Cystocele,	2
Amputation of Clitoris,	2
Ischio-rectal Abscess,	3
Rectal Abscess,	1
Perineal Abscess,	1
Epithelioma of Cervix,	1
Vesico-vaginal Fistula,	1
Amputation of Breast for Carcinoma,	3
Amputation of Breast for Fibroma,	3
" " " Sarcoma,	1
Secondary Carcinoma of Breast,	2
Mammary Abscess,	10
Palmar Abscess,	5
Alveolar Abscess,	1
Abscess of thigh,	2
" " arm,	2
" " ankle,	1
" " neck,	2
Lumbar abscess,	1
Tubercular abscesses,	14
Abscess Abdominal walls,	3
Tuberculous glands,	8
Suppurating Bubo,	1
" Hip Joint,	1
" Synovitis,	1
Tubercular Sinus,	1
Lipoma,	2
Enchondroma Nasal Septum,	1
Fibrous Tumor Turbinated Bone,	1
Ranula,	1
Felon,	3
Hare-lip,	4
Plastic operation on Leg,	1
" " " Arm,	1
" " " Face,	1
Herniotomy (femoral),	1
Tonsillotomy,	4
Removal Adenoid Vegetations Pharynx,	4
Bursitis,	2
Phlebotomy,	3
Paracentesis Abdominalis,	2
Removal Sebaceous Cysts from Scalp,	2
Tenotomy,	5
Operation for Peri-appendicitis,	1
Free Incision and Drainage in Hip Joint Disease	1
Amputation of Phalanx,	1
Ligation Bleeding Vessels in Omphalorrhagia,	1
Ligation Varicose Veins,	1
Removal Ingrowing Toe-nail	2

Amputation Supernumerary Thumb,	1
Osteotomy for Bow Legs,	1
Talipes Varus,	1
Phimosis,	2
Lancing of Gums,	7
Strabismus,	3
Enucleation of Eyeball,	1
Scarification Swollen Lids,	5
Removal Incus,	1
Removal Memb. Tympani,	1
Re-fracture Wrist,	1
Breaking up Adhesions of Joints,	8
Herniotomy for Epiplocele,	1
Setting Fracture of Radius,	1
" " " Tibia,	1
" " " Femur,	1
Reducing dislocation of shoulder,	1
" " of elbow,	1
Paracentesis Abdominalis,	1
Obstetrical Operations,	62
Total,	548
Clinic Operations,	129
Total,	677

ABDOMINAL SECTIONS.

No.	Civil State and Date of Operation.	Age.	Disease.	Operation.
1	Married. Op., Jan. 3, 1893.	49 years.	Hydrosalpinx—Chronic disease of appendages.	Bilateral removal of appendages.
2	Married. Op, Jan. 4, 1893.	30 years.	Myo-fibroma of uterus, complicating pregnancy.	Porro-Cesarean operation.
3	Married. Op., Jan. 12, 1893.	43 years.	Myo-fibroma of uterus.	Hysterectomy (supra-vaginal).
4	Single. Op., Jan. 28, 1893.	26 years.	Chronic salpingitis and ovaritis. Frequent attacks peritonitis.	Bilateral removal of appendages.
5	Married. Op., Jan. 31, 1893.	25 years.	Chronic salpingitis and ovaritis. Frequent peritonitis.	Bilateral removal of appendages.
6	Married. Op., Feb. 4, 1893.	23 years.	Salpingitis and ovaritis. Cystic degeneration of ovaries.	Bilateral removal of appendages.
7	Married. Op., Feb. 19, 1893.	44 years.	Ovarian Cyst (Papillomatous).	Ovariotomy.
8	Married. Op., Feb. 21, 1893.	29 years.	Hematoma of ovaries. Fibrous tumor of the left ovary.	Removal of tumor and bilateral removal of appendages.
9	Married. Op., Feb. 28, 1893.	43 years.	Ovarian Cyst. Multilocular.	Ovariotomy.
10	Married. Op., April 1, 1893.	26 years.	Chronic salpingitis and ovaritis. Frequent peritonitis.	Unilateral removal of appendages.
11	Married. Op., April 8, 1893.	30 years.	Ovarian cyst with chronic diseased appendages.	Ovariotomy—removal of appendages—bilateral.

No.	Civil State and Date of Operation.	Age.	Disease.	Operation.
12	Single. Op., April 24, 1893.	29 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
13	Married. Op., April 29, 1893.	35 years.	Ruptured tubal pregnancy on one side. Hydrosalpinx of opposite.	Removal gestation sac and contents. Removal of appendages (bilateral).
14	Married. Op., May 13, 1893.	44 years.	Multinodular fibroid.	Hysterectomy (supra-vaginal).
15	Married. Op., May 23, 1893.	41 years.	Myo-fibroma of uterus.	Removal of appendages.
16	Married. Op., May 24, 1893.	46 years.	Multinodular fibroid of uterus.	Hysterectomy (supra-vaginal).
17	Married. Op., May 27, 1893.	42 years.	Multinodular fibroid of uterus.	Hysterectomy (supra-vaginal).
18	Married. Op., June 2, 1893.	23 years.	Ruptured tubal pregnancy.	Removal gestation sac and contents. Unilateral removal of appendages.
19	Married. Op., June 19, 1893.	32 years.	Multinodular fibroid of uterus.	Hysterectomy (supra-vaginal).
20	Married. Op., June 24, 1893.	23 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
21	Married. Op., June 27, 1893.	27 years.	Hydrosalpinx—chronic disease of appendages.	Bilateral removal of appendages.
22	Married. Op , July 1, 1893.	44 years.	Carcinoma uteri.	Hysterectomy vagino-abdominal.
23	Married. Op., July 25, 1893.	19 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages
24	Married. Op., July 27, 1893.	21 years.	Pregnancy—Dwarf-pelvis.	Cesarean section.
25	Married. Op., July 29, 1893.	25 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
26	Single. Op., Aug. 7, 1893.	33 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
27	Married. Op., Aug. 14, 1893.	35 years.	Ovarian cyst.	Ovariotomy.
28	Married. Op., Aug. 15, 1893.	34 years.	Hydrosalpinx of right side. Pyosalpinx of left.	Bilateral removal of appendages.
29	Married. Op., Aug. 16, 1893.	24 years.	Intraligamentary cyst of left broad ligament.	Unilateral removal of cyst and appendages.
30	Married. Op., Aug. 19, 1893	48 years.	Sarcoma of omentum and pelvic organs.	Exploratory section.

No.	Civil State and Date of Operation.	Age.	Disease.	Operation.
31	Single. Op., Aug. 29, 1893.	14 years.	Intraligamentary cyst.	Ovariotomy.
32	Married. Op., Sept. 28, 1893.	32 years.	Chronic salpingitis and ovaritis.	Unilateral removal of appendages.
33	Married. Op., Sept. 29, 1893.	53 years.	Carcinoma of Abdominal Viscera with ascites.	Exploratory section. Evacuation fluid.
34	Single. Op., Sept. 30, 1893.	22 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
35	Single. Op., Sept. 30, 1893.	22 years.	Ruptured tubal pregnancy.	Bilateral removal of appendages and gestation sac.
36	Married. Op., Oct. 7, 1893.	36 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
37	Married. Op., Oct. 20, 1893.	56 years.	Cystic liver.	Exploratory section with evacuation of cysts.
38	Married. Op., Oct. 6, 1893.	46 years.	Carcinoma of liver.	Exploratory section.
39	Single. Op., Oct. 21, 1893.	37 years.	Fibro-myoma of uterus.	Hysterectomy (supra-vaginal).
40	Married. Op., Oct. 28, 1893.	24 years.	Hematoma of ovary. Chronic salpingitis and ovaritis.	Unilateral removal of appendages.
41	Married. Op., Nov. 1, 1893.	53 years.	Ovarian cyst, multilocular.	Ovariotomy.
42	Single. Op., Nov. 8, 1893.	30 years.	Fibro-myoma of uterus.	Hysterectomy (supra-vaginal).
43	Single. Op., Nov. 18, 1893.	48 years.	Ovarian cyst.	Ovariotomy.
44	Married. Op., Dec. 4, 1893.	50 years.	Ovarian cyst.	Ovariotomy.
45	Single. Op., Dec. 5, 1893.	22 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
46	Married. Op., Dec. 18, 1893.	27 years.	Chronic salpingitis and ovaritis.	Bilateral removal of appendages.
47	Single. Op., Dec. 19, 1893.	23 years.	Hematosalpinx, Occlusion both tubes and chronic ovarian disease.	Bilateral removal of appendages.
48	Single. Op., Dec. 21, 1893.	39 years.	Dermoid cyst. Extensive adhesions.	Ovariotomy.

MATERNITY BUILDING.

Report of Obstetrical Department.

Number of cases awaiting confinement, January 1, 1893, . .	10
Number of pregnant women admitted in 1893, ...	202
Number of women admitted for puerperal complications, . .	10
Total, ...	222

Number of Women Delivered, .	191	Number of Infants born, ...	192
Left, ...	3	" " Macerated infants, .	4
Entered for Threatened Abortion,	6	" " Still-births, ...	3
" " Neuroses of Pregnancy, ...	4	*a.* Dystocia,	
" " Incomplete Abortion,	4	*b.* Antepartum hemorrhage,	
" " Puerperal Trauma, .	2	*c.* Hydramnios,	
" " Pelvic Inflammation,	1	" died during first month,	4
" " Phlebitis, ...	1	*a.* Prematurity, . . 2

ANNA M. FULLERTON, M. D.

REPORT

OF THE

DISPENSARY SERVICE.

Doors open for admission of patients from 8 to 10 A.M. daily, except on Sunday.

Children's Clinics,
Gynecological Clinics,
Medical Clinics,
Skin and Surgical Clinics,
Ear, Throat and Nose Clinics,
} *Daily.*

Electrical Clinics, Mondays, Wednesdays, Thursdays, and Saturdays.
Eye Clinics, Mondays, Wednesdays, and Fridays.
Dental Clinics, Tuesdays, and Saturdays.

NOON CLINICS FOR WOMAN'S MEDICAL COLLEGE OF PENNSYLVANIA.

These are held from 12.30 to 1.30 P.M. during the winter and spring terms of the Woman's Medical College, by the Professors of the College, beginning in October and ending in May.

Medical	Clinic,	Tuesdays, Prof. F. P. Henry.
Surgical	"	Fridays, Prof. J. B. Roberts.
Gynecological and Obstetrical	"	Thursdays, Prof. Anna E. Broomall, during her term of service, December, January, February, and July.
Gynecological	"	Mondays, Prof. Hannah T. Croasdale, during her term of service, September, October, November, and June.

Special noon clinics for Ear, Throat, Nose, Eye, Skin and Children's Diseases are provided during the College course.

Students are invited in classes of suitable size to all the special operations between 1 and 4 P.M. daily.

REPORT OF GYNECOLOGICAL CLINIC FOR 1893.

Disorders of Uterus:—

Congestion of uterus,	71
Subinvolution,	43
Metritis,	110
Endometritis,	153
Hypertrophied Uterus,	129
Infantile Uterus,	11
Sterility,	95
Erosions of Cervix,	222
Cystic Degeneration of Cervix,	50
Hypertrophied Cervix,	22
Elongated Cervix,	4
Endocervicitis,	163
Laceration Cervix,	221
Atresia Cervix,	3

Neoplasms:—

Carcinoma of Body of Uterus,	11
Carcinoma of Cervix,	11
Epithelioma of Cervix,	1
Myo-fibroma of Uterus,	43
Cervical Polypi,	20
Fibroid Polypi,	11
Placental Polypi,	36

Displacements:—

Anteversion,	188
Anteflexion,	253
Retroversion,	345
Retroflexion,	112
Retroposition,	45
Lateral Version,	16
Lateral Flexion,	3
Procidentia,	75
Prolapsus,	239

Disorders of Pelvic Floor:—

Lacerated Perineum,	184
Laceration through Sphincter,	8
Recto-vaginal Fistula,	2

Diseases of Appendages:—

Ovaritis,	244
Ovarian Cystoma,	20
Prolapsed Ovaries,	79
Tubo-ovarian Disease,	62
Salpingitis,	115
Pyosalpinx,	29
Prolapsed Tubes,	20
Extra-uterine Pregnancy,	2

Disorders of Menstruation:—

Amenorrhea,	45
Dysmenorrhea,	160
Menorrhagia,	57
Metrorrhagia,	68
Disorders of Menopause,	26
Disorders of Pregnancy,	232

Pelvic Inflammation:—

Inflammation following Abortion,	43
Parametritis,	60
Perimetritis,	22
Uterine Adhesions,	115

Disorders of Vagina:—

Vaginitis,	87
Vaginismus,	4
Atresia,	21
Dyspareunia,	28
Leucorrhea,	207
Purulent Leucorrhea,	48
Ulcerations of Vagina,	2
Relaxed Vaginal Walls,	50

Disorders of Vulva:—

Vulvitis,	31
Vulvar Abscess,	2
Vulvo-vaginal Cyst,	15
Condylomata,	11
Pruritis,	64
Labial Abscess,	7
Ulceration of Vulva,	3
Epithelioma,	3
Kaurosis Vulvæ,	3
Eczema of Vulva,	11
Varicose Veins,	4
Hypertrophied Clitoris,	1

Disorders of Urinary Organs:—

Cystitis,	83
Gonorrheal Cystitis,	38
Cystocele,	56
Incontinence,	2
Dysuria,	31
Caruncle,	35
Urethritis,	31
Hematuria,	2
Vesico-vaginal Fistula,	2
Irritable Bladder,	22
Epithelioma,	1

Disorders of Rectum:—

Constipation,	179
Hemorrhoids,	71
Fissure in Ano,	2
Fistula in Ano,	16
Fecal Impaction,	1
Dysentery,	8
Rectocele,	22
Carcinoma,	1

Epithelioma,	1
Ulceration,	2
Herniæ :—	
Femoral,	1
Inguinal,	12
Umbilical,	8
Ventral,	6
Labial,	1
General Disorders :—	
Anemia,	28
Debility,	3
Epilepsy,	7
Neurasthenia,	8
Coccygodynia,	5
Dyspepsia,	51
Rheumatism,	24
Syphilis,	28
Melancholia,	4
Herpes Zoster,	1
Psoriasis,	1
Eczema,	2
Diabetes,	1
Phthisis,	1
Carbuncle,	1
Chancroid,	2
Migraine,	6
Suppurating Bubo,	2
Total,	5801

REPORT OF MEDICAL AND SURGICAL CLINIC FOR 1893.

Diseases of Mouth :—	
Stomatitis,	2
Diseases of Throat and Nose :—	
Coryza,	10
Atrophic Rhinitis,	2
Laryngitis,	10
Tonsillitis,	1
Pharyngitis,	10
Diseases of Stomach :—	
Dyspepsia,	104
Gastritis,	28
Gastric Catarrh,	30
Indigestion,	57
Carcinoma of Stomach,	1
Gastric Ulcer,	4
Diseases of Liver :—	
Congestion,	29
Diabetes,	6
Jaundice,	7
Gastro-hepatic Catarrh,	4
Chloasma,	12
Lithemia,	11
Prolapsed Liver,	2
Biliary Calculi,	2
Diseases of Intestines :—	
Constipation,	79
Diarrhea,	7
Intestinal Indigestion,	27
Intestinal Parasites,	3
Dysentery,	7
Hemorrhoids,	14
Gastro-enteritis,	4
Prolapsed Rectum,	1
Diseases of Nervous System :—	
Cephalalgia,	8
Chorea,	1
Hemicrania,	2
Hysteria,	12
Neuralgia,	41
Neurasthenia,	28
Pruritis,	4
Sciatica,	8
Neuritis,	5
Epilepsy,	8
Curvature of Spine,	2
Migraine,	8
Myalgia,	5
Insomnia,	3
Coccygodynia,	1
Hemiplegia,	1
Spastic Paralysis,	1
Scriveners' Palsy,	1
Paralysis,	2
Constitutional Diseases :—	
Debility,	23
Scrofulosis,	5
Tuberculosis,	7
Syphilis,	45
Articular Rheumatism,	66
Muscular Rheumatism,	38
Malaria,	27
Diseases of Blood-forming Organs :—	
Anemia,	30
Chlorosis,	2
Irritable Heart,	11
Valvular Disease,	20
Cardiac Insufficiency,	4

Enlarged Thyroid,	7
Phlebitis,	7
Dilated Heart,	3
Exophthalmic Goitre,	1
Tachycardia,	1
Purpura,	1
Diseases of Respiratory Organs :—	
Asthma,	8
Bronchitis,	95
Pertussis,	1
Phthisis,	31
Pleuritis,	9
Emphysema,	1
Influenza,	21
Diseases of Generative Organs :—	
Amenorrhea,	13
Dysmenorrhea,	17
Metrorrhagia,	1
Disorders of Menopause,	19
Disorders of Pregnancy,	13
Menorrhagia,	3
Fibroid Tumor of Uterus,	1
Sterility,	1
Diseases of Bladder :—	
Cystitis,	26
Enuresis,	9
Urethral Caruncle,	1
Diseases of Kidneys :—	
Nephritis,	13
Floating Kidney,	1
Diseases of Skin :—	
Acne,	21
Eczema,	35
Herpes Zoster,	5
Herpes Labialis,	3
Urticaria,	16
Scabies,	3
Comedones,	1
Impetigo,	2
Lentigo,	1
Rhus Poisoning,	3
Lupus,	1
Molluscum Contagiosa,	1
Degeneration of Nails,	2
Psoriasis,	6
Ulcers :—	
Leg,	28
Abscess of Foot,	2
" Hand,	2
" Arm,	8
" Breast,	12
" Wrist,	2
" Cervical Glands,	3
" Hip,	1
" Abdomen,	2
" Antrum of Highmore,	1
" Felon,	4
Wounds and Injuries :—	
Contused Wounds,	6
Lacerated "	3
Burns,	3
Incised Wounds,	4
Dislocations,	2
Sprains,	28
Fractures,	5
Diseases of Joints :—	
Ankylosis,	3
Synovitis,	1
Bursitis,	5
Arthritis,	3
Herniæ :—	
Umbilical,	11
Inguinal,	15
Labial,	1
Femoral,	3
Neoplasms :—	
Carcinoma,	5
Keloid,	1
Lipoma,	2
Epithelioma,	1
Miscellaneous :—	
Pregnancy,	13
Oxyuris Vermicularis,	1
Bunions,	3
Furuncles,	12
Adenitis,	4
La Grippe,	3
Tape Worm,	3
In-growing Toe-nail,	3
Erysipelas,	1
Torticollis,	3
Scarlet Fever,	1
Conjunctivitis,	4
Unclassified,	24
Total,	1482

REPORT OF CHILDREN'S CLINIC FOR 1893.

Diseases of Mouth, Throat and Nose:—

Difficult Dentition,	5
Stomatitis,	3
Coryza,	16
Nasal Catarrh,	5
Pharyngitis,	5
Tonsillitis,	28
Hypertrophied Tonsils,	7
Parotitis,	3
Adenoids of Pharynx,	5
Atrophic Rhinitis,	1
Foreign Bodies in Nose,	3

Diseases of Eye and Ear :—

Conjunctivitis,	13
Otitis Media,	8
Opacity of Cornea,	1
Double Strabismus,	2
Otorrhea,	5
Ophthalmia,	6

Diseases of Alimentary Tract:—

Indigestion,	72
Constipation,	25
Diarrhea,	11
Enteritis,	4
Dysentery,	2
Intestinal Parasites,	8
Colic,	5
Appendicitis,	1
Hepatitis,	1

Diseases of Nervous System :—

Chorea,	5
Convulsions,	4
Neuralgia,	1
Hemicrania,	2
Infantile Paralysis,	2
Hydrocephalus,	4
Deficient Mentality,	4
Torticollis,	2

Constitutional Diseases :—

Debility,	2
Marasmus,	5
Rachitis,	5
Scrofulosis,	6
General Tuberculosis,	9
Tubercular Adenitis,	15
Tubercular Abscesses,	11
Inherited Syphilis,	4
Furuncle,	3
Cephalhematoma,	3
Inanition,	33
Amenorrhea,	2
Leucorrhea,	3

Diseases of Blood-forming Organs:—

Anemia,	10
Valvular Disease of Heart,	3

Diseases of Respiratory Organs :—

Bronchitis,	48
Pertussis,	22
Croup,	5
Broncho-Pneumonia,	3
Emphysema,	1
Asthma,	4

Diseases of Urinary Organs :—

Enuresis,	8
Dysuria,	1
Incontinence,	8
Cystitis,	2
Adherent Prepuce,	15
Phimosis,	4
Acute Nephritis,	2
Chronic Parenchymatous Nephritis,	1

Exanthemata :—

Measles,	9
Chicken Pox,	3

Fevers :—

Intermittent Fever,	1

Diseases of Skin :—

Eczema,	21
Impetigo Contagiosa,	2
Pediculosis,	2
Psoriasis,	1
Rhus Poisoning,	5
Tinea Tonsurans,	4
Dermatitis,	6
Urticaria,	3
Purpura,	1
Vitiligo,	1
Condylomata,	1
Herpes Labialis,	3
Imperforate Hymen,	1
Vaginitis,	2

Ulcers, Wounds and Injuries :—

Burns,	3
Bruises,	15
Sprains,	2
Umbilical Hernia,	3

Inguinal Hernia,	1
Scrotal "	1
Lacerated Wounds,	18
Poisoned Wounds,	4
Leg Ulcer,	2
Palmar Abscess,	1
Hare-lip,	1
Ingrowing Toe-nail,	2
Fissure in Ano,	1
Fungous Growth on Umbilicus,	4

Diseases of Bones and Joints :—

Fractures,	5
Dislocation of Elbow,	1
Exostosis on Humerus,	1
Felon,	3
Curvature of Spine,	2
Unclassified,	23
Total,	702

REPORT OF OPHTHALMOLOGICAL CLINIC FOR 1893.

Affections of Lids and Eyebrows :—

Blepharitis Marginalis,	19
Chalazion,	8
Ectropion,	2
Eczema,	1
Erysipelas,	1
Hordeolum,	1
Total,	32

Affections of Lachrymal Apparatus :—

Epiphora,	2
Abstraction of Lacrymal Duct,	2
Total,	4

Affections of Conjunctiva :—

Conjunctivitis Catarrhalis Acuta,	12
Conjunctivitis Catarrhalis Chronica,	24
Conjunctivitis Follicular,	7
" Granulosa,	1
" Phlyctenulosa,	5
Purulenta Neonatorum,	1
Conjunctival Cyst,	1
Pterygium,	2
Total,	53

Affections of Cornea and Sclerotic :—

Episcleritis,	1
Foreign Body in Cornea,	1
Keratitis Phlyctenulosa,	4
" Ulceration,	7
Leucoma, Central,	3
Macula Corneæ,	2
Staphyloma Corneæ,	1
Total,	19

Affections of Crystalline Lens :—

Cataract, Polar,	1
" Senile, Incipient,	14
Total,	15

Affections of Iris and Ciliary Body :—

Anterior Synechia,	2
Posterior "	2
Total,	4

Affections of Choroid and Vitreous :—

Choroidal Atrophy,	1
" Hyperemia,	1
Choroiditis, Disseminata,	5
" Maculæ Luteæ,	1
Muscæ Volitantes,	1
Synchysis Scintillans,	1
Retino-choroiditis,	7
Vitreous Opacities,	5
Total,	22

Affections of Retina and Optic Nerve :—

Amblyopia,	3
Neuro-Retinitis,	3
Retinal Atrophy,	3
" Hyperemia,	2
" Hyperesthesia,	1
Retinitis Albuminurica,	4
" Maculæ Luteæ,	3
" Serosa,	1
Total,	20

Affections of the Eyeball :—

Contusion,	2
Phthisis Bulbi,	1
Total,	3

Muscular and Nervous Affections :—

Esophoria,	4
Exophoria,	1
Muscular Asthenopia,	1
Neuralgia of the 5th Nerve,	1
Strabismus Convergens,	13
" Divergens,	3
Total,	23

Anomalies of Refraction and Accommodation :—

Anisometropia,	6
Hypermetropia,	193
Hypermetropic Astigmatism,	88
Compound, Hypermetropic Astigmatism,	96
Myopia,	15
Myopic Astigmatism,	14
Compound Myopic Astigmatism,	17
Mixed Astigmatism,	7
Presbyopia,	54
Total,	507

General Health Treated,	7
Not Treated,	5
Undiagnosed,	11

THE

Woman's Hospital of Philadelphia.

This institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access to all parts of the city.

Its Dispensary Department is open daily, from 8 to 10 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from five to thirty dollars per week.

Visiting hours, daily, from 3 to 4 P. M., except Sunday.

Miss Anna T. Jeane
1023 Arch St
Phila

THIRTY-FOURTH ANNUAL REPORT

OF THE

BOARD OF MANAGERS

OF THE

Woman's Hospital of Philadelphia.

In presenting the Annual Report of the condition of the Woman's Hospital of Philadelphia, to its contributors and friends, the Managers gratefully acknowledge the continued prosperity of the Institution.

For years, the increased service of the Hospital, has made it imperative to look forward to the enlargement of its capacity. The Managers hesitated about entering hastily into the expense attendant upon the erection of a building suited to the needs of a well-regulated modern Hospital, until delay seemed no longer judicious. After very careful consideration, and consultation with our Board of Advisers, a contract was awarded to George F. Payne & Co. for the erection of a plain, substantial fire-proof building upon the site of the hospital main building, according to plans furnished by Wilson Brothers & Co., architects.

The estimate of the plans accepted was far in excess of the original ideas of the Building Committee, but they were led to see the importance of erecting a fire-proof building, and felt justified in the increased expense, in consideration of the safety of the inmates. The building is of brick with stone trimmings, has a front of 93 feet, a depth of 100 feet, six stories high, with basement. All of the material used in construction is to be of the most substantial kind ; the bricks are laid in cement instead of mortar. The elevators to be made fire-proof, with brick walls and underwriter doors. Both gas and electricity are to be used in lighting the building. Capacious water tanks are placed on the roof with arrangements for filtering all of the water to be used in the Institution.

Kind friends have already assisted us in gifts of money and material. All the plate glass for the front and west end of the building has been donated by Dr. Ada Howard Audenried. $5,000 have been received from the Misses Blanchard, $4,000 from a manager, $2,500 from Mrs. Jacob P. Jones, smaller sums from many other friends, amounting in all to $13,850.

We are hoping to receive an appropriation from the Legislature, and earnestly appeal to all friends of the Hospital, to aid us to an increase of the Building Fund. Thirty well-equipped rooms will be provided for private patients, with sunny exposure, from which we expect a revenue commensurate with the superior accommodations offered.

The furnishing of twenty rooms has been promised by Managers and friends. Making the preparation for building, brought about conditions difficult to adjust, without great sacrifice of personal comfort to the corps of workers residing in the Hospital, but we are assured of the loyalty, fidelity, and executive ability with which the heads of departments have conducted the affairs under their charge, securing efficient service from their assistants, throughout the chaotic state, caused by the tearing down of the old, and the erection of the new building. Notwithstanding the necessary interruption to the usual routine of work, 11,305 cases have been treated. No department has been suspended, but through much difficulty the work has been perseveringly carried on. At present there are fifty pupils in the Nurses' Training School. The annual graduating exercises were held in Clinic Hall, on the 19th of December. The Rev. Dr. Wayland made the opening prayer. Addresses were delivered by Mrs. Edward Longstreth and Mr. John Sparhawk, Jr. There were also interesting exercises by members of the Graduating Class. Diplomas were awarded to 21 pupils. The Pauline Medal was presented to Amanda Leedom, a former graduate of the Training School, as a mark of appreciation of her very satisfactory performance of duty as a nurse in the Hospital. The kind testimonials received from physicians, and families employing the nurses have been very gratifying. Three of the recent graduates of the Nurse School have been intrusted with the superintendence of the Medical, Surgical and Children's Ward, Miss Fetting, Miss Haupt, and Miss Higginbotham. Special mention should be made of the increase of the Clinic practice, and our thanks are due to the Clinicians who have earnestly adapted themselves to their work under the existing difficulties. Pleasant remembrances have come to us in the way of clothing, both new and partly worn, fruit, fresh and canned, preserves and jellies from several branches of the King's Daughters and Needle-

work Guilds, viz., Malvern, Media, Devon, Haverford, and Philadelphia branches. Flowers from the Flower Mission of East Petersburg and this city, also a weekly offering from the Market Square Church, Germantown. Books, papers, and other reading matter from several branches of the King's Daughters. At Easter each patient was presented with an Easter lily, through the thoughtful kindness of a former patient. Thanksgiving and Christmas dinners were provided by the Managers and friends. Contributions were freely offered for the purchase of presents for the children. Mrs. Howard's gift of candy was welcomely received by the little ones. Two trimmed Christmas trees were sent to the Children's Ward by the pupils of the Lincoln School, 20th and Fairmount Avenue, and the Joseph Singerly School at 22d and Berks Streets. Two untrimmed trees were contributed by Mr. V. O. Mervine, enabling each department to have a Christmas tree of its own. The Sabbath meetings have been held to the comfort and satisfaction of many. The services of the students of the Woman's Medical College, and members of the Christian Endeavor of the Memorial Baptist Church and the North Presbyterian Church have been highly appreciated. Mrs. Vache's Service of Song has been especially acceptable to the suffering.

Death has removed three members of our Board of Advisers within the past year, Josèph Jeanes, Israel H. Johnson, and James A. Wright. The Managers realize they have lost valued and interested friends in the death of the brothers Samuel and Joseph Jeanes. Joseph served on the Board of Advisers since the establishment of the Hospital, and gave his counsel and advice when sought, with thoughtful interest. He was present at all of the annual meetings with but few exceptions; for a succession of years was unanimously elected the Presiding Officer, the duties of which he performed with faithfulness and dignity, thereby manifesting his devotion to the interests of the Hospital, of which he was one of the pioneers, and whose steady growth he had earnestly observed.

In this connection it may perhaps be well to refer to the beneficence of other members of this family, who generously gave of their means during life, and who left handsome legacies for the support of the Hospital—Joshua and Mary Jeanes. The latter was the fourth President of the Hospital, and it is to her generosity we are indebted for the gift of many thousand dollars, for building and furnishing, beside the sum received after her death for maintenance.

To our Solicitor, Joseph R. Rhoads, we tender cordial thanks for valuable counsel and manifested interest in the welfare of the Hospital.

We would invite attention to the appended report of our Treasurer,

R. C. Bunting, and ask for close inspection of the statement of our funds, trusting our need will be so apparent, that our friends will feel the importance of offering immediate assistance.

The accompanying carefully prepared report of Dr. Anna M. Fullerton, Physician in Charge, gives in detail the medical work of the Hospital for the year.

In closing the record of the year, we desire to express our gratitude to our many friends for their generosity and interest in the Hospital. With faith unchanged in that Divine Power that has sustained us in the past, we commit ourselves and the work, trusting, all will be well.

MATERNITY BUILDING

TREASURER'S REPORT.

R. C. BUNTING, Treasurer, in account with THE WOMAN'S HOSPITAL from January 1st, 1894, to January 1st, 1895.

Woman's College, valuable drug preparations.
J. E. Lee Co., cotton and lint.
Bottles from numerous friends.
Eggs and butter from a clinic patient.
Wm. H. Hoskins, diet papers.

REPORT

OF THE

Training School for Nurses.

(FOUNDED IN 1861.)

The Nurse School of the Woman's Hospital (although it has suffered somewhat from incommodious quarters during the past year), has pursued its usual course of study and practical training. The vicissitudes of the work have probably only helped to develop more fully the undaunted courage so desirable in all who enter the ranks against disease and death.

The statistics of the school for the year 1894 are as follows :—

In school, Jan. 1, 1894,	52
Admitted during 1894,	28
Total,	80
In school, Jan. 1, 1895,	46
Graduated in 1895,	21
Not accepted and discharged,	13
Total,	80

In October Miss Amanda Leedom, who has occupied the position of Superintending Head Nurse for three years, resigned her position to enter upon private work. At the graduation exercises held in December, Miss Leedom was awarded the Pauline Medal by the Board of Managers —"an expression of their high appreciation of her abilities as a professional nurse." Miss Sarah Higginbotham, Miss Anna L. Fetting, and Miss May C. Haupt, who completed their two years' course of training early in 1894, remained in the school as Head Nurses, respectively of the Children's Ward, the Surgical Wards, and the Maternity, in which capacity they have all done excellent service.

Lectures and class instructions have been continued as usual—the

curriculum of study embracing all branches of nursing—medical, surgical gynecological, and obstetrical.

Lectures and practical demonstrations in cooking for the sick have been given, both by Miss Janvier, our Head Matron, and Miss Lynch, Matron of the Diet Kitchen.

Lessons in the practical application of electricity have been given by Dr. Caroline Peterson, and the usual course in massage by Miss Jessie M. Ward.

The Physician in Charge has given her usual course of lectures, and has been greatly aided in her instruction of nurses by the efficient quizzing on these lectures carried out by Dr. Alice M. Hackley, recently appointed as her assistant.

The usual spring course of lectures on Nursing, to which the public were invited, was delivered on successive Monday evenings in Clinic Hall. The lectures and subjects were as follows:—

"Nursing in Contagious Diseases," by Dr. J. P. Crozer Griffith.
"Nursing in Fevers," by Dr. Fred. P. Henry.
"Nursing in Diphtheria, by Dr. Edward P. Davis.
"Nursing in Diseases of the Skin," by Dr. H. W. Stellwagon.
"Disinfectants, and their Application," by Dr. Henry Leffmann.
"Nursing the Nervous and Insane," by Dr. Chas. K. Mills.
"Wounds and their Management," by Dr. Geo. Erety Shoemaker.
"The Nursing of Fractures," by Dr. John B. Roberts.
"Nursing Diseases of the Eyes," by Dr. Jeanie Adams.
"Important Points in Obstetric Nursing," by Dr. Anna E. Broomall.
"Nursing Diseases of the Throat and Nose," by Dr. Emma Musson.

These lectures were very largely attended, and there was much gratification expressed at the excellence of the course.

On the 18th of December, 21 nurses were graduated. Commencement exercises were held in the Clinic Hall, which was especially decorated for the occasion. The members of the class took part in the exercises with short essays and songs, which were a most pleasing feature of the occasion.

The opening prayer was made by Rev. Dr. H. L. Wayland, and interesting addresses delivered by Mrs. Longstreth, President of the Woman's Century Club, and Mr. John Sparhawk, Jr.

A pleasant reunion of the class took place in the evening, when through the generosity of the managers, a bountiful supper was served.

The number of graduates was twenty-one, whose names are herewith appended :—

Bertha L. Freeman,	Pennsylvania.
Ida M. Curtis,	Massachusetts.
Sarah Higginbotham,	Pennsylvania.
Sarah Lornax,	"
Elizabeth Wylie,	"
Margaret Mackenzie,	Nova Scotia.
Anna L. Fetting,	Florida.
Ida L. Shiras,	Ohio.
Elizabeth C. Kean,	New Jersey.
Martha D. Nelson,	Ireland.
Orpha E. Pratt,	Pennsylvania.
May C. Haupt,	"
Lizzie Swartz,	"
Anna Johnson,	"
Mary De Wald,	"
Kate Grindrod,	"
Sue D. Miller,	New Jersey.
Helen C. Allen,	Massachusetts.
Frances W. Emery,	Pennsylvania.
Amelia L. Keser,	"
Charlotte L. Burghart,	Connecticut.

RULES FOR NURSES.

1. Application for admission to the School must be made to the Resident Physician of the Hospital. The Physician shall select only intelligent women, who can read and write, and who have a good character and good habits, for which satisfactory testimonials are required. Applicants must be between twenty-four and forty years of age.

2. Nurses shall be under training two years, two months of which shall be probationary. They shall receive eight dollars in cash per month during the first year (excluding the two months of probationary service) and ten dollars per month for the second year. Fifty dollars of this amount shall be retained until the term of service is completed. This sum is paid to enable the nurses to provide themselves with uniform, books, thermometers, and other articles needed for their work, and is not intended as a salary, the instructions given being regarded as a proper compensation for their services. A vacation of two weeks will be given during the two years. Nurses, who for any reason are obliged to ask an extension of this time, will be expected to make up DOUBLE the time of their additional absence to the Hospital in return for the inconvenience which is thus caused.

Candidates for graduation shall be examined in April and October yearly. Those entering the school in January shall be required to present themselves for examination in April following the expiration of their two years' term of service; those entering in July at the October examination.

3. The Resident Physician shall have the right to suspend a nurse for carelessness or misconduct, and the Physician, in conjunction with the Nurse Committee, has the right to discharge a nurse, if in their judgment it is thought best.

4. Gentleness, kindness and politeness towards all persons in the buildings are strictly enjoined. Personal remarks or criticisms are forbidden, especially with regard to patients. No forebodings are to be expressed; no comparisons with or descriptions of other cases.

5. All nurses on duty in any department shall wear cotton dresses of regulation uniform, without trains or crinoline; also white aprons, caps and sleeves. They shall change their dresses once a week, or as often as neatness may require. They shall wear soft shoes that do not creak. Felt slippers are the best for winter. Nurses are expected to keep themselves neat and clean, paying special attention to hair, nails and breath. No clothing that goes to the Hospital Laundry can be *ruffled*, tucked or *flounced*. The number of garments for each nurse must not exceed eighteen per week, and must be marked with the nurse's last name. Nurses shall keep their own rooms neatly swept and in good order. Probationers shall bring with them two or three wash dresses plainly made, and several large white aprons. They will not be expected to wear their uniforms until fully received into the school.

6. Each nurse is required to serve part of the time on night duty. During this service she shall have the day for rest, unless an emergency should require a deviation from this rule. The night nurse shall see that the wards are kept perfectly quiet between 8 P.M. and 5 A.M., and that all the gas is turned down low. She shall summon the head nurse of her ward if anything occurs that requires her presence.

7. Medicines in each ward are to be administered by the nurse, and kept in a closet, of which she holds the key. She is never to allow a patient to go to this closet or touch any medicine. A record shall be made each morning of the medicines to be given, and of other orders given by the physicians for that day, and no alteration shall be made by the nurse on her own responsibility. If anything unusual occurs between the visits, the nurse shall consult the head-nurse of her ward, who shall consult the House Physicians when necessary.

8. The head-nurse of each section shall accompany the Physician-in Charge and Attending Physicians during their visits to the wards, and shall receive the directions for treatment, which are to be carried out by the nurses under her supervision. Order boards, directing the work in each ward, shall be prepared by her daily, and she shall carefully examine both day and night reports as they are handed in by the nurses. Special rules for the direction of their work will be provided for the nurses.

9. Nurses shall see that visitors do not give food of any kind to the patients.

10. Nurses are expected to be present at the lectures, unless detailed for

special duty at that time. Nurses shall, in no instance, be permitted to receive money from the patients.

11. Opportunity shall be given to the nurses to have one afternoon in each week and part of alternate Sundays at their own disposal, unless emergency shall require their services. It is expected that nurses will assist each other in carrying out this rule.

12. Each nurse shall learn to cook for the sick, and serve a certain length of time in the Diet Kitchen.

The following rules regulate the supply of nurses to out-calls :—

REGULATIONS.

The charge for the services of this nurse for a week is $12. If employed for massage in addition to other nursing, $15. For any part of the week it is $2, with massage, $3 per day.

Travelling expenses are to be paid by the family employing the nurse, and during her term of service her washing is to be done at the expense of the family.

At the expiration of her term of service the amount due the institution, to the date of her departure, must be placed in a sealed envelope, together with blank furnished employer. Upon the enclosed blank sheet it is requested that the employer shall note a candid statement (which will be regarded as strictly confidential) of the conduct and efficiency of the nurse. The remarks of the attending physician, as to her capability may also be noted, and will be especially valuable to the Training School. It is hoped that both employers and physicians will be frank in noting any shortcomings.

The nurse in attendance upon a case, is expected to receive only such visitors as wish to see her on important business ; to have from half an hour to an hour for out-door exercise daily, when the condition of the patient will admit; to have sufficient time for sleep. A nurse cannot stay at one place over eight weeks.

THE COURSE OF TRAINING

FOR NURSE-STUDENTS OF THE WOMAN'S HOSPITAL, PHILADELPHIA, INCLUDES:

1. Application of bandages.
2. Making patients' beds, and changing linen, without disturbing the patient.
3. Preventing and dressing bed-sores, and arranging positions.
4. Massage—the manner of application, duration and repetition.
5. Application of cups and leeches.
6. Fomentation, poultices, blisters, etc.
7. Dressing of bruises, sores and wounds.
8. Administration of enemata.
9. Use of catheter.
10. Method of giving baths, partial and general; their temperature and duration, including moist air, dry air and medicated baths.
11. Attention before, during and after parturition.
12. Care of new-born infants.
13. Method of ascertaining and noting pulse, temperature and respiration.
14. Ventilation.
15. Disinfectants—their preparation and use.
16. Method of stopping hemorrhages.
17. What to do in emergencies and accidents.
18. Observations on the general condition of patient with regard to appetite, skin, secretions, appearance of eruptions, chill and fever, effect of medicine and diet.
19. Fever nursing.
20. Surgical nursing.
21. Preparation of food.

RACHEL C. BUNTING, *Chairman Committee on Nurses.*

FORM OF APPLICATION

TO AND

COPY OF AGREEMENT

WITH THE

Nurse Training School of the Woman's Hospital

Please answer these questions in your own hand-writing, on another paper, and send to Dr. A. M. Fullerton, Woman's Hospital, Philadelphia, Pa.

1. What is your name and present address?
2. What is your age? Give the date.
3. State whether you are married or single.
4. If a widow have you children? How many? Their ages? How are they provided for?
5. What is your present occupation? Why do you leave it?
6. What is your state of health? State any defects or deficiencies. Have you had any womb trouble? Give your height and chest measure.
7. Have you good sight and hearing? Do you wear glasses? Why?
8. Where were you educated? In what grade or school? To what religious denomination do you belong?
9. Please give reference as to character, neatness, order, thoroughness, etc. Send the certificate of a physician as regards your physical qualifications for work.
10. Do you intend to devote yourself to the profession of nursing?

THIS AGREEMENT, made the day of A. D. 18 , between THE WOMAN'S HOSPITAL OF THE CITY OF PHILADELPHIA, of the one part, and , of the other part, witnesseth, that the said party of the second part hereto hereby covenants and agrees, faithfully, truly and diligently, to serve the said, THE WOMAN'S HOSPITAL, as a nurse, under instructions of the said Hospital, for the full term and to the end of two years from the day of the date hereof, if she shall so long live, in the Training School of the Woman's Hospital, without absenting herself from the same unless by consent of the Managers; and during said term to give her entire time and service to the said THE WOMAN'S HOSPITAL; and to observe faithfully and comply with all the Rules and Regulations of the said Training School now in force, or which may at any time hereafter be adopted by the said THE WOMAN'S HOSPITAL, and shall and will, during said term, implicitly observe and obey the teachings and directions of those placed in authority over her by the Managers of the said HOSPITAL.

In Consideration Whereof, The said THE WOMAN'S HOSPITAL, doth hereby agree to give to the said party of the second part hereto, thorough instruction in practical nursing of patients in the Hospital, by lectures from time to time by the Medical Director in charge and by other Physicians and Surgeons, by clinic or bedside instruction and practice, and in the proper preparation of diet for the sick, in preparing and administering medicines, etc., and in the use of instruments required by a competent nurse. And the said THE WOMAN'S HOSPITAL further agrees to furnish to the party of the second part hereto, without charge, good and sufficient board and lodging and suitable laundry-work during the said term of two years. The first two months of said term shall be considered as probationary, without pay, but if the said party of the second part hereto shall prove to be incompetent, insubordinate, inattentive, or in any manner failing or neglecting to comply with this agreement or the rules of the Hospital, she may be discharged, by direction of the Managers of the Hospital, and this agreement shall therefore become null, void, and of no effect whatsoever. If the said party of the second part hereto shall be retained by the said Hospital, after the expiration of the said two months, under instruction as a nurse, then the said Hospital doth hereby agree to pay to the said party of the second part hereto, in addition to board, lodging and laundry work as aforesaid, the sum of Eight Dollars per month in cash for the first year, excluding the said two months of probationary service, and Ten Dollars per month for the second year. The said Hospital, however, retaining the sum of Fifty Dollars out of said salary until the termination of the said term of two years; which said sum shall be paid to the said party of the second part hereto whenever entitled to receive the Diploma hereinafter mentioned; but if the said party of the second part hereto shall leave the service of the said Hospital before the expiration of the said term of two years without consent of the Managers of said Hospital, or shall be discharged for improper conduct, then the said sum of Fifty Dollars shall be absolutely forfeited; and the said Hospital shall be exonerated, released and discharged from the payment of the whole or any

part thereof. At the termination of the said two years of service under instruction as aforesaid, upon passing a satisfactory examination by the proper officers of the Hospital, the said party of the second part hereto shall be awarded and given a Diploma, certifying that she has served the required time under instruction as a nurse, and is well qualified to perform the duties pertaining to such position.

In Testimony Whereof, The President of the said Hospital and the said party of the second part, above named, have hereunto set their hands and seals the day and year above written.

[SIGNED]. E. C. GRIFFITH.
President.

Upon passing a satisfactory examination at the close of your training, a diploma will be given you, and your name recorded on the books of the Hospital, to which physicians and others desiring nurses are privileged to apply.

The Examining Board of Physicians are Drs. J. B. Roberts and A. E. Broomall.

We hope that all who employ our nurses will return an exact statement of their conduct in the paper sent for the purpose. It is to the highest interest of the school and of the nurse herself, that entire frankness on the part of employers be observed. The managers will be extremely obliged to physicians under whom our nurses are employed, for criticism and suggestions for their improvement.

We also request that all persons who employ nurses claiming to have *graduated* from this school, will require to see their diplomas. We would caution the public against receiving women who profess to have left the school. "Leaving" implies that they have been found unfit at the close of the two months of probation, or that they have broken their written contract to remain in the school, or that they have been dismissed for misconduct or inefficiency. If for any reason a pupil leaves the school with the approbation of the Committee, she will receive, if she wishes it, a written discharge.

Previous to the endowment of the Training School in 1872, a number of excellent nurses passed through the required period of Hospital Training and received the certificate *for their term of service*. Of these a list of the *recommended nurses* is kept at the hospital, and none other are entitled to the recommendation of the Hospital.

We would remind those who have experienced in their own families the comfort and value of the services of trained nurses, that donations to the nurse Fund will materially assist us in enlarging our classes and extending the usefulness of the school.

Contributions may be sent to the Treasurer and Chairman of Nurse Committee, Mrs. Rachel C. Bunting, Darby Delaware, County, Pa., Mrs. Pauline E. Henry, 2301 De Lancey Place, Dr. Anna M. Fullerton, Physician-in Charge, or any of the Managers.

THE WILLIAMSON WARD.

REPORT OF PHYSICIAN-IN-CHARGE.

To the Board of Managers of the Woman's Hospital of Philadelphia :—

Ladies.—At the close of another year, I submit my annual report. The record of our work for the year ending December 31, 1894, is especially encouraging in view of the limited space in which the greater part of this work has been done, for it was early in last June that we vacated the old Hospital buildings to occupy our present temporary quarters. That our field of usefulness steadily widens has been shown by the increasing number of patients coming to us, not only from the various counties throughout the State, but from without the State boundaries.

While more charitable work is done each year, it is a fact worthy of note, that there is a marked increase in recent years of part-paying, and even private patients. The total receipts from house patients amounted during the year 1894, to $6155.11, being $118.66 more than in the previous year, when a larger number of patients was treated. The number of patients paying full charges would scarcely be represented by one-third of those treated, while a very large proportion of the remainder were cared for as free patients.

Viewed in detail, the statistics for the year show progress. The total number of patients has been necessarily smaller, hence, also, the number of operations performed somewhat less than last year. The character of the operations and the results attained compare, however, very favorably with previous reports. The number of patients treated in the Hospital during the year 1894 was 842, as compared with 909 in 1893. 724 patients were discharged cured, 59 improved, 24 were either not treated or left before materially improved, and 25 deaths occurred. A large proportion of these deaths were among the sickly half-starved infants and children cared for in our Children's Wards. Considering the great variety and serious nature of the conditions treated in the Hospital, a death-rate of about 2⅔ per cent. is certainly small.

In the Children's Wards 123 patients have been cared for. A number of medical cases, including typhoid fever, pneumonia, bronchitis, tuberculosis, rachitis, and the various intestinal disorders of infancy and childhood, have been treated; while the surgical cases included such operations as trephining for compression of the brain due to depressed fracture; removal of congenital tumors, plastic operations, osteotomies for correction of deformities, and the treatment of fractures. The only surgical case that died in the Children's Ward was that of a tuberculous child who, during his convalescence from an operation for post-pharyngeal abscess, acquired diphtheria. Tracheotomy was performed, but the child, although greatly relieved for a time, succumbed finally to capillary bronchitis.

In the wards of the Main Hospital, the surgical work included 52 abdominal operations, one of which was a Cesarean section, 7 were ovariotomies, and 7 were hysterectomies, while the others represented such critical conditions as pelvic abscess, pyosalpinx, ectopic gestation, strangulated hernia, etc. The total number of operations in the Hospital was 440; those done in clinic numbered 178, making a grand total of 618. There were 11 deaths among patients operated upon. The following medical cases were treated in the general wards:—typhoid fever, pyelitis, nephritis, uræmia, tuberculosis, pneumonia, anæmia, catarrhal jaundice, etc.

The Obstetrical Department has been quite active during the past year. 181 births occurred in the house, and 70 in the out-practice, and 16 in district practice, making a total of 267. The advantages to be derived from Hospital care during the labor and lying-in, thus avoiding the dangers incident to that period from untrained nursing and unhygienic surroundings, lead a much larger proportion of women to seek such shelter than formerly. The work of the Obstetric Department is almost entirely a charity work, but few of the patients being so circumstanced as to pay for the services rendered them. Through the generous donations of the various Needlework Guilds and many private friends, we have been enabled to supply many of these needy mothers with clothing for themselves and their children when they left the Hospital. Through the kindly co-operation of the Children's Aid Society and the Woman's Directory many of these women have been placed at service where they could keep their infants with them—for we feel that the truest philanthropy is that which encourages a spirit of self-respect and independence.

The Out-Department of the Hospital has extended its usual benefits

to those too sick to leave their homes and come to the Dispensary for treatment. 575 homes were visited and 3298 visits paid.

The Dispensary continued its extensive service to walking patients, and has afforded most excellent educational advantages to the students of the Woman's Medical College and our Clinical physicians.

There were 9888 patients treated in the various clinics: 26,645 visits paid, and 23,012 prescriptions filled.

The report of the Nurse School is given elsewhere. It may be stated, however, in passing, that the income from nurses supplied to out-patients, has aggregated in the year, $8328.50. Payments of nurse salaries amounted to $5522.00, leaving a balance of $2806.50 for the support of the School, including nurses, board, tuition fees, etc. Nurses were supplied to 252 out-cases.

With opportunities for growth in every direction and the prospect of increased accommodations in the near future, the thirty-fourth year of the Woman's Hospital of Philadelphia opens most auspiciously.

A. M. Fullerton, M. D.

SUMMARY.

Number of patients in Hospital, January 1, 1894,	87
Number of patients admitted during 1894,	755
Total number treated in wards during 1894,	842
Total number treated in wards during 1893,	909
Number of patients treated in different clinics,	9,888
Number of visits of clinic patients,	26,645
Number of visits monthly of clinic patients,	2,220
Number of new cases visited at their homes,	575
Number of visits to patients at their homes,	3,298
Number of births in Hospital,	181
Number of births in out-practice,	86
Number of operations in house,	440
Number of operations in clinics,	178
Total number of operations,	618
Number of prescriptions,	23,012

Leucorrhea,	2
Mastitis,	2
Menorrhagia,	1
Metrorrhagia,	7
Oöphoritis,	1
Pelvic Peritonitis,	6
Prolapsed Ovary,	1
Pruritus,	3
Uterine Fibroid,	4
Vaginitis, follicular,	2
" gonorrheal,	1
Total,	43

Diseases of Liver and Intestines :—

Of Liver :—

Acute Hepatitis,	2
Chronic "	1
Catarrhal Jaundice,	2
Total,	5

Of Intestines :—

Ascaris Lumbricoides,	1
Catarrhal Dysentery,	1
Cholera Infantum,	3
Chronic Constipation,	7
Enteritis, Catarrhal,	8
Entero-colitis,	15
Hemorrhoids,	3
Ileo-colitis,	2
Intestinal Colic,	1
Tænia Saginata,	1
Total,	42

Diseases of Mouth, Throat, and Nose :—

Acute Coryza,	7
Dentition, Difficult,	6
Epistaxis, Acute,	1
Laryngitis, Acute,	8
" Membranous,	2
Odontalgia,	1
Pharyngitis, Acute,	4
" Chronic,	1
Rhinitis, Purulent,	1
Spasmodic Croup,	3
Stomatitis, Simple,	2
" Ulcerative,	2
Thrush,	1
Tonsillitis, Follicular,	20
" Simple Acute,	54
" Phlegmonous,	1
	115

Diseases of the Nervous System :

Apoplexy,	1
Cephalalgia,	4
Eclampsia, Infantile,	1
Hysteria,	4
Hemiplegia,	1
Insanity,	1
Meningitis,	2
Migraine,	1
Multiple Neuritis,	2

Neuralgia, Facial,	3
Neuroses of Pregnancy,	2
Neurasthenia,	4
Sciatica,	1
Vertigo,	1
	28

Diseases of the Skin :—

Dermatitis,	1
Nævus Pigmentosa,	1
Tinea Tonsurans,	1
Urticaria,	1
Total,	4

Diseases of Stomach :—

Atonic Dyspepsia,	7
Carcinoma,	1
Gastritis, Acute,	3
Indigestion, Acute,	68
Total,	79

Diseases of Urinary Organs :—

Cystitis, Acute,	2
" Chronic,	1
Enuresis,	1
Nephritis, Acute,	2
" Chronic Interstitial,	1
Phimosis,	3
	10

Surgical Cases :—

Abscesses,	6
Adenitis,	3
Arthritis,	3
Burns,	2
Bursitis,	1
Concussion of Brain,	1
Dislocations,	2
Furuncle,	2
Fractures,	2
Herniæ,	6
Paronychia,	1
Sprain,	3
Synovitis,	2
Tubercular Glands,	2
Ulcer, Chronic, of Leg,	5
Wounds, Contused,	7
" Incised,	2
" Lacerated,	1
" Punctured,	1
" Poisoned,	1
Total,	53

Miscellaneous :—

Atropine Poisoning,	1
Diabetes,	3
Omphalorrhagia,	1
Syncope,	2
Strychnia Poisoning,	1
Total,	8

Whole Number of Diseases Treated during the Year,	575
Number of Prescriptions,	2156
Number of Visits at Patients' Homes,	3298

ANNA M. FULLERTON, M. D.

CLINIC HALL.

REPORT

OF THE

DISPENSARY SERVICE.

Doors open for admission of patients from 8 to 10 A.M. daily, except on Sunday.

Children's Clinics,
Gynecological Clinics,
Medical Clinics,
Skin and Surgical Clinics,
Ear, Throat, and Nose Clinic, } *Daily.*

Electrical Clinics, Mondays, Wednesdays, Thursdays, and Saturdays.
Eye Clinics, Mondays, Wednesdays, and Fridays.
Dental Clinics, Tuesdays Wednesdays, Fridays, and Saturdays.

NOON CLINICS FOR WOMAN'S MEDICAL COLLEGE OF PENNSYLVANIA.

These are held from 12.30 to 1.30 P.M. during the winter and spring terms of the Woman's Medical College, by the Professors of the College, beginning in October and ending in May.

Medical	Clinic,	Tuesdays, Prof. F. P. Henry.
Surgical	"	Fridays, Prof. J. B. Roberts.
Gynecological and Obstetrical	"	Thursdays, Prof. Anna E. Broomall, during her term of service, January, February, and March.
Gynecological	"	Mondays, Prof. Hannah T. Croasdale, during her term of service, October, November, and December.

Special noon clinics for Ear, Throat, Nose, Eye, Skin, and Children's Diseases are provided during the College course.

Students are invited in classes of suitable size to all the special operations between 1 and 4 P.M. daily.

REPORT OF GYNECOLOGICAL CLINIC FOR 1894.

Disorders of Uterus :—

Congestion of Uterus,	34
Atrophied Uterus,	5
Hyperplasia of Uterus,	20
Hypertrophied Uterus,	38
Infantile Uterus,	14
Rudimentary Uterus,	1
Subinvolution,	42
Metritis,	116
Endometritis,	120
Sterility,	119
Erosion of Cervix,	256
Cystic Degeneration of Cervix,	41
Hypertrophied Cervix,	18
Elongated Cervix,	6
Endocervicitis,	114
Lacerated Cervix,	196
Atresia of Cervix,	1
Ulcerated Cervix,	1
Congested Cervix,	32
Undeveloped Cervix,	1

Neoplasms :—

Carcinoma of Body of Uterus,	29
Epithelioma of Cervix,	12
Myo-fibroma of Uterus,	63
Subperitoneal Fibroid,	3
Pelvic Tumors,	8
Cervical Polypi,	36

Displacements :—

Anteversion,	180
Anteflexion,	345
Retroversion,	369
Retroflexion,	115
Retroposition,	89
Lateral Version,	16
Lateral Flexion,	8
Procidentia,	67
Prolapsus,	313

Disorders of Pelvic Floor :—

Lacerated Perineum,	190
Lacerated through Sphincter,	56
Recto-vaginal Fistula,	4

Diseases of Appendages :—

Congested Ovaries,	13
Ovaritis,	204
Ovarian Cystoma,	19
Prolapsed Ovaries,	151
Tubo-ovarian Disease,	78
Salpingitis,	49
Pyosalpinx,	9
Prolapsed Tubes,	30
Extra-uterine Pregnancy,	1

Disorders of Menstruation :—

Amenorrhea,	54
Dysmenorrhea,	164
Menorrhagia,	48
Metrorrhagia,	30
Miscarriage,	4
Vicarious Menstruation,	2
Disorders of Menopause,	31
Disorders of Pregnancy,	227

Pelvic Inflammation :—

Inflammation following Abortion,	17
Retained Placenta,	2
Pelvic Cellulitis,	70
Perimetritis,	21
Uterine Adhesions,	116

Disorders of Vagina :—

Vaginitis,	67
Vaginismus,	1
Atresia,	3
Dyspareunia,	22
Leucorrhea,	178
Purulent Leucorrhea,	43
Ulceration of Vagina,	1
Carcinoma of Vagina,	1
Relaxed Vaginal Walls,	19
Vaginal Adhesions,	8
Lacerated Vagina,	1
Double Vagina,	1
Tense Hymen,	1

Disorders of Vulva :—

Vulvitis,	24
Vulvar Abscess,	15
Vulvo-vaginal Cyst,	6
Condylomata,	6
Pruritus,	59
Labial Abscess,	10
Ulceration of Vulva,	8
Kraurosis Vulvæ,	2
Eczema of Vulva,	6
Varicose Veins,	2
Hypertrophied Clitoris,	1

Disorders of Urinary Organs :—

Cystitis,	71
Gonorrheal Cystitis,	22
Cystocele,	48
Enuresis,	7

Dysuria,	16
Caruncle,	25
Urethritis,	16
Vesico-vaginal Fistula,	2
Irritable Bladder,	9
Prolapsed Urethra,	1
Disorders of Rectum :—	
Constipation,	217
Hemorrhoids,	71
Fissure in Ano,	7
Fistula in Ano,	4
Fecal Impaction,	1
Rectocele,	33
Carcinoma,	1
Specific Ulceration,	1
Pruritus Ani,	2
Herniæ :—	
Femoral,	6
Inguinal,	8
Umbilical,	3
Ventral,	6
Labial,	2
General Disorders :—	
Anemia,	28
Aneurism,	1
Abscess of Inguinal Glands,	2
Abscess in Abdominal Wall,	2
Coccygodynia,	3
Chancroid,	1
Chondroma,	1
Carcinoma of Stomach,	1
Carcinoma of Breast,	1
Contusion of Abdomen,	1
Debility,	4
Dyspepsia,	43
Diabetes,	7
Diarrhea,	5
Eczema,	3
Epilepsy,	8
Enlarged Inguinal Glands,	1
Gastro-intestinal Catarrh,	2
Gonorrhea,	12
Herpes Zoster,	1
Indigestion,	11
Insomnia,	1
Intermittent Fever,	2
Lumbago,	1
Luxation of Hip-joint,	1
Mastitis,	1
Melancholia,	1
Migraine,	3
Nephritis,	1
Neurasthenia,	3
Phthisis,	1
Psoriasis,	1
Pyelitis,	1
Rheumatism,	12
Scabies,	1
Sciatica,	1
Suppurating Bubo,	2
Syphilis,	31
Separation of the Recti,	1
Tapeworm,	2
Tenderness in Stump, following Laparotomy,	1
Thinning of Abdominal Walls,	1
Tumor of Buttock,	1
Unclassified,	23
Total,	5713

REPORT OF MEDICAL AND SURGICAL CLINIC FOR 1894.

Diseases of Mouth :—	
Stomatitis,	1
Diseases of Throat and Nose :—	
Atrophic Rhinitis,	1
Coryza,	2
Laryngitis,	4
Pharyngitis,	4
Tonsillitis,	2
Diseases of Stomach :—	
Dyspepsia,	53
Dilated Stomach,	1
Gastritis,	16
Gastric Catarrh,	14
Gastric Ulcer,	2
Gastralgia,	3
Indigestion,	98
Diseases of Liver :—	
Congestion,	14
Chloasma,	2
Diabetes,	4
Jaundice,	5
Lithemia,	10
Biliary Calculi,	2
Diseases of Intestines :—	
Constipation,	39
Diarrhea,	8

Intestinal Indigestion,	6
Dysentery,	9
Gastro-enteritis,	3
Enteralgia,	2
Intestinal Parasites,	1
Hemorrhoids,	8

Hysteria,	3
Migraine,	1
Myelitis, Chronic,	1
Neuralgia,	19
Neurasthenia,	16
Pruritus,	3
Paralysis,	2
Paretic Dementia,	1
Sciatica,	1
Constitutional Diseases :—	
Debility,	47
Articular Rheumatism,	24
Muscular Rheumatism,	59
Malaria,	30
Scrofulosis,	4
Syphilis,	24
Tuberculosis,	6
Lumbago,	1
Diseases of Blood-forming Organs :—	
Anemia,	10
Aneurism,	1
Chlorosis,	8
Dilated Heart,	1
Functional Heart Disease,	3
Irritable Heart,	6
Valvular Disease,	28
Enlarged Thyroid,	6
Phlebitis,	21
Diseases of Respiratory Organs :—	
Asthma,	7
Bronchitis,	60
Emphysema,	1
Influenza,	12
Phthisis,	21
Pleurisy,	5
Diseases of Generative Organs :—	
Amenorrhea,	11
Dysmenorrhea,	8
Metrorrhagia,	1
Endometritis,	2
Perimetritis,	1
Fibroid Tumor of Uterus,	1
Disorders of Menopause,	23
Disorders of Pregnancy,	17
Diseases of Bladder :—	
Cystitis,	21
Enuresis,	6
Urethral Caruncle,	1
Diseases of Kidneys :—	
Nephritis,	8
Diseases of Skin :—	
Acne,	10
Clavus,	1
Dermatitis,	1
Eczema,	29
Herpes Zoster,	4
Lupus Vulgaris,	1
Miliaria,	1
Psoriasis,	3
Rhus Poisoning,	2
Scabies,	6
Seborrhea,	1
Syphiloderma,	1
Tinea,	2
Urticaria,	13
Vitiligo,	2
Ulcers :—	
Leg,	31
Abscess of Antrum,	1
" " Arm,	1
" " Axilla,	3
" " Breast,	6
" " Cheek,	1
" " Ear,	1
" " Thigh,	1
Alveolar Abscess,	2
Submaxillary Abscess,	1
Carbuncle,	1
Felon,	1
Furuncle,	6
Wounds and Injuries :—	
Fractures,	5
Contused Wounds,	4
Incised Wounds,	5
Punctured Wounds,	1
Lacerated Wounds,	11
Sprain,	1

Diseases of Joints :—

Ankylosis,	1
Bursitis,	4
Synovitis,	1

Herniæ :—

Umbilical,	5
Inguinal,	7
Femoral,	1
Ventral,	1

Neoplasms :—

Carcinoma,	5
Epithelioma,	4
Keloid,	1
Lipoma,	3
Papilloma,	1
Sarcoma,	1
Sebaceous Cyst,	2
Zanthoma,	1

Miscellaneous :—

Adenitis,	4
Pediculosis Corporis,	1
Conjunctivitis,	3
Eye Strain,	1
Erysipelas,	1
Foreign Body in Ear,	1
Fistula, Blind,	1
La Grippe,	10
Ingrowing Toe-nail,	4
Malaise,	1
Mumps,	1
Scurvy,	1
Tænia,	1
Unclassified,	11
Total,	1112

REPORT OF CHILDREN'S CLINIC FOR 1894.

Diseases of Mouth, Throat, and Nose :—

Adenoid, of Pharynx,	13
Atrophic Rhinitis,	15
Coryza,	13
Difficult Dentition,	7
Epistaxis,	2
Foreign Body in Nose,	1
Hypertrophied Tonsils,	5
Nasal Catarrh,	2
Parotitis,	15
Rhinitis,	1
Pharyngitis,	4
Tonsillitis,	30
Stomatitis,	1
Apthous Stomatitis,	3

Diseases of Eye and Ear :—

Conjunctivitis,	12
Marginal Blepharitis,	2
Otitis Media,	5
Otorrhea,	10
Strabismus,	2
Nystagmus,	

Diseases of Alimentary Tract :—

Constipation,	7
Colic,	2
Diarrhœa,	3
Enteritis,	1
Entero-colitis,	40
Gastric Enteritis,	31
Indigestion,	24
Intestinal Parasites,	30

Diseases of Nervous System :—

Chorea,	9
Convulsions,	1
Deficient Mentality,	1
Epilepsy,	5
Hemicrania,	1
Hysteria,	1
Infantile Paralysis,	4
Neuralgia,	1
Torticollis,	2

Constitutional Diseases :—

Amenorrhea,	7
Debility,	5
Dysmenorrhea,	3
Inanition,	6
Inherited Syphilis,	8
Leucorrhea,	1
Marasmus,	4
Rachitis,	16
Syphilis,	3
Tuberculosis,	3
Tubercular Adenitis,	7
" Abscess,	1
" Glands,	4

Diseases of Blood-forming Organs :—

Anæmia,	14
Valvular Disease,	3

Diseases of Respiratory Organs :—

Asthma,	1
Bronchitis,	45
Broncho-pneumonia,	3
Emphysema,	1
Laryngitis,	6
" Chronic,	7
" Stridulous,	2
Croup,	1
Pertussis,	8
Pleurisy,	3

Diseases of the Urinary Organs :—

Adherent Prepuce,	8
Acute Nephritis,	2
Cystitis,	6
Enuresis,	27
Parenchymatous Nephritis,	5

Exanthemata :—

Chicken Pox,	8
Measles,	3

Fevers :—

Intermittent,	6
Typhoid,	1

Diseases of the Skin :—

Acne,	1
Acne Rosacea,	2
Erythema Intertrigo,	1
Erythema,	1
Eczema,	34
Herpes Zoster,	1
Impetigo Contagiosa,	7
Dermatitis,	6
Pediculosis,	2
Rhus Poisoning,	1
Scabies,	6
Tinea Tonsurans,	12
Urticaria,	6
Warts,	3
Imperforate Hymen,	2

JOSEPH R. RHOADES,
LUCRETIA M. B. MITCHELL,
CHARLOTTE L. PEIRCE,
ELLIS D. WILLIAMS,
ALFRED MOORE.

FACULTY AND AUXILIARY INSTRUCTORS.

CLARA MARSHALL, M. D.,
Professor of Materia Medica and General Therapeutics.

FRANCES EMILY WHITE, M. D.,
Professor of Physiology and Hygiene.

ANNA E. BROOMALL, M. D.,
Professor of Obstetrics.

HANNAH T. CROASDALE, M. D.,
Professor of Gynecology.

WILLIAM H. PARISH, M. D.,
Professor of Anatomy.

HENRY LEFFMANN, M. D.,
Professor of Chemistry and Toxicology.

JOHN B. ROBERTS, M. D.,
Professor of the Principles and Practice of Surgery.

FREDERICK P. HENRY, M. D.,
Professor of the Principles and Practice of Medicine.

AMY S. BARTON, M. D.,
Clinical Professor of Ophthalmology.

CHARLES K. MILLS, M. D.,
Clinical Professor of Neurology and Lecturer on Medical Jurisprudence.

HENRY W. STELWAGON, M. D.,
Clinical Professor of Dermatology.

CHARLES H. BURNETT, M. D.,
Clinical Professor of Otology.

EMMA E. MUSSON, M. D.,
Clinical Professor of Laryngology and Rhinology.

LAWRENCE WOLFF, M. D.,
Clinical Professor of Medicine.

EDWARD P. DAVIS, M. D.,
Clinical Professor of Pediatrics.

F. G. RYAN, Ph. G.,
Lecturer on Pharmacy.

MARY SHERWOOD, M. D.,
Lecturer on Pathology.

ELIZABETH R. BUNDY, M. D.,
Adjunct Professor of Anatomy.

LUCY N. TAPPAN, M. D.,
Demonstrator of Obstetrics.

KATE W. BALDWIN, M. D.,
Demonstrator and Clinical Instructor in Surgery.

ARTHUR A. STEVENS, M. D.,
Demonstrator of Pathology and Curator of Museum.

ELEANOR M. HIESTAND-MOORE, M. D.,
Demonstrator of Chemistry.

EMMA L. BILLSTEIN, M. D.,
Acting Demonstrator of Histology.

ELEANOR C. JONES, M. D.,
Demonstrator and Clinical Instructor in Practice of Medicine.

CAROLINE M. PURNELL, M. D.,
Demonstrator and Clinical Instructor in Gynecology.

ELIZABETH L. PECK, M. D.,
Instructor in Materia Medica and General Therapeutics.

MARY W. GRISCOM, M. D.,
Assistant Demonstrator of Obstetrics.

RUTH WEBSTER LATHROP, M. D.,
Assistant Demonstrator of Anatomy and Prosector.

MARY GETTY, M. D.,
R. ANNA BREED, M. D.,
Assistant Demonstrators of Pathology.

FLORENCE MAYO, M. D.,
HELEN MURPHY, M. D.,
Assistant Demonstrators of Histology.

ANNIE BARTRAM HALL, M. D.,
RUTH WEBSTER LATHROP, A. B., M. D.,
Assistants in the Physiological Laboratory.

KATHARINE WILLIAMSON, M. D.,
Assistant Demonstrator of Surgery.

FLORENCE MAYO, M. D.,
ANNIE BARTRAM HALL, M. D.,
Clinical Instructors in Nervous Diseases and Orthopedics.

GERTRUDE A. WALKER, M. D.,
Clinical Instructor in Ophthalmology.

RACHEL P. WALTON,
Librarian.

CLARA MARSHALL, M. D., Dean,
131 South Eighteenth Street.

THE

Woman's Hospital of Philadelphia.

This institution is located on elevated ground, in the immediate vicinity of Girard College, and near the Ridge Avenue Railway, which renders it easy of access to all parts of the city.

Its Dispensary Department is open daily, from 8 to 10 A. M., for the benefit of poor women and children.

A limited number of patients is received gratuitously to its wards, while others are admitted on the payment of a moderate board—as may be agreed upon in each particular case.

Invalids may also be accommodated with private rooms, and provided with attendants and nursing, at prices varying from five to thirty dollars per week.

Visiting hours, daily, from 3 to 4 P. M., except Sunday.

109
